FOREWORD

Preparation of the Arctic Bibliography was begun in 1947 under an Office of Naval Research contract with the Arctic Institute of North America. The project has been carried out with the joint support of the Department of the Army, the Department of the Navy, and the Department of the Air Force under the supervision of a directing committee. These volumes are the result of 4 years' work, and it is believed that they contain sufficient material to meet the urgent requirement for a key to existing knowledge of the Arctic and to serve as a fundamental research tool. Of necessity, the bibliography is incomplete and as there is an ever present requirement to maintain it up to date, annual supplements are planned which will emphasize current publications and include such others as are particularly important to Arctic research.

The Directing Committee, composed of librarians, scientists, and representatives of the military agencies and the Arctic Institute, determined policies and exercised general supervision over the project. The Project Staff, composed of full or part time scientists, analysts, and clerks, was under the supervision of the project director and editor, Marie Tremaine. Members of this staff were: Mr. Vladimir Asmous of the Harvard University Library (who analysed Eurasian botany and zoology); Miss Anvor Barstad, formerly of Columbia University, Teachers' College Library (Scandinavian materials); the late Dr. Eugene A. Golomshtok (permafrost); Miss Mary C. Grier (chief analyst); Mrs. Bertha Kucherov (Russian material); Dr. Peveril Meigs, former editor of JANIS (geography and anthropology); Mr. George Mitchell, Office of The Quartermaster General (meteorology, including Russian); Mr. Arvid Paulson (Scandinavian materials); Mr. Peter A. Pertzoff, formerly of the New York Public Library (Russian material); Mr. Eric T. Schuler, Library of Congress (Russian material); and Dr. Vladas Stanka, formerly of Kaunas and Vilna Universities (Russian material).

The Directing Committee and editor wish to acknowledge

the generous aid and cooperation of many institutions and friends who have made preparation of the *Arctic Bibliography* possible, particularly the Canadian Government which contributed financially to the project and assisted in the work. Individually, special acknowledgment must be made to the Librarian of Congress, to Dr. Burton W. Adkinson, Mr. Robert C. Gooch, and to the officers and staff of this Library for their counsel and active assistance which included working space made available to the project; to the Librarian of the U.S. Geological Survey and the editor of its *Bibliography of North American Geology*; to the Librarians of the Smithsonian Institution, the U.S. National Museum, the U.S. Hydrographic Office, and the U.S. Department of Agriculture; to the Director and staff of the U.S. Board on Geographic Names; to Nordis Felland, Librarian of the American Geographical Society; to the Geological Society of America and Marie Siegrist, editor of its *Bibliography and Index of Geology exclusive of North America*; to the American Meteorological Society and Malcolm Rigby, editor of its *Meteorological Abstracts and Bibliography*; to Mr. L. B. Skinner, Secretary of the Canadian Board on Geographical Names; to Jean Matheson, Librarian of the Geographical Branch, Department of Mines and Technical Surveys of Canada; to Miss N. I. Wills, Librarian of the Geological Survey of Canada; to officers of the Northern Administration and Lands Branch and the Forestry Branch of the Department of Resources and Development of Canada; to Father A.-M. Morisset, o.m.i., Librarian of the University of Ottawa. Dr. Vilhjalmur Stefansson very kindly furnished the hospitality of his arctic library. Vladimir C. Asmous and George S. Mitchell, research analysts, contributed much beyond the demands of the project director. Mary C. Grier, chief analyst and Jeannette Stewart, editorial assistant, gave freely of time and skill far beyond the requirements of their responsibilities. Above all, however, the committee wishes to acknowledge the leadership and guidance given to the project by its director, Marie Tremaine, who is primarily responsible for these volumes.

HENRY B. COLLINS, JR.
Chairman, Directing Committee
Arctic Bibliography

INTRODUCTION

The Arctic Bibliography aims to bring into a unified systematic record, publications resulting from the exploration and scientific investigation of northern regions hitherto little known or difficult of access and development by peoples native to the temperate zone. As, over more than a thousand years, men from Europe, Asia, and latterly North America have penetrated into the North they have extended not only knowledge of untrodden lands and seas, but also the limits of most of the biological and certain of the physical and social sciences. In recent decades, new facilities and techniques in travel and adaptation to the environment have accelerated and increased the range of northern investigations, with a corresponding extension of an already immense and varied literature. To enable coordination of this literature into a bibliographic unit, it was necessary for the Arctic Institute's Bibliography to set some limit to its field of interest. While there is difficulty in defining strictly what should be considered "arctic" literature, from one viewpoint the field could be defined specifically, albeit somewhat arbitrarily, namely by a geographic delimitation. The southern boundary of the area of interest for bibliographic purposes (as drawn on index map) was defined as follows:

a. In Canada and Labrador. Commencing at the southwest corner of Yukon Territory on the 141st meridian eastward along the southern boundary of Yukon Territory and Mackenzie District, 60° parallel, to the junction of Mackenzie and Keewatin Districts on the 102° meridian, thence south along the 102d meridian to the 56th parallel, thence east along the 56th parallel to the 96th meridian, thence south along the 96th meridian to the 54th parallel, thence east along the 54th parallel to the 92d meridian, thence south along the 92d meridian to the 52d parallel, thence east along the 52d parallel to the 84th meridian, thence south along the 84th meridian to the 50th parallel, thence east along the 50th parallel to the 76th meridian, thence north along the 76th meridian to the 52d parallel, thence east along the 52d parallel to the Atlantic Ocean.

b. In the Atlantic. From the Labrador coast at the 52d parallel northeasterly to a point 150 miles (nautical) south of Cape Farewell (at approximately 59°47' N. 43°50' W.), thence parallel to the East Greenland coast

at a distance of 150 miles (nautical) to the Arctic Circle (at approximately 23° W.), thence easterly along the Arctic Circle to the White Sea (at approximately 34° E.).

c. *In Eurasia.* Following the shore of the White Sea southward at 3 miles (nautical) from the shore to include the water area but excluding the land area to the boundary of Nenets Okrug and Arkhangelsk Oblast, thence east along this boundary and the boundary between Nenets Okrug and Komi ASSR, thence south along the boundary between Komi ASSR and Yamalo-Nenets Okrug to the 62d parallel, thence east along the 62d parallel to the Okhota River at approximately 142°30' E., thence south along the Okhota River to the Okhotsk Sea at its mouth, thence west and south along the coast of the Okhotsk Sea and Sakhalinskiy Gulf at a distance 3 miles from shore to the intersection of the 51st parallel with the east coast of Sakhalin Island, thence east along the 51st parallel excluding the northernmost Kuriles but including Cape Lopatka.

d. *Pacific and Alaska.* From the point south of Cape Lopatka at 51° N. 156°30' E. eastward along the 51st parallel to a point 150 miles (nautical) from Unalaska Island (at approximately 165°30' W.), thence northeastward parallel to the Aleutian Islands and Alaskan mainland at a distance of 150 miles (nautical) from all land to the 135° W. meridian (at approximately 54°40' N.), thence eastward to the Canadian-Alaskan boundary and northwestward along this line to the starting point at the southwest corner of Yukon Territory.

e. *Iceland.* The Iceland and contiguous water area is to be included for some purposes only to bring existing bibliographies up to date and is, therefore, ruled off as a distinct area outside the main boundary. The boundary of this area will leave the main boundary at approximately 65° N. 30° W., and follow a distance of 150 miles (nautical) from the coast of Iceland to approximately 67° N. 10° W., thence along the 10th W. meridian to rejoin the main boundary at 70° N. 10° W.

While the field of interest necessarily includes much that is not climatically true arctic, it excludes some areas which are purely temperate, or of which (Iceland) the literature is relatively accessible through existing bibliographies.¹ To the field thus defined is added the region of the Grand Banks of Newfoundland for studies resulting from work of the International Ice Patrol, occasionally also, more southerly localities for data on permafrost conditions.

In study of an area so extensive, not only geography in the narrow sense but most of the earth sciences are involved. Some of these disciplines have been profoundly influenced throughout their entire development in modern times by arctic investigations, notably oceanography, meteorology, glaciology, terrestrial magnetism. Studies of aurora borealis and permafrost phenomena,

¹ Halldór Hermannsson's bibliographical publications relating to Iceland and the Fiske Icelandic collection in Cornell University Library.

though not entirely confined to the Arctic, owe their main development to work in arctic regions. Currently the increasing impact of technically advanced civilization upon culture groups but recently primitive in some regions, provides a laboratory situation for sociological study in the far North.

In the present bibliography of some twenty thousand publications, efforts have been made to represent field work in all disciplines and in all sections of the area, particularly in the nineteenth and twentieth centuries.² In selection of material, some (but not exclusive) priority has been given to narratives and scientific results written by the explorers and scientists themselves. To enable a rapid compilation of a large number of titles for these initial volumes of the *Arctic Bibliography*, files (as available) of all essentially arctic journals and of major journals in various subject fields have been searched from their initial volume through the issues for 1949.³ Many secondary journals (containing fewer basic or fewer northern papers) likewise have been searched. Work on many other sources more obscure, more difficult of access, more time consuming in investigation, goes forward, and it is anticipated that future supplemental volumes of the *Arctic Bibliography* will include not only results of current investigations but older, even classic, literature not analysed in time for the present publication.

Bibliographic control over this extensive arctic literature is attempted by an author—subject—regional record in an integrated pattern. The *Arctic Bibliography* is arranged in two sections: (1) an alphabetic register, under the author's name, of his books, papers, and contributions to works of multiple authorship; (2) a subject-geographic index to these publications.

(1) In this alphabetic register under the author's name appears the title⁴ transcribed from the publication itself and a bibliographic description of the item in standard library style, including citation of journals and other serials as they are listed in Winifred Gregory's *Union List of Serials in Libraries of the United States and Canada*, 1943 and 1945.⁵ An annotation or analysis (occasion-

² Exclusive of publications "classified," or restricted by government to official use.

³ Journals cited in this bibliography and libraries in which the publications were analysed by the staff members are listed in appendices to this introduction.

⁴ Titles in Cyrillic alphabet are transliterated according to Library of Congress transliteration system.

⁵ While this occasionally involves the adaptation of serial citations from the original to a standard form, it enables use of the journals, etc., in the numerous libraries indicated by Miss Gregory as well as that in which the Arctic Institute's staff member used the volume.

ally an abstract) descriptive of the publication's subject matter is appended, mentioning the area, time, and auspices or circumstances under which the exploration or investigation was made. Specific locality and other relevant details are indicated, as feasible, for observational data papers. Finally is noted the Library in which a copy of the publication was used by the analyst.⁶ Works of multiple authorship are included in the alphabetic register under the name of the editor, or expedition, etc., with brief note of the individual authors and their contributions, and reference to the full description of each paper under its author's name in this register.

(2) The subject-geographic index of some 100,000 entries (comprising author, an abbreviated title and date of the publication, with its reference number) is arranged under some 18,000 subject-geographic headings. Here each publication listed in the first (author) section is indexed for its principal subject matter, and also indexed (i. e. "cross-indexed") for other subjects to which the publication makes contribution. The subject headings represent (1) major disciplines, e. g. Anthropology, Botany, Economic conditions, Geography, Geology, Glaciology, Meteorology, Oceanography, Social conditions, Zoology, etc., and (2) these disciplines' main branches, linked by cross references. The publications themselves are indexed as specifically as possible within this somewhat limited pattern. Most subject headings have a sub-heading "Observations" where data papers on that subject are segregated.

Similarly the entire area of interest is subdivided for indexing purposes into a schematic pattern of 69 sections (indicated on index map). Publications are indexed to geographic section (or sections, as relevant) under the subject (or subjects), also vice versa; so that material on (e. g.) Mackenzie District is accessible by subject (e. g. Mackenzie District—Petroleum), and material on (e. g.) ice conditions is arranged by region (e. g. Ice conditions—Bering Sea). In addition relevant material is indexed to specific geographic features (identified in the index heading with generic term, "section" name and geographic coordinates e. g. Oymyakon (*pop. pl.*, Yakut ASSR; 63°15' N. 143°08' E.)), also to specific topical headings, or "catch" names. Geographic

⁶ Location of other copies of books is recorded in the Union Catalog in Library of Congress, and of papers (as mentioned above) in Gregory's *Union List of Serials*.

names as index headings are given in the vernacular form as authorized by official agency or maps.⁷

Under the heading "Expeditions," publications emanating from multiple-purpose or multiple-member expeditions are also indexed to the name of the expedition or the ship, in order to make accessible these peculiarly related materials of diverse authorship and subject matter on roughly the same area or route. Basic works on a subject or region are signalized in the index by an asterisk (*).

MARIE TREMAINE

June 20, 1951

Director of Arctic Bibliography Project

⁷ The U.S. Board on Geographic Names has generously aided in identifying geographic features and establishing name forms, as has the Canadian Board on Geographical Names for those in Canadian territory. Vernacular names in Cyrillic alphabet are transliterated according to U.S. Board on Geographic Names transliteration system.

ARCTIC BIBLIOGRAPHY

1. A., A. Lesnaia promyshlennost' i port Igarka. (Sovetskaiia Arktika, 1935, no. 3, p. 13-17, illus.) **Title tr.:** The timber industry and Igarka Harbor.

Description of the development of timber industry in the Igarka region, 1929-34. **Copy seen:** DLC.

2. A., I. Usilim bor'bu protiv shamanstva. (Sovetskaiia Arktika, 1938, no. 10-11, p. 107-111, illus.) **Title tr.:** Let us intensify the struggle against shamanism.

Discussion of measures for combating the influence of shamans, illustrated by examples of work at the Chukotsk Cultural Base. **Copy seen:** DLC.

3. A., V. U chukoch v Chaunskoi gube. (Sovetskii Sever, 1935, no. 2, p. 60-64, illus.) **Title tr.:** Among the Chukchis of the Chaun Bay region.

Description of living conditions (dwellings, food, clothing, work hours, childbirth, and treatment of the sick) of nomad Chukchis in the region, based on the diary (1934) of a physician.

Copy seen: DLC.

4. ÅBERG, BÖRJE. Om kälväxternas höjdgränser i Sarek. (Svensk botanisk tidskrift, 1949. Bd. 43, häfte 2-3, p. 740-67, diagr.) **Title tr.:** On vertical limits of vascular plants in Sarek.

Contains a list of more than three hundred flowering plants and vascular cryptogams, native to the Sarek Mountain region, Torne Lappmark, northern Sweden, and data on their distribution in the twelve vertical zones into which this vegetation is divided by the author; bibliography (26 items).

Copy seen: MH-A.

5. ÅBERG, GERHARD. Untersuchungen über die *Sphagnum*-Arten der Gruppe *Subsecunda* in Europa mit besonderer Berücksichtigung ihres Auftretens in Schweden. Stockholm, Almqvist & Wiksell, 1937. 77 p. illus., 2 plates, text maps. (Arkiv för botanik. Bd.

29A, no. 1) **Title tr.:** Studies of *Sphagnum* species of the group *Subsecunda* in Europe with special consideration of their distribution in Sweden.

Contains a systematic revision of ten species of *Sphagnum* mosses with keys, synonymy, critical notes and data on distribution; includes *Sphagnum contortum platyphyllum* and *S. subsecundum (typicum)* occurring in northern Scandinavia, Kola Peninsula and arctic Siberia. **Copy seen:** MH-A.

6. ÅKERBLUM, FILIP, 1869-. Déterminations magnétiques faites au Grönland du nord-est. (Arkiv för matematik, astronomi och fysik, 1903. Bd. 1, p. 609-626, tables.) **Title tr.:** Magnetic determinations made in northeast Greenland.

Results of observations made on the east coast of Greenland, July 9-Aug. 30, 1899, during the Swedish Expedition to Northeast Greenland, 1899.

Copy seen: DLC.

7. ÅKERBLUM, FILIP, 1869-. Positions géographiques déterminées par des observations faites pendant l'Expédition suédoise au Grönland en 1899. (Svenska vetenskapsakademien. Öfversigt af förhandlingar, 1900. Årg. 57, p. 763-87) **Title tr.:** Geographic positions determined by observations made during the Swedish Expedition to Greenland, 1899.

Observations made June-Aug., 1899 on Jan Mayen and East Greenland, and on board the *Antarctic* during the voyage in Greenland Sea and Denmark Strait. **Copy seen:** DLC.

8. ÅKERBLUM, FILIP, 1869-. Recherches océanographiques. Uppsala, Edv. Berling, 1904. 2 p.l., 80 p. illus., 4 plates (col. fold. diagrs. 1 chart) tables.

Scientific results of the Swedish Expedition to Northeast Greenland under

A. G. Nathorst in the *Antarctic*, 1899, in search of André's last balloon party. Surface and deep-sea data on waters along the Norwegian coast to West Spitsbergen and waters between Greenland, Iceland and West Spitsbergen; notes on drift-bottle experiments and discussion of the East Greenland Polar Current. *Copy seen: DLC.*

9. AAMODT, OLAF SVERRE, 1892- , and D. A. SAVAGE. Cereal, forage and range problems and possibilities in Alaska. (*In: U. S. Agricultural Research Administration. Report on exploratory investigations of agricultural problems of Alaska*, 1949. p. 87-124, illus.)

Contains notes on wheat, barley and oats; descriptions of grazing districts and forage resources of Kodiak and Aleutian Islands, Kenai Peninsula, Matanuska and Tanana valleys, Southeast Alaska, a few other areas, and the tundra range; discussion of range and pasture problems, the establishment and maintenance of grasses and legumes; annotated list of thirty-four grasses, some legumes, and poisonous plants; and a bibliography (10 items).

Copy seen: D.A.

10. AAMODT, OLAF SVERRE, 1892- , and G. W. GASSER. Grasslands in Alaska. (*In: U. S. Dept. of Agriculture. Yearbook of agriculture*, 1948. p. 607-616)

General discussion in three parts: (1) Endless struggle for supremacy, by O. S. Aamodt and G. W. Gasser; (2) Problems of grass and livestock, by O. S. Aamodt; and (3) Agriculture in various localities, by G. W. Gasser; dealing mostly with Matanuska Valley, Kenai Peninsula, Kodiak Island, and Southeast Alaska.

Copy seen: DLC.

11. AANDSTAD, SIGURD. Die Jahresringbreiten einiger seltenen Kiefern in Steigen, Nordland. (*Nytt magasin for naturvidenskapene*, 1939. Bd. 79, p. 127-40, illus.) *Title tr.: Annual rings of some rare pines from Steigen, Nordland.*

Contains measurements of the annual rings on cross sections of twelve pines (Pinus sylvestris) cut down in 1934, in Steigen, Nordland, Norway, illustrated by diagrams and several tables.

Copy seen: MH-A.

ÄNGSTRÖM. See No. 573-579.

12. AARIO, LEO. Über die Wald- und Klimaentwicklung an der Lappländischen Eismeerküste in Petsamo mit einem Beitrag zur nord- und mitteleuropäischen Klimageschichte. Helsinki, 1943. vii p., 1 l., 158 p. illus., tables, diagrs. (3 fold.) (Suomalainen eläin- ja kasvitieteellinen seura Vanamo. Kasvitieteellisiä julkaisuja. Osa 19, no. 1) *Title tr.: On the forest and climatic development of the Finnish arctic seacoast of Petsamo, with a contribution to northern and mid-European climatic history.*

Based on field work carried out 1936-38, in the region 68°12'-69°57'N. 27°11'-32°10'E., and on subsequent laboratory research in the Finnish Geological Commission and University of Helsingfors Botanical Institute. A study of the Pechenga region and part of the Rybachiy Peninsula's post-glacial development of forests, based on pollen analyses of bogs and the raised shorelines, and presented in type zones including coniferous, mixed, birch, tundra, and meadow; a section on paleoclimate of Petsamo and a bibliography (155 items).

Copy seen: DSI-M

13. AASGAARD, GUNNAR. Svalbard under og etter verdenskrigen. (Norsk geografisk tidsskrift, 1946-47. Bd. 11, p. 49-62, illus.) Also issued as Norges Svalbard- og Ishavs-undersøkelser. Meddelelse nr. 65. *Title tr.: Svalbard during and after the World War.*

Discusses growth of the West Spitsbergen coal production from 1939-40; German air and naval attacks during the war; evacuation of the West Spitsbergen residents and miners; resumption of coal mining, and conjectures concerning other minerals in Svalbard (including Bear Island).

Copy seen: NNA.

14. ABBE, ERNST CLEVELAND, 1905- . Botanical results of the Grenfell-Forbes Northern Labrador Expedition, 1931. (Rhodora, Apr. 1936. v. 38, p. 102-161, 4 plates, sketch map, tables, diagrs.) Contributions from the Gray Herbarium of Harvard University, no. 111.

Contains a sketch of geology of northeastern Labrador, notes on the Kaumajet and Tornat Mts.; general ecological remarks, comparison of the flora of higher elevations with that of contemporary Greenland nunataks; dis-

cussion of contemporary climate and relic species, of possibilities of the survival of species during the Wisconsin glaciation or of their post-Wisconsin migration; and an annotated list of two hundred eight species of vascular plants. *Copy seen:* DA.

15. **ABBE, ERNST CLEVELAND**, 1905-. Phytogeographical observations in northernmost Labrador. (*In*: Forbes, Alexander. Northernmost Labrador, 1938. p. 217-34.)

A discussion of plant species in relation to present conditions, to the ice age, and after; with notes on migration of species. *Copy seen:* DLC.

16. **ABBES, H.** Die deutsche Nordpolar-Expedition nach dem Cumberland-Sunde. (Globus, 1884. Bd. 46, p. 294-98, 312-15, 328-31, 343-45, 365-68.)

Account of the German North Polar Expedition to Cumberland Sound, 1882-83, and of the establishment of its polar station in Kingua Fjord for meteorological and magnetic observations, as part of the First International Polar Year program. Included are general remarks on the physical features, natives and animal life in the region, and on the expedition's work during the wintering. *Copy seen:* DLC.

17. **ABBES, H.** Die Eskimos des Cumberlandgolfes. (*In*: International Polar Year. 1st, 1882-1883. Deutsche Polar-Kommission. Die deutschen Expeditionen, 1890. Bd. 2, p. 1-61, 4 plates.) *Title tr.*: Eskimos of Cumberland Gulf. Study of several tribes of Baffin Island and Eskimos, their relationships, customs, dwellings, clothing, art, religion, beliefs, language and artifacts. *Copy seen:* DLC.

18. **ABBES, H.** Die Eskimos des Cumberland-Sundes. (Globus, 1884. Bd. 46, p. 198-201, 213-18, illus.) *Title tr.*: The Eskimos of Cumberland Sound.

Ethnographical sketch, based on the author's observations while on the German International Polar Year Expedition, 1882-83, to Baffin Island. *Copy seen:* DLC.

ABBOT, CHARLES GREELEY, 1872-. See Helland-Hansen, B., & F. Nansen. Temperature variations. 1920.

19. **ABELS, H.** Erdmagnetische Beobachtungen in Obdorsk und Ssamarowo. (Akademiia nauk SSSR. Bulletin, 1899. Sér. 5, t. 11, p. 9-27, 2 sketch maps.) *Title tr.*: Geomagnetic observations in Obdorsk and Samarovo.

Results of measurements made incidentally, during an inspection trip to meteorological stations on the Ob River, 1898. Includes the data, and brief discussion correlating the results with earlier observations. *Copy seen:* DLC.

20. **ABERCROMBIE, WILLIAM RALPH**, 1857-. The Copper River country, Alaska. (Franklin Institute. Journal, 1904. v. 158, p. 289-310; 353-66, illus., map.)

Contains summaries of the expeditions in the Copper River country, Alaska, under the leadership of Abercrombie in 1884, 1898 and 1899. Includes notes on the recession of Childs and Miles Glaciers in the course of fifteen years; estimate of agricultural possibilities; description of the distribution of copper and gold deposits in the Wrangell Mts. and elsewhere in the area; and analysis of suitable routes for an all-American railroad to the interior. Map is copy of Valdez section of contour map for one route of railroad. *Copy seen:* DLC.

21. **ABERCROMBIE, WILLIAM RALPH**, 1857-. Report of Captain W. R. Abercrombie on explorations in Alaska. (*In* U. S. Adjutant-General's Office. Military Information Division. Reports of explorations in the Territory of Alaska [etc.] 1898, pub. 1899. p. 295-351, 457-62.) Reprinted with slight changes in U. S. Congress. Senate. Committee on Military Affairs. Compilation of narratives of explorations in Alaska, 1900. p. 563-91.

Contains the report of the commander of U. S. Military Exploring Expedition no. 2, in the Copper River region. Describes the crossing of Valdez Glacier and ascent of the Copper River to the Wrangell Mts. and return, with notes on the drainage, economic geolo-

gy, the Indians, timber, insects, fish. Includes a list of fifty-seven birds, and nineteen mammals, found in the Copper River valley; descriptions of possible railroad and other routes from Port Valdez to the Tanana region; gold rush to the Copper valley in 1898; weather observations at Port Valdez Apr. 19, 1898-Jan. 18, 1899.

Copy seen: DGS.

22. ABERCROMBIE, WILLIAM RALPH, 1857- . Supplementary expedition into the Copper River valley, Alaska, 1884. (*In:* U. S. Congress. Senate. Committee on Military Affairs. Compilation of narratives of explorations in Alaska, Washington, U. S. Govt. Print. Off., 1900. p. 383-408.)

Narrative of expedition undertaken to ascertain the character of the natives, routes, and possibilities of sustenance in the Copper River and upper Tanana River area. With Nuchek, on Hinchinbrook Island as headquarters, party explored Prince William Sound area, attempted ascent of Copper River, and interviewed natives of various tribes visiting Nuchek for fur trading. The narrative includes detailed description of navigation difficulties on Copper River owing to effects of Childs and Miles Glaciers; and notes on Tlingits (at Yakutat) Eyaks ("Ugalentsi"), South Alaska Eskimos, Tanainas, and Ahtenas, including data on Eyak wooden canoes and special use of tobacco by Eskimos.

23. ABISKO. NATURVETENSKAPLIGA STATION. Observations météorologiques à Abisko, 68°20'5"N. 18°49'3"E., en 1913 [-1929]. Uppsala, Almqvist & Wiksell, 1920-30. Edited by Bruno Rolf, F. Lindholm, Bror Hedemo.

Results of hourly observations or registrations of standard meteorological elements (pressure, temperature, humidity, wind direction and force, and sunshine), of bi-hourly observations of cloud forms and movement, and of forms of precipitation and state of weather; of frequent-daily, or daily observations or measurements of the various phenomena; fog conditions (including mountain area), thunder, optical phenomena, aurora, ice over (lake) Torneträsk, snow survey measurements (at five points during season), Jan. 1, 1913-Dec. 31, 1929; daily snow conditions in mountains 1914-29; weekly temperature of water (1 meter depth) in lake, 1920-29; daily ground temperatures, Aug. 1, 1925-Apr. 30, 1926 and Nov. 1-Dec. 31, 1926, and once every five days in 1927-29 (measurements made at 50 cm. intervals from 50-200 cm.) at Abisko, Sweden.

File seen: DLC.

ABISKO. NATURVETENSKAPLIGA STATION. See also Sweden. Statens meteorologiska centralanstalt. Meteorologiska iakttagelser i Vassijaure. 1907-31.

24. ABOLIN, ROBERT IVANOVICH. Geobotanicheskoe i pochvennoe opisaniye Leno-Vil'juiskoi ravliny. Leningrad, 1929. x, 372 p., illus., maps (1 fold.), diagrs. (1 fold.) (Akademiya nauk SSSR. Komissiya po izucheniyu faunyskoi Avtonomnoi Sovetskoi Sotsialisticheskoi Respubliki. Trudy, T.10) *Title tr.:* A description of the vegetation and soils of the Lena-Vilyuy plain.

A study based on previously unpublished material, resulting from several expeditions, 1912-14, including the author's own work as geobotanist and soil specialist, revised by him in the light of subsequent published works. Contains chapters (in brief) on relief, geological structure, climate, the inhabitants, vegetation and soils; and (in considerable detail) on the valley of the Lena in the neighborhood of Yakutsk, the left bank, the eastern and western parts of the Lena-Vilyuy plain; also observations on the ecology of certain trees and shrubs. Bibliography p. 332-34. Summary in English.

Copy seen: DLC.

25. ABRAMOV, NIKOLAI ALEKSEEVICH, 1812-1870. O klimatye goroda Berezova. (Vsesoyuznoe geograficheskoe)

koe obshchestvo. *Vĕstnik*, 1854. Chast' 12, otd. 2, p. 69-88, tables incl. 1 fold.) *Title tr.*: On the climate of the town of Berezovo.

Discussion including monthly temperature averages and monthly highest and lowest readings for 1842-49, dates of formation and breaking up of ice on Sos'va River (1842-49), barometric readings (July 1848-1849), information on permafrost, winds, thunderstorms, fogs, animal life and plants in the region. The monthly temperature averages were corrected in K. S. Veselovskii's *O srednikh temperaturakh Berezova*, 1854, q. v. *Copy seen*: DLC.

26. ABRAMOV, NIKOLAI ALEKSEEVICH, 1812-1870. *Opisanie Berezovskago Kraja*. (Vsesoĭuznoe geograficheskoe obshchestvo. *Zapiski*, 1857. Kn. 12, p. 327-448). *Title tr.*: Description of the Berezovo region.

The author, a government administrator in Siberia, deals with Ostyaks, Samoyeds, the town of Berezovo (63°-55'N. 65°05'E.), vital statistics, administrative subdivisions, agriculture, hunting and fishing, prospecting, commerce, government grain distribution, communications, and taxation in the former Berezovskiy Okrug, an area roughly equivalent to the northern half of Omskaya Oblast'. *Appendix*: geographic description of the region, and a list of about sixty-five local Russian words and phrases. *Copy seen*: DLC.

27. ABRAMOV, NIKOLAI ALEKSEEVICH, 1812-1870. *Svĕdĕniia o Chukotskoĭ zemli v XVIII stoliĕtii*. (Vsesoĭuznoe geograficheskoe obshchestvo. *Vĕstnik*, 1853. Chast' 9, otd. 8, p. 12-14). *Title tr.*: Information on the land of the Chukchis in the 18th century.

Contains Okhotsk commander's report of tribute payment by some Chukchis in 1766, news gathered among them concerning islands off Kolyma River and Chukotskiy "Nose," and his recommendation to annex lands in America. *Copy seen*: DLC.

ABRAMOVA, N. V. See Pushkov, N. V., & others. *Sopostavlenie magnitoi aktivnosti*. 1937.

28. ABRARD, RENÉ, and EDGAR AUBERT de la RŪE. Sur la présence du Quaternaire marin fossilifère le long de la côte occidentale du Labrador.

(Académie des Sciences, Paris. *Comptes rendus*, déc. 5, 1949. T. 229, p. 1249-51) *Title tr.*: On the presence of marine Quaternary deposits along the west coast of Labrador.

Based on observations of Aubert de la RŪe during the Rousseau Expedition, 1948, along the east coast of Hudson Bay between 59°-60°N. Brief discussion, and lists of fossil molluscs found at the mouth of the Kogaluk River and for a short distance upstream, and on the shore of Povungnituk Bay, with remarks on shore lines in the area relative to the ice age. *Copy seen*: DGS.

29. ABRIKOSOV, G. G. Die Bryozoen. II. Teil. Die Süßwasserbryozoen der arktischen Gebiete. (*In*: Fauna arctica, 1933. Bd. 6, p. 383-88) *Title tr.*: Bryozoans. Pt. 2. The fresh-water bryozoans of the arctic region.

List, with synonymy and distribution, of five species from circumpolar lands; a key, some remarks on distribution, and a bibliography (23 items).

Copy seen: DA.

30. ABRIKOSOV, G. G. Klass Bryozoa — Mshanki. (*In*: Gaevskaia-Sokolova, N. S., and others. *Opredeletel' fauny i flory*, 1948. p. 451-61, illus., plates 116-18) *Title tr.*: Class Bryozoa.

Contains data on morphology, biology and geographic distribution of bryozoans of the arctic seas of the U.S.S.R.; with keys for determination of subclasses, genera and some typical species, based mainly on the study of whole colonies of these sessile marine animals.

Copy seen: DLC; MH-Z.

31. ABS, OTTO AUGUST HANS, 1891-. Über Epidemien von unspezifischen Katarrhen der Luftwege auf Svalbard. Oslo, J. Dybwad, 1930. 27 p. (Norway. Norges Svalbard- og Ishavs-undersøkelser. Skrifter. Nr. 32) *Title tr.*: On epidemics of respiratory catarrh in Svalbard. *Copy seen*: DLC.

32. ABS, OTTO AUGUST HANS, 1891-. Untersuchungen über die Ernährung der Bewohner von Barentsburg, Svalbard. Oslo, J. Dybwad, 1929. 64 p. illus., fold. table. (Norway. Norges Svalbard- og Ishavs-undersøkelser. Skrifter. Nr. 25) *Title tr.*: Research on the diet of the inhabitants of Barentsburg, Svalbard.

The study includes an analysis of the foodstuffs, and the dietary diseases

of the miners at Green Harbour.

Copy seen: DGS.

33. ACKERKNECHT, ERWIN HENRY, 1906-. The Eskimo. (Ciba symposia, July-Aug. 1948. v. 10, no. 1, p. 894-921, illus., sketch map)

Succinct description of (1) Eskimos' food, shelter, clothing, hunting and travel; (2) their social and religious life; (3) history; and (4) medicine and disease; with a bibliography (30 items).

Copy seen: DSG.

34. ACKERMAN, ALBERT A. Arctic ice and its navigation. (Popular science monthly, Sept. 1889. v. 35, p. 677-85)

Description of kinds of ice encountered in Baffin Bay and Smith Sound, and in the arctic waters north of Bering Strait, with some remarks on ships and their manner of penetrating the ice.

Copy seen: DLC; NNSStef.

35. ACOCK, A. M. Vegetation of a calcareous inner fjord region in Spitsbergen. (Journal of ecology, 1940. v. 28, p. 81-106, 2 plates, 2 sketch maps, diagr.)

Observations on a strip of country about and immediately behind Bruce City on Klaas Billen Bay: description, including lists of lichens, mosses and liverworts, and flowering plants, of the shingle silt and bog communities and their habitat relations, with detailed soil data. Plates show shingle, fissure and mud polygons, and stone stripes.

36. ACTA ARCTICA; editit Societas Arctica Scandinavica. Fasc. 1-3. København, Ejnar Munksgaard, 1943-49. 3 nos. Edited by Magnus Degerbøl, and "published at indefinite periods, and appears in English, French or German," this journal has as its scope scientific papers of general arctic interest in the fields of humanistic and natural sciences. Societas Arctica Scandinavica was founded by a group of scientists of the Scandinavian countries, but due to war conditions, the Danish group represented the society's activities.

Contents: 1. HOLTVED, E. The Eskimo legend of Navaranâq. 2. GJESSING, G. Circumpolar stone age. 3. PATERSON, T. T. Eskimo string figures and their origin. Each number appears in this Bibliography under its author's name. *File seen:* CaMAI.

37. ADAM, LUCIEN 1833-. En quoi la langue esquimaude diffère-t-elle grammaticalement des autres langues de l'Amérique du Nord? (International Congress of Americanists. 5th, Copenhagen, 1883. Compte-rendu, pub. Copenhagen, 1884. p. 337-55). *Title tr.:* In what respect does the Eskimo language differ grammatically from the other languages of North America?

Presents detailed grammatical comparisons between Eskimo and northern Indian languages, indicating the lack of a common origin. Presents less detailed evidence indicating lack of common origin also between Eskimo and Ural-Altaic languages. *Copy seen:* DLC.

38. ADAM, LUCIEN, 1833-. Esquisse d'une grammaire comparée de la langue des Chipewyans et de la langue des Crees. (International Congress of Americanists. 1st, Nancy, 1875. Compte-rendu, pub. Nancy, 1875. v. 2, p. 89-148) *Title tr.:* Sketch of a comparative grammar of the language of the Chipewyans and that of the Crees.

Describes the grammar of the Chipewyans and Crees, including phonology as well as inflection and syntax.

Copy seen: DLC.

- ADAM, QUIREN FRANÇOIS LUCIEN. See Adam, Lucien, 1833-.

39. ADAMS, A. LEITH. On a fossil saurian vertebra, (*Arctosaurus osborni*), from the arctic regions. (Royal Irish Academy. Proceedings, July 1875. Ser. 2, v. 2, p. 177-79, illus.)

Description of fossil reptilian bones collected on Bathurst Island, in the middle 19th century, by Capt. Sherard Osborn. *Copy seen:* DLC.

40. ADAMS, CYRUS CORNELIUS, 1849-1928. Lieutenant Peary's arctic work. (Geographical journal, Oct. 1893. v. 2, p. 303-316, sketch map, fold. map).

Based on the series of notebooks kept by Peary, July 1891 to Aug. 1892. An account of Peary's first major expedition, based at McCormick Bay; the sledge journey across the inland ice of North Greenland to Independence Bay and return, the construction of the house at the base, clothing, sledging and the ethnological work of the party.

Copy seen: DLC.

41. ADAMS, EDWARD, 1824-1856. Notes on the birds of Michalaski, Norton Sound. (Ibis, Oct. 1878. Ser. 4, v. 2, p. 420-42).

Result of observations made by the author, assistant surgeon on the *Enterprise*, during an assignment ashore, 1850-51; an annotated list of forty-nine species of birds, including their Eskimo names. *Copy seen:* DSI-M.

42. ADAMS, FRANK DAWSON, 1859-1942. Les gisements métallifères de la région nord du Canada dont l'exploitation reste à faire. (Société Géologique de Belgique. 50me anniversaire livre jubilaire, 1874-1924, pub. 1925? T. 1, fasc. 2, p. 379-84) *Title tr.*: The unexploited metalliferous deposits of northern Canada.

General remarks on the Canadian Shield and its possible mineral resources.

Copy seen: DGS.

43. ADAMS, FRANK DAWSON, 1859-1942. On some granites from British Columbia and adjacent parts of Alaska and the Yukon district. (Canadian record of science, July 1891. v. 4, p. 344-58)

Report on a detailed study of a granite from Wrangell Island, and one from the Pelly River region of Yukon Territory. *Copy seen:* DGS.

44. ADAMS, FRANK DAWSON, 1859-1942. On the microscopical character of the ore of the Treadwell mine, Alaska. (American geologist, Aug. 1889. v. 4, p. 88-93, illus.)

Petrographic study of ores from Douglas Island. *Copy seen:* DGS.

ADAMS, FRANK DAWSON, 1859-1942. See also Dawson, G. M. Report on exploration in Yukon district, 1887. 1888.

45. ADAMS, JOHN QUINCY, 1900-. Alaska *dalli* rams. (Alaska sportsman, June 1936. v. 2, no. 6, p. 11-12, 18, illus.)

Informative account of hunting the mountain sheep *Ovis dalli* in the Matanuska and Knik watersheds, south central Alaska.

Copy seen: DLC.

46. ADAMS, JOHN QUINCY, 1900-. Contrasting type of settlement on the James Bay plain. (Scottish geographical magazine, July 1939. v. 55, p. 212-17, 3 plates)

Contains an outline (in brief) of the origin, functions, resultant landscape forms, and probable future of Moosonee and Moose Factory, two settlements at the mouth of the Moose River, James Bay.

Copy seen: DLC.

47. ADAMS, JOHN QUINCY, 1900-. Settlements of the northeastern Canadian Arctic. (Geographical review, Jan. 1941. v. 31, p. 112-26, sketch map)

Notes on establishing sovereignty over the Canadian Arctic Islands; descriptions of the founding, use and activities of Craig Harbour on Ellesmere Island, Arctic Bay on northern, and Fangnirtung on southern Baffin Island; remarks on acculturation of the Eskimos.

Copy seen: DLC.

48. ADAMS, JOHN QUINCY, 1900-. This is Matanuska! (Alaska sportsman, Apr.-May, 1938. v. 4, no. 4, p. 16-18, 24; no. 5, p. 14-15, 20-21, 25-26, illus.)

The author, resident of the Matanuska valley for seven years, discusses its physical features, climate, soil, crops, serious problems of transportation and land clearance, the history of the valley's colonization beginning in 1935, and its administration.

Copy seen: DLC.

49. ADAMSON, J. D., 1890-, and others. Poliomyelitis in the Arctic. (Canadian Medical Association. Journal, Oct. 1949. v. 61, p. 339-48, illus., sketch map). *Other authors:* J. P. Moody, A. F. W. Peart, R. A. Smillie, J. C. Wilt, and W. J. Wood.

Study conducted under direction of Canada's Dept. of National Health and Welfare, Indian Health Services, on the northwest coast of Hudson Bay, Mar. and May 1949. Notes on the Eskimos' distribution, habits and hygiene, and report on the epidemiology, age and sex incidence, clinical and anthropomorphic features, autopsy findings and virus studies of the outbreak of poliomyelitis among the natives between 60°-65°N. 90°-100°W.

83. AHLMANN, HANS WILHELMS-SON, 1889- . Geomorphological studies in Norway. Part II. The Nordland. (*Geografiska annaler*, 1919. Årg. 1, p. 193-252, illus., sketch maps, fold. plate (diagrs.))

Discussions based on the author's observations, of (1) the principal morphological features of the Norwegian coastal zone, 65°-70°N., (the fiord belt, the outer coastal zone margin and the Continental Shelf; (2) the region under the last ice cover, including discussions of nunataks, cirques, preglacial topography and marine abrasion;

(3) principal morphological features of glacial erosion in Norway; bibliography (138 items). *Copy seen:* DLC.

84. AHLMANN, HANS WILHELMS-SON, 1889- . Geomorphology. Scientific results of the Swedish-Norwegian Arctic Expedition, 1931. Pt. 5. (*Geografiska annaler*, 1933. Årg. 15, p. 89-116, illus., 2 plates)

Contents: A. Morphology of the Continental Shelf, p. 89-97. B. Morphology of the solid rock of North-East Land and adjacent islands, p. 97-115. Bibliography (34 items).

Maps (plates 3-4) by H. W. Ahlmann and N. Friberg, scale 1:4,000,000 on 75°N. lat., are: Bathymetric chart; and Soundings, of Barents Sea and adjacent parts of the Norwegian Sea and the Arctic Ocean. *Copy seen:* DLC.

85. AHLMANN, HANS WILHELMS-SON, 1889- . Glaciological methods. (Polar record, Jan. 1946. v. 4, p. 315-19)

Notes on methods of study of accumulation, ablation and glacier régime, and on the need for research in areas of different climates.

Copy seen: DLC.

86. AHLMANN, HANS WILHELMS-SON, 1889- . Glaciological research on the North Atlantic coasts. London, 1948. p. 1, 83 p. illus., tables, 10 sketch maps, fold. diagr. (Royal Geographical Society. Research ser. No. 1)

"A critical and uniform summary of . . . the most important results of . . . twenty-two years' labours" including research on Northeast Land during the Swedish-Norwegian Arctic Expedition, 1931, work of the Norwegian-Swedish Spitsbergen Expedition, 1934, and the Northeast Greenland Expedition, 1939-40, to Clavering Island, as well as studies in Iceland, Norway and Sweden.

Contains notes on the districts examined, including Fourteenth of July Glacier (West Spitsbergen) Fröya Glacier (Clavering Island, East Greenland); discussion of accumulation, ablation, firn and glaciation limits, glacial régime, rate of movement, classification of glaciers, variation of glacier margins and volumes, and causes of such variations; with an index.

Copy seen: DLC.

87. AHLMANN, HANS WILHELMS-SON, 1889- . Glaciology. Scientific re-

sults of the Swedish-Norwegian Arctic Expedition, 1931. Pt. 8. (Geografiska annaler, 1933. Årg. 15, p. 161-216, 261-95, illus. incl. photos., tables, diagrs.)

Contents: A. Glacier morphology. B. The glaciation limit on North-East Land; snow and firn stratification of the glacier-caps; temperature in the profiles; the melting process during ablation. C. Geophysical classification of glaciers. D. Ablation and accumulation, including a paper, by Anders Ångström: *On the dependence of ablation on air temperature, radiation and wind.* E. General configuration of the North-East Land glacier-caps. Bibliographies, p. 214-16, 271, 294-95.

Copy seen: DLC.

88. AHLMANN, HANS WILHELMS-SON, 1889-. The inland cartography of North-East Land. Scientific results of the Swedish-Norwegian Arctic Expedition, 1931. Pt. 3. (Geografiska annaler, 1933. Årg. 15, p. 47-68, illus. incl. photos., maps, tables)

Narrative of the sledge journey of the Swedish-Norwegian glaciological party, with tables and discussion of their topographic observations; also summaries of the sledge journeys of the Oxford Expedition, 1924, and that of N. A. E. Nordenskiöld in 1873. Bibliography, p. 68.

Copy seen: DLC.

89. AHLMANN, HANS WILHELMS-SON, 1889-. Introductory address. (In: Rolfsen, G., and others. Climatic changes in the Arctic (etc.), 1949. *Pub. in: International Council for the Study of the Sea. Rapports et procès-verbaux.* v. 125, p. 9-16, 4 sketch maps, diagrs.)

Notes on recent literature on the subject of more recent climatic changes, and remarks on recession of glaciers in the northern hemisphere.

Copy seen: DF; DGS; DLC.

90. AHLMANN, HANS WILHELMS-SON, 1889-. The morphology of the Arpojaure, a post-glacial lake in Torne Lappmark. (Geologiska föreningen. Förhandlingar, 1914, *pub.* 1915. Bd. 36, p. 496-521, illus., sketch map, diagrs.)

Results of investigations by the author and C. Carlzon in 1913, of Arpojaure, a lake in northern Sweden (68°51'N. 20°58'E.): (1) a summary of the Quaternary geology of the region; discussion of (2) the morphology of the basin, and (3) the development of the

lake and results of the draining carried out in 1905. *Copy seen:* DLC.

91. AHLMANN, HANS WILHELMS-SON, 1889-. Natur och människor inom isområdena kring nordligaste Atlanten; Vega-föredrag den 24 april 1941. (Ymer, 1941. Årg. 61, p. 174-89, illus. plates) *Title tr.:* Nature and people within the icy regions around the northernmost Atlantic Ocean; *Vega* address, April 24, 1941.

Contains accounts of the Swedish-Norwegian Arctic Expedition, 1931, to Northeast Land, the Norwegian-Swedish Spitsbergen Expedition, 1934, for purpose of making geophysical-glaciological investigations on West Spitsbergen, and the Swedish-Norwegian investigations of the Frøya Glacier on Clavering Island, East Greenland, 1939-40; also discussion of the glaciological results and of the Scandinavian inhabitants of arctic regions.

Copy seen: DLC.

92. AHLMANN, HANS WILHELMS-SON, 1889-. Den nutida klimafuktuationen och Grönland. (Grönlandske selskab. Aarskrift, 1948. p. 9-38, illus., map, diagrs., table) *Title tr.:* Recent climatic fluctuations and Greenland.

Notes changes with higher temperature in northernmost regions; effect on glaciers as observed by the author 1918-40; meteorological interpretation of changes; effect on vegetation, wildlife, etc.

Copy seen: NN.

93. AHLMANN, HANS WILHELMS-SON, 1889-. Den nutidiga klimatfluktuationen och dess utforskande. (Norsk geografisk tidsskrift, 1947. Bd. 11, p. 290-326, illus., diagrs., sketch maps) *Title tr.:* Present-day climatic fluctuation and its investigation.

Discussion of climatic change, especially in arctic regions; evidence of the "warming" trend (retreat of glaciers, changes in distribution of arctic drift ice and climatological statistics); possible causes of the fluctuation; phenomena occurring in connection with it, such as northward migration of fishes and regeneration of forests; remarks on research projects.

Copy seen: DLC.

94. AHLMANN, HANS WILHELMS-SON, 1889-. Organisationen av Sovjetunionens arktiska forskning. (Polar-årbooken, 1945. p. 27-37, illus.) *Title*

tr.: The organization of the arctic investigations of the Soviet Union.

Notes the Soviet Union's declaration of sovereignty over all regions between $32^{\circ}4\frac{1}{2}'E.$ and $168^{\circ}49\frac{1}{2}'W.$ in 1926; the establishment of its Arctic Institute, 1920; describes briefly the leaders of the Institute, Russian arctic explorers of note, high standards of their investigations; notes that the work of the Institute is planned on a larger scope than that of any other nation; correlates observations of the Russians with those of the author and others; notes Russian achievements in glaciological, oceanographic, climatic, meteorological, etc., research; predicts increased activity in the Arctic by the Russians.

Copy seen: NNM.

95. AHLMANN, HANS WILHELMS-SON, 1889-. Polygonal markings. Scientific results of the Swedish-Norwegian Arctic Expedition, 1931. Pt. 12 [2]. (Geografiska annaler, 1936. Årg. 18, p. 7-19, illus. incl. diags., plate)

Observations on the external shape and vertical structure of the surface markings in West Spitsbergen, with a discussion of recent opinion on their causes. Bibliography, p. 19.

Copy seen: DLC.

95A. AHLMANN, HANS WILHELMS-SON, 1889-. The present climatic fluctuation. (Geographical journal, Oct.-Dec. 1948, *pub.* Apr. 1949. v. 112, p. 165-95, plate, 3 sketch maps, diagr.)

Comprehensive review of the literature on climatic fluctuation in the last century, followed by discussion from others.

Copy seen: DGS.

96. AHLMANN, HANS WILHELMS-SON, 1889-. Present glaciation round the Norwegian Sea. Scientific results of the Swedish-Norwegian Arctic Expedition, 1931. Pt. 10. (Geografiska annaler, 1933. Årg. 15, p. 316-48, illus. (maps, tables) fold. map)

Contents: A. Altitude of the firn line and glaciation limit. B. Accumulation and ablation at the firn line and glaciation limit. C. Summary. Bibliography, p. 346-48.

Copy seen: DLC.

97. AHLMANN, HANS WILHELMS-SON, 1889-. Le régime des glaciers; ses éléments, ses variations. (Revue de géographie alpine, 1941. T. 29, p. 537-56, table, diags.) *Title tr.*: The régime of glaciers; their elements and variations.

Remarks on the author's glaciological work; discussion of accumulation and ablation, or "régime" of seven glaciers, including two on West Spitsbergen, one on Northeast Land and one on northeast Greenland; also concluding remarks on climatic changes causing the recession of glaciers around the Norwegian (Greenland) Sea.

Copy seen: DLC.

98. AHLMANN, HANS WILHELMS-SON, 1889-. Researches on snow and ice, 1918-40. (Geographical journal. Jan.-June, 1946. v. 107, p. 11-28, 2 plates, map, diags.)

Paper presented at a meeting of the Society summarizing the author's researches in Norway, Northeast Land, Iceland and East Greenland. Includes a report on his investigations of Frøya Glacier (on Clavering Island, East Greenland) 1939-40, and remarks upon glaciological evidence of climatic change in arctic regions. Discussion, p. 25-28.

Copy seen: DLC.

99. AHLMANN, HANS WILHELMS-SON, 1889-. Den ryska isbrytaren "Sedovs" drift över Polhavet oktober 1937-januari 1940. (Ymer, 1941. Årg. 61, p. 66-68, map) *Title tr.*: The drift of the Russian ice-breaker *Sedov* across the north polar sea October 1937-January 1940.

Account of the voyage of the *Sedov*, in 1937 in Laptev Sea, till beset in ice off the New Siberian Islands, the drift westward in the ice for twenty-seven months, and its liberation in Jan. 1940 between West Spitsbergen and Greenland by the ice-breaker, *Josef Stalin*.

Copy seen: DLC.

100. AHLMANN, HANS WILHELMS-SON, 1889-. Severnaya Zemlja enligt Usjakovs expedition 1930-32 och "Graf Zeppelins" flygfaerd, 1931. (Ymer, 1933. Årg. 53, p. 379-92, illus., map) *Title tr.*: Severnaya Zemlya according to the Ushakov Expedition, 1930-32 and *Graf Zeppelin's* flight, 1931.

Account of the *Sedov* Expedition in 1930 to Franz Josef Land and Severnaya Zemlya, and of G. A. Ushakov's topographical and geological survey of Severnaya Zemlya, 1930-32; with discussion of the physical geography of these islands and brief report of the scientific results.

Also account of the "Aeroarctic" Expedition with the airship *Graf Zep*

pelin, 1931, and discussion of the contributions of this expedition to the topographical knowledge of Severnaya Zemlya.

Copy seen: DLC.

101. AHLMANN, HANS WILHELMS-SON, 1889- . Spetsbergens kolfält. (Ymer, 1941. Årg. 61, p. 231-33) *Title tr.:* The coal region of Spitsbergen.

Remarks on the landing of Allied forces in Ice Fiord, West Spitsbergen, Sept., 1941; and discussion of coal mining on West Spitsbergen, 1900-41, especially by Norwegian companies.

Copy seen: DLC.

102. AHLMANN, HANS WILHELMS-SON, 1889- . Stefánssons polarexpedition, 1913-1918. (Ymer, 1919. Årg. 13, p. 81-91, map) *Title tr.:* Stefánsson's Arctic Expedition, 1913-1918.

Account of the Canadian government expedition to Beaufort Sea and the western arctic islands, 1913-1918, under Vilhjalmur Stefánsson and R. M. Anderson.

Copy seen: DLC.

103. AHLMANN, HANS WILHELMS-SON, 1889- . The stratification of the snow and firn on Isachsen's Plateau. Scientific results of the Norwegian-Swedish Spitsbergen Expedition in 1934. Pt. 1. (Geografiska annaler, 1935. Årg. 17, p. 29-42, illus. incl. photos., tables, diags.)

Results of observations made at the main station on Isachsen's Plateau. Bibliography, p. 42.

Copy seen: DLC.

104. AHLMANN, HANS WILHELMS-SON, 1889- . Striderna på Spetsbergen under det andra världskriget. (Ymer, 1945. Årg. 65, p. 316-17) *Title tr.:* Combats on Spitsbergen during the Second World War.

Account of the destruction of coal mines on West Spitsbergen by the British Navy, 1941; skirmishes between Germans and Norwegians there and Norwegian reconstruction work.

Copy seen: DLC.

105. AHLMANN, HANS WILHELMS-SON, 1889- . Den svensk-norska expeditionen till Nordostlandet och farvattnen däromkring sommaren 1931. (Ymer, 1932. Årg. 52, p. 1-31, illus., charts, maps) *Title tr.:* The Swedish-Norwegian Expedition to Northeast Land and surrounding waters during the summer of 1931.

Account of this expedition led by the author to explore the geology and glaciology of Northeast Land and the waters north of West Spitsbergen. Describes the voyage in the *Quest* and the sledge journey across Northeast Land's icecap, and gives a summary of the scientific results.

Copy seen: DLC.

106. AHLMANN, HANS WILHELMS-SON, 1889- . Über das Entstehen von Toteis. (Geologiska föreningen, Stockholm. Föreläsningar, 1938. Bd. 60, p. 321-41) *Title tr.:* On the occurrence of dead ice.

Contains a discussion of the types and origin of dead ice (i.e. that part of the edge of a glacier, which has lost contact with its main mass of ice, from which it can no longer derive new ice), with reference to the phenomenon in Svalbard, Alaska and elsewhere.

Copy seen: DGS.

107. AHLMANN, HANS WILHELMS-SON, 1889- , and B. E. ERIKSSON. Studies in Northeast Greenland, 1939-1940, Pt. I-IV. (Geografiska annaler, 1941-42. Årg. 23, p. 145-209; Årg. 24, p. 1-49, illus. (incl. 4 sketch maps) 4 plates on 1 fold. sheet)

Account of a three-man expedition, under the author's leadership, to make an intensive glaciologic study of Clavering Island.

Contents: Pt. 1. Ahlmann, H. W. The main morphological features of North-East Greenland [72°-76°N.].

Pt. 2. Ahlmann, H. W. Glacial conditions in North-East Greenland in general, and on Clavering Island in particular.

Pt. 3. Ahlmann, H. W. Accumulation and ablation on the Frøya Glacier; its régime in 1938-39 and in 1939-40.

Pt. 4. Eriksson, B. E. Meteorological records and the ablation on the Frøya Glacier in relation to radiation and meteorological conditions. (Mean daily and hourly temperature and relative humidity at a station on the edge of Frøya Glacier (145 cm. altitude), Aug. 1-18, 1939; and hourly (irregular) meteorological observations at a station on Frøya Glacier (453 m. altitude), Aug. 1-13, 1939. Bibliographies at the end of each part. *Copy seen:* DLC.

108. AHLMANN, HANS WILHELMS-SON, 1889- , and others. Scientific results of the Norwegian-Swedish Spits-

bergen Expedition in 1934. Introduction [and] Pts. [1-8]. (Geografiska annaler, 1935-36. Årg. 17, p. 22-88, 145-218. Årg. 18, p. 34-73, 225-44, illus., 4 plates (part fold., 2 maps, photos.) maps, tables, diagrs.)

Contents: Ahlmann, H. W. Introduction.

Pt. 1. AHLMANN, H. W. The stratification of the snow and firn on Isachsen's Plateau.

Pt. 2. AHLMANN, H. W. Ablation measurements at the headquarters on Isachsen's Plateau.

Pt. 3. SVERDRUP, H. U. The temperature of the firn on Isachsen's Plateau [etc.].

Pt. 4. SVERDRUP, H. U. The ablation of Isachsen's Plateau and on the Fourteenth of July Glacier in relation to radiation and meteorological conditions.

Pt. 5. AHLMANN, H. W. The Fourteenth of July Glacier.

Pt. 6. SVERDRUP, H. U. Results of the meteorological observations on Isachsen's Plateau.

Pt. 7. AHLMANN, H. W. The firn structure on Isachsen's Plateau.

Pt. 8. OLSSON, HILDING. Radiation measurements on Isachsen's Plateau.

Each part appears in this bibliography under its author's name.

121. AKADEMIYA NAUK SSSR. Putevoditel' po Khibinskim tundram. Leningrad, 1932. 200 p., illus., fold. map. *Title tr.:* Guide through the Khibiny tundras.

Thirty articles by various authors giving a comprehensive survey of the Khibiny region of Kola Peninsula, for travelers, workers, and new settlers.

Contains (in pt. 1) outline of (then) present conditions and prospective development of the region; its mineral resources and their industrial value, utilization of hydraulic power of the Niva River.

Pt. 2. History of exploration; geography and orography; hydrology; cartography; climate; geochemistry and mineralogy; petrography; flora and fauna.

Pt. 3. Suggestions for travelers concerning time and equipment for visiting the region, means of transportation, routes to follow on foot; various excursions in the region; the Murmansk railroad; Khibinogorsk (Kirovsk) and other populated places. Bibliography (60 items). *Copy seen:* DLC.

122. AKADEMIYA NAUK SSSR. Sistematicheskii ukazatel' statei, napechatannykh v 23 tomakh Meteorologicheskogo Sbornika, izdavavshagosi Imperatorskoi Akademii nauk s 1869 no 1894 g. St.-Petersbourg, 1895. 4 p. l., 19

p. (*Its*: Mémoires. Sér. 8, vol. 3, no. 4) **Title tr.:** A systematic guide to articles, printed in 23 volumes of the Meteorological Journal, published by the Imperial Academy of Sciences from 1869 to 1894.

A bibliography of subjects in meteorology and related fields which were published by the Academy of Sciences in the series "Repertorium für Meteorologie," 1869-94. **Copy seen:** DLC.

(*Its*: Trudy, vyp. 4) Compiled by V. F. Grucheva. **Title tr.:** Contribution to the knowledge of the history of the Academy of Sciences' Expeditions in the 18th and 19th centuries.

Chronological record, 1717-20 to 1899-1903, of 50 eighteenth, and 142 nineteenth century expeditions organized by the Academy, and those which carried out work for the Academy among other sponsors. The account of each expedition includes the circumstances of its inception, leader and participants, the region and purpose of investigation, also (frequently) remarks on the financing and on itinerary and accomplishments in the field; also a survey of materials in the Academy's archives relating to the expedition (including its original records); and (frequently) a list of publications resulting from the expedition. Appended are indexes of geographical names and aboriginal peoples (p. 273-86), explorers, authors, etc. (p. 287-98), mentioned in the text; also subjects investigated, scientific disciplines, etc., (p. 299-300). **Copy seen:** DLC.

Title tr.: At high latitudes; notes con-
cerning the flights of 1936-1946.

Narrative of the principal Soviet
flights to the arctic regions in which
the author participated as navigator,
with some attention to other flights.
Flights dealt with in full include: 1936
flight of Vodop'ianov (N-127, 128) to
83°N. 58° E.; 1937 expedition to the
North Pole, led by O. Iu. Shmidt (N-
169, 170, 171, 172, 166); 1937 flight of
Mazuruk (N-169) from Rudolf Island
to 87°N; the exploratory flights of
1938-40; 1941 flights of Cherevichnyi
(N-169) to the Pole of Inaccessibility
(about 84°N. 160°W); 1945 flight of
Titlov (N-331) to the North Pole; and
his 1946 flight (N-368) to the shores
of Greenland. These flights were for
the purpose of investigating ice con-
ditions, making meteorological and
other observations, testing planes and
equipment, etc. Some of the results are
given in the course of this narrative
(p. 40, 45-46, 72-73, etc.). Maps show
routes, details of ice-floe airfields, and
new discoveries. Illustrations include
aerial views of arctic terrain.

151. ALASKA. AGRICULTURAL EXPERIMENT STATION, *College*. Information for prospective settlers in Alaska. College, Alaska, 1948. 35 p. illus., fold. map. (*Its:* Circular no. 1). Originally issued 1916, revised editions 1917, 1923, 1930, 1937, 1941.

Contains introductory section on climate; brief descriptions of climate, soil, crops, etc., of the Matanuska and Tanana valleys and other regions; concluding sections on general information, such as where to locate, schools, judicial divisions, taxation, cost of living, industries, etc.

Copy seen: DLC; NNS Stef.

152. ALASKA. AGRICULTURAL EXPERIMENT STATION, *College*. Progress report, no. 1-11, 1932-1946. College, Alaska, 1932-49. 11 nos. No. 1-4, July 1932-Dec. 1934, issued by Alaska Agricultural College and School of Mines, Agricultural Experiment Station at College.

Contents similar to Alaska, Agricultural Experiment Stations, *Annual report*, q. v.

File seen: DA.

ALASKA. AGRICULTURAL EXPERIMENT STATION, *College*. See also Chamberlin, J. C. Insects agricultural & household importance. 1949.

153. ALASKA. AGRICULTURAL EXPERIMENT STATIONS. Annual report, 1897-1933. Washington, 1898-1934. 37 nos. illus., plates, tables.

Reports for 1897-1900 and 1905 were issued as U. S. Office of Experiment Stations, Bulletins 48, 62, 82, 94 and 169 respectively; reports for 1901-1904 were reprinted from the Annual reports of the U. S. Office of Experiment Stations for 1901-1904 respectively; reports for 1905-32 were issued as the Annual report of Alaska Agricultural Experiment Stations. Beginning 1933, the reports were issued as Progress report of Alaska Agricultural Experiment Station, *College*, q. v.

Contain data and reports on recent activity and development of a wide range of subjects: crops, dairy and poultry feeding and growing, testing of grains, pasture fertility tests, soil tests, pests, potatoes, etc., fur farming.

Weather summaries give monthly means and extremes of temperature, total precipitation, snow (in inches) and cloudiness, from the several stations.

187. *ALASKA MAGAZINE*. v. 1 (no. 1-5); Jan.-May 1927. [Juneau, Alaska Magazine, Inc., 1927] 282 p. illus., plates, ports., maps.

Edited by J. E. Meals, a short-lived monthly publication devoted to the history, natives and natural history and progress in Southeast Alaska.

Copy seen: DLC.

188. *ALASKA RAILROAD*. Alaska Engineering Commission. Message from the President of the United States, transmitting reports of the Alaskan Engineering Commission. [Washington] U. S. Govt. Print. Off., 1916] 2 p. l., 210 p. 54 plates, 2 fold. maps, diags. and portfolio of 18 [i.e. 21] fold. maps. (U. S. 64th Cong., 1st sess. House. Doc. 610)

Referred to the Committee on the Territories and ordered printed, Jan. 19, 1916.

The Commission was created by presidential appointment, May 1914, under an act of Congress, approved Mar. 12,

1914, to authorize the President to locate, construct and operate railroads in the Territory of Alaska.

Part 1 reports on the period, Mar. 12, 1914-Jan. 31, 1915; part 2, Feb. 1-Dec. 31, 1915.

Two general routes came under consideration: the eastern route from Cordova or Valdez northward via Copper, Tonsina and Delta Rivers and Tanana Valley to Fairbanks, and the western route starting from Portage Bay or Seward and following the shores of Turnagain and Knik Arms, thence northward through Susitna Valley, over Broad Pass and down Nenana River to, and along the Tanana to Fairbanks.

Contains in pt. 1, organizational documents and statement of plans and their results; detailed descriptions of existing railroads: Copper River & Northwestern, Alaska Northern, and Tanana Valley.

Physical descriptions of the eastern and western systems (mentioned above) and their many spur lines, especially into Matanuska coal field.

Discussion of the resources of Fairbanks district, the western and eastern systems, and notes on harbors; estimates of cost, and conclusion.

Appendices (twenty-six in all) cover a wide variety of reports on railway rates, agriculture, coal, mineral production, trade conditions, etc.

Pt. 2. Letters, orders and organizational details; report on construction from Anchorage northward; on town sites, medical service, surveys, and equipment; with notes on development during 1915, of Matanuska Valley, Fairbanks, and other districts.

Appendices (seven in all) concern finances, specifications, equipment and supplies.

Maps: Of the 18 maps, all but two represent preliminary surveys of areas between Seward and Fairbanks; with a soil map of Cook Inlet-Susitna and of Yukon-Tanana regions.

Copy seen: DLC.

189. *ALASKA SPORTSMAN*. "Denali," the high one. (*Alaska sportsman*, Feb. 1935. v. 1, no. 2, p. 8-10, 21, illus.)

Brief, factual introduction on Mt. McKinley, attempts at its ascent, and the local Indians' (called Ten'a) myth concerning its origin.

Copy seen: DLC.

190. **ALASKA SPORTSMAN.** Glacier gold. (Alaska sportsman, Aug. 1937. v. 3, no. 8, p. 8-9, 20, 22-23, illus.)

Account of tunneling 6,000 feet through a glacier near Hyder, Southeast Alaska in search of gold.

Copy seen: DLC.

191. **ALASKA SPORTSMAN.** Nesting notes on native geese. (Alaska sportsman, Apr. 1935. v. 1, no. 4, p. 12, 26, illus.)

Based on data assembled by members of the Alaska Sportsmen's Association, in Southeast Alaska.

Copy seen: DLC.

192. **ALASKA SPORTSMAN.** Winter transportation in the far North. (Alaska sportsman, Jan. 1936. v. 2, no. 1, p. 9, illus.)

Note on the malemute sledge dogs of Alaska, and their origin.

Copy seen: DLC.

193. **ALASKA SPORTSMAN.** v. 1-15, Jan. 1935-1949. Ketchikan, Alaska Magazine Publishing Co., etc., 1935-49. 15 v. illus. No numbers were issued for May, July-Nov. 1935.

Organ of the Alaska Sportsmen's Association, a monthly magazine devoted to natural history, hunting, trapping, fishing, news, history, description and travel, in Alaska and on its waters.

File seen: DLC.

ALASKA LAW COMPILATION COMMISSION. See Alaska. Laws, statutes, etc. Compiled laws of Alaska, 1949. 1948.

194. **ALASKA SPORTSMEN'S ASSOCIATION.** What about the abolishment of the Alaska Game Commission? (Alaska sportsman, Mar. 1935. v. 1, no. 3, p. 18, 28, illus.)

Analysis of the role of the Commission and a statement against the abrogation of the Commission and the Alaska game laws, as then recommended by the territorial legislature.

195. **THE ALASKA-YUKON GOLD BOOK.** A roster of the progressive men

and women who were the Argonauts of the Klondike gold stampede and those who are identified with the pioneer days and subsequent development of Alaska and the Yukon Territory. [Seattle, Sourdough Stampede Association, Inc., 1930] 147, [1] p. illus. (incl. ports., map) plates.

Contains in addition to the biographical section, brief historical sketches of Alaska and the Yukon Territory, the Royal Canadian Mounted Police, and missionaries; a brief description of the fisheries, and of marine disasters in Southeast Alaska.

Copy seen: DLC; NNS Stef.

196. **AL'BANOV, VALERIAN IVANOVICH.** Au pays de la mort blanche; récit de l'expédition arctique Broussiloff par l'un des deux survivants, A. Albanoff, premier pilote à bord du brick "Sainte-Anna," publié par le docteur L. Breitfuss et traduit de l'allemand par Th. Schoell. Paris, Payot, 1928. 203 p. illus. (maps). (Collection d'études, de documents et de témoignages pour servir à l'histoire de notre temps) *Title tr.:* In the land of the white death; narrative of the Brusilov arctic expedition by one of the two survivors, A. Albanov, first mate of the brig *Sv. Anna*; edited by Dr. L. Breitfuss, and translated from the German by Th. Schoell.

Translation of Albanov's *Mezhdu zhizn'iu i smert'iu*, 1925, q.v.

Copy seen: MH; NN.

197. **AL'BANOV, VALERIAN IVANOVICH.** Irrfahrten im Lande des weissen Todes. Stuttgart/Gotha, F. A. Perthes, 1925. 2 p. l., 206 p. front., 2 fold. maps. *Title tr.:* Wanderings in the land of white death.

German edition of Al'banov's *Mezhdu zhizn'iu i smert'iu*, 1925, q.v.

Copy seen: NN; NNS Stef.

198. **AL'BANOV, VALERIAN IVANOVICH.** *Mezhdu zhizn'iu i smert'iu*. Berlin, Knigoizd-vo "Slovo", 1925. 202, [3] p. 2 maps on fold. sheet. *Title tr.:* Between life and death.

First published as: *Na iug k Zemle Franza Iosifa* (Southward to Franz Josef Land) in U.S.S.R. *Gidrograficheskoe upravlenie. Zapiski po gidrografii*, in v. 41, Petrograd, 1917.

Also published in German as *Irrfahrten im Lande des weissen Todes*, 1925,

q.v.; and in French as *Au pays de la mort blanche*, 1928, q.v.

Account of the arctic expedition under G. L. Brusilov on the *Sv. Anna*, 1912-14, of which the author was a member.

Contains an introduction by L. L. Breitfus, giving a short history of the expedition, and of its ice drift from the coast of Yamal Peninsula through Kara Sea to about 83°18'N. 60°E., in the Arctic Basin north of Franz Josef Land, where the *Sv. Anna*, its commander, Brusilov, and part of the crew were lost.

Account by Al'banov of his attempt to reach Franz Josef Land over the ice on foot, with ten members of the crew, and of the rescue of the two surviving members of the Sedov expedition on *Sv. Foka*. Includes description of northwestern part of Franz Josef Land.

Maps show (1) arctic seas and the ice drift of the *Sv. Anna* compared with the ice drift of the *Fram* (scale approx. 1:20 million); (2) Franz Josef Land, ice drift of the *Sv. Anna* and route of Al'banov's party (scale approx. 1:6 million). *Copy seen:* DLC.

Ocherki po izucheniiu iakutskogo kraia. Irkutsk, 1927. Vyp. 1, p. 9-15, diag.) **Title tr.:** The tradition about the ancestors of the Yakuts of the Oiunovskii clan of the Viliuy region.

Contains a translation into Russian of a traditional story of the origin of the Oiunovskii clan, as recorded from an illiterate Yakut, F. P. Kryzhanovskii, whose genealogy is added.

Copy seen: NN.

242. ALEKSEEV, NIKOLAI NIKOLAEVICH. Ekspeditiia gidrograficheskogo sudna "Toros" v arkhipelag Nordenshel'da v 1926-37 godu. (Problemy Arktiki, 1938, no. 1, p. 78-84, illus., maps) **Title tr.:** Expedition of the hydrographic vessel *Toros* to Nordenskiöld Archipelago.

A description of the *Toros* expedition 1936-37, to these islands in Kara Sea (about 77°N. 94°E.)

Copy seen: DLC.

243. ALEKSEEV, NIKOLAI NIKO-LAEVICH. K materialam o techeniakh v prolive Źugorskii Shar. (Severnii morskoi put', 1935. No. 2, p. 51-53) *Title tr.*: On currents in the Yugorskii Strait.

Results of observations, Aug.-Sept., 1934, with tabular data on directions and average speed of currents in the strait.

Summary in English.

Copy seen: DLC.

244. ALEKSEEV, NIKOLAI NIKO-LAEVICH. K ostrovam Vrangeli i Gerai'da na p/kh "Sovet". (Severnii morskoi put', 1936. No. 5, p. 22-72, illus., maps, diagrs.) *Title tr.*: To Wrangel and Herald Islands aboard the steamer *Soviet*.

Description of several voyages to the region, the drift of the S.S. *Soviet* in Chukchi Sea, a report on its oceanographic (including deep sea) observations, also data on winds and ice conditions.

Summary in English.

Copy seen: DLC.

245. ALEKSEEV, NIKOLAI NIKO-LAEVICH. K voprosu ob organizatsii gidrograficheskikh rabot na zimovkakh. (Severnii morskoi put', 1939. No. 14, p. 70-76, illus., diagr.) *Title tr.*: On the problem of the organization of hydrographic work in wintering stations.

Discussion on the timing and organization of work under conditions of arctic winters and a description of methods of snowhouse building.

Copy seen: DLC.

246. ALEKSEEV, NIKOLAI NIKO-LAEVICH. Zimovka gidrograficheskogo otriada na g/s "Toros" v arhipelag Nordenshel'da v 1936-37 godu. (Severnii morskoi put', 1938. No. 9, p. 104-106, illus.) *Title tr.*: Wintering of the surveying party on H.S. "Toros" on the Nordenskiöld Archipelago in 1936-1937.

A short account of the voyage and of the work done during the wintering period.

Copy seen: DLC.

247. ALEKSEEV, NIKOLAI NIKO-LAEVICH. Zimovka na "Torose". Leningrad, Izd-vo Glavsevmorputi, 1939. 274, [2] p. illus., maps (1 fold.) *Title tr.*: Wintering on the *Toros*.

Popular account of the voyage of the survey ship *Toros* in 1936-37 for inves-

tigation on the Northern Sea Route. Includes description (with diagrams) of the ship, especially built for arctic exploration (p. 7-10), its equipment and the voyage in Barents and Kara Seas. Notes the inspection of relics (apparently of V. A. Rusanov's expedition on the *Hereules* 1912-13) found on Popova-Chukchina Island (74°57'N. 87°19'E.) (p. 62-64); the wintering of the *Toros* frozen in at Ledyanaya Bay (about 76°10'N. 95°16'E.) on Bonevi Island in Nordenskiöld Archipelago; winter work of the party, trips for investigation of nearby regions, and the voyage back to Arkhangel'sk.

Maps include a folded map (scale approx. 1 in.: 10 km.) of the southern part of the Nordenskiöld Archipelago (Taymyr Island and adjoining islands) summing up the investigations of this and other expeditions.

ural'skaia, vyp. 6: Pripoliarnyi Ural, p. 57-89, illus.) *Title tr.*: Short geological description of the Sura-iz Mountain region.

Geology and petrology of this region (65°10'N. 66°20'E.) of the Northern Ural Mountains based on several field trips by the author.

Summary in English.

Copy seen: DLC.

251. ALESHKOV, A. N. Geologicheskii ocherk zolotonosnogo raiona Liapinskogo kraia. (Leningrad. Vsesoiuznyi arkticheskii institut. Trudy, 1937. T. 74, p. 83-108, illus. (incl. maps), plate) *Title tr.*: Short geological description of gold-bearing region in Liapinsky district.

Data on stratigraphy and petrology in the basin of the Lyapin River (64°7'-64°40'N., 60°-61°E.) with bibliography.

Summary in English.

Copy seen: DLC.

252. ALESHKOV, A. N. Gora Sablia i ee ledniki. (In: Ural; pripoliarnye raiony, 1935, p. 56-74, illus., 2 maps) *Title tr.*: Mount Sablya and its glaciers.

Results of the exploration of Mount Sablya by the Glaciological Expedition to the Urals, 1932-33, containing a description of its topography, geology and glaciers.

Summary in English, p. 295-98.

Copy seen: DLC.

253. ALESHKOV, A. N. Gornye porody raiona gory Narodnoi. (In: Ural, pripoliarnye raiony, 1935, p. 87-115, illus.) *Title tr.*: Rocks in the region of Mt. Narodnaya.

A geological description based on the author's observations made in 1927, 1929, 1932-33, and a petrologic study of his collection of rocks (also collections of S. G. Boch, of 1933).

Summary in English, p. 299-302.

Copy seen: DLC.

(In: Ural; pripoliarnye raiony, 1935, p. 5-25, illus., map) *Title tr.*: A review of the activities of the Glaciological Expedition to the Urals, with a characteristic of the region of Mts. Narodnaya and Sablya.

Report on the work of the expedition of 1932-33, organized by the U.S.S.R. Committee of the Second International Polar Year, in the northern regions of the Ural Mts. Includes information on glaciers surveyed and a physico-geographical, geological, and geomorphological sketch of the mountains.

Summary in English, p. 293-94.

Copy seen: DLC.

257. ALESHKOV, A. N. Ein rezentzer Gletscher im nördlichen Ural. (Zeitschrift für Gletscherkunde, 1930. Bd. 18, p. 57-62, illus.) *Title tr.*: A recent glacier in the northern Urals.

Detailed description of the Hofmann Glacier in the Sablya range of the Urals, between 64°-65°N.

Copy seen: DGS.

258. ALESHKOV, A. N. V severnoi chasti pripoliarnogo Urala. (In: Ural; pripoliarnye raiony, 1935, p. 150-76, illus., map) *Title tr.*: In the northern part of the subpolar Ural.

Notes from a trip from Mt. Narodnaya along the Ural ridge to the headwaters of the Lyapin River, (65°-65°40'N.) by a party of the Glaciological Expedition to the Urals, 1932-33. Includes sketch of the general geography, the glaciation, climate, geological structure and petrology.

Summary in English, p. 303-304.

Copy seen: DLC.

259. ALEXANDER, ALVIN BURTON, 1854- , and H. B. JOYCE. Preliminary examination of halibut fishing grounds of the Pacific coast, by A. B. Alexander, with introductory notes on the halibut fishery, by H. B. Joyce. Washington, U. S. Govt. Print. Off., 1912. 56 p. tables. (U. S. Fish and Wildlife Service. Report of the Commissioner of Fisheries, 1911. Special paper no. 5. Fisheries document no. 763)

Results of a cruise of the *Albatross*, May-Aug. 1911, in the waters of Southeast Alaska, and Prince William Sound, westward to Kodiak, Shumagin Islands, and Akutan Island of the eastern Aleutians.

Results of trials are discussed for each locality, with tables showing depths, character of bottom, air and sea-surface temperatures, bait, size and weight of halibut, and remarks on other fishes caught. *Copy seen:* DF.

286. ALLEN, ARTHUR AUGUSTUS, 1885-, and HENRY KYLLINGSTAD. The eggs and young of the bristle-thighed curlew. (Auk, Oct. 1949. v. 66, p. 343-50, illus., plate)

Results of the author's expedition in summer 1948, to explore for the nesting place of the bristle-thighed curlew. Description of its breeding range, in the tundra of the lower Yukon River, the nest, eggs, and downy young of the bird, with tabular data on plumage characteristic, and a bibliography (4 items).

Copy seen: DSI-M.

287. ALLEN, ARTHUR S. Under sail to Greenland; being an account of the voyage of the cutter "Direction" ... in

the summer of 1929, together with the log, letters and other memoranda. New York, Privately printed, 1931. 91, [1] p. 12 plates.

Narrative of a cruise in a small sailboat to Godthaab, and of a few weeks' sojourn there. The trip was also recorded in *N by E* by Rockwell Kent, q.v.

Copy seen: NNStef.

ALLEN, C. F. See Poulter, T. C., & others. Seismic measurements on Taku Glacier. 1949.

288. ALLEN, EDWARD WEBER, 1885-. Beyond three miles. (Alaska life, July 1939. v. 2, no. 3, p. 8-10, illus.)

Discussion of the threat to North American fish conservation, by Japanese encroachment in Alaskan waters.

Copy seen: DLC.

289. ALLEN, EDWARD WEBER, 1885-. The fishtrap question. (Alaska life, Apr. 1946. v. 9, no. 4, p. 13, 42)

Discussion of salmon traps of Alaskan waters, in the first phases of the legislative battle to get them outlawed.

Copy seen: DLC.

290. ALLEN, EDWARD WEBER, 1885-. North Pacific: Japan, Siberia, Alaska, Canada. New York, Professional & Technical Press, 1936. 2 p. l., vii-xvi, 282 p. col. front., 65 plates, 7 maps; maps on lining-papers.

Observations of the representative for the United States on the International Fisheries Commission, during a voyage on the fishing vessel *Santa Ana* in 1935. The ship's circumnavigation of the North Pacific Ocean included cruising the Inside Passage to Alaska, and Bering Sea from Dutch Harbor to Petropavlovsk. The author gives information for the business man and those interested in international problems, on the history, diplomatic relations and economics (especially fisheries) of the regions visited; bibliography (27 items on the North).

Copy seen: DLC; NNStef.

291. ALLEN, EDWARD WEBER, 1885-. Trouble in the Bering. (Alaska life, July 1938. v. 1, no. 6, p. 3, 16, 21)

Discussion of the United States and Canadian salmon and halibut fishery and measures for conservation, as affected by encroachment of other nations.

Copy seen: DLC.

292. ALLEN, EUGENE THOMAS, 1864-, and E. G. ZIES. A chemical study of the fumaroles of the Katmai region. (National Geographic Society. Contributed technical papers. Katmai ser., 1923. v. 1, p. 75-155, illus.)

Results of the fifth Katmai Expedition of the National Geographic Society, 1919. Papers from the Geophysical Laboratory, Carnegie Institution of Washington, no. 485.

Contains a discussion of the temperature of the vents, its causes and explanation, the evidence indicating declining activity of the vents, and the gases and water of the Valley of Ten Thousand Smokes. *Copy seen:* DGS.

293. ALLEN, GLOVER MORRILL, 1879-1942. The American collared lemmings (*Dicrostonyx*). (Harvard University. Museum of Comparative Anatomy. Bulletin, 1919. v. 62, p. 507-540, plate, sketch map)

A revision of the American forms, to define more clearly their relationships and distribution. Includes discussion of these lemmings' possible origin on the North American continent, and the role of Pleistocene ice movements in its subsequent history; remarks on generic and subgeneric characters and on fossil forms; detailed description of seasonal colors, anatomy, molt and geographic distribution of the collared lemmings of Labrador, Alaska, the Barren Grounds of Canada (Richardson's), Unalaska, St. Lawrence Island (here described as a new species), and Greenland (ranging throughout North Greenland, Ellesmere and Baffin Islands). Bibliography (24 items).

296. ALLEN, HENRY TUREMAN, 1859-1930. Atnatanas; natives of Copper River, Alaska. (*In:* Smithsonian Institution. Annual report, 1886, *pub.* 1889. p. 258-66)

Description of the Ahtena Indians in the Copper River basin; brief notes on their settlements, physique, food, houses, dress, ornaments, weapons, dogs, language, customs and social organization. *Copy seen:* DLC.

297. ALLEN, HENRY TUREMAN, 1859-1930. Die Atnatánas oder Anwohner des Kupferflusses. (*Deutsche geographische Blätter*, 1886. Bd. 9, p. 216-27) *Title tr.:* The Ahtenas or people of the Copper River area.

Sketch of the ethnology of the Indians of the Copper River country, Alaska, based upon the U. S. Military Expedition to Alaska led by Lt. Allen in 1885. *Copy seen:* DLC.

ALLEN, HENRY TUREMAN, 1859-1930. *See also* U. S. Army. Dept. of the Columbia. Report of exped. to Copper, Tananá, & Koyukuk R. 1885. 1887.

298. ALLEN, J. A., and R. A. WARDLE. Fluke disease in northern Manitoba sledge dogs. (*Canadian Journal of research*, Apr. 1934. v. 10, p. 404-408, plate)

Detailed description of a new liver fluke, *Parametorchis manitobensis*, with notes on symptoms in the dogs, and the gross and microscopic pathology of the infestation; by the pathologist, Manitoba Game and Fisheries Branch, and the professor of zoology, University of Manitoba. *Copy seen:* DSI-M.

299. ALLEN, JOEL ASAPH, 1838-1921. The black bear of Labrador. (*American*

Museum of Natural History. Bulletin, 1910. v. 28, p. 1-6)

Discussion, comparing specimens from other localities, also tables of skull measurements for specimens from Labrador and Kenai Peninsula, Alaska.

Copy seen: DLC.

300. ALLEN, JOEL ASAPH, 1838-1921. Description of a new caribou from Kenai Peninsula, Alaska. (*American Museum of Natural History. Bulletin*, 1901. v. 14, p. 143-48, illus.)

Part of a collection made by Andrew J. Stone, 1900, for the American Museum of Natural History.

Copy seen: DLC.

301. ALLEN, JOEL ASAPH, 1838-1921. Description of a new caribou from northern British Columbia and remarks on *Rangifer montanus*. (*American Museum of Natural History. Bulletin*, 1902. v. 16, p. 149-58, illus.)

Description of specimen obtained by the Andrew J. Stone Expedition from the Cassiar Mts. and comparison with other species. *Copy seen:* DLC.

302. ALLEN, JOEL ASAPH, 1838-1921. The hair seals (family Phocidae) of the North Pacific Ocean and Bering Sea. (*American Museum of Natural History. Bulletin*, 1902, v. 16, p. 459-99, illus.)

Descriptions of three species collected on Jesup North Pacific Expedition with discussion of other forms, "a preliminary revision of the seals of the family Phocidae known to occur in the North Pacific."

Copy seen: DLC.

303. ALLEN, JOEL ASAPH, 1838-1921. List of mammals collected in Alaska by the Andrew J. Stone Expedition, 1901-03. (*American Museum of Natural History. Bulletin*, 1902. v. 16, p. 215-30)

Narrative of the expedition, and list with locations, field notes and references to descriptions, of twenty-six species. *Copy seen:* DLC.

304. ALLEN, JOEL ASAPH, 1838-1921. Mammals collected in Alaska and northern British Columbia by the Andrew J. Stone Expedition of 1902. (*American Museum of Natural History. Bulletin*, 1903. v. 19, p. 521-67)

Annotated list of forty-three mammals, including descriptions of five new

species from Alaska Peninsula, Wrangel, Kupreanof Island, and Telegraph Creek.

Copy seen: DLC.

305. ALLEN, JOEL ASAPH, 1838-1921. Mammals collected in Alaska by the Andrew J. Stone Expedition of 1903. (American Museum of Natural History. Bulletin, 1904. v. 20, p. 273-92, illus.)

Narrative of the expedition, and annotated list of twenty-eight species, represented by 873 specimens taken for the Museum from Alaska Peninsula and Kenai Peninsula.

Copy seen: DLC.

306. ALLEN, JOEL ASAPH, 1838-1921. Mammals from the Athabaska-Mackenzie region of Canada. (American Museum of Natural History. Bulletin, 1910. v. 28, p. 7-11)

List, with notes, measurements, locations, etc., of twenty-five species represented by about 270 specimens taken by E. Thompson Seton, 1907, along Athabaska River, Slave River, and Great Slave Lake to Aylmer Lake in the Barren Grounds.

Copy seen: DLC.

307. ALLEN, JOEL ASAPH, 1838-1921. The mountain caribou of northern British Columbia. (American Museum of Natural History. Bulletin, 1900. v. 13, p. 1-18, illus.)

Description, with notes on habits and distribution, of specimens taken in the Cassiar Mountains by Andrew J. Stone Expedition, 1897-99; also comparison of this with three other arctic species.

Copy seen: DLC.

308. ALLEN, JOEL ASAPH, 1838-1921. The musk-oxen of arctic America and Greenland. (American Museum of Natural History. Bulletin, 1901. v. 14, p. 69-86, illus., 6 plates)

Full description of Peary's musk ox (*O. wardi*) sent from Bache Peninsula, Ellesmere Island, and discussion of the range of other species across the North American Arctic.

Copy seen: DLC.

309. ALLEN, JOEL ASAPH, 1838-1921. A new bear from the Alaska Peninsula. (American Museum of Natural History. Bulletin, 1902. v. 16, p. 141-43, 2 plates)

Description, with notes on location and a comparison with other species, of

specimen obtained by Andrew J. Stone Expedition, 1901-03.

Copy seen: DLC.

310. ALLEN, JOEL ASAPH, 1838-1921. A new caribou from Ellesmere Land. (American Museum of Natural History. Bulletin, 1902. v. 16, p. 409-412, illus.)

Description, with notes on occurrence and on other forms, of a new species taken by Robert E. Peary, 1902.

Copy seen: DLC.

311. ALLEN, JOEL ASAPH, 1838-1921. A new caribou from the Alaska Peninsula. (American Museum of Natural History. Bulletin 1902. v. 16, p. 119-27, illus.)

Description with discussion of specimens obtained as result of the Andrew J. Stone Expedition, 1901-03.

Copy seen: DLC.

312. ALLEN, JOEL ASAPH, 1838-1921. A new sheep from Kamchatka. (American Museum of Natural History. Bulletin, 1904. v. 20, p. 293-98, illus.)

Description of a new species, with discussion.

Copy seen: DLC.

313. ALLEN, JOEL ASAPH, 1838-1921. A new sheep from the Kenai Peninsula. (American Museum of Natural History. Bulletin, 1902. v. 16, p. 145-48, illus.)

Description with discussion of specimens acquired by the Museum as result of the Andrew J. Stone Expedition, 1901-03.

Copy seen: DLC.

314. ALLEN, JOEL ASAPH, 1838-1921. Note on the wood bison. (American Museum of Natural History. Bulletin, 1900. v. 13, p. 63-67)

Note on a specimen from Great Slave Lake area with some discussion of distribution.

Copy seen: DLC.

315. ALLEN, JOEL ASAPH, 1838-1921. On mammals from the Northwest Territory collected by Mr. A. J. Stone. (American Museum of Natural History. Bulletin, 1899. v. 12, p. 1-9)

List, with some description, discussion of synonymy and distribution, of seventeen (including five new) species (mostly rodents) from the Andrew J. Stone Expedition, 1897-99, in the Rocky Mountains of Yukon and Northwest Territories.

Copy seen: DLC.

316. ALLEN, JOEL ASAPH, 1838-1921. Ontogenetic and other variations in muskoxen, with a systematic review of the muskox group, recent and extinct. (American Museum of Natural History. Memoirs, 1913. New. ser. v. 1, pt. 4, p. 101-226, illus., plates 11-18, map)

Discussion and descriptions with extensive bibliographical references throughout, based on specimens from North Greenland and Ellesmere Island, collected by the Peary expeditions, and from the Barren Grounds, and Melville Peninsula; also on observations of Stefansson, Anderson, Comer, and Macmillan.

Copy seen: DLC.

317. ALLEN, JOEL ASAPH, 1838-1921. Preliminary description of a new mountain sheep from the British Northwest Territory. (American Museum of Natural History. Bulletin, 1897. v. 9, p. 111-14, 2 plates)

Description, with discussion and notes on habitat, of a new species taken in the Coast Range by Andrew J. Stone.

Copy seen: DLC.

318. ALLEN, JOEL ASAPH, 1838-1921. Report on mammals collected in northeastern Siberia by the Jesup North Pacific Expedition, with itinerary and field notes, by N. G. Buxton. (American Museum of Natural History. Bulletin, 1903. v. 19, p. 101-184, 195-96)

Contains journal of the expedition (by N. G. Buxton); annotated list of thirty-five mammals, including descriptions of ten new species collected mainly in the Anadyr and Kolyma River regions, west coast of Okhotsk Sea and East Cape (mys Dezhneva) on Chukotsk Peninsula; also discussion of American affinities of certain east Siberian mammals. Addendum, p. 195-96.

Copy seen: DLC.

319. ALLEN, JOEL ASAPH, 1838-1921. Report on the birds collected in northeastern Siberia by the Jesup North Pacific Expedition, with field notes by the collectors. (American Museum of Natural History. Bulletin, 1905. v. 21, p. 219-57)

Annotated list of 127 species (including two new species fully described) represented by 800 skins, etc., collected for the Museum, near the Anadyr River, Gizhiga River, Lake Khanka (a

few), and Indian Point (mys Chaplina) on Chukotsk Peninsula.

Copy seen: DLC.

320. ALLEN, JOEL ASAPH, 1838-1921. The seals and walruses. (In: Goode, G. B., and others. The fisheries and fishery industries of the U. S., 1884. Section 1, p. 33-74, 14 plates)

Extracted from the author's *Monograph of the pinnipeds of North America*, 1880. "The material is here published in such a different form, being divested of the great mass of technical matter, interesting chiefly to zoologists . . . that it is to all intents a fresh presentation of the subject . . . The biography of the walruses has been condensed and rewritten by G. B. Goode."

Contains notes on habits, distribution, migration and appearance of seals, sea lions and sea elephants of the waters off the North American continent.

Copy seen: DF.

321. ALLEN, JOEL ASAPH, 1838-1921. Shall the walrus become extinct. (Natural history, Jan. 1913. v. 13, p. 38-42, illus.)

Note on slaughter of walrus in the arctic waters off the Alaskan and Siberian coasts, with general remarks on their early distribution.

Copy seen: DSI-M; NNStef.

342. ALMQUIST, SIGFRID OSKAR IMMANUEL, 1844-1923. De skandinaviska arterna af släktet *Biatorella*. (Botaniska notiser, 1866, no. 5, p. 65-69) *Title tr.*: On Scandinavian species of the genus *Biatorella*.

Contains a critical revision of six Scandinavian species of lichen genus *Biatorella* (one new), including *B. Lapponica* native to Lapland, with Latin descriptions, synonymy and critical notes.

Copy seen: MH-A.

343. ALMQUIST, ERNST BERNHARD, 1852-1946. Helso- och sjukvården under Nordenskiöldska ishafsexpeditionen, 1878-1880. (In: Nordenskiöld, N. A. E. Vega-expeditionens vetenskapliga iakttagelser, 1882. Bd. 1, p. 161-83) *Title tr.*: Hygiene and care of the sick during Nordenskiöld's Arctic Expedition, 1878-1880.

Contains notes on equipment, the

journey and the wintering on the north coast of Chukotsk Peninsula.

Appendices: 1. Menu and rations, 1878. 2. Health record. 3. Temperature observations at winter quarters and below deck; and wind velocities at Petlekay (67°10'N. 173°24'W.) winter 1878-79.

Copy seen: DGS; DLC.

344. ALMQUIST, ERNST BERNHARD, 1852-1946. Die Lichenenvegetation der Küsten des Beringmeeres. (In: Nordenskiöld, N. A. E. Vega-expeditionens vetenskapliga iakttagelser, 1887. Bd. 4, p. 509-541) *Title tr.*: Lichen vegetation of the coasts of Bering Sea.

Contains descriptions of habitats at St. Lawrence Bay and Konyam Bay (about 64°50'N. 172°40'W.) on the Chukotsk Peninsula; Port Clarence, Seward Peninsula; St. Lawrence Island and Bering Island; the plant communities with special reference to lichens. Remarks on a distinct boundary at Port Clarence between tundra and bare soil; the natural migration of plants on Bering Island and the character of the lichen flora of these coasts.

Copy seen: DGS.

345. ALMQUIST, ERNST BERNHARD, 1852-1946. Lichenologiska iakttagelser på Sibiriens nordkust. (Svenska vetenskapsakademien. Öfversigt af förhandlingar, 1879. Arg. 36, no. 9, p. 29-59) *Title tr.*: Observations on the lichens of the northern coast of Siberia. Issued also as: Nordenskiöld, N. A. E. Vega-expeditionens vetenskapliga iakttagelser, 1882. Bd. 1, p. 195-222.

Contains (1) descriptions of islands and coastal points on the northern coast of Siberia from Novaya Zemlya to Bering Strait and of their lichen vegetation; (2) summary of the lichen localities on the coastal tundra; and (3) some characteristics of the coastal tundra's lichen flora.

Copy seen: DLC.

346. ALMQUIST, ERNST BERNHARD, 1852-1946. Studier öfver Tschuktschernas färgsinne. (Svenska vetenskapsakademien. Öfversigt af förhandlingar, 1879. Arg. 36, no. 9, p. 61-69) *Title tr.*: Studies on the color sense of the Chukchis. Issued also as: Nordenskiöld, N. A. E. Vega-expeditionens vetenskapliga iakttagelser, 1882. Bd. 1, p. 185-94.

Contains notes on tests given to about 300 persons from villages along the north coast of the Chukotsk Peninsula.

Copy seen: DGS; DLC.

Describes a pleasure trip along the Norwegian coast and west coast of West Spitzbergen in Aug. 1893, as seen by the eye of an artist. The party reached 80°55'N. before being turned back by pack ice.

Copy seen: DLC.

352. ALYMOV, V. K. Rozhdaemost' i smertnost' loparei Kol'skogo poluostrova. (Akademiia nauk SSSR. Kommissiia ekspeditsionnykh issledovani. Materialy, 1930. Vyp. 23, Seriia severnaia. Kol'skii sbornik, p. 71-101, tables) *Title tr.:* Birth and death rates among the Lapps of Kola Peninsula.

A study of vital statistics based on data collected by the author, 1923-29.

Copy seen: DLC.

353. ALYMOV, V. K. Rozhdaemost' i smertnost' saamskogo naseleniia (loparei) Kol'skogo poluostrova v 1921-30 g.g. (Sovetskii Sever, 1932, no. 4, p. 124-27, tables) *Title tr.:* Birthrate and mortality among Laplanders of Kola Peninsula, 1921-30.

Contains data on vital statistics from censuses of 1782, 1857-58 and 1926-27, also from parish registers for 1921-30.

Copy seen: DLC.

354. AMBRONN, H. Allgemeines über die Vegetation am Kingua-Fjord. (In: International Polar Year. 1st, 1882-1883. Deutsche Polar-Kommission. Die deutschen Expeditionen, 1890. Bd 2, p. 61-74) *Title tr.:* General remarks on the vegetation of Kingua Fjord.

The author accompanied the German Arctic Expedition of the First International Polar Year, to Cumberland Sound, Baffin Island. This paper embodies his previous study of other authors' works on phytogeography of the North American Arctic, and a growth analysis of collections made during the expedition, also those made by Dr. F. Boas in the same region, subsequently. Includes a description of the terrain, temperature and moisture characteristics relative to plant occurrence and growth, with a tree-ring analysis of the woody vegetation.

Copy seen: DLC.

364. AMDRUP, GEORG CARL, 1866-1947. De magnetiske observationer

(*In:* Amdrup, G. C. Carlsbergfondets expedition til Øst-Grønland. 1. del, nr. 6. *Pub.* in: Meddelelser om Grønland, 1902. 27. hefte, p. 319-22, table)

Discussion of observations made at Tasiusak, the expedition's winter quarters in the Angmagssalik region and table of magnetic variations determined, 1899-1900, in the region between Angmagssalik and Cape Dalton.

Copy seen: DLC.

365. AMDRUP, GEORG CARL, 1866-1947. Mylius-Erichsen's report on the non-existence of the Peary Channel: information brought home by Ejnar Mikkelsen. Danmark-ekspeditionen til Grønlands nord-østkyst, 1906-1908. Bd. I, nr. 5 (Meddelelser om Grønland, 1913, Bd. 41 p. 469-74)

Result of the *Alabama* Expedition 1909-12, Mikkelsen's effort to find diaries and records of Mylius-Erichsen and Hagen, lost (like Brønlund) in northeast Greenland, 1907, during the *Danmark* expedition. This paper records two reports of the lost men, dated Danmarks Fjord, Sept. 12, 1907, and Aug. 8, 1907 (written on Crown Prince Christian Land). The second report states that on June 1, 1907, the three men reached Cape Glacier and discovered that Peary Channel did not exist as Navy Cliff was connected by fast land with Heilprinn Land. Independence Bay was renamed Independence Fjord, on the basis of this discovery.

368. **AMDRUP, GEORG CARL, 1866-1947.** Report on the Danmark Expedition to the northeast coast of Greenland 1906-1908. Danmark-ekspeditionen til Grønlands nordøstkyst, 1906-1908. Bd. I, nr. 1. (Meddelelser om Grønland, 1913, Bd. 41, p. 1-270, 10 fold. plates (incl. 3 fold. maps, facsim.))

Planned, organized and led by L. Mylius-Erichsen, the expedition was financed by the Danish government, the Carlsberg Fund and many private persons. The Danmark remained at Cape Bismark on Germania Land during the winters of 1906-1907, 1907-1908, while sledge and boat journeys for surveying and scientific research were carried out. During the northern sledge journey of 1907, Mylius-Erichsen, Hagen, and Brønlund lost their lives.

Amdrup gives a detailed account of the organization and financing, the members, agreements and plans of the expedition; narratives from journals of the two voyages, the various sledge and boat journeys, and the work at the Danmarks Havn station; Brønlund's diary; list of journeys made; also list of documents, diaries and reports used in preparing this report.

AMERICAN ACADEMY OF SCIENCE. *See* U. S. Navy Dept. Instructions for exped. toward N. Pole. 1871.

374. AMERICAN COMMITTEE FOR INTERNATIONAL WILDLIFE PROTECTION. The present status of the musk-ox in arctic North America and Greenland, with notes on distribution, extirpation, transplantation, protec-

tion, habits and life history. [New York?] 1934. 87 p. 4 plates, 3 sketch maps. (*Its*: Special publication no. 5)

"The publication of this report is a contribution from the Wilderness Club of Philadelphia." Prepared by Elisabeth Hone, it is based on a two-year investigation of published reports and papers, and on correspondence with scientists and sportsmen.

Contents: 1. Foreword.

2. Introduction: synonyms, races, characters.

3. Distribution: fossil, prehistoric range, former distribution in Alaska; distribution in the Barren Grounds, Hudson Bay region, continental Canada, and Greenland. Seasonal movements, food habits, etc.

4. History of extirpation: Canada, Ellesmere Island, Greenland; hunting by Eskimos and Indians; natural enemies.

5. Preservation: protection in Canada and Greenland; proposed regulations; utilization of wool, hide, horns and meat.

6. Natural history: fighting, breeding, composition herds, etc.

7. General description.

8. Bibliography (162 items).

380. AMERICAN GEOGRAPHICAL SOCIETY, *New York*. An expedition to the northern magnetic pole. A discussion before the American Geographical Society, May 2, 1892. (*Its*: Journal (Bulletin) 1892, v. 24, p. 215-61, fold, map)

Remarks on the original suggestion by W. H. Gilder in 1890, of an expedition to explore region around the North Magnetic Pole; correspondence of the U. S. Coast and Geodetic Survey, Treasury Dept., and National Academy of Sciences, concerning their interest in the matter; plan for a magnetic survey of the region prepared by C. A. Schott, and addresses by Prof. Trowbridge, Prof. Mayer, and General Greeley.

Copy seen: DLC.

381. AMERICAN GEOGRAPHICAL SOCIETY, *New York*. First exploration of the Harvard Glacier, Alaska. (*Its*: Bulletin, Feb. 1915, v. 47, p. 117-19, illus.)

Based on a report by Dora Keen of a six weeks' field trip in the Prince William Sound region, summer 1914, to explore and map the unexplored part of the Chugach Mts. in which Harvard Glacier heads. Referring to photographs taken by earlier parties in the region, changes were determined in the glaciers of College Fiord, Harriman Fiord and Columbia Bay. *Copy seen*: DLC.

382. AMERICAN GEOGRAPHICAL SOCIETY, *New York*. Further news of the explorer Radford's death. (Geographical review, Oct. 1916, v. 2, p. 301-02)

Details of the death of the zoologist H. V. Radford, apparently at the hands of Eskimos of Bathurst Inlet on June 5, 1912. Notes on Radford's explorations, accounts of which appear under his name in this Bibliography.

Copy seen: DLC.

383. AMERICAN GEOGRAPHICAL SOCIETY, *New York*. Launching of the "Roosevelt". (*Its*: Bulletin, Apr. 1905, v. 37, p. 220-21, plate)

Description (in brief) of the Peary Arctic Club's ship, especially designed for the Peary Expedition, 1905-06.

Copy seen: DLC.

384. AMERICAN GEOGRAPHICAL SOCIETY, *New York*. The non-existence of Peary Channel. (Geographical review, June 1916, v. 1, p. 448-52, map)

Review of opinions and circumstances connected with Peary's reporting the existence of a "channel" between Independence Fiord and Nordenskiöld Inlet, in 1892. This review followed receipt of Knud Rasmussen's report of the First Thule Expedition, in which he tells of mapping this disputed area in North Greenland in 1912.

399. AMUNDSEN, ROALD ENGEL-BREGT GRAVNING, 1872-1928. Nordostpassagen. Maudfaerden langs Asiens kyst 1918-1920. H. U. Sverdrups ophold blandt Tsjuktsjerne. Godfred Hansens depotekspedition 1919-1920. Kristiania [etc.] Gyldendal, 1921. 3 p. l, 467 p. illus., plates, ports, 4 fold. maps, facsim. *Title tr.:* The Northeast Passage. The voyage of the *Maud* along the coast of Asia 1919-1920. H. U. Sverdrups sojourn among the Chukchis. Godfred Hansen's Depot Expedition, 1919-1920.

Popular narrative of the first two years of the *Maud* Expedition, 1918-25, under Amundsen, undertaken to attempt a drift in waters north of Siberia and to make oceanographic, meteorological, aerological and magnetic observations.

Contains plans for the expedition, account of the voyage from Norway, July 1918, via Khabarovo and Dikson Harbor to the Cape Chelyuskin coast and the wintering there, Sept. 1918-Aug. 1919. Describes the preparation of the *Maud* for wintering, erection of an observatory on the coast, daily life, hunting and sledge trips during the spring of 1919 to explore and map Cape Chelyuskin.

Text of Amundsen's diary, Aug. 5, 1919-July 27, 1920, describing the departure Aug. 1919, of Tessem and Knudsen, taking scientific results and mail to Dikson Harbor; remarks on weather and ice conditions, the further voyage of the *Maud* to Ayon Island (69°50'N. 169°E.) the wintering there, 1919-20, and the spring voyage eastward, reaching Nome on July 27, 1920.

Account (p. 398-420), by Helmer Hanssen, of his and Tønnesen's sledge trip Dec. 1919-June 1920, from the winter quarters at Ayon Island to Anadyr' to telegraph to Norway news of the expedition.

Sverdrup's account of his sojourn among Reindeer Chukchis and Lamuts (p. 255-391) and Godfred Hansen's of the Third Thule Expedition (p. 437-62) appear in this Bibliography under the authors' names.

Later course of the expedition (1922-25) is described in H. U. Sverdrup, *Tre år i isen med Maud*, 1926, q.v.

Maps show the route of the *Maud*, 1918-20; the Chukotsk Peninsula with routes of sledge trips (1:500,000); the northeastern coast of the Taymyr Peninsula (1:100,000); and the country between Chaun Bay and the Kolyma River, indicating the route of Sverdrup's trip with the Chukchis to and from their winter camp (1:406,600).

400. AMUNDSEN, ROALD ENGEL-BREGT GRAVNING, 1872-1928. Nordvestpassagen; beretning om Gjæa-ekspeditionen 1903-1907. Med et tillæg av premierløjtnant Godfred Hansen. Kristiana, H. Aschehoug, 1907. xv, 511 p. illus., 3 maps (incl. 2 fold) *Title tr.:* The Northwest Passage; report of the *Gjæa* Expedition, 1903-1907. With a supplement by First Lieutenant Godfred Hansen. Published in English as *The North West Passage; being the record of a voyage of exploration of the ship "Gjæa" 1903-1907.*

Narrative of the Norwegian arctic expedition of seven members led by Amundsen in the *Gjæa*, 1903-1906, with the purpose of navigating the Northwest Passage and investigating magnetic conditions in the region of the North Magnetic Pole.

Contains descriptions of the voyage to the Canadian Arctic, the wintering at Gjæa Haven on King William Island, 1903-1904 and 1904-1905, the magnetic

work, the Eskimos, boat and sledge trips, the passage through the straits, to King Point (Yukon Territory), the wintering (1905-1906) there, the Eskimos of the Mackenzie delta region, a visit to Herschel Island, the voyage to Nome, Alaska; with remarks throughout on equipment, food, hunting, travel and weather conditions.

Supplement v. 2, p. 296-364, is Godfred Hansen's account of three cartographic trips in 1904 and 1905, especially that along the east coast of Victoria Island (King Haakon VII Coast).

The scientific results of the expedition are listed in this Bibliography under "Gjæa" Expedition, 1903-1906, q.v.

Oslo, Gyldendal, Norsk forlag, 1925. 4 p. l., 11-278 p., 1 l. illus. (maps) plates, ports. *Other authors:* Hj. Riiser-Larsen; Leif Dietrichson; Fredrik Ramm; Jakob Bjerknes. *Title tr.*: The Amundsen-Ellsworth polar flight 1925. Through the air to 88°N.

Published in London as *My polar flight*, q.v., in New York as *Our polar flight*; the *Amundsen-Ellsworth polar flight*, q.v., and in Paris as *En avion vers le pôle nord*.

Narrative of the Amundsen-Ellsworth North Polar Flight, 1925, for purpose of exploring by air the unknown region between Svalbard and the North Pole. Contains (1) account, by Amundsen, of the ocean voyage to West Spitsbergen, the flight of the flying boats *N24* and *N25* from Spitsbergen, the forced landing at 87°44'N.; stay on the ice for a month and safe return to West Spitsbergen; (2) discussion, by H. Riiser-Larsen, of the flying boats and their transportation from Stalø to West Spitsbergen, the instruments, equipment, clothing, food, ice navigation, etc.; (3) report, by L. Dietrichson, the pilot of the *N24* from the start until the crew joined the *N25* party; (4) excerpts from the diary kept by the journalist F. Ramm, while awaiting the return of the flying parties on West Spitsbergen; and (5) report by the meteorologist, Dr. J. Bjerknes, on weather conditions and meteorological observations made.

(diagrs.) plates, ports., fold. map. *Other authors:* Lincoln Ellsworth; G. S. Amundsen; B. L. Gottwaldt; John Høver; Finn Malmgren; Hj. Riiser-Larsen. *Title tr.:* The first flight across the polar sea. Published in English as *The first crossing of the polar sea*, 1927.

Narrative of the Amundsen-Ellsworth-Nobile North Polar Flight, 1926, in the airship *Norge* from King's Bay, West Spitsbergen, over the North Pole to Teller, Alaska. Contains (1) discussion of the planning of the expedition; account of the flight of the *Norge* from Rome to West Spitsbergen and its arrival at King's Bay; biographical sketches of the members of the expedition and accounts of the flight across the north polar sea and the journey home; with discussion, by J. Høver, on the construction of a hangar and mooring masts at King's Bay; (2) discussion, by H. Riiser-Larsen, navigator, and second-in-command of the expedition, of air navigation, the flight, advantages of an airship in polar regions and equipment; (3) discussion, by F. Malmgren, of weather conditions and weather warnings during the flight; and (4) discussion, by B. L. Gottwaldt, of the radio station and the radio service on board the *Norge* during the flights from Rome to King's Bay and from King's Bay to Alaska.

Discussion of skeletal remains of reindeer, collected during the Swedish Expedition to Spitsbergen, 1858.

Copy seen: DLC.

421. ANDERSEN, FRODE SØGAARD, 1911- East Greenland lakes as habitats for chironomid larvae. Studies on the systematics and biology of Chironomidae, II. København, 1946. 65 p. illus., 2 plates. (Meddelelser om Grønland. Bd. 100, nr. 10)

Based on work during the Three-Year Expedition to King Christian X's Land, 1931-34, under the leadership of Lauge Koch; results of a quantitative investigation of the bottom fauna of three high arctic lakes (on Cape Oswald 72°50'N.25°W.) Includes data on bottom sediments, hydrogen sulfide and oxygen tension of the lakes, hibernation of the predominating chironomid larvae, zonation, animal communities, and types of lakes.

Copy seen: DLC; DGS; DSI-M.

422. ANDERSEN, FRODE SØGAARD, 1911- Ueber die Metamorphose der Ceratopogoniden und Chironomiden

Nordost-Grönlands. København, C. A. Reitzel, 1937. 95 p. incl. illus., map. (Meddelelser om Grønland. Bd. 116, nr. 1) *Title tr.*: On the metamorphosis of the ceratopogonids and chironomids of northeast Greenland.

Results of the Three-Year Expedition to King Christian X's Land, 1931-34, during which the author made these studies while wintering on Ella Island. He gives detailed descriptions of developmental stages of insects belonging to thirty-three genera and subgenera, with some keys. Of these descriptions, thirteen are new. Of the thirty-three species included in the study, five are new to science, thirteen new to the Arctic, and six new to East Greenland. Bibliography (51 items). *Copy seen*: DGS; DSI-M.

423. ANDERSON, ALEXANDER CAULFIELD. The rationale of an open sea in the North Polar region, considered with reference to analogous developments during winter in the interior lakes of North America. (Royal Geographical Society. Proceedings, Feb. 10, 1873. v. 17, p. 133-38)

Discussion of polynyas (sea-water areas encompassed by ice), the possible higher temperature at the North Pole, and the supply of heat brought into the polar basin by warm currents and river water. *Copy seen*: DLC.

424. ANDERSON, ALEXANDER CAULFIELD. Some remarks upon the freezing of streams in North America, in connexion with the supposed congelation of their sources in high latitudes. (Royal Geographical Society. Journal, 1845. v. 15, p. 367-71)

Contains a discussion of the mode of formation of ice on the surface of swift rivers, and some remarks (in general) on the possible occurrence of permafrost as related to springs. *Copy seen*: DLC.

425. ANDERSON, ALFRED BERNHARD CORNELIUS, 1906-, and others. Soil-moisture conditions and phenomena in frozen soils. (American Geophysical Union. Transactions, 1942. v. 23, p. 356-71, diags.) *Other authors*: J. E. Fletcher and N. E. Edlefsen.

Discussion of "some of the general characteristics of observations in laboratory and field related to freezing of soil-moisture," and of the "basic ther-

modynamic theory requisite to an interpretation of these observations in relation to the movement moisture associated with frozen soils." Includes (p. 364-71) discussion from the floor. *Copy seen*: DLC.

426. ANDERSON, ANTON. "Hay" day for Anchorage. (Alaska life, May 1940. v. 3, no. 5, p. 22-23, illus.)

Note on methods of hay making in the Anchorage region. *Copy seen*: DLC.

427. [ANDERSON, DAVID] *Bishop of Rupert's Land, 1814-1885*. The net in the Bay; or, Journal of a visit to Moose and Albany. London, T. Hatchard, 1854. xvi, 276 p. fold. map.

Account by the first Church of England bishop of Rupert's Land, of a canoe trip down the Albany River to James Bay and return, 1852, describing the country, and missionary activities. Second edition published 1873 (xvi, 328 p.) has added chapter, p. 299-328, summarizing events in the area, 1852-72.

Copy seen: DLC (both editions); NNS-*tef* (1854).

428. ANDERSON, ESKIL. Asbestos and jade occurrences in the Kobuk River region, Alaska. Juneau, 1945. 26 p. 4 sketch maps. (Alaska. Dept. of Mines. Pamphlet no. 3-R)

First issued May 1945; rev. to Dec. 1945. *Copy seen*: DLC; NNS-*tef*.

429. ANDERSON, ESKIL. Mineral occurrences other than gold deposits in northwestern Alaska. Juneau, Alaska, 1944 (rev. 1947). 48 p. sketch map. (Alaska. Dept. of Mines. Pamphlet no. 5-R)

List, with localities and brief notes on present development, of metallic and nonmetalliferous deposits within the area west and north of a line between the Yukon River delta and Heald Point (about 200 miles southeast of Barrow). *Copy seen*: NNS-*tef*.

430. ANDERSON, EVA GREENSLIT. Dog-team doctor; the story of Dr. Romig. Caldwell, Id., Caxton Printers Ltd., 1940. 298 p. 19 plates, ports., 2 facsim. on 1 l. maps on lining-papers.

Joseph Herman Romig was medical missionary, superintendent of schools, physician for southwestern Alaska, United States commissioner, railroad

surgeon and chief of the railroad hospital staff between 1896-1939. He served mostly in the Kuskokwim region among the West Alaska Eskimos, and eastward along the southern Alaskan coast to Anchorage.

Copy seen: DLC; NNStef.

431. ANDERSON, GEORGE. Enemies of the caribou. (Beaver, June 1937. Outfit 268, no. 1, p. 30-32, illus.)

Discussion of the use of caribou by the Eskimos of the Barren Grounds, and four factors menacing the existence of these animals: wanton killing, civilization, predatory animals, and disease.

Copy seen: DSI-M.

432. ANDERSON, GEORGE. A whale is killed. (Beaver, Mar. 1947. Outfit 277, no. 4, p. 18-21, illus.)

Account of the capture and processing of a Greenland whale, by Cumberland Sound Eskimos in 1946. Author describes hunting equipment and modern methods of flensing, rendering, etc., of the whale, for use.

Copy seen: DSI-M.

433. ANDERSON, H. A. Anderson's incubators. (Alaska sportsman, July 1936. v. 2, no. 7, p. 14, 26-27, illus.)

Account of hatching hen's eggs under cormorants, in Skilak Lake, Kenai Peninsula, Alaska; with notes on cormorants.

Copy seen: DLC.

434. ANDERSON, HOBSON DEWEY, 1897- , and WALTER CROSBY EELLS. Alaska natives; a survey of their sociological and educational status, made under the auspices of the School of Education of Stanford University, at the request of the United States Office of Education, supported by a grant from the Carnegie Corporation of New York. Stanford University, Calif. Stanford University Press. London, H. Milford, Oxford University Press, 1935. xvi, 472 p. incl. illus. plates, ports., maps, plans, tables, diagrams, fold. front. (map).

Based on field work, 1930-31, chiefly among the Aleuts and West Alaska Eskimos, but also (briefly) among the southwestern Indians. *Contents:* Pt. 1. A sociological study of the Alaska Eskimos. (Origin, early and present-day habitat, physical appearance, material possessions, vital statistics, health, social organization and relationships, economic status, and contact with the

white man). Pt. 2. An educational study of the Alaska natives. (Organization, administration and cost of the native school system; educational staff, pupil placement and progress; measurement of abilities and achievement; curriculum, industrial schools, supervision, health and building programs, records, research and recommendations). Bibliography (52 items) and index.

Copy seen: DLC; NNStef.

435. ANDERSON, I. M. C. Is there a future for livestock in Alaska? (Western livestock journal, 1944. v. 22, no. 49, p. 13, 66-71; no. 59, p. 26, 124, 126; v. 23, no. 6, p. 24, 79-80, illus.)

History of cattle raising in Alaska, and an account of beef and dairy herds, their feeding and other problems, in the interior, Matanuska-Susitna valleys, Kenai Peninsula, and other south coast localities and islands.

Copy seen: DA.

436. ANDERSON, J. W. Beaver sanctuary. (Beaver, June 1937. Outfit 268, no. 1, p. 6-11, incl. 2 p. illus.)

Information for the general reader on the sanctuaries around James Bay: (1) at Rupert House, established in 1931; (2) on Charlton Island, originally established by Hudson's Bay Co. in 1851 and reopened by the Canadian government, 1934; and (3) on Agamiski (Akimiski) Island west side of James Bay, 1935.

Copy seen: DSI-M.

437. ANDERSON, J. W. Peacetime voyage. (Beaver, Dec. 1946. Outfit 277, no. 3, p. 44-47, illus.)

Brief account of the first peacetime voyage of the *Nascope* for seven years, in 1946, with remarks on ice conditions in the Canadian Eastern Arctic from Hudson Bay to Devon Island.

Copy seen: DSI-M.

438. ANDERSON, J. W. 7000 square miles of beaver sanctuary. (Beaver, June 1934. Outfit 265, no. 1, p. 16-18, illus.)

General account of the Hudson's Bay Co. Rupert House sanctuary, eastward from James Bay to 76°W., between Rupert and Eastmain Rivers.

Copy seen: DLC.

439. ANDERSON, JACOB PETER, 1874- *Botrytis cinerea* in Alaska. (Phytopathology, Mar. 1924. v. 14, p. 152-55, plate)

Contains notes on prevalence, infection, host relations, and list of host genera, of this parasitic fungus in southeastern Alaska.

Copy seen: NNStef.

440. ANDERSON, JACOB PETER, 1874- Flora of Alaska. (Alaska sportsman, Apr. 1936-Jan. 1940. v. 2, no. 4, p. 18, no. 5, p. 22, no. 6, p. 25, no. 7, p. 22, no. 8, p. 26, no. 9, p. 26, no. 10, p. 22, no. 11, p. 25; v. 3, no. 6, p. 26, no. 8, p. 29, no. 11, p. 25; v. 4, no. 5, p. 28, no. 7, p. 31, no. 11, p. 23; v. 5, no. 1, p. 26, no. 4, p. 32, no. 6, p. 29; v. 6, no. 1, p. 29, illus.)

Brief articles on wildflowers and ferns, giving descriptions, range and habitats.

Copy seen: DLC.

441. ANDERSON, JACOB PETER, 1874- Flora of Alaska and adjacent parts of Canada; an illustrated descriptive text of all vascular plants known to occur within the region covered. Part I-VIII. (Iowa State College journal of science, 1943-50. v. 18, p. 137-75, 381-445; v. 19, p. 133-205; v. 20, p. 213-57, 297-347; v. 21, p. 363-423; v. 23, p. 137-87; v. 24, p. 219-71. 40 plates, sketch-map)

Based on the author's collections from various parts of Alaska (where he was long resident), from some of the Aleutian and Bering Sea Islands, also on gifts and exchanges of specimens from various sources. The area treated includes also Yukon Territory and the northwesternmost part of British Columbia. The systematic list gives keys to the species, descriptions, and notes on distribution. Pt. 8 taking the study to the family Campanulaceae, is the latest part available.

Copy seen: DA.

442. ANDERSON, JACOB PETER, 1874- Plants used by the Eskimos of the northern Bering Sea and arctic regions of Alaska. (American journal of botany Nov. 1939. v. 26, p. 714-16)

Based on investigations during the summer of 1938; Notes on use and methods of preparation of the plants for food, etc.; also a list of forty species, giving Latin and Eskimo names.

Copy seen: DLC; NNStef.

443. ANDERSON, JAMES. Chief Factor James Anderson's Back River journal of 1855. (Canadian field naturalist, 1940-41. v. 54, p. 63-67, 84-89, 107-

109, 125-26, 134-36; v. 55, p. 9-11, 21-26, 38-44, map)

Contents of a field note-book (with annotations by C. H. D. Clarke) on a Hudson's Bay Company expedition in search of Sir John Franklin; record of a journey from Fort Simpson to Chantrey Inlet via Great Slave Lake and Back River and return, May-Sept. 1855. Includes detailed notes on the route, with many observations on the natural history of the region.

Copy seen: DLC.

444. ANDERSON, JAMES. Extracts from the Chief-Factor James Anderson's arctic journal. (Royal Geographical Society. Journal, 1857. v. 27, p. 321-28)

Communicated to the society by Sir John Richardson, that section of Anderson's "Back River journal of 1855," relating immediately to the search for Sir John Franklin from Elliot Bay to Point Ogle on Chantrey Inlet, and on Montreal Island.

Copy seen: DLC.

445. ANDERSON, JAMES. Letter from Chief Factor James Anderson, to Sir George Simpson . . . Governor in Chief of Rupert Land. (Royal Geographical Society. Journal, 1856. v. 26, p. 18-25)

Contains a report (in brief) of the journey in 1855 from Great Slave Lake, via Back River to Chantrey Inlet and the islands at its mouth, in search of Sir John Franklin.

Copy seen: DLC.

448. ANDERSON, RUDOLPH MARTIN, 1876-. Arctic game notes. Distribution of large game animals in the far North; extinction of the musk ox; the chances for survival of moose and caribou; mountain sheep; polar bear and grizzly. (Natural history, Jan. 1913. v. 13, p. 5-21, incl. 8 p. of illus.)

Contains notes as indicated in title, also remarks on arctic birds, particularly referring to northerly sections of Alaska, Yukon and Northwest Territories.

Copy seen: DLC; NNS Stef.

449. ANDERSON, RUDOLPH MARTIN, 1876-. Canadian Arctic Expedition, 1913-14, 1915, 1916. (*In:* Canada. Geological Survey. Summary report, 1914, *pub.* 1915, p. 163-66; *ibid.* 1915, *pub.* 1916, p. 220-36; *ibid.* 1916, *pub.* 1917, p. 314-30)

Contains narrative reports of the activities of the southern party of the expedition, including remarks on ice conditions along the Alaskan coast of Beaufort Sea and in Dolphin and Union Strait, and a list (1914) of birds and mammals collected along the northern Alaskan coast.

Copy seen: DLC.

450. ANDERSON, RUDOLPH MARTIN, 1876-. Canadian Arctic Expedition, 1916. Zoology. (Canada. Geological Survey. Summary report, 1916, *pub.* 1917, p. 374-84)

Account of the author's activities Aug. 1915-Aug. 1916, in the Dolphin and Union Strait and Coronation Gulf

area; notes on collections made by members of the southern party there, with a list of sixty-one birds and twenty-two mammals collected 1914-16.

Copy seen: DLC.

451. ANDERSON, RUDOLPH MARTIN, 1876-. Catalogue of Canadian recent mammals. Ottawa, King's Printer, 1946. v. 238 p. map. (Canada. National Museum of Canada. Bulletin no. 102. Biological ser. no. 31)

Distributional list of land and sea mammals known to exist, or to have existed within historic time, in the region north of Canadian boundary (except Alaska). List of type localities is given in the Northwest Territories, the southwestern side of Hudson Bay, Ungava district, Yukon Territory, Greenland and Labrador; also Latin, English and French names, synonymy, and range; with bibliographic notes throughout.

Copy seen: CaMAI; CaOG; DGS; DSI-M.

452. ANDERSON, RUDOLPH MARTIN, 1876-. The distribution, abundance, and economic importance of the game and fur-bearing mammals of western North America. (Pacific Science Congress. 5th, Victoria and Vancouver, B.C., 1933. Proceedings, *pub.* Toronto, 1934. v. 5, p. 4055-75, 17 maps)

Contains a discussion of Canadian fur production, and describes the distribution of the game and fur-bearing mammals of Canada, Alaska, and Greenland. *Maps* show North American distribution (and in some instances, changes in distribution) of musk oxen, northern mountain sheep, mountain goats, moose, caribou, coast deer, marten, beaver, muskrat, and snowshoe rabbits.

453. ANDERSON, RUDOLPH MARTIN, 1876-. Mammals and birds. (*In:* Bethune, W. C., and others. Canada's western northland, 1937. p. 97-122, illus., sketch map)

Contains discussion of life zones, general information on the more important among the nine sea mammals and seventy-six land mammals listed, and a sketch of the water birds and ptarmigan (especially) in a brief résumé of typical arctic birds of the region; bibliography (23 items).

Copy seen: DLC.

454. ANDERSON, RUDOLPH MARTIN, 1876- . Nesting of the pine siskin at Great Slave Lake. (Condor, Nov. 1908. v. 10, p. 234-35)

Note on birds observed in June 1908, and description of nest and eggs of the pine siskin observed in this locality in Mackenzie District.

Copy seen: DSI-M.

455. ANDERSON, RUDOLPH MARTIN, 1876- . Notes on the distribution of the hoary marmots. (Canadian field naturalist, Apr. 1934. v. 48, p. 61-63, sketch map)

Marmota caligata ranges across Yukon and Alaska and southwards below the Canadian-American boundary.

Copy seen: DSI-M.

456. ANDERSON, RUDOLPH MARTIN, 1876- . The present status and future prospects of the larger mammals of Canada. (Scottish geographical magazine, Nov. 1924. v. 40, p. 321-31)

On measures of protection and conservation of (among others) musk oxen, caribou, reindeer, etc., with mention of the principal game reserves.

Copy seen: DLC.

457. ANDERSON, RUDOLPH MARTIN, 1876- . Range of the moose extending northward. (Canadian field naturalist, Feb. 1924. v. 38, p. 27-29)

Notes on reports of moose from various localities of Northwest Territories, especially the Mackenzie River region.

Copy seen: DLC.

458. ANDERSON, RUDOLPH MARTIN, 1876- . Recent explorations on the Canadian arctic coast. (Geographical review, Oct. 1917. v. 4, p. 241-66, illus., 2 maps)

Account, by the chief of the southern party, Canadian Arctic Expedition, 1913-18, of his party's work during 1913-16: the first wintering at Collinson Point, Alaska, the summer passage to Bernard Harbour on Dolphin and Union Strait, and the detailed survey work in that area; remarks on arctic timber areas, the Crocker River, raised beach terraces along the Dolphin and Union Strait, and the Copper Eskimos.

Copy seen: DLC.

459. ANDERSON, RUDOLPH MARTIN, 1876- . Summary of the large wolves of Canada, with description of three new arctic races. (Journal of

mammalogy, Aug. 1943. v. 24, p. 386-93, table, sketch map)

Full description of three new subspecies with indication of distribution, and a bibliography (8 items).

Copy seen: DSI-M.

460. ANDERSON, RUDOLPH MARTIN, 1876- . Two new seals from arctic Canada with key to the Canadian forms of hair seals (family Phocidae). (Provancher Society of Natural History of Canada. Annual report, 1942. p. 23-47)

Full descriptions and discussion of new subspecies of *Phoca hispida*: (1) *P. hispida beaufortiana*, a ringed seal of Dolphin and Union Strait and Beaufort Sea, and (2) *P. hispida soperi*, a ringed seal of Nettilling Lake, Baffin Island; with key. French translation, p. 35-47.

demand; an economic-geographic study.

Discussion of coal deposits on West Spitsbergen with historical sketch of coal mining there and of Swedish coal interests; property rights to West Spitsbergen coal; and problems connected with its marketing and shipping.

Copied seen: DLC.

470. ANDERSSON, GUNNAR, 1865-1928. *Vegamännen*. (Ymer, 1915. Årg. 35, p. 29-33, illus.) *Title tr.*: The *Vega* men.

Brief biographies of the members of the *Vega* Expedition, 1878-1880.

Copied seen: DLC.

471. ANDERSSON, GUNNAR, 1865-1928, and HENRIK HESSELMAN. *Bidrag till kännedom om Spitsbergens och Beeren Eilands kärlväxtflora, grundade på iakttagelser under 1898 års Svenska polarexpedition*. Stockholm, P. A. Norstedt, 1900. 88 p. illus., plates. (Svenska vetenskapsakademien. Handlingar. Bihang. Bd. 26, afd. 3, no. 1) *Title tr.*: Contributions to the knowledge of the vascular plants of Spitsbergen and Bear Island, based on observations made during the Swedish Arctic Expedition of 1898.

List, with synonymy, localities and remarks, of hundred twenty-five species.

Copied seen: DLC.

472. ANDERSSON, GUNNAR, 1865-1928, and HENRIK HESSELMAN. *Verzeichnis der in König Karls Land während der schwedischen Polarexpedition 1898 gefundenen Phanerogamen*. (Svenska vetenskapsakademien. Öfversigt af förhandlingar, 1898, pub. 1899. Årg. 55, p. 555-57) *Title tr.*: List of phanerogams collected in King Charles Land during the Swedish Arctic Expedition, 1898.

List, with localities, of twenty-seven species of seed plants.

Copied seen: DLC.

ANDERSSON, GUSTAV OSKAR, *see* Malme, Gustaf Oskar Andersson, 1864-1937.

473. ANDERSSON, JOHAN GUNNAR, 1874- . *Några drag af Beeren Eilands kolonisationshistoria*. (Ymer, 1901. Årg. 21, p. 35-58) *Title tr.*: Some features of the history of the colonization of Bear Island.

Account of expeditions to Bjørnøya, its colonization by Russians, Nor-

wegians and Germans; also discussion of its coal deposits and the right of possession to the island.

Copied seen: DLC.

474. ANDERSSON, JOHAN GUNNAR, 1874- . *Solifluction, a component of subaerial denudation*. (Journal of geology, Feb.-Mar. 1906. v. 14, p. 91-112, illus.)

Includes a description of the phenomenon on Bear Island, and (mention only) West Spitsbergen.

Copied seen: DGS.

475. ANDERSSON, JOHAN GUNNAR, 1874- . *Den svenska expeditionen till Beeren Eiland 1899*. (Ymer, 1900. Årg. 20, p. 423-54, illus.) *Title tr.*: The Swedish Expedition to Bear Island 1899.

Account of this expedition and discussion of the geography, the fauna and flora of Bjørnøya.

Copied seen: DLC.

476. ANDERSSON, JOHAN GUNNAR, 1874- . *Über die Stratigraphie und Tektonik der Bären Insel*. (Upsala. Universitet. Mineralogisk-geologiska institut. Bulletin, 1899, pub. 1900. v. 4, p. 243-80, 3 plates, tables)

Preliminary report on the work of the Swedish expeditions of 1898-99, with a preliminary geological sketch map, and reference to the topographical map noted in A. G. Nathorst's *Några upplysningar till den nya kartan öfver Beeren Eiland*, 1899, q. v.

Copied seen: DGS.

477. ANDERSSON, JOHAN GUNNAR, 1874- . *Vega-minnet; högtidstal vid Svenska sällskapet för antropologi och geografi sammankomst den 24 april 1930 till firande av 50-årsminnet av "Vegas" återkomst till Stockholm*. (Ymer, 1930. Årg. 50, p. 3-12) *Title tr.*: In memory of the *Vega*, address given at the meeting of the Swedish Society for Anthropology and Geography April 24th, 1930, commemorating the fifty-year anniversary of the *Vega*'s return to Stockholm.

Discussion of the erection of a monument for the *Vega* men and of Swedish geographical research in the arctic and antarctic regions.

Copied seen: DLC.

ANDERSSON, JOHAN GUNNAR, 1874- , *see also* De Geer, G. J. *Europeiska nordhavet samt fjordbildningar*. 1910.

ANDERSSON, JOHAN GUNNAR, 1874—, see also Nathorst, A. G., & others. Swedish explorations in Spitzbergen. (Ymer) 1909.

478. ANDERSSON, KARL ANDREAS, 1875—. Bryozoen, während der schwedischen Expeditionen 1898 und 1899 unter Leitung von Professor A. G. Nathorst und 1900 unter Leitung von Conservator G. Kolthoff gesammelt. (Zoologische Jahrbücher; Abt. für Systematik, Geographie und Biologie, 1902. Bd. 15, p. 537-60, plate) *Title tr.*: Bryozoans collected during the Swedish Expeditions, 1898 and 1899 under A. G. Nathorst, and 1900 under G. Kolthoff.

Contains an annotated list, with synonyms, localities and arctic distribution, of forty-two species, and several varieties from East Greenland coastal waters (including Mackenzie Bay and Franz Joseph Fiord), Svalbard waters (especially Ice Fiord) and from Greenland Sea.

Copy seen: DSI-M.

479. ANDERSSON, NILS JOHAN, 1821-1880. Anteckningar under en resa i Umeå, Piteå och Luleå Lappmarker sommaren 1845. (Botaniska notiser, 1846, no. 1-2, p. 1-30) *Title tr.*: Notes on the journey to Umeå, Piteå and Luleå Lappmark made in the summer of 1845.

Contains an account of the author's botanical trip to Swedish Lapland with general descriptions of the flora of various Lapland regions and scattered notes on plants observed.

Copy seen: MH-A.

480. ANDERSSON, NILS JOHAN, 1821-1880. Bidrag till kännedomen af *Carex ampullacea* Good. och *C. vesicaria* L., med hänsyn till deras formförändringar. (Botaniska notiser, 1849, no. 2-3, p. 28-39) *Title tr.*: A contribution to the knowledge of *Carex ampullacea* and *C. vesicaria* and their form variations.

Contains a comparative study of two sedge species, *Carex vesicaria* and *C. ampullacea*, some of their varieties and forms and related species; both species are native to Swedish Lapland.

Copy seen: MH-A.

481. ANDERSSON, NILS JOHAN, 1821-1880. Några ord om formbegreppet hos pillsläktet, särdeles dess lappska arter. (Botaniska notiser, 1846,

no. 7, p. 97-103) *Title tr.*: Some words on form concept in the willow, especially in Lapland species.

Contains a taxonomic discussion on form variation in northern species of willow (*Salix*) native to Swedish Lapland.

Copy seen: MH-A.

482. ANDERSSON, NILS JOHAN, 1821-1880. Nya bidrag till Qvickjockstraktens flora. (Botaniska notiser, 1866, no. 6, p. 107-110; no. 7, p. 119-25) *Title tr.*: New contributions to the flora of the Qvikkjokk region.

Contains a list of thirty-one species of flowering plants additional to those listed by the author in his *Plantae vasculares circa Qvickjock Lapponia Lulensis*, 1844, q. v.: another list of plants new to Torne Lappmark and southern Lapland and new localities of sixty plants within the Qvikkjokk region (northern Sweden).

Copy seen: MH-A.

483. ANDERSSON, NILS JOHAN, 1821-1880. Om *Catabrosa algida* Fr. (Botaniska notiser, 1849, no. 2-3, p. 39-44, plate) *Title tr.*: On *Catabrosa algida* Fr.

Contains a Latin description of this arctic grass, synonymy, exsiccata, illustrations and data on distribution (West Spitsbergen, Greenland, Melville Island, northern Scandinavia, Kolguyev Island and Kanin Peninsula).

Copy seen: MH-A.

484. ANDERSSON, NILS JOHAN, 1821-1880. Om de i Sverige förekommande arter af släktet *Eriophorum* med ett ax. (Botaniska notiser, 1857, no. 4, p. 57-63; no. 5, p. 78-83) *Title tr.*: On species of the genus *Eriophorum* with spikes, occurring in Sweden.

Contains Latin descriptions of six species of the genus *Eriophorum* (cotton-sedge) occurring in Sweden, including four native to Lapland, and five from Siberia, Alaska (Baranof and Kodiak Islands) and shores of Bering Strait.

Copy seen: MH-A.

485. ANDERSSON, NILS JOHAN, 1821-1880. Om släktet *Salix*, isynnerhet dess nordiska former. (Botaniska notiser, 1866, no. 8, p. 129-49; no. 9-10, p. 153-63; 1867, no. 4, p. 57-63; no. 6-7, p. 110-20) *Title tr.*: On the genus *Salix*, especially its northern forms.

Contains a critical revision of fifty species and twelve hybrids of northern

forms of willow (*Salix*), with brief descriptive and taxonomic notes, synonymy and data on Scandinavian and total distribution; includes some native to arctic Scandinavia.

Copy seen: MH-A.

486. ANDERSSON, NILS JOHAN, 1821-1880. Om tvenne pilarter. (Botaniska notiser, 1858, no. 3, p. 41-48) *Title tr.:* On two willow species.

Contains critical notes on various forms of *Salix depressa* and *S. pyrenaica* and other related species, including some native to Swedish Lapland.

Copy seen: MH-A.

*Andersson, N. J. See also No. 446-447.

487. ANDERSSON, NILS JOHAN, 1821-1880. De Svenska fjell-arterna af släktet *Epilobium*. (Botaniska notiser, 1844, no. 10, p. 154-58) *Title tr.:* On Swedish alpine species of the genus *Epilobium*.

Contains descriptions, synonymy and critical notes on *Epilobium origanifolium*, *E. alpinum* and *E. lineare*, herbs native to Swedish Lapland, followed (p. 158-60) by *Tillag af utgifvaren* (Additional notes of the editor), A. E. Lindblom.

503. ANDREEV, ALEKSANDR IG-NATEVICH. *Istoricheskie materialy o Kol'skom poluostrove monastyrskikh arkhivov. (In: Akademiā nauk SSSR. Komissīā ēkspeditsionnykh issledovaniī. Sbornik materialov po istorii Kol'skogo poluostrova v 16-17 vv., 1930. p. 3-14) Title tr.:* Historical source material on the Kola Peninsula held in monastic archives.

Brief general description of the manuscripts, (mainly, but also some printed material) of several ancient monasteries located on the Kola Peninsula.

Copy seen: DLC.

504. ANDREEV, ALEKSANDR IG-NATEVICH. *Materialy po ētnografii Sibiri XVIII veka. (Sovetskii Sever, 1939, no. 3, p. 73-83) Title tr.:* Material on the ethnography of Siberia in the 18th century.

Review of literature and archival sources containing data on Siberian aborigines of the 18th century.

Copy seen: DLC.

505. ANDREEV, ALEKSANDR IG-NATEVICH. "Opisaniā o zhizni i uprazhnenii obitaīushchikh v Turukhanskoī i Berezovskoī okrugakh raznogo roda īsasachnykh inovertsakh." (Sovetskaiā ētnografiā, 1947, vyp. 1, p. 84-103) *Title tr.:* Description of the life and activity of the tribute-paying inhabitants of the Turukhansk and Berezovo regions.

Contains the text of an official reply to a detailed official questionnaire drawn up in the late 18th century,

pertaining to the life of the Ostyaks, Tungus, Yakuts and Samoyeds of the Turukhansk and Berezovo areas. The questions and answers cover material on dwellings, occupation, food, religion and social customs. In both questions and answers much attention is paid to the methods of hunting and killing fur-bearing animals.

506. ANDREEV, ALEKSANDR IG-NATEVICH. *Russkie otkrytiā v Tikhom okeane i Severnoi Amerike v XVIII-XIX vekakh. Moskva, Izd-vo Akademii nauk SSSR, 1944. 220 p. illus. plates, ports. Title tr.:* Russian discoveries in the Pacific Ocean and North America in the 18-19th centuries. Issued under auspices of the Geographical Society, U.S.S.R.

Documents mostly hitherto unpublished on Russian discoveries in the Aleutian Islands and the activities of Russian American Co.

Contains short introductory remarks concerning the origin of the documents, p. 1-22.

Report of Cossack S. T. Ponomarev and merchant S. G. Golikov, who, in search of new land, made a voyage in 1758-59 from Nizhne-Kamchatsk to the Aleutian Islands and discovered Umnak and Unalaska Islands, p. 23-29.

Description of Andreanof Islands and of their inhabitants, based on report of Cossacks M. Lazarev and P. Vasiūtinskii, who discovered the islands in 1764, p. 29-37.

Documents, etc., 1785-90, concerning the activity of G. I. Shelekhov, one of the founders of Russian American Co., and his relations with the government (decisions of the company, instructions, reports, memoranda, applications) p. 38-117.

Narrative of N. I. Korobitsyn (here published for the first time, p. 118-221) on his commercial travels in 1795-1807 (from 1801 on behalf of Russian American Co.) including his round-the-world voyage, 1802-07, on the *Neva* under Captain Lisiānskii; description of Pavlov Bay on Kodiak Island and of New Arkhangel'sk (Sitka) on Baranof Island.

507. ANDREEV, ALEKSANDR IG-NATEVICH. *Sibirskie zarisovki pervoi poloviny XVIII veka. (Letopis' Severa, 1949, no. 1, p. 123-35, illus.) Title tr.:*

Siberian drawings (sketches) in the first half of the 18th century.

Survey of sketches by travelers of the 17th and 18th centuries portraying sites, buildings, objects of ethnographic and historical interest. Includes reproductions of fourteen drawings by Tobias Königsberg, a companion of Joseph Nicolas Delille, professor of astronomy at the Russian Academy of Sciences, who made a journey to Berezovo (63°56'N. 56°03'E.) in 1740.

Copy seen: DLC.

508. ANDREEV, N. P. Resultaty meteorologicheskikh i gidrologicheskikh nabludeniĭ, sdelannykh v Biĕlom morĭe i u beregov Murmana v 1880, 1881 i 1882 godakh. (Vsesoiuznoe geograficheskoe obshchestvo. Izvestiia, 1883. T. 19, p. 22-27) *Title tr.*: Results of meteorological and hydrological observations made on the White Sea and along the Murman coast in 1880-1882.

Discussion of prevailing winds, distribution of water temperature, position of Gulf Stream, and the effect of these conditions on the presence of fish in the Kola Peninsula coastal waters, with conclusions.

Copy seen: DLC.

509. ANDREEV, N. P. Sĭevernyi Ledovityi okean; materialy po gidrologii, sobrannye v period s 1889 [i.e. 1880] po 1893 god. Sanktpeterburg, 1900. 136 p. plate, 2 fold. maps, tables. (Vsesoiuznoe geograficheskoe obshchestvo. Zapiski po obshchei geografii. T. 34, no. 1) *Title tr.*: The Arctic Ocean; oceanographic data collected in 1889 [i.e. 1880] to 1893.

Contains (mainly) the author's observations of surface temperature and specific gravity (with some data on water color, temperature and salinity) made in the Barents Sea south of about 73°30'N. and off the coast of Norway in 1880-85, 1887-89, 1891-92 (p. 50-125). Also a bibliography of forty-three items (p. 2-4); observations of salinity (1889 and 1891) and specific gravity, temperature, and wind (1881-82,

1888) off the Murmansk coast; description of that coast, with a list of forty plants; a study of the relation of specific gravity of water to freezing of bays (p. 39 and 50); monthly wind direction statistics from the Kola Meteorological Station for 1880-89 and at Tĕrberka for 1892 (p. 41-42); observations of tides, water temperature, and specific gravity in the bays off the Murmansk coast (p. 44-48); followed by conclusions, with a table showing specific gravity at the surface and at stated depths of samples from thirty-four localities, data on the annual fish catch off the Murmansk coast (1881-89, 1892) and its relation to the conditions of the Gulf Stream.

Maps: 1. N.-S. vertical section of Rybachiy Peninsula.

2. Route map of the Barents Sea, showing Gulf Stream in 1889, and location of bathymetric stations.

516. ANDREEV, VLADIMIR NIKO-LAEVICH, 1889- . O rastitel'nom pokrove iugo-vostochnogo Kanina. (Akademiia nauk SSSR. Poliarnaiia komissiiia. Trudy, 1935. Vyp. 20, p. 35-40) *Title tr.:* On the vegetation cover of southeastern Kanin.

Contains a list of ninety-eight plants collected by G. V. Gorbatskii, a member of Kanin Geological Expedition of the Institute for the Study of the North in 1930, and some notes on the vegetation of southeastern Kanin Peninsula.

Copy seen: DLC; NNM.

517. ANDREEV, VLADIMIR NIKO-LAEVICH, 1889- . Obsledovanie tundrovnykh olen'ikh pastbishch s pomoshch'iu samoleta. (Leningrad, Nauchno-issledovatel'skii institut poliarnogo zemledeliia, zhivotnovodstva i promyslovogo khoz'iaistva. Trudy. Ser. Olenevodstvo, 1938. Vyp. 1, p. 7-132, illus., map) *Title tr.:* Observations of the tundra reindeer pastures by means of the aeroplane.

Discussion of the aero-visual method of reconnaissance for determining the quality and location of reindeer pastures. Results of an expedition of the Reindeer-breeding Section of the Arctic Institute, U.S.S.R., under the author's leadership in 1936, over the tundra and forest-tundra of the Yamal district. Remarks on the physiognomy of vegetation from above, interpretation of vegetative cover, plotting of geobotanical data on previously prepared maps of the area. Includes recommendations on map scale, elevation of flight, range of observations, etc., for maximum efficiency; and comment on respective uses of aero-visual investigations and aero-photo-surveys. Bibliography (about 100 items).

Summary in English.

518. ANDREEV, VLADIMIR NIKO-LAEVICH, 1889- . Opyt vozdushnoglazomernogo obsledovaniia pastbishch na Yamal'skom severe. (Leningrad, Nauchno-issledovatel'skii institut poliarnogo zemledeliia, zhivotnovodstva

i promyslovogo khozâistva. Trudy. Ser. Olenovodstvo, 1938. Vyp. 1, p. 151-71, fold. map) *Title tr.*: Experience with aerial visual observation of pastures in the Yamal North.

Report on aerial reconnaissance of pastures of the Nydinsky reindeer sovkhos in 1936. *Copy seen:* DLC.

519. ANDREEV, VLADIMIR NIKO-LAEVICH, 1889-. Podzony tundry Severnogo Kraïa. (Priroda, 1932, no. 10, col. 889-906, illus.) *Title tr.*: Sub-zones of the tundras of the far North.

Contains an attempt at zonation of tundras along the Barents and Kara coasts: Kanin Peninsula, Malozemel'skaya and Bol'shezemel'skaya Tundras, Vaygach and Kolguyev Islands, on the basis of the vegetative cover; study of the characteristics and extent of five sub-zones established by the author as a result of his exploration of this region in 1928, 1930 and 1931, with a view to its development for the reindeer and hunting industries and agriculture. *Copy seen:* MH-A.

520. ANDREEV, VLADIMIR NIKO-LAEVICH, 1889-. Rastitel'nost' i raiony vostochnoi chasti Bol'shezemel'skoi tundry. Moskva, 1935. 97 p. illus., map, diags. (Akademiâ nauk SSSR. Polârnâia komissiiâ. Trudy. vyp. 22) *Title tr.*: Vegetation and natural regions of the eastern part of Bol'shezemel'skaya Tundra.

Contains data on the general characteristics of the eastern part of this tundra area (about 67°30'N. 58°E.); six natural zones of tundra and their vegetation, geomorphological survey of Pay-Khoy region and eastern part of Bol'shezemel'skaya plain, general survey of ten geobotanical regions of this tundra and their importance as pastures for reindeer. *Copy seen:* DLC; NNM.

521. ANDREEV, VLADIMIR NIKO-LAEVICH, 1889-. Razrabotka razsional'nykh metodov ispol'zovaniâ olen'ikh pastbishch. (Problemy Arktiki, 1937, no. 2, p. 165-68) *Title tr.*: Efficient exploitation of reindeer pastures.

Brief outline, based on author's field observations and the studies of the Arctic Institute U.S.S.R. *Copy seen:* DLC.

522. ANDREEV, VLADIMIR NIKO-LAEVICH, 1889-. Samolet v olen-

evodstve. (Sovetskâia Arktika, 1937, no. 8, p. 58-62, illus., tables) *Title tr.*: The airplane in reindeer breeding. Discussion of the importance of aerial reconnaissance in the reindeer industry (investigation of pastures, calculation of number of animals, control over ranges and natural enemies of the reindeer, etc.); based on the author's experience during the Yamal Expedition of the Arctic Institute in 1936. *Copy seen:* DLC.

523. ANDREEV, VLADIMIR NIKO-LAEVICH, 1889-. Tipy tundr zapada Bol'shoi Zemli. (Akademiâ nauk SSSR. Botanicheskii muzei. Trudy, 1932. Vyp. 25, p. 121-268) *Title tr.*: Tundra types of Bol'shaya Zemlya.

Contains a detailed study of the tundra types of the western part of Bol'shezemel'skaya Tundra, carried out by the author in 1930 for the purpose of estimating the fodder resources of the region for the raising of reindeer; includes a brief geographical sketch and description (with tabular presentation) of thirty types of tundra, with data on relief, soils, substrata, vegetative cover, plant associations, economic importance and the influence of man. Summary in German. *Copy seen:* MH-A.

524. ANDREEV, VLADIMIR NIKO-LAEVICH, 1889-. Vidy, *Plantago* polârnogo poberezh'ia Evropy. (Botanicheskii zhurnal 1930. T. 15, no. 4, p. 291-304, illus.) *Title tr.*: *Plantago* species of the arctic sea-coast of Europe.

Contains taxonomic study of five species and forms of herbaceous genus *Plantago*, including Latin diagnosis of *P. subpolaris*, n. sp. native to the Kola Peninsula and Arkhangel'sk region; *P. schrenkii* from arctic Norway and U.S.S.R. and its variety *pygmaea* n. var. from Novaya Zemlya and Vaygach Island. Summary in German. *Copy seen:* MH-A.

526. ANDREWS, CLARENCE LE-ROY, 1862-1948. Alaska—a million years ago. (Alaska life, June 1948. v. 11, no. 6, p. 16-18, illus.)

General discussion of paleoclimate and paleogeography of Alaska.

Copy seen: DLC.

527. ANDREWS, CLARENCE LE-ROY, 1862-1948. Alaska under the Russians, Baranof the builder. (Pacific Northwest quarterly, July, 1916. v. 7, p. 202-216)

Historical sketch, based largely upon Russian books, of the development of the Russian holdings in Alaska between 1791 and 1818 under the direction of Alexander Baranov and the Russian American Co. Includes description of the fur trade, particularly the sea-otter trade.

Copy seen: DLC.

528. ANDREWS, CLARENCE LE-ROY, 1862-1948. Alaska under the Russians, industry, trade and social life. (Pacific Northwest quarterly, Oct. 1916. v. 7, p. 278-95)

Contains a description, based largely upon Russian books, of the economic and social life of Alaska, especially of Sitka, under the Russians in the period, 1820-67. Includes an account of manufacturing industries, such as ship-building; agricultural production (especially of potatoes); trade, such as the ice and grain trade with California, and the fur and tea trade with China; health conditions and social life of the Russians at Sitka.

Copy seen: DLC.

529. ANDREWS, CLARENCE LE-ROY, 1862-1948. Alaska whaling. (Pacific Northwest quarterly, Jan. 1918. v. 9, p. 3-10)

Contains a general historical description of the whaling industry of Alaskan waters, including details of large-scale disasters to whaling vessels in arctic ice.

Copy seen: DLC.

530. ANDREWS, CLARENCE LE-ROY, 1862-1948. Alaska's first educator. (Alaska life, Sept. 1943. v. 6, no. 9, p. 43-45, port.)

Brief résumé of Sheldon Jackson's work in Alaska, 1877-1908.

Copy seen: DLC.

531. ANDREWS, CLARENCE LE-ROY, 1862-1948. Alexander Baranof, manager. (Alaska life, Jan. 1943. v. 6, no. 1, p. 45-48, illus.)

Historical sketch of the work of Baranof during the period 1790-1818, when he managed interests in Alaska of G. I. Shelekhov, founder of the Russian-American Co.

Copy seen: DLC.

532. ANDREWS, CLARENCE LE-ROY, 1862-1948. Alexander Hunter Murray; founder of Fort Yukon. (Alaska life, Apr. 1947. v. 10, no. 4, p. 4-6, 21, illus.)

Account of this Hudson's Bay Co. trader's journey in 1847 from Rat River via Bell and Porcupine Rivers to the site, at the confluence of the Porcupine and Yukon, where his party built Fort Yukon the following year.

Copy seen: DLC.

533. ANDREWS, CLARENCE LE-ROY, 1862-1948. Chief manager. (Alaska life, Apr. 1943, v. 6, no. 4, p. 48-50, illus.)

Biographical sketch of Wrangell (Baron Ferdinand von Wrangel') as explorer of arctic seas, discoverer of Wrangel's Island, and (1830-34) manager of Russian-American Co. in Alaska.

Copy seen: DLC.

534. ANDREWS, CLARENCE LE-ROY, 1862-1948. Children of the sea. (Alaska sportsman, July 1938. v. 4, no. 7, p. 8-9, 27-28, 31-32, illus.)

The history of extinction of the sea otter, its behavior, and former importance to Russian and other fur traders in the Aleutian Islands.

Copy seen: DLC.

535. ANDREWS, CLARENCE LE-ROY, 1862-1948. Driving reindeer in Alaska. (Pacific Northwest quarterly, Apr. 1935. v. 26, p. 90-93)

Contains a summary of the drives, with distances of each, by means of

which reindeer herds became distributed in various parts of Alaska (including the Aleutian Islands) after purchase in Lapland, 1898, for relief of miners and others.

Copy seen: DLC.

536. ANDREWS, CLARENCE LE-ROY, 1862-1948. Early publications. (Alaska life, July 1945. v. 8, no. 7, p. 49-53)

Notes on periodicals published in Alaska, beginning 1893.

Copy seen: DLC.

537. ANDREWS, CLARENCE LE-ROY, 1862-1948. The Eskimo and his reindeer in Alaska. Caldwell, Id., The Caxton Printers, Ltd., 1939. 253 p. plates, map.

Contains a general account of Eskimo life in western and northern Alaska, with emphasis upon the reindeer breeding that was introduced in 1892. Based upon sojourns in Alaska by the author, particularly from 1923 to 1929 when he worked in the School and Reindeer Service. Includes descriptions of hunting seal, whale, and caribou (by corralling), p. 47-49).

Copy seen: DLC.

538. ANDREWS, CLARENCE LE-ROY, 1862-1948. Father of Alaska mining. (Alaska life, Feb. 1944. v. 7, no. 2, p. 49, 52-55)

Biographical sketch of George E. Pilz, first mining engineer in Alaska, his opening of gold mining in Southeast Alaska, at Sitka 1879, and later at Juneau, his being forced out by Treadwell, and his death in 1926 while prospecting in the Forty-mile region.

Copy seen: DLC.

539. ANDREWS, CLARENCE LE-ROY, 1862-1948. The great Veniaminov. (Alaska life, Mar. 1943. v. 6, no. 3, p. 35-38, illus.)

Biographical sketch of the missionary priest, Ivan Veniaminov, his service to natives and Russians in the Aleutian Islands, 1824-34, and later (1834-49) throughout southern Alaska, from his headquarters at Sitka.

Copy seen: DLC.

540. ANDREWS, CLARENCE LE-ROY, 1862-1948. Mail routes of the Northland. (Alaska life, Apr. 1946. v. 9, no. 4, p. 20-22, illus.)

History of the U.S. postal service

in Alaska from its beginning in July 1867, using the dog sledge and canoe to the present-day airplane.

Copy seen: DLC.

541. ANDREWS, CLARENCE LE-ROY, 1862-1948. The man who opened Alaska. (Alaska life, Dec. 1942. v. 5, No. 12, p. 42-47, illus.)

Historical notes on Grigoriĭ Ivanovich Shelekhov who financed and organized the first company for colonization and trade in Alaska, 1771, the forerunner of the Russian-American Co.

Copy seen: DLC.

542. ANDREWS, CLARENCE LE-ROY, 1862-1948. Marine disasters of the Alaska route. (Pacific Northwest quarterly, Jan. 1916. v. 7, p. 21-37)

Contains a summary of wrecks along the Inland Passage from Seattle to Skagway, with descriptions of some of the most notable disasters. Includes lists of over four hundred marine disasters that have occurred in the Pacific, Bering Sea, and arctic waters of Alaska, giving name of ship, location of disaster, and amount of loss.

Copy seen: DLC.

543. ANDREWS, CLARENCE LE-ROY, 1862-1948. Organizer of the Russian-American Co. (Alaska life, Feb. 1943. v. 6, no. 2, p. 36-39, port.)

Biographical sketch of Nicholai Petrovich Rezanov, who carried on the work of Shelekhov, founder of the Russian-American Co., in the southern Alaskan region, 1795-1807.

Copy seen: DLC.

544. ANDREWS, CLARENCE LE-ROY, 1862-1948. Reindeer in Alaska. (Pacific Northwest quarterly, July 1919. v. 10, p. 171-76)

Contains a brief description of the initiation of the reindeer industry in Alaska in 1891, and of the subsequent progress of the industry.

Copy seen: DLC.

545. ANDREWS, CLARENCE LE-ROY, 1862-1948. Reindeer in the Arctic. (Pacific Northwest quarterly, Jan. 1926. v. 17, p. 14-17)

Contains description of the reindeer industry of the area north of Brooks Range, Alaska, including details of ice corrals and other local characteristics of the herding by Eskimos.

Copy seen: DLC.

546. **ANDREWS, CLARENCE LE-ROY, 1862-1948.** A relic of the quest for Sir John Franklin. (Alaska life, May 1945. v. 8, no. 5, p. 41-43, illus., map)

Concerning a roll of paper found by a North Alaska Eskimo in 1929 near Kotzebue, and the identification of this "relic" as provision depot lists from the Franklin search expeditions of the *Investigator* and *Enterprise* during 1850-55. **Copy seen: DLC.**

547. **ANDREWS, CLARENCE LE-ROY, 1862-1948.** Russian shipbuilding in the American colonies. (Pacific Northwest quarterly, Jan. 1934. v. 25, p. 3-10)

A history of the shipbuilding industry of the Russians in Alaska, with names, tonnage, and dates of construction of the vessels. **Copy seen: DLC.**

548. **ANDREWS, CLARENCE LE-ROY, 1862-1948.** The Russian steamer *Politofski*. (Alaska life, Jan. 1947. v. 10, no. 1, p. 30-31)

Note on the last ship launched by the Russians at Sitka, Alaska, in 1863, and her subsequent fate. **Copy seen: DLC.**

549. **ANDREWS, CLARENCE LE-ROY, 1862-1948.** Sitka, the chief factory of the Russian American Company. 3d ed. Caldwell, Id., The Caxton Printers, Ltd., 1945. 144 p. front., 35 plates, map (end papers). Third edition of a work first published as *The story of Sitka*, 1922.

Popular history of Sitka, with a description of the present-day city and its vicinity. Principal changes since the first edition are a preface, additional plates, revised chapter on "What to see," and use of a modern system for transliterating Russian names. *Map of Sitka in 1867* (end papers), scale 1:2,350. **Copy seen: DLC.**

550. **ANDREWS, CLARENCE LE-ROY, 1862-1948.** So you thought you knew all about the Diomedes? (Alaska life, Oct. 1941. v. 4, no. 10, p. 6-8, illus.)

Historical notes and description of the physical features of Diomed Islands, Bering Strait. **Copy seen: DLC.**

551. **ANDREWS, CLARENCE LE-ROY, 1862-1948.** Some Russian books on Alaskan history. (Pacific North-

west quarterly, Jan. 1937. v. 28, p. 75-87)

A bibliographic summary of the principal available Russian sources in America (published and unpublished) dealing with Alaska in the Russian period. **Copy seen: DLC.**

552. **ANDREWS, CLARENCE LE-ROY, 1862-1948.** The story of Alaska. Seattle, Lowman & Hanford Co., 1931. 258 p. front., 11 plates (incl. map)

A history of Alaska from the earliest explorations to recent developments. It contains, in addition to general history, descriptions of various industries, such as seal and sea-otter hunting, gold mining, and gardening; accounts of missionary activities; observations on contacts of native peoples with whites; and summary of railroad-building activities. Includes about 700 notes citing authorities, with comments; also illustrations from historical sources and from photographs taken by the author in the course of several years' sojourn in Alaska. *Map* shows trails used in gold rush of 1897. **Copy seen: DLC.**

553. **ANDREWS, CLARENCE LE-ROY, 1862-1948.** The story of Alaska. Caldwell, Id., The Caxton Printers, Ltd., 1938. 303 p. 64 plates, incl. 5 maps (1 fold., in pocket).

Revised edition of work of same title published in 1931. Text and notes slightly enlarged, revised, and brought up to date; numerous additional illustrations; three additional small scale facsimile maps, and added folding map in pocket, scale 1:5,000,000 (U. S. G. S. map of Alaska, 1936). **Copy seen: DLC.**

554. **ANDREWS, CLARENCE LE-ROY, 1862-1948.** The story of Sitka; the historic outpost of the northwest coast, the chief factory of the Russian American Company. Seattle, Press of Lowman & Hanford Co. [1922] 2 p. l., 108 p. front., 14 plates, fold. plan.

First edition of a work later published in a third edition as *Sitka*, 1945. Popular history of Sitka, Alaska. *Map* (fold.) of Sitka in 1867, scale 1:2,350. **Copy seen: DLC.**

555. **ANDREWS, CLARENCE LE-ROY, 1862-1948.** Uncompleted railways in Alaska. (Alaska life, Oct. 1942. v. 5, no. 10, p. 9-12, illus.)

Historical notes on projected railways, beginning 1885.

Contents include chapters on division of late Quaternary of North America, conditions in northern Manitoba during late-glacial time, rate of ice recession in Grass River region, and glacial clays of Grass River region. Bibliography, p. 71-76. *Copy seen:* DLC.

599. ANTEVS, ERNST, 1888-. Maps of the Pleistocene glaciations. (Geological Society of America. Bulletin, Dec. 1929. v. 40, p. 631-720, 21 figs. (maps))

Report on a compilation of glacial maps of both hemispheres, undertaken by the author for the Glacial Committee of the Geological Society of America. It includes, in "Ice-sheets of North America": Alaska, arctic North America, Labrador, and Greenland; in "Ice-sheets in northern Europe": U.S.S.R. and Barents Sea; in "Pleistocene glaciation on islands in arctic and sub-arctic Europe": Franz Josef Land,

King Charles Land, West Spitsbergen, Bear Island, and Jan Mayen. Bibliography. *Copy seen:* DGS.

600. ANTEVS, ERNST, 1888-. Retreat of the last ice-sheet in eastern Canada. Ottawa, King's Printer, 1925. 1 p. l., iii, 142 p. incl. tables, diagrs. 9 plates (incl. 6 fold. diagrs.) maps (1 fold.) (Canada. Geological Survey. Memoir 146. Geological ser., no. 126)

Description of the sediments and soils from the ice age in a study of ice recession; the relationship between the retreat in North America and Europe; the localities studied; bibliography, p. 129-38. *Copy seen:* DLC.

601. ANTEVS, ERNST, 1888-. The spread of aboriginal man to North America. (Geographical review Apr. 1935. v. 25, p. 302-312)

Remarks in support of the theory of migration from eastern Asia through Alaska in late-Quaternary times, with notes on the extent of glaciation on this continent in relation to routes. *Copy seen:* DLC.

602. ANTEVS, ERNST, 1888-, and A. G. NATHORST. Kohlenführender Kulm auf der Bären-Insel. (Geologiska föreningens i Stockholm. Förhandlingar, 1917. Bd. 39, p. 649-63, 2 plates) *Title tr.:* Coal-bearing limestone on Bear Island.

Contains a geological description of the formation, by E. Antevs; and a list, with discussion and descriptions of its nine newly discovered fossil flora species, by A. G. Nathorst. *Copy seen:* DGS.

603. ANTHONY, A. W. Stray notes from Alaska. (Auk, Apr. 1906. v. 23, p. 179-84)

Results of records made during the winter of 1904-05, in the open tundra of Seward Peninsula, of the birds heard and seen, the nests and migrations. *Copy seen:* DSI-M.

604. ANTHONY, HAROLD ELMER, 1890-. Nature's deep freeze. (Natural history, Sept. 1949. v. 58, p. 296-301, illus.)

Popular article on mammoths discovered in Siberia and Alaska over several centuries, and particularly on recently excavated specimens from the Fairbanks region. *Copy seen:* DLC.

604A. ANTHROPOLOGICAL INSTITUTE OF GREAT BRITAIN AND IRELAND. ARCTIC COMMITTEE. Report . . . to the council. (*In*: Royal Geographical Society, *London*. Arctic geography and ethnology, 1875. p. 276-92)

Report of the Arctic Committee in reference to a letter from the Royal Geographical Society, 1872, requesting the Anthropological Institute to submit to the Council of the Society, a statement "embodying their views, in detail, of the various ways in which the science of anthropology would be advanced by arctic exploration." *Appendix*: Questions for explorers, comprises ten sets of specific suggestions regarding the observation of native tribes, made by eight specialists.

Copy seen: DLC.

605. ANTI-MONOPOLY ASSOCIATION OF THE PACIFIC COAST. A history of the wrongs of Alaska. An appeal to the people and press of America. February, 1875. San Francisco [Anti-Monopoly Association of the Pacific Coast] 1875. 43 p. Reprinted unchanged in O. O. Howard, *Report of tour in Alaska Territory in June 1875*, 1876. (44th Cong., 1st sess. Senate. Ex. Doc. 12).

Describes the activities of Hutchinson, Kohl & Co. and their successors, the Alaska Commercial Co., in connection with their lease for fur sealing in the Pribilof Islands, and presents arguments in favor of voiding the lease and opening the fur-seal trade to other people. Includes text of resolution and petitions from business men and Pribilof Aleuts, castigating the Alaska Commercial Co. for its treatment of the natives and its collusion with government officials to maintain a monopoly of Alaskan trade; describes the way in which a contract was awarded by the Secretary of the Treasury for the lease of fur-trading rights.

Copy seen: DLC.

606. ANTIPIN, V. M. Fauna pozvochnykh severo-vostoka Novoï Zemli. (*Problemy Arktiki*, 1938, no. 2, p. 153-71, illus., map) *Title tr.*: Vertebrates of northeastern Novaya Zemlya.

A sketch based on author's field study 1936-37, containing short descriptions of forty birds and nine mammals observed.

Copy seen: DLC.

607. ANTIPIN, V. M. Morskoi zver na Novoï Zemle. (*Sovetskaiâ Arktika*, 1938, no. 7, p. 98-101, illus.) *Title tr.*: Sea mammals on Novaya Zemlya.

Notes on animals encountered in the region, also on methods of sealing and bear hunting. *Copy seen*: DLC.

608. ANTONOV, L. B. Apatitovy mestorozhdeniâ Khibinskoi tundry. (*In*: Khibinskie apatity, 1934. T. 7, p. 1-196, illus., maps (incl. 3 fold.) tables.) *Title tr.*: Apatite deposits of Khibina Tundra. Basic study of the subject and exhaustive account of results of a five-year investigation of Kukisvumchorr apatite deposit, said to be the greatest in the world, located in the Loparskaya River valley 27 km. east of Apatite Station (Apatity, about 67°-30'N. 33°05'E.) Kola Peninsula.

Contains a note on the climate (p. 6-8): the probability of precipitation every seven days in a ten-day period in the region of Kirovsk, the more elevated parts of the tundra being warmer in winter and colder in summer than the valley sections, (with tables). An outline of the orography of the region, p. 8-18; its geological and petrographic characteristics, p. 18-56. Structure of the deposit; photographic representation of samples. Tables show phosphorus pentoxide content in individual ore zones and the results of analyses of samples taken in various bore holes, p. 57-113. Calculation of the reserves of the mineral, p. 113-50. Account of prospecting, 1929-34; illustrations show vertical section of bore holes, p. 150-96. Geological map of Khibina Tundra, scale 1:62,500, at end of volume.

640. ARCTIC CIRCULAR. Biting insects in the Arctic. (Arctic circular, Aug. 1948. v. 1, p. 67)

Note on localities, program, and directing personnel of the Canadian Defence Research Board and Dept. of Agriculture investigations of biting insects in the Canadian Arctic and subarctic. *Copy seen:* CaMAI.

641. ARCTIC CIRCULAR. Ice reconnaissance over Hudson Bay. (Arctic circular, Apr. 1949. v. 2, p. 41-42)

Report on flights, Mar. 8 and 17, 1949, in continuation of the program

begun in the winter 1947-48; by the Defence Research Board of Canada.

Copy seen: CaMAI.

642. **ARCTIC CIRCULAR.** New arctic weather stations. (Arctic circular, May 1948. v. 1, p. 45-46)

Notice of establishment of Canadian-U. S. meteorologic and aerologic stations on Prince Patrick and Ellef Ringnes Islands.

Copy seen: CaMAI.

643. **ARCTIC CIRCULAR.** The Northwest Territories and Yukon radio telegraph system. (Arctic circular, Feb. 1949. v. 2, p. 21-22)

History of development of wireless communication operated by the Royal Canadian Corps of Signals, beginning 1923 at Dawson and Mayo Landing, with lists of present signals and broadcast stations.

Copy seen: CaMAI.

644. **ARCTIC CIRCULAR.** Operation Canon. (Arctic circular, Feb. 1948. v. 1, no. 2, p. 5-8)

Account of flights, parachuting, and other activities involved in the aerial relief of Canon J. H. Turner, for eighteen years Church of England missionary in the Canadian Eastern Arctic. Canon Turner was taken out of his Moffet Inlet (Baffin Island) mission on Nov. 21, 1947 after an accident, and died Dec. 9, 1947. This article includes a sketch of his work in the Arctic.

Copy seen: CaMAI.

645. **ARCTIC CIRCULAR.** Operation Polco. (Arctic circular, Mar. 1948. v. 1, p. 20-23)

Account of a joint, airborne expedition of the Royal Canadian Air Force and Division of Terrestrial Magnetism of the Dominion Observatory, July-Sept. 1947, to make magnetic observations at nine stations in the Northwest Territories and Canadian Arctic Islands.

Copy seen: CaMAI.

646. **ARCTIC CIRCULAR.** v. 1-2, 1948-1949. Ottawa, The Arctic Circle, 1948-49 (in progress). 2 v. Process-print. Eight numbers a year are issued, Jan.-May, Aug.-Dec., with index and contents list at end of volume; edited by Diana Rowley, and published by the Arctic Circle, a club with headquarters in Ottawa, Canada.

Contains informal proceedings of the club's meetings, with reports and

news from members and others on governmental and private expeditions, research and activities in the North American Arctic, and brief articles on arctic subjects.

File seen: CaMAI.

ARCTIC CLUB, Seattle, see Alaska almanac. 1905-1909.

647. **ARCTIC INSTITUTE OF NORTH AMERICA.** Blue Dolphin Expedition to Labrador. (Arctic, May 1949. v. 2, p. 58-59, illus.)

Description of this schooner built in 1926, and being reinforced for use in ice and equipped for hydrographic and oceanographic investigations. A scientific expedition to Labrador waters in the *Blue Dolphin* under Commander David C. Nutt, is planned for June 1949, under auspices of the Arctic Institute of North America.

Copy seen: CaMAI; DLC.

648. **ARCTIC INSTITUTE OF NORTH AMERICA.** Library accessions. Montreal, March, 1948- (in progress).

Mimeographed list (issued about ten times a year) of books, pamphlets, reprints, process-printed and typewritten papers, reports, etc., received at the headquarters of the Arctic Institute of North America, Montreal. These lists record publications and some unpublished works on a wide range of subjects and research projects relating to the arctic regions.

File seen: CaMAI.

649. **ARCTIC INSTITUTE OF NORTH AMERICA.** Mapping and description. (*In Its:* A program of desirable scientific investigations in arctic North America. *Pub.* as *Its:* Bulletin, Mar. 1946, No. 1, p. 3-6)

Remarks by J. T. Wilson, D. B. MacMillan, W. H. Allen and S. W. Boggs on needs and possible programs in isomagnetic and other mapping of lesser known arctic areas.

Copy seen: CaMAI; DLC; DSI-M.

650. **ARCTIC INSTITUTE OF NORTH AMERICA.** A program of desirable scientific investigations in arctic North America. Montreal, 1946. 65 p. (*Its:* Bulletin. No. 1)

Contents: Arctic Institute of North America. Mapping and description.

DORSEY, H. G., and others. Meteorology and climatology.

SVERDRUP, H. U., and M. J. DUNBAR. Oceanography.

SMITH, P. S., and G. HANSON. Geology.

ROSE, D. C., and others. Special physical problems.

WYNNE-EDWARDS, V. C., and others. Biology.

COLLINS, H. B. Anthropology.

JENNESS, D. Ethnology and archaeology.

HANNA, W. F., and others. Soils and agriculture.

Each paper appears in this Bibliography under its author's name.

Copy seen: CaMAI; DLC; DSI-M.

651. ARCTIC MISCELLANIES. A souvenir of the late polar search. By the officers and seamen of the expedition. 2d. ed. London, Colburn & Co., 1852. 2 p. l., [vii]-xxiv, 347, [1] p. col. front. illus.

A collection of articles extracted from a manuscript newspaper called "Aurora borealis," published monthly and edited by one of the officers of the *Assistance*, during the expedition under Sir H. T. Austin in search of Franklin, 1850-51, in Canadian Arctic waters. The collection includes a variety of whimsical and informative articles by members of the expedition, on animals and birds, sledge journeys, entertainment, history, and the Eskimos, etc.

Copy seen: DLC; NNStef.

652. ARCTIC OIL WELLS TO PLAY A VITAL ROLE. (Petroleum times, Dec. 11, 1943. v. 47, p. 672-75)

Description of the development of the Canol Project. Copy seen: CaOG.

653. ARCTIC REWARDS AND THEIR CLAIMANTS. London, T. Hatchard, 1856. 31 p.

Discussion of information on the fate of the Franklin Expedition, reported by John Rae as a result of contact with Eskimos during his travels in the region south of Boothia Peninsula in 1854; and remarks on Rae's right to the British government's reward.

Copy seen: DLC.

654. ARCTIC SURVEY. (Canadian journal of economics and political science, Feb., May and Aug. 1945, v. 11, p. 48-82, 189-233, 432-66, 578-600, illus. sketch maps, diagrs.)

This preliminary survey of the problems of the social scientist in the North American Arctic was undertaken by the Canadian Social Science Research Council. These six papers were also published later with others as *The new North-West*, edited by C. A. Dawson, 1947, q. v.

Contents: Foreword, by H. A. Innis.

1. WHERRETT, G. J. Survey of health conditions and medical and hospital services in the North West Territories.

2. MOORE, Andrew. Survey of education in the Mackenzie District.

3. TAYLOR, Griffith. A Mackenzie domesday.

4. TAYLOR, Griffith. A Yukon domesday.

5. HEWETSON, H. W. Transportation in the Canadian North.

6. DAWSON, C. A. The new North-West.

Each of these papers appears in this Bibliography under its author's name.

655. ARCTIC TRAVELS; or, An account of the several land expeditions to determine the geography of the northern part of the American continent. Dublin, Printed by T. I. White, 1830. 188 p. incl. front. 5 plates.

Extracts from narratives of Hearne's, Mackenzie's, and Franklin's land expeditions of the late 18th and early

19th centuries, recast in the form of conversation, for young people's reading.
Copy seen: DLC; NNNStef.

656. ARCTIC VOYAGES; being an account of discoveries in the north polar seas in 1818, 1819 & 1820, with an account of the Esquimaux people. Compiled from the most authentic sources. London, *Pub.* under the direction of the Committee of General Literature and Education, appointed by the Society for Promoting Christian Knowledge, 1848. 2 p. l., 163 p. illus. Also published in Dublin, by R. D. Webb, 1831 (172 p. front., plates).

Extracts from narratives of the Ross voyage of 1818, and Parry's voyages 1819 and 1820, recast in a question-and-answer style for young people.

Copy seen: NNNStef.

657. ARCTOWSKI, HENRYK, 1871-
La congelation de l'eau de mer. (Société Belge d'Astronomie. Bulletin, mai 1909. Année 14, p. 182-95, illus.)
Title tr.: The freezing of sea water.

Based upon the author's observations in antarctic seas, but descriptive of the process of ice formation in general.

Copy seen: DLC.

657A. ARENBERG, DAVID LEWIS, 1915-, and **R. W. ELSNER.** The microscopic structure of rime. (American Meteorological Society. Bulletin, June 1942. v. 23, p. 276-80, illus.)

Results of microscopic examination of rime as it formed on various surfaces; a preliminary report on icing processes.

Copy seen: DLC.

658. ARESCHOUG, FREDRIK WILHELM CHRISTIAN, 1830-1908. Om *Rubus idaeus* L., dess affiniteter och ursprungliga hemland. (Botaniska notiser, 1872, no. 6, p. 168-81) **Title tr.:** On *Rubus idaeus* L., its affinities and original homeland.

Contains a taxonomic discussion of this berry bush, its relationship with other species including some native to arctic regions; origin and geographic distribution.

Copy seen: MH-A.

659. ARESCHOUG, JOHAN ERHARD, 1811-1887. Släkten *Fucus* (L.) DeCaisne & Thuret och *Pycnophycus* Kütz

jemte tillhörande arter. (Botaniska notiser, 1868, no. 3, p. 99-115) **Title tr.:** Genera *Fucus* (L.) DeCaisne & Thuret, and *Pycnophycus* Kütz and their species.

Contains a critical revision of marine algae of the genera *Fucus* (eight species, one new sub-species) and *Pycnophycus* (two species) with Latin descriptions, critical notes and data on total distribution; includes some native to Scandinavian, Greenland and Kamchatka coasts.

Copy seen: MH-A.

660. AR'EV, T. IA. Novoe v patologii i klinike otmorozheniia. (Sovetskii vrachebnyi zhurnal, 1939. T. 43, no. 7, p. 392-402) **Title tr.:** New findings in connection with the pathology and clinical concept of frostbite.

Discussion of earlier concepts disproved by contemporary research that (1) organic tissues freeze, and (2) frostbitten extremities are brittle; list and definitions of five biological peculiarities of the action of cold, and complications in frostbite; and notes on first aid and subsequent treatment of frostbite.

English translation was published in E. R. Hope, *Frostbite; translations* [etc.], Ottawa, Defence Research Board, 1950, p. 3-12 (copy in DLC).

Copy seen: DSG.

661. AR'EV, T. IA. O zazhivlenii ran, podvergnutskh deistviu kholodnogo atmosfernogo vozdukh. (Vestnik khirurgii i pograniichnykh oblastei, 1936. T. 46, kn. 125, p. 3-12 and 8 p. of illus.) **Title tr.:** On closing of wounds exposed to the influence of atmospheric cold.

Brief review of the literature on the decrease in regeneration capacity of tissues and wounds, under prolonged exposure to low temperature. The author's conclusions are based on experiments with animals.

Copy seen: DLC; NNN.

662. AR'EV, T. IA. Osnovnye cherty sovremennogo ucheniia ob otmorozhenii. Moskva, Medgiz, 1943. 47 p., illus. **Title tr.:** Fundamentals of present-day knowledge of frostbite.

Brief description of various forms of frostbite, pathological anatomy, clinical picture, symptoms, classification, treatment, and prophylaxis, based on experience from the Soviet-Finnish War and World War II.

Copy seen: NNN.

663. AR'EV, T. IA. Otmorozhenie; patologicheskaiâ anatomiiâ, patologicheskaiâ fiziologiiâ, patogenez, klinika, profilaktika i lechenie. S pred. S. S. Girgolava. Izd. 2, isprav. i dop. Leningrad, Gos. izd-vo med. lit-ry, 1940. 222, [2] p. illus., diagrs. Errata slip inserted. **Title tr.:** Frostbite: pathological anatomy, pathological physiology, pathogenesis, clinical aspects, prophylaxis, and treatment.

Second edition, corrected and enlarged, of a standard textbook by Dr. Ar'ev, pupil and collaborator of Dr. Girgolaev (author of the preface), whose clinic specialized in frostbite.

"Clinical aspects" includes the nomenclature, classification, statistics, localization, diagnosis, complications, prognosis, and a discussion of the factors favoring frostbite. "Treatment" covers first aid, subsequent treatment, surgical treatment, and medicinal treatment. Supplement on cold as curative factor, p. 205-210. Bibliography (about 300 items, mainly non-Russian) p. 210-21. **Copy seen:** NNN.

670. ARKHANGEL'SKII, B. F. Izuchenie ionosfery v bukhte Tikhoi. (Problemy Arktiki, 1938, no. 3, p. 121-23) *Title tr.*: Investigations of ionosphere in Tikhaya Bay.

Note on the methods and observations at this station (80°19'N. 52°48'E.) on Hooker Island in Franz Josef Land.

Copy seen: DLC.

671. ARKHANGEL'SKII, B. F. Nabludenii nad ionosferoi v bukhte Tikhoi v 1939 i 1940 godakh. (Problemy Arktiki, 1940, no. 6, p. 97-100, table, diagr.) *Title tr.*: Observations over the ionosphere at Tikhaya Bay, in the years 1939 and 1940.

Mean monthly values of the critical frequencies of the F₂ layer (in megahertz) and their effective heights (in km.) at noon and midnight at Tikhaya (Calm) Bay, Franz Josef Land, during 1938-39, are compared with those of 1939-40. The effects of various atmospheric phenomena on these values are discussed.

Copy seen: DLC.

672. ARKHANGEL'SKII, B. F. Narusheniia normal'nykh islovii v ionosfere v vysokikh shirotakh. (Meteorologiya i gidrologiya, 1937. T. 3, no. 6, p. 66-74, diagrs.) *Title tr.*: Disturbance of the normal conditions in ionosphere in high latitudes.

The lower E layers and the upper F layers of the ionosphere are disturbed largely by solar and magnetic influences according to observations at Tikhaya Bay during the Second International Polar Year, 1932-1933.

Copy seen: DLC.

673. ARKHANGEL'SKII, B. F. Narusheniia radiosv'azi v vysokikh shirotakh i mery bor'by s nimi. (Problemy Arktiki, 1940, no. 3, p. 84-91, diagrs.) *Title tr.*: Disturbance of radio communications in high latitudes and measures for its prevention.

Based on observations at Tikhaya Bay in 1937-39.

Copy seen: DLC.

674. ARKHANGEL'SKII, B. F. Rasprostraneniie radiovoln v severnykh shirotakh. (Leningrad. Vsesoiuznyi arkticheskii institut. Trudy, 1937. T. 78, p. 17-20, diagrs.) *Title tr.*: The propagation of radio waves in the Arctic.

Results of observations of several radio stations transmitting on short and long waves; observations made on Franz Josef Land in the Second International Polar Year. Summary in English.

Copy seen: DSI-M.

675. ARKHANGEL'SKII, B. F., and G. N. EGOROV. Izuchenie ionosfery v bukhte Tikhoi. (Problemy Arktiki, 1939, no. 10-11, p. 31-40, illus.) *Title tr.*: Study of the ionosphere at Tikhaya Bay.

Outline of the program of work during the period 1937-39, and some preliminary results concerning the fluctuation of the E and F layer heights are given. *Copy seen:* DLC.

676. ARKHANGEL'SKII, B. F., and N. V. PABO. Rasprostranenie radiovoln v vysokikh shirotakh. Leningrad, Izdvo Glavsevmorputi, 1938, 88 p. tables, diagrs. (Leningrad, Vsesoiuznyi arkticheskii institut. Trudy. T. 124) *Title tr.:* Propagation of radio waves in high latitudes.

Based on data collected at the polar station on Franz Josef Land in the winter of 1932-33 and 1934-35. *Contains* chapters on distribution of surface beams over the ocean, permafrost, and mountain glaciers, ionization in the upper atmospheric layers, distribution of beams in space, disturbance from normal conditions (solar or magnetic activity, auroras and ionospheric disturbance), and atmospheric disturbances. *Copy seen:* DLC.

677. ARKHANGEL'SKII, E. Raboty po issledovaniū ionosfery v bukhte Tikhoi. (Problemy Arktiki, 1939, no. 5, p. 93-94) *Title tr.:* Ionosphere research at Tikhaya Bay.

Daily and special series of observations were conducted at Tikhaya (Calm) Bay, 80°19'N. 52°48'E., Franz Josef Land, to determine the times of maximum and minimum ionization of E, F₁ and F₂ layers and their fluctuation in elevation. Preliminary results of the first year's work, beginning in Feb. 1938, are discussed. *Copy seen:* DLC.

678. ARKHANGEL'SKII, P. Radiosviāz' s polūsom. (Problemy Arktiki, 1937, no. 4, p. 39-43, diagrs.) *Title tr.:* Radio communication with the North Pole.

Short discussion of the peculiarities of radio waves and observations on them planned by the ice-floe drifting station "North Pole."

Copy seen: DLC.

679. ARKHANGEL'SKII GUBERN-SKII STATISTICHESKII OTDEL. Statisticheskii sbornik po Arkhangel'skoi gubernii za 1927 god. Arkhangel'sk, 1929. 111, 352 p. tables. *Title tr.:* Collection of statistical data on the Arkhangelsk Government District in 1927.

Contains in pt. 1 (111 p) detailed explanatory notes on subjects represented

in statistics in pt. 2. Pt. 2. Statistical tables on (1) administrative districts and population, p. 3-22; (2) criminal statistics, p. 23-44; (3) education, p. 45-112; (4) public health, p. 113-24; (5) Arkhangelsk (and a few other municipalities) public utilities, housing, etc. p. 125-34; (6) agriculture, p. 135-88; (7) rural statistical survey, p. 189-216; (8) lumber industry, p. 217-24; (9) hunting, fishing, wagon transport, handicrafts, p. 225-40; (10) rural wealth: capital, assets, and expenditures, p. 241-44; (11) industries, including list of industrial organizations, p. 245-54; (12) labor and social security, p. 255-76; (13) trade and cooperatives, p. 277-92; (14) transportation and communication, p. 293-302; (15) food consumption, p. 303-306; (16) insurance, p. 307-314; (17) finance, p. 315-22; (18) census 1926-27, p. 323-50.

Handlingar, 3. ser., bd. 13, no. 3)

List, with synonymy, descriptions and notes of occurrence, of thirty-eight species. Bibliography, p. 84-87.

Copy seen: DLC.

688. **ÄRNBÄCK - CHRISTIE - LINDE, AUGUSTA.** Notes on *Botrylloides aurea* M. Sars. (Nytt magasin for naturvidenskapene, 1924. Bd. 61, p. 285-93)

Contains synonymy and critical notes on *Botrylloides aurea*, an incrusting tunicate, collected in Oxfjord, off Tromsø, by M. Sars in the summer of 1849, and in Porsangerfjord in 1887; bibliographical footnotes.

Copy seen: MH-Z.

689. **ARNDT, WALTHER, 1891-**. Die Copeognatha des arktischen Gebietes. (In: Fauna arctica, 1931. Bd. 6, p. 59-66) *Title tr.:* Copeognatha [Corrodentia] of the arctic region.

List, with synonyms and distribution, of seventeen species of these small insects from Greenland and the Eurasian continent; with a bibliography (20 items).

Copy seen: DA.

690. **ARNDT, WALTHER, 1891-**. Die Süßwasserschwämme des arktischen Gebietes. (In: Fauna arctica, 1931. Bd. 6, p. 33-40) *Title tr.:* Fresh-water sponges of the arctic region.

Contains a list, with distribution, of the five species recorded from lakes of circumpolar lands, with discussion of their morphology, etc., as an explanation of their rarity as arctic species; bibliography (22 items).

Copy seen: DA.

691. **ARNDT, WALTHER, 1891-**. Die Süßwasserschwammfauna Norwegens. (Nytt magasin for naturvidenskapene, 1931. Bd. 70, p. 299-312, illus. text map) *Title tr.:* Fresh-water sponge fauna of Norway.

Contains critical notes on two species of fresh-water sponges, *Spongilla lacustris* extending to the Troms region (69°39'N.) and *Ephydatia mulleri* occurring in southern Norway; bibliography (11 items). *Copy seen:* MH-Z.

ARNDT, WALTHER, 1891-, see also Fauna arctica. 1900-33.

692. **ARNDT, WALTHER, 1891-**, and J. A. GRIEG. Die Brachiopoden des arktischen Gebietes. (In: Fauna arctica, 1933. Bd. 6, p. 477-88) *Title tr.:* Brachiopoda of the arctic region.

Contains a list (showing depths) of stations of the German Expedition to the Arctic Ocean, 1898, where three species were collected. A list, with synonyms, localities, and depths, of the nine species, reported up to that time, from the waters above the Arctic Circle, and around Greenland. A key, and a bibliography (85 items).

Copy seen: DA.

693. **ARNELL, HAMPUS WILHELM, 1848-1932.** Beiträge zur Moosflora der Spitzbergischen Inselgruppe. (Svenska vetenskapsakademien. Öfversigt af förhandlingar, 1900. Årg. 57, p. 99-130) *Title tr.:* Contributions to the moss flora of the Spitzbergen archipelago.

List, with synonymy, localities and remarks, of eighty-two species collected on King Charles Land and West Spitzbergen by the Swedish Arctic Expedition, 1898.

Copy seen: DLC.

694. **ARNELL, HAMPUS WILHELM, 1848-1932.** *Martinellia tundrae* Arnell, nova species. (Botaniska notiser, 1921. p. 289-91, illus.)

Contains a Latin diagnosis of a new lichen *Martinellia tundrae* n. sp. collected by the author in 1876, near Dudinka (69°35'N.) lower Yenisey River region, with critical note in German.

Copy seen: MH-A.

695. **ARNELL, HAMPUS WILHELM, 1848-1932.** Die Moose der Vega-Expedition. Stockholm, Almqvist & Wiksell, 1917. 111 p. (Arkiv för botanik, 1918-19, pub. 1917. Bd. 15, no. 5) *Title tr.:* The mosses from the Vega Expedition.

Contains a systematic enumeration of two hundred sixty-seven species of mosses collected by various members of two Nordenskiöld expeditions in 1875-76 (to the Yenisey) and in 1878-80 (in the Vega), on Vaygach Island, Novaya Zemlya, on the northern coast of Siberia from Taymyr Peninsula to the Bering Sea, in Alaska and St. Lawrence Island; includes descriptions of many new species, with synonymy, critical notes and data on distribution.

Copy seen: MH.

696. **ARNELL, HAMPUS WILHELM, 1848-1932.** Moss studier 1-23. (Botaniska notiser, 1894, p. 49-63; (10-11) 1896, p. 97-110; (2) 1897, p. 67-68; (13-19) 1898, p. 49-62; (20-23) 1899, p. 73-79) *Title tr.:* Moss studies 1-23.

Contains studies of noteworthy moss species, mostly Scandinavian, with Latin descriptions of a few species and forms, critical notes and data on distribution; includes (in no. 12) *Bryum curvatum* n. sp. native to Nordreisen, Tromsø, Norway (in no. 10), *B. elegans v. norvegicum* n. var. from Tromsø, and some others native to northern Scandinavia and Siberia.

Copy seen: MH-A.

697. ARNELL, HAMPUS WILHELM, 1848-1932. Om de skandinaviske *Thyridia tamariscina*. (Botaniska notiser, 1890, p. 73-80) *Title tr.*: On Scandinavian *Thyridia tamariscina*.

Contains a taxonomic study of complicated identity of a moss, *Thyridia tamariscina*, and critical notes on three related species, *T. tamariscifolium*, *T. delicatulum* and *T. recognitum*, all native to Scandinavia, two latter species also found in Yenisey River valley (56-69°N.) in Siberia.

Copy seen: MH-A.

698. ARNELL, HAMPUS WILHELM, 1848-1932. Om några *Jungermania ventricosa* Dicks. närliggande lefvermosarter. (Botaniska notiser, 1890, p. 97-104) *Title tr.*: On some liverworts closely related to *Jungermania ventricosa* Dicks.

Contains critical notes and data on Scandinavian and total distribution of five species of liverworts of the genus *Jungermania*, closely related to *Jungermania ventricosa*, including some native to Swedish Lapland, northern Norway, Greenland, West Spitsbergen, lower Yenisey River region (56-69°N.) of Siberia, and Kola Peninsula.

Copy seen: MH-A.

699. ARNELL, HAMPUS WILHELM, 1848-1932. Die schwedischen *Jungermania*-Arten. Pflanzen-geographische Skizzen. Stockholm, Almqvist & Wiksell, 1925. 99 p. (Arkiv för botanik, Bd. 19, no. 10) *Title tr.*: Swedish species of *Jungermania*. Geobotanical sketches.

Contains a systematic enumeration of forty-one species of *Jungermania* with synonymy, critical notes, Latin diagnosis of one new variety and detailed data on geographical distribution in Sweden; includes some arctic species of this liverwort.

Copy seen: MH-A.

700. ARNELL, HAMPUS WILHELM, 1848-1932. Spridda vaxtgeografiska bidrag. (Botaniska notiser, 1876, no. 1, p. 8-15) *Title tr.*: Occasional geobotanical contributions.

Contains a list with localities of about one hundred twenty-five mosses, including some native to Swedish Lapland, and Nordland, Norway.

Copy seen: MH-A.

701. ARNELL, HAMPUS WILHELM, 1848-1932. Ueber die *Jungermania barbata*-Gruppe. (Botaniska notiser, 1906, p. 145-57) *Title tr.*: On the *Jungermania barbata* group.

Contains data on geographic distribution in Sweden of liverworts (Hepaticae) belonging to the group *Jungermania barbata*, including *J. Baueriana*, *J. polita*, *J. Kunzeana* and *J. obtusa* occurring in Swedish Lapland.

Copy seen: MH-A.

702. ARNELL, HAMPUS WILHELM, 1848-1932. Zur Mossflora des Lena-Tales. Bericht über die im Jahre 1898 von Herrn Doktor H. Nilsson-Ehle an der Lena gesammelten Moose. Uppsala & Stockholm. Almqvist & Wiksell, 1913. 94 p. 3 plates. (Arkiv för botanik, 1913-1914, pub. 1913. Bd. 13, no. 2) *Title tr.*: On moss flora of the Lena River valley. A communication on the mosses collected by Dr. H. Nilsson-Ehle in the Lena region in 1898.

Contains a systematic enumeration of two hundred thirty-three species of mosses and liverworts with description of many new forms, collected by H. Nilsson-Ehle in the valley of the Lena River (from 51°N. to 72°N.) and supplemented by the results of the author's own exploration of the moss flora of the Yenisey River basin in 1876 during Nordenskiöld's expedition of 1875-76.

Copy seen: MH-A.

703. ARNELL, HAMPUS WILHELM, 1848-1932, and HANS BUCH. *Martinellia scandica* nov. spec. (Botaniska notiser, 1921, p. 1-2)

Contains a Latin diagnosis of *Martinellia scandica* n. sp., a lichen native to Lule Lappmark, northern Sweden.

Copy seen: MH-A.

ARNELL, HAMPUS WILHELM, 1848-1932, see also Lindberg, S. O., & others. Musci Asiae borealis. 1889-1909.

ARNELL, HAMPUS WILHELM, 1848-1932, see also Sanio, C. Beschreibung d. Harpidien. 1885.

704. ARNELL, P. B. The wreck of the bark "Alaska". (Alaska life, Feb. 1948. v. 11, no. 2, p. 9)

Account of salvaging wreckage and cargo from a wrecked whaler in June 1900, by inhabitants of Nome.

Copy seen: DLC.

705. ARNELL, SIGFRID WILHELM, 1895-. Bidrag till kännedomen om levermossfloran i Norrbotten och Torne Lappmark. (Botaniska notiser, 1941, häfte 2, p. 226-30) *Title tr.*: Contributions to the knowledge of liverwort flora of Norrbotten and Torne Lappmark.

Contains a list of one hundred forty liverworts collected in 1938 and 1939 by the author and H. Smith in the coastal region of Norrbotten and Torne Lappmark, with data on local distribution.

Copy seen: MH-A.

706. ARNELL, SIGFRID WILHELM, 1895-. Contributions to the knowledge of the hepatics of Novaya Zemlya. (Svensk botanik tidskrift, 1947. Bd. 41, häfte 2, p. 209-17, illus.)

Contains a list of fifty-six hepatics collected by Otto Ekstam in Novaya Zemlya and Vaygach Island in 1901 and 1902; includes Latin diagnoses of *Scapania zemliae* n. sp. and three new varieties.

Copy seen: MH-A.

707. ARNESEN, M. E. Från Gyda-viken till Obdorsk. (Ymer, 1882. Årg. 2, p. 135-45) *Title tr.*: From Gydan Bay to Obdorsk.

Account (by the skipper of the schooner *Nordland*, which accompanied the *Oscar Dickson* on its voyage to the Yenisey estuary in 1880) of the rescue and homeward trip overland via Obdorsk (Salekhard) of the last members of the shipwrecked party from the *Oscar Dickson*; also description of customs and manners of Samoyeds.

Copy seen: DLC.

708. ARNESEN, ODD, 1897-1946. En helt. Polar-årboken, 1938, p. 42-48, illus.) *Title tr.*: A hero.

Speech in tribute to Oscar Wisting, Amundsen's companion on trips to North and South Poles.

Copy seen: NN.

709. ARNESEN, ODD, 1897-1946. Nansen som kunstner. (Polar-årboken, 1940, p. 3-10, illus.) *Title tr.*: Nansen as an artist.

Discusses his gifts for drawing and painting of water colors, chiefly of arctic scenes and animals.

Copy seen: NNM.

710. ARNESEN, ODD, 1897-1946. De norske flyvninger i Eirik Raudes land sommeren 1932 og påvisningen av flyveplassene der. (Norsk geografisk tidskrift, 1932-33, pub. 1933. Bd. 4, p. 362-66, illus.) *Title tr.*: The Norwegian flights in Eric the Red Land during the summer of 1932 and the locating of landing fields there.

Account (by journalist participant) of aerial mapping flights in the *Quarritsiluni* on the Norwegian Expedition to East Greenland, 1932, and of reconnaissance for landing fields in a sports plane.

Copy seen: DLC.

711. ARNESEN, ODD, 1897-1946. På besøk hos russerne på Svalbard. (Polar-årboken, 1939, p. 96-102, illus.) *Title tr.*: A visit with the Russians in Svalbard.

Notes accommodations and hospitality at Barentsburg and Grumant coal mines.

Copy seen: NN.

712. ARNESEN, ODD, 1897-1946. The polar adventure; the "Italia" tragedy seen at close quarters. London, V. Gollancz, Ltd., 1929. 158 p. 24 plates.

Translation from the Norwegian, of his "Italia"-tragedien på nært hold, 1928 (see no. 720 below).

Copy seen: DLC.

713. ARNESEN, ODD, 1897-1946. Roald Amundsen som han var. Oslo, Gyldendal, Norsk forlag, 1929. 205, [1] p., 1 l. plates, ports. *Title tr.*: Roald Amundsen as he was.

Contains an account of the childhood and early youth of Roald Engelbregt Gravning Amundsen (1872-1928); his medical studies; preparations for his life work as an explorer; his achievements, from the exploration of the Northwest Passage, 1903-07 (*Gjøa* expedition) and the South Pole, 1911, to his death during the search for Noble in 1928. Emphasizes and gives an insight into the character and humanity of the Norwegian explorer.

Copy seen: NN.

714. ARNESEN, ODD, 1897-1946. Roald Amundsens insats som etnograf. När får vi verket om de rike "Gjøa"-samlinge? (Polar-årboken, 1942, p. 91-98, illus.) *Title tr.*: Roald Amundsen's

contribution as an ethnographer. When will the work about the extensive *Gjøa* collection be issued?

Notes Amundsen's contribution to polar exploration as a scientist; his research in terrestrial magnetism, ethnography, etc.; his important collection of ethnographic material from his two-year stay on King William Island on the *Gjøa* expedition, from the Bering Strait region during the *Maud* expedition, and from northwestern Canada and Alaska.

Copy seen: NNM.

715. ARNESEN, ODD, 1897-1946. Russerne erobrer Arktis fra luften. Den første drivende videnskapelige ekspedisjon. (Polar-årboken, 1937, p. 69-75, illus., double map.) *Title tr.:* The Russians conquer the Arctic from the air. The first drifting scientific expedition.

Notes Prof. Otto Schmidt's scientific expedition, flown to the vicinity of the North Pole in 1937; oceanographic, meteorological and other investigations from its station on the drifting ice floe. Remarks on the Russian flying expedition (Gromov) from Moscow to California across the North Pole, in record time, July 1937.

Copy seen: NN.

716. ARNESEN, ODD, 1897-1946. Den siste av den gamle garde. Polar-årboken, 1933, p. 95-104, illus.) *Title tr.:* The last of the old guard.

Story of Johan Bjørvig and his friend Bernt Berntsen; death of Berntsen at Cape Heller on Franz Josef Land, where the two wintered, 1898-99; Bjørvig's participation in two of Walter Wellman's expeditions in search of the North Pole. Includes a proposal for the erection of a monument to Bjørvig in his native town, Tromsø, Norway, as a reminder of his heroic deeds and privations.

Copy seen: NN.

717. ARNESEN, ODD, 1897-1946. Storm over Grønland; han som erobret Erik Raudes land fra luften. (Polar-årboken, 1941, p. 20-29, illus.) *Title tr.:* Storm over Greenland; the man who conquered Eric the Red Land from the air.

Biographical notes on Erik Storm, who did aerial mapping on the Norwegian expedition to northeast Greenland in 1932, and died in a plane crash, 1936.

Copy seen: DLC.

718. ARNESEN, ODD, 1897-1946. Svalbard erobres fra luften. (Polar-

årboken, 1936, p. 81-83, illus.) *Title tr.:* Svalbard is conquered from the air.

Notes on preliminary photographing of Svalbard in the summer of 1936 from the air with the aid of the Norwegian flying corps.

Copy seen: NN.

719. ARNESEN, ODD, 1897-1946. Vi flyver over Erik Raudes land. Oslo, Nasjonalforlaget a/s, 1932. 162 p. illus. map. 23½ x 18½ cm. *Title tr.:* We fly over Eric the Red Land.

Popular account of the expedition in the *Polarbjørn* in 1932, peacefully to occupy East Greenland for Norway; stopover at Jan Mayen; personnel of the expedition; the author's aerial flights over, photography and mapping of Erik Raudes Land (approx. 72°-75°N., 18°-27°W.); conjecture on the duration of the ancient Eskimo settlements in this region. Discussion of the personality and achievements of two leading scientists and other champions of their respective country's claims to sovereignty in East Greenland, including Helge Ingstad, Erik Storm, H. O. Devold, Lauge Koch and Adolf Hoel; data on Balås flying field (73°30'N.), also other fields and landing places; vegetation and wildlife, etc. With foreword by W. Werenskiöld.

Copy seen: DLC; NN.

720. ARNESEN, ODD, 1897-1946, and EJNAR LUNDBORG. "Italia"-tragedien på naert hold [av] Odd Arnesen; og "Den hvite bjørns flak" [av] Ejnar Lundborg. Oslo, Gyldendal, Norsk forlag, 1928. 200 p. illus. (incl. facsim.) 32 plates, fold, map. *Title tr.:* The *Italia* tragedy seen at close quarters, by Odd Arnesen; and "The White Bear Floe", by Ejnar Lundborg.

Translation in English of Arnesen's part (only) was published as *The polar adventure* (etc.), 1929.

Contains (by O. Arnesen) a journalist's account of the events in West Spitsbergen in 1928 before the *Italia*'s flights, and after its catastrophe, with information on the fourteen vessels and twenty-two aircraft (of several nations) engaged in the search for Nobile and Amundsen.

"The White Bear Floe" is an account, by E. Lundborg (the flyer who rescued Nobile) of his two flights to the floe upon which the Nobile party was

stranded, and of his days there after the crash of his plane.

Copy seen: DLC.

721. ARNOLD, C. B. They come—they learn. (Alaska life, Sept. 1938. v. 1, no. 8, p. 6-7, 20-22, illus.)

Description of the Douglas Native School, operated by the U. S. Office of Indian Affairs, and its experimental work with Southeast Alaskan Indians.

Copy seen: DLC.

722. ARNOLD, C. B. When air mail came to Alaska. (Alaska life, July 1938. v. 1, no. 6, p. 8-9, illus.)

Brief notice of inauguration of official air mail service between Juneau, Whitehorse, and Fairbanks, May 3, 1948.

Copy seen: DLC.

ARNOLD, G. F., See Pedashenko, D. D. Otchet o sostoiânii Solovetskoi biol. stantsii 1897. 1897.

723. ARNOLD, LEE W. Observations on populations of North Pacific pelagic birds. (Auk, Oct. 1948. v. 65, p. 553-58, sketch map, table)

Results of a systematized random sample census, June 8-Sept. 16, 1944, taken between Cape Spencer (Southeast Alaska, 58°12'N. 136°39'W.) and the western end of the Aleutian Islands, mainly in the oceanic section of the Aleutian Island National Game Refuge. Includes a note on the apparent indifference of birds to radar and other high-frequency radio waves.

Copy seen: DSI-M.

724. ARNOLD, RUPERT S. Colonization raises its head again. (Alaska life, May 1941. v. 4, no. 5, p. 4, 20)

Comments in opposition to legislation then before Congress, to open Alaska to immigration from Europe.

Copy seen: DLC.

725. ARNOLD, RUPERT S. Hellzapoppin again in Matanuska, the trouble of planters' paradise. (Alaska life, Mar. 1941. v. 4, no. 3, p. 4, 21-23, illus.)

Discussion and brief review of problems of administration, financing and land ownership in the Matanuska valley since 1935.

Copy seen: DLC.

726. ARNOLD, RUPERT S. Let's go to Alaska for our tin. (Alaska life, Apr. 1941, v. 4, no. 4, p. 8-9, 23, sketch map)

Remarks on the need (1) for subsidy to keep the price of tin in line with

costs of production; (2) for a domestic market and smelter, and (3) for a thorough exploitation of Alaskan tin resources now partially lost as "tailings" in gold mining; with notes on tin localities on Seward Peninsula.

Copy seen: DLC.

727. ARNOLD-ALĬAB'EV, V. I. Moshchnost', stroenie i polostnost' l'da Karskogo moriâ po dannym èkspeditsii na l/p "Malygin" v 1934 godu. (Leninograd. Vsesoiûznyĭ arkticheskiĭ institut. Trudy, 1938. T. 110, p. 57-81, illus., fold. tables, fold. diagrs.) *Title tr.:* The thickness of the Kara Sea ice, its structure and cavities, according to the data of the expedition on board the ice-steamer "Malygin" in 1934.

Ice profiles of Kara Sea ice are compared with those of Barents Sea and Gulf of Finland; ice cavities within sea ice are discussed.

Summary in English.

Copy seen: DLC.

728. ARNOLD-ALĬAB'EV, V. I. O primenenii vodoboia (gidromonitora) v bor'be so l'dom. (Severnyi morskoi put', 1937, no. 6, p. 98-109, illus., diagr.) *Title tr.:* Destruction of ice by a high-pressure stream of water (hydromonitor).

A discussion of the possibilities of using hydraulic streams as a supplementary means in overcoming ice barriers, their use on ice-breakers and a description of preliminary experimental work in this field.

Copy seen: DLC.

729. ARNOLD-ALĬAB'EV, V. I. O prochnosti l'da Barentsova i Karskogo morei. (Problemy Arktiki, 1939, no. 6, p. 21-30, illus., tables, diagr.) *Title tr.:* On the strength of ice of the Barents and Kara Seas.

Methods used and results obtained by the author in investigations of and during the Scientific Marine Institute expedition on the *Persei* to the region east of Spitsbergen in 1929 and 1930, on the *Krasin* to the Pechora Sea in 1932, and on the *Malygin* to the Kara Sea in 1934. Bibliography (14 items).

Copy seen: DLC.

730. ARNOLD-ALĬAB'EV, V. I. Ob izmerenii tolshechiny l'da s borta sudna na khodu. (Meteorologiya gidrologiia, 1938. T. 4, no. 11-12, p. 149-53, illus.) *Title tr.:* Measurement of ice thickness from aboard a ship in motion.

The reliability of ice thickness measurements is dependent on several factors. Its measurement is complicated by uneven ice cover, the presence of a snow cover, the visibility angle of the observer and other considerations. A method of measurement is described and evaluated. *Copy seen:* DLC.

741. ARWIDSSON, THORSTEN, 1904- . Bemerkungen über die Androgynie in der *Carex dioeca* Gruppe. (Svensk botanisk tidskrift, 1928. Bd. 22, häfte 1-2, p. 106-114, illus.) *Title tr.:* Notes on the androgynous species of *Carex dioeca* group.

Contains a study of androgynous species of *Carex dioeca* group, having male and female flowers on the same inflorescence; based on material from Torne and Lule Lappmark; bibliography (28 items).

Copy seen: MH-A.

742. ARWIDSSON, THORSTEN, 1904- . Bizentrische Arten in Skandinavien — eine terminologische Erörterung. (Botaniska notiser, 1928, häfte 1, p. 49-53) *Title tr.:* Bicentric species in Scandinavia — a terminological explanation.

Contains a general discussion of the meaning and extent of the term "bicentric plant," with a list of such Scandinavian species and occasional notes on their distribution in arctic regions of Scandinavia. *Copy seen:* MH-A.

743. ARWIDSSON, THORSTEN, 1904- . Hieraciologische Kleinigkeiten. (Botaniska notiser, 1929, häfte, 2, p. 130-34) *Title tr.:* A trifle on *Hieracium*.

Contains some critical notes, additions to descriptions, new localities, etc., for twelve species (including four native to the Varanger Fiord region) of the herbaceous genus *Hieracium*, taken from the scattered notes left by the late Prof. M. Elfstrand.

Copy seen: MH-A.

744. ARWIDSSON, THORSTEN, 1904- . Hieraciologiska bidrag. (Botaniska notiser, 1928, häfte 3, p. 192-202, illus.) *Title tr.:* Contributions to *Hieracium* flora.

Contains a list, with localities of fifty-one species of the herbaceous genus *Hieracium*, including Latin diagnoses of three new species (none arctic) and some native to Swedish Lapland.

Copy seen: MH-A.

745. ARWIDSSON, THORSTEN, 1904- . The higher marine algae hitherto known from Kamchatka. (Revue algologique, 1932. T. 6, p. 147-58)

Contains a critical examination of the literature related to the algal flora of Kamchatka, a list of thirty-eight algae collected by the botanist of the Swedish Kamchatka Expedition 1920-22, Eric Hultén; and a bibliography.

Copy seen: NNBG.

746. ARWIDSSON, THORSTEN, 1904- . Mykologiske Bidrag. (Botaniska notiser, 1936, häfte 5, p. 463-80) *Title tr.:* Mycological contributions.

Contains critical notes on twelve species of smuts (Ustilaginales) and three of rusts (Pucciniales), some new to the mycological flora of Sweden, with data on their host plants and geographic distribution; includes five native to arctic Scandinavia, and *Sphaerulina arctica* known from arctic Europe, Asia and North America; bibliography (22 items).
Copy seen: MH-A.

747. ARWIDSSON, THORSTEN, 1904-
. Mykologiske Beiträge. (Botaniska notiser, 1940, häfte 4, p. 370-88) **Title tr.:** Mycological contributions.

Contains a list of six parasitic fungi from Novaya Zemlya collected by O. Ekstam in 1891 and 1901, and critical notes on *Pucciniastrum alaskanum* from Kamchatka Peninsula and *Bovistia echinella* found in Pite Lappmark, northern Sweden; bibliography (36 items).
Copy seen: MH-A.

748. ARWIDSSON, THORSTEN, 1904-
. Några synpunkter på *Epipogium*-problemet. (Botaniska notiser, 1929, häfte 3, p. 153-68) **Title tr.:** Some essential points in the *Epipogium* problem.

Contains data on geographic distribution in Sweden of *Epipogium aphyllum*, first described by E. Fries in 1816, with a list of localities, including some in Norrbotten and Swedish Lapland, and a table of distribution of about one hundred plants commonly found with that terrestrial orchid in six geobotanical regions, including Torne Lappmark; bibliography (40 items).

784. ATWOOD, WALLACE WALTER, 1872- . Geology and mineral resources of parts of the Alaska Peninsula. Washington, U. S. Govt. Print. Off., 1911. 137 p. illus., 14 plates (part fold., incl. 5 maps) (U. S. Geological Survey. Bulletin 467)

Contains the results of surveys of the Chignik, Herendeen Bay, and Unga coal fields, 1908, including information on Alaska Peninsula as a whole (with geologic map), and results of previous investigations. Notes on previous explorations and surveys (with bibliography), on the topography, climate, commercial development, and transportation. Description of the stratigraphy, structural geology and geomorphology (including the Pleistocene glaciation). Distribution of mineral resources; description of the geology, character of the coal, and prospective mining conditions of the Herendeen, Chignik Bay, and Coal Harbor coal fields; of the Coal Bay (i.e. Puale Bay) oil field; of gold on Popof, Unga, and Unalaska Islands; and of copper occurrence at Prospect (i.e. Warner) and Balboa Bays.

Maps include: (1) topographic, (2) geologic maps of Balboa-Herendeen Bay and Unga Island region, and (3) geologic-topographic map of Chignik Bay region; contour interval 200 ft. and scale 1:250,000.

Supplemental paper to the author's *Die Polychaeten in Spitzbergen*, 1928, q.v. Based on the species recorded by P. Fauvel in *Annélides polychètes non pélagique*, etc., 1914, and *Annélides polychètes pélagiques*, etc., 1916,* which comprise the final report on Polychaeta from the Prince of Monaco Expeditions in Svalbard waters, and which Augener had not seen when preparing his earlier paper. This supplement contains a list with localities, of sixty-six species of polychaete annelids; and corrections to the table of determinations in the author's paper noted above.

*These papers, published as *Résultats des campagnes scientifiques accomplies sur son yacht par Albert 1er Prince de Monaco*, fasc. 46 and 48, will be analysed in a Supplement to this Bibliography.

790. AUGENER, HERMANN, 1872- . Die Polychaeten von Spitzbergen. (Zoologischer Anzeiger, Juli 1921. Bd. 53, p. 63-65) *Title tr.:* Polychaeta from Spitzbergen.

Discussion of the distribution elsewhere in the Arctic, of groups of these annelid worms found in the littoral waters of West Spitzbergen.

Copy seen: DSI-M.

791. AUGENER, HERMANN, 1872- . Die Polychaeten von Spitzbergen. (In: Fauna arctica, 1928. Bd. 5, p. 647-834, plate, tables) *Title tr.:* The polychaetes of Spitzbergen.

Contains a discussion of West Spitzbergen as a peculiar general habitat of polychaetes due to the influence upon its western and northern shores, of the Gulf Stream. Tabular presentation of the stations of the German Expedition to the Arctic Ocean, 1898, giving positions, dates, depths, and bottom characteristics; polychaete species collected at each; the circumpolar distribution of West Spitzbergen species; distribution of species in Svalbard waters; polychaetes collected by the *Olga* in 1898 off Bear Island and West Spitzbergen; and a list of species from Bering and Kara Seas, in the Bremen Museum. List with synonyms, references, remarks, and distribution, of one hundred fifty-eight species of these marine annelid worms from Svalbard waters; supplementary lists of occurrences reported after this paper was prepared (1918) and a comparison with Greenland's polychaete fauna. The author also published as addenda: *Ergänzung zu den Polychaeten von Spitzbergen*, 1929, q.v.

849. BACK, Sir GEORGE, 1796-1878. Magnetical observations. (*In:* Back, Sir G. Narrative of the Arctic Land Expedition, 1836. Appendix 8, p. 625-33)

Summary of observations on dip and variation of the magnetic needle and intensity of terrestrial magnetism, as measured at Fort Reliance and other

places between Great Slave Lake and the estuary of the Back River.

Copy seen: DLC.

850. BACK, Sir GEORGE, 1796-1878. Narrative of an expedition in H.M.S. *Terror*, undertaken with a view to geographical discovery on the arctic shores in the years 1836-7. London, J. Murray, 1838. vii, 450 p. front., plates, fold. map.

Expedition in H.M.S. *Terror*, commanded by Capt. Back, under auspices of British Admiralty, for purpose of completing knowledge of the coastline between Prince Regents Inlet and Turnagain Point. The ship left England June 14, 1836, traversed Hudson Strait, met ice barrier across route in August in Foxe Channel. Beset in ice, the *Terror* drifted along northeast coast of Southampton Island all winter, became freed from ice in Hudson Strait July 14, 1837, and reached an Irish port in near-sinking condition, Sept. 3.

Back's narrative contains principally detailed descriptions of the ice floe, its changes and its effects on the ship, together with brief notes on those sections of the Southampton Island coast to which short visits were made. Includes list of equipment, supplies, and personnel (p. 1-6), mention of unusual coldness of the summer of 1836 (p. 60-61, 76), and accounts of trading with Baffin Island Eskimos (p. 37-41). *Appendix* includes tables of monthly means of meteorological and compass variation observations. *Map* of Hudson Strait and north coast of Southampton Island, scale about 1:1,500,000, shows route of expedition and hachured relief of areas roughly surveyed.

Copy seen: DLC.

851. BACK, Sir GEORGE, 1796-1878. Narrative of the Arctic Land Expedition to the mouth of the Great Fish River, and along the shores of the Arctic Ocean, in the years 1833, 1834, and 1835. London, J. Murray, 1836. x p., 1 l., 663 [1] p. front., illus., 16 plates, fold. map.

Expedition via Montreal overland to north central Canada to succor the members of the Second Ross Expedition and incidentally to make scientific observations and survey an unknown section of arctic coast. The party traveled by canoe and portage down Slave River to Great Slave Lake, up

Hoarfrost River, through Artillery Lake, Clinton Colden Lake, and Lake Aylmer, down the Thleweechodezeth or Great Fish River (now Back River) to the arctic coast, thence along Chantry Inlet to Ogle Point. Descent of Back River was made in July and Aug. 1834.

The narrative includes descriptions of the rivers and lakes traversed; ice conditions on the waterways, and in the seas in spring and summer of 1834; general landscapes, including land forms, rock types, and plant and animal life; and the difficulties of canoe transportation. Includes two Yellowknife Indian tales (p. 167-70, 211-13), an account of founding of Fort Reliance at east end of Great Slave Lake and of starvation conditions (p. 181-255); notes on physical characteristics and facial tattooing of Netsilik Eskimos at mouth of Back River (p. 382-85); note on the decline of the Yellowknives (p. 456-57), and discussion of Hearne's journey, 1769-72, by Dr. Richardson (chap. 5).

Map, scale 1:2,500,000, shows outlines of water bodies traversed, location of striking features of the landscape, and dates of arrival of expedition at various points. Inset small-scale orientation map.

Appendix No. 1. J. RICHARDSON. Zoological remarks.

No. 2. W. J. HOOKER. List of plants collected by Mr. Richard King.

No. 3. J. G. CHILDREN. Articulata.

On Chernyshev, the leader of the Russian section of the Swedish-Russian Expedition for the Measurement of an Arc of the Meridian, and on the work of that section (1899-1901). *Copy seen:* DLC.

867. BACKLUND, HELGE GÖTRIK, 1878- . Fjordbildningsproblemet i NO-Grönland. (Geologiska foreningen, Stockholm. Föreläsningar, 1931. Bd. 53, p. 60-66) *Title tr.:* The problem of the formation of the fiords in northeast Greenland.

Reply to O. Kulling's *Bidrag til fjordarnas uppkomst och utvecklings historia inom nordöstra Grönland* 1930, q.v., which challenged the author's lecture on the origin and age of the East Greenland fiords. The subject is also discussed by Backlund in chapter five of his *Contributions to the geology of northeast Greenland*, 1930, q.v. Kulling continued the discussion in his *De nordöstgrönlandska fjordarnas problem*, q.v. *Copy seen:* DLC.

868. BACKLUND, HELGE GÖTRIK, 1878- . Gormyia porody poliarnago Urala i ikh vzaimnyiia otnosheniia. Chast' 1. Vostochnyi sklon v oblasti r. r. Khanema i Kharava. *St.-Petersbourg, 1912. iv. 151 p. illus., 2 plates (1 col.), 1 fold. sketch map.* (Ekspeditsiia brat'ev Kuznetsovykh na poliarnyi Ural, 1909. Rezultatsy scientificques. Livr. 3. *Pub.* as: Akademiia nauk SSSR. Mémoires. Sér. 8, classe physico-mathé-

matique, vol. 28, no. 3) *Title tr.*: The rocks of the arctic Urals and their mutual relationship. Part I. The eastern slope in the region of the Khanema and Kharava Rivers.

The nature of the rocks collected by the Kuznetsov Expedition, described by its leader on the basis of microscopic and chemical analyses, with some conclusions concerning the stratigraphy of the region.

877. BACKLUND, HELGE GÖTRIK, 1878- . Observations dans le Spitzberg central. [St.-Petersbourg, Académie Impériale des Sciences, 1908] 3 p. l., 28, [1] p. 4 plates (incl. fold. map) (Missions scientifiques pour la mesure d'un arc de méridien au Spitzberg, 1899-1901. Mission russe. T. 2, Physique terrestre, météorologie, histoire naturelle, sect. 9, Géologie, 2) *Title tr.:* Observations in central Spitsbergen.

Results of investigations, made during the Russian Expedition to Measure an Arc of Meridian on Spitsbergen, on the inland ice between the east end of Klaas Billen Bay and Stor Fiord (about 78°30'-40'N.)

Contains description of the topographic profile of the region studied in eastern West Spitsbergen, its western slope, ice divide, and eastern slope, the angles of incidence of the icecap, its three zones, and some definitions of characteristics of inland ice, drawn from the works of many writers. Includes some observations on the geology of the same region, describing Mt. Terrier, the Chydenius and Svanberg massifs and the tectonic lines. *Map:* topographic map, scale 1:168,000, shows diluvial outcrops and existing moraines.

The collection of silicified and carbonized wood brought home by the O. N. Sverdrup auxiliary expedition, 1914-15, proved to be of Upper Jurassic age, thus showing Solitude, or Lonely, Island (ostrov Uyedineniya, in Kara Sea about 77°28'N. 82°28'E.) to be a connecting link between continental deposits to the west and the sediments of the same age to the east.

902. BADIGIN, K. S. Na dreifuishchem korable. (Sovetskaya Arktika, 1939, no. 3, p. 44-53, illus.) *Title tr.*: On the drifting ship.

Brief account of scientific work and daily life aboard the ice-breaker, *Sedov*, broadcast by its captain at the end of its second winter drifting westward in the Arctic Basin.

Following this is another article *Dreif "Sedova" (Sedov Drift)* p. 54-64, illus., discussing the significance of the drift, and including a log of the drift during the period Sept. 3, 1938-Mar. 1, 1939. **Copy seen:** DLC.

903. BADIGIN, K. S. Na korable "Georgii Sedov" cherez Ledovityi okean; zapiski kapitana. Nauchnaia redaktsiia N. N. Zubova. Moskva, Izdvo Glavsevmorputi, 1941. 605, [1] p. illus., ports, plans, maps (incl. fold.) diagrs., tables. (Zapiski o zhizni i rabote na ledokol'nom parokhode "Georgii Sedov", dreifovavshem s 23 oktiabria 1937 g. po 13 ianvaria 1940 g. v Severnom Ledovitom okeane, sostavlennye chlenami ekipazha. Kn. I) **Title tr.:** Aboard the *Georgii Sedov* through the Arctic Ocean; the captain's notes. N. N. Zubov, scientific editor. (Notes on life and work on the ice-breaker *Georgii Sedov*, which drifted from October 23, 1937, to January 1940, in the Arctic Ocean, prepared by its crew. Book I.)

Narrative of everyday life on board the *Sadko*, 1937-38, of which author was second-in-command till its liberation, Aug. 1938, then on the ice-bound *Sedov* (of which he became captain) till its liberation, Jan. 13, 1940, and the voyage home. He gives detailed descriptions of the voyage of the *Sadko*, *Malygin* and *Sedov*, the achievements of their missions, and the navigational mistakes which resulted in the ships' becoming beset in ice near the New Siberian Islands (about 75°17'N. 132°28'E.), the drift westward; efforts to make landing fields for airplanes on the ice; rescue by plane of passengers from the ships; liberation of the *Sadko* and *Malygin* by the ice-breaker *Ermak*, Aug. 1938, at about 83°4'N. 138°22'E.; continuation of the *Sedov's* drift westward across the Arctic Basin and organization of the scientific work aboard ship; day-to-day life during the drift till the liberation of the *Sedov* by the ice-breaker *J. Stalin*, Jan. 13, 1940, at about 80°18'N. 1°30'E.

Includes preliminary summary of the results of scientific work aboard the *Sedov* (p. 546-601): data on depths and bottom characteristics, remarks on ocean temperature at different levels, air temperature (monthly mean, maximum and minimum, and comparison with records from other drifts); at-

mospheric pressure (monthly mean, maximum and minimum); severity of weather; auroras; thickness of ice; wind (frequency, velocity, direction, wind roses); drift of ice fields, relation between drift and wind, also drift and atmospheric pressure; comparative analysis of the *Sedov's* drift with that of the *Fram* 1893-96, and the ice floe drifting station "North Pole", 1937-38.

Appendix: Astronomical determinations made during the drift of the *Sedov*, Sept. 1938-Jan. 1940, p. 602-606. **Copy seen:** DLC.

A letter to the Academy of Sciences, St. Petersburg, dated from Arkhangelsk, June 17, 1837, reporting on collections made for the Academy's museum by the expedition's three members, detained in that region because of ice conditions in the White Sea.

Copied seen: DLC.

914. BAER, KARL ERNST von, 1792-1876. Expédition à Novaia-Zemlia et en Laponie. (Akademiā nauk SSSR.

Bulletin scientifique, 1838, T. 3, p. 96-107) *Title tr.*: Expedition to Novaya Zemlya and Lapland.

This expedition of June-Sept. 1837, under the direction of A. K. Ziwolka, with K. E. Baer and H. Lehmann, visited briefly the south and east coasts of Kola Peninsula, and proceeded to Novaya Zemlya, where members conducted investigations in natural history and meteorology in the regions of Matochkin Shar and Kostin Shar until Aug. 31, then returned via Fisher (Ribachiy) Peninsula, northern Kola.

This letter to the Academy of Sciences, St. Petersburg, dated from Arkhangelsk, Sept. 17, 1837, gives an account of the party's trip and work, and serves as an introduction to the scientific reports which appear as the author's *Expédition à Novaya Zemlia et en Laponie. Tableau physique* (etc.), 1838, q. v. *Copy seen:* DLC.

915. BAER, KARL ERNST von, 1792-1876. *Expédition à Novaya Zemlia et en Laponie. Tableau physique des contrées visitées* (Akademiia nauk SSSR. Bulletin scientifique, 1838. T. 3, p. 132-44, 151-59, 171-92, 343-52) *Title tr.*: Expedition to Novaya Zemlya and Lapland. Physical description of the region visited.

Text in German.

Contents tr.: 1. The coasts of the White Sea and Lapland. (General notes on the algae of the White Sea and the vegetation and tundra life of Kola).

2. Geognostic characteristics of Novaya Zemlya. (Description of the physiography and rock formations of the island).

3. Vegetation and climate of Novaya Zemlya. (Full discussion of the vegetation in relation to soil, air and ground temperature, and moisture).

4. Animal life on Novaya Zemlya. (Remarks on the insects, birds, lemmings, and foxes seen on the island, and on the walrus seals, and whales of Barents Sea, with mention of fishes). Published also as Baer's: *Schilderung des tierischen Lebens auf Novaya Zemlia*, 1839, q.v. *Copy seen:* DLC.

916. BAER, KARL ERNST von, 1792-1876. *Nachtrag des Herausgebers. (Beiträge zur Kenntnis des Russischen Reiches, 1843, Bd. 8, p. 259-72, fold. map) Title tr.*: Supplement by the edi-

tor (to A. T. von Middendorff's *Bericht über die ornithologischen Ergebnisse der naturhistorischen Reise im Lapland*, *ibid.* p. 187-258).

To the report of his companion on an expedition to Lapland in 1840, the author adds some comparative data on birds in that region derived from the observations of another ornithologist (Schrader). *Copy seen:* DLC.

917. BAER, KARL ERNST von, 1792-1876. On the frequency of thunderstorms in the polar regions. (Edinburgh new philosophical journal, Apr.-Oct. 1840. v. 29, p. 90-93) Translation of his *Sur la fréquence des orages dans les régions arctiques*; 1840, q. v. *Copy seen:* DLC.

918. BAER, KARL ERNST von, 1792-1876. On the ground ice or frozen soil of Siberia. (Royal Geographical Society. Journal, 1838. v. 8, p. 210-13)

A communication to the Society concerning one of the earliest records of permafrost, encountered during the digging of a well to a depth of 382 ft. by a merchant named Schargin at Yakutsk; also extract from a letter of Prof. Adolph Erman, Mar. 5, 1838, reporting his own observation (in 1828) of temperature of soil taken from this shaft then at the 50 ft. level. Both authors refute then current skepticism concerning the existence of ground permanently frozen to a considerable depth above a thawed layer.

Translation in English was published as his *On the frequency of thunder-storms in the polar regions*, 1840, q.v.

Discussion of thunder storms as reported by earlier writers, with a general statement of the author's opinion "that no northern latitude has been attained by man in which thunder is not known to occur," an opinion contrary to that of other scientific writers of the time. *Copy seen:* DLC.

925. BAER, KARL ERNST von, 1792-1876. Temperatur-Beobachtungen, die an der Westküste von Nowaja-Semlja unter dem 74sten Grade nördl. Breite angestellt worden sind. (Akademiia nauk SSSR. Bulletin scientifique, 1840. T. 7, p. 229-48, incl. tables) *Title tr.:* Temperature observations made on the west coast of Novaya Zemlya below 74°N. latitude.

Recapitulation and summary of temperature observations made at various points in Novaya Zemlya, 1832-39.

Copy seen: DLC.

926. BAER, KARL ERNST von, 1792-1876. Thierisches Leben auf Nowaja Semlia. (Neue Notizen aus dem Gebiete der Natur- und Heilkunde, Apr. 1838. Bd. 6, p. 82-88) *Title tr.:* Animal life on Novaya Zemlya.

From section 4 of his report: *Expédition à Novaia Zemlia et en Laponie. Tableau physique des contrées visitées*, 1838, q. v. *Copy seen:* DLC.

927. BAER, KARL ERNST von, 1792-1876. Ueber das Klima von Nowaja-Semlja und die mittlere Temperatur insbesondere. (Akademiia nauk SSSR. Bulletin scientifique, 1837. T. 2, p. 225-38) *Title tr.:* On the climate of Novaya Zemlya and particularly the average temperature.

This discussion of the climatological characteristics of Novaya Zemlya and particularly the temperature, is based largely on the meteorological observations made by the Pakhtusov Expedition in 1832-33. *Copy seen:* DLC.

928. BAER, KARL ERNST von, 1792-1876. Ueber das Klima von Sitka und den russischen Besitzungen an der Nordwestküste von Amerika überhaupt, nebst einer Untersuchung der Frage, welche Gegenstände des Landbaues in diesen Gegenden gedeihen können. (Akademiia nauk SSSR. Bulletin scientifique, 1839. T. 5, p. 129-41) *Title tr.:* On the climate of Sitka and the Russian possessions on the northwest coast of America, and the agriculture best suited to that area.

The temperature régime (from data Nov. 25, 1831-Feb. 1835) at Sitka (Neu-Arkhangelsk) during the years 1832-34 is compared with that of other arctic stations. Generalizations are made on the wind directions and weather types. *Copy seen:* DWB.

929. BAER, KARL ERNST von, 1792-1876. Ueber den jährlichen Gang der Temperatur in Nowaja-Semlja. (Akademiâ nauk SSSR. Bulletin scientifique, 1837. T. 2, p. 242-54, incl. tables) *Title tr.:* On the annual course of temperature in Novaya Zemlya.

The annual course of the air temperature at Matochkin Shar and other points in Novaya Zemlya are discussed and compared with other arctic areas.

Copy seen: DLC.

930. BAER, KARL ERNST von, 1792-1876. Ueber den täglichen Gang der Temperatur in Nowaja-Semlja. (Akademiâ nauk SSSR. Bulletin scientifique, 1837. T. 2, p. 289-300, incl. tables) *Title tr.:* On the daily course of temperature in Novaya Zemlya.

Bi-hourly averages of the air temperature at two points on the sea coasts of Novaya Zemlya, based on observations made during the period Oct. 1829-Mar. 1832, for each month except September.

Copy seen: DLC.

931. BAER, KARL ERNST von, 1792-1876. Ueber notwendig scheinende Ergänzungen der Beobachtungen über die Boden-Temperatur in Sibirien. (Akademiâ nauk SSSR. Bulletin. 1850. Sér. 2, t. 8, p. 209-224, illus. (incl. tables) *Title tr.:* On some necessary additions to observations on the ground temperature in Siberia.

Detailed discussion of the ground temperature of the well, reported by A. T. Middendorff, (in his *Klima*, q.v., in his and others' *Reise . . . 1843-44*, pub. 1861). Baer cites experiments with other shafts in comparison, to show that either (1) Middendorff was reporting temperatures affected by air in the shaft, or (2) the ground there actually was colder than was to be expected.

947. BAILEY, ALFRED MARSHALL, 1894- . Additional notes from Cape Prince of Wales, Alaska. (Condor, Sept. 1929. v. 31, p. 224-25)

On six new specimens sent by an Eskimo, representing a new record for the Cape Prince of Wales, and two new breeding records.

Copy seen: DSI-M.

948. BAILEY, ALFRED MARSHALL, 1894- . Additional records for the Barrow region, arctic Alaska. (Condor, July 1934. v. 36, p. 169)

Six more species sent to the author are added to the regional list of birds and duck hawks which breed near Colville River.

Copy seen: DSI-M.

949. BAILEY, ALFRED MARSHALL, 1894- . Additional records from arctic Alaska. (Condor, Sept. 1926. v. 28, p. 246)

Three skins from Pt. Barrow and Wainwright. *Copy seen:* DSI-M.

950. BAILEY, ALFRED MARSHALL, 1894- . Additional records from Cape Prince of Wales, Alaska. *Condor*, Jan. 1932. v. 34, p. 47)

Note on breeding record of the red-throated pipit and green-throated loon, and the third record of a dotterel.

Copy seen: DSI-M.

951. BAILEY, ALFRED MARSHALL, 1894- . Birds of arctic Alaska. Denver, 1948. 317 p. incl. 68 p. of illus., sketch map. (Colorado Museum of Natural History. Popular ser. No. 8)

Report of the fifteen months' field work by the author and R. W. Hendee on the Colorado Museum of Natural History Expedition, 1921-22, in arctic Alaska; and a compilation of birds recorded in literature from Cape Prince of Wales north and east along the arctic slope, to Demarcation Point. Contains a definition of the arctic slope; a study of the vegetation of the arctic slope, by Joseph Ewan; notes on migration of birds along the arctic coast; an historical sketch of ornithological work; a list of localities used in the report; and a narrative of the expedition. A list, with detailed field notes, records, some measurements, and common names, of over two hundred species of birds; with a bibliography (151 items), and an index. *Copy seen:* DSI-M.

952. BAILEY, ALFRED MARSHALL, 1894- . The birds of Cape Prince of Wales, Alaska. (Colorado Museum of Natural History. Proceedings, Feb. 1943, v. 18, p. 1-113, incl. 15 p. of illus. (1 map))

"Account of a dog sled journey along the arctic coast of Alaska . . . collecting sea mammals and birds on Bering Strait during the spring of 1922, while on the Arctic Expedition of the Colorado Museum of Natural History." The author gives a narrative of the sledge trip from Wainwright to Cape Prince of Wales, with notes on Eskimo seal and walrus hunting, and the physical features of the coast; discussion of bird migration through Bering Strait, field notes for spring and summer 1922, and a classified list with notes (common and scientific names) of one hundred three species of birds; bibliography (33 items). *Copy seen:* DSI-M.

953. BAILEY, ALFRED MARSHALL, 1894- and others. Birds of the region of Point Barrow, Alaska. (Chicago

Academy of Sciences. Program of activities, Apr. 1933. v. 4, p. 15-39, illus., sketch map) *Other authors:* C. D. Brower and L. B. Bishop.

The area covered is the north Alaskan coastal region from Icy Cape to the Colville River, about 150 miles east and west from Pt. Barrow, and the coastal plain south to the foothills of the Endicott Range, a low-lying tundra, with barren grounds. The authors give a list of birds of the region with notes on range, nesting habits, abundance, migration, and records, of one hundred twenty-six species and subspecies.

Copy seen: DSI-M.

954. BAILEY, ALFRED MARSHALL, 1894- . A cruise of the "Bear". (Natural history, Sept.-Oct. 1933. v. 33, p. 497-510, illus.)

Reminiscences of weeks spent on board this U. S. Coast Guard (Revenue Service) vessel, 1922, when the author was leader of the Colorado Museum of Natural History Arctic Expedition. Includes descriptions of Nome, St. Michael, Point Hope, Point Barrow, the waters eastward to Demarcation Point, and the birds noticed throughout the cruise.

Copy seen: DSI-M; NNS Stef.

955. BAILEY, ALFRED MARSHALL, 1894- . The dotterel and other birds from Cape Prince of Wales, Alaska. (*Condor*, May 1930. v. 32, p. 161)

New records for the European dotterel, red-winged blackbird and purple martin, summer 1929.

Copy seen: DSI-M.

956. BAILEY, ALFRED MARSHALL, 1894- . Early nesting of the redpoll in Alaska. (*Condor*, 1928. v. 30, p. 320)

Eskimo report from Teller, Alaska, of a nesting in April, 1928.

Copy seen: DSI-M.

957. BAILEY, ALFRED MARSHALL, 1894- . The Hudsonian curlew at Wales, Alaska. (*Condor*, Mar. 1933. v. 35, p. 72)

A first record for this region.

Copy seen: DSI-M.

958. BAILEY, ALFRED MARSHALL, 1894- . Notes on the birds of southeastern Alaska. (*Auk*, Jan.-July 1927. v. 44, p. 1-23, 184-205, 351-67, 5 plates)

Results of observations, Nov. 1919-Apr. 1921, made while the author was a U. S. Biological Survey representa-

tive at Juneau, covering a wide territory north of Frederick Sound to Glacier Bay. Includes description of localities and an annotated list of one hundred fifty-two species of birds; bibliography (14 items).

Copy seen: DSI-M.

959. BAILEY, ALFRED MARSHALL, 1894- . The pintails of northwestern Alaska. (Condor, Sept. 1930. v. 32, p. 264-65)

Further evidence that the ducks of Seward Peninsula, Wainwright and Pt. Barrow are of the American race of *Dafila acuta*.

Copy seen: DSI-M.

960. BAILEY, ALFRED MARSHALL, 1894- . A report on the birds of northwestern Alaska and regions adjacent to Bering Strait. Pt. 1-10. (Condor, 1925-26. v. 27, p. 20-32, 62-67, 101-109, 164-71, 197-207, 232-38; v. 28, p. 31-36, 84-86, 121-26, 165-70, illus.)

Results of the Colorado Museum of Natural History Alaska Expedition, 1921-22, a fully annotated list of one hundred thirty-five species of birds from the north and west coasts of Alaska, and from the Bering Sea Islands.

Copy seen: DSI-M.

961. BAILEY, ALFRED MARSHALL, 1894- . Siberian rough-legged hawk in northwestern Alaska. (Auk, Apr. 1942. v. 59, p. 305-306, plate)

Note on the Golovin Bay breeding record of this bird, taken on July 26, 1921.

Copy seen: DSI-M.

962. BAILEY, ALFRED MARSHALL, 1894- . Specimens from Point Barrow, Alaska. (Condor, Mar. 1931. v. 33, p. 78)

Mountain bluebird and slender-billed shearwaters collected for first time in 1929-30.

Copy seen: DSI-M.

963. BAILEY, ALFRED MARSHALL, 1894- . Winter notes from the Copper River, Alaska. (Condor, July 1926. v. 28, p. 174-75)

Seven species of birds observed Dec. 7-27, 1919, between Chitina and the headwaters of the Copper River.

Copy seen: DSI-M.

964. BAILEY, ALFRED MARSHALL, 1894- , and **R. W. HENDEE**. Notes on the mammals of northwestern Alaska. (Journal of mammalogy, Feb. 1926. v. 7, p. 9-28, 3 plates)

Results of the Colorado Museum of Natural History Expedition, 1921-1922, with headquarters at Wainwright. An account of the expedition's zoological work, and an annotated list of thirty-three species of mammals with special emphasis on the polar bear, Pacific walrus, Barron Ground caribou, and bowhead whale.

Copy seen: DSI-M.

965. BAILEY, GEORGE W., d. 1879-

. Report upon Alaska and its people, giving statistics as to the numbers, location, pursuits, and social condition of the inhabitants; the climate, productions, and general resources of the country; and of the commerce, ocean currents, etc. Washington, U. S. Govt. Print. Off., 1880. 52 p. incl. tables. front. (port.) plate, fold. chart.

Report of the commander of the U. S. revenue steamer *Rush*, on observations made during Apr.-Oct. 1879, in Wrangell, Sitka, Kodiak, the Shumagin Islands, a few of the Aleutian Islands, Bering Sea islands, and at St. Michael. Includes (p. 41-49), notes on the physical condition of the inhabitants of Alaska, by Assistant Surgeon, Robert White.

Copy seen: DLC; NNStef.

966. BAILEY, JACOB WHITMAN, 1811-1857. Notice of microscopic forms found in the soundings of the Sea of Kamtschatka. (American journal of science, July 1856. Ser. 2, v. 22, p. 1-6, plate)

List, with some descriptions, of twenty-two (including eight new) species of diatoms, fifteen protozoans, and six sponge fragments in three bottom samples from the Bering Sea.

Copy seen: DLC.

967. BAILEY, JACOB WHITMAN, 1811-1857. On some specimens of deep sea bottom, from the Sea of Kamtschatka, collected by Lieut. Brooke, U. S. N. (American journal of science, Mar. 1856. Ser. 2, v. 21, p. 284-85) Published also in Quarterly journal of microscopical science, 1856. v. 4, p. 305-306.

Report on the microscopic examination of three bottom samples from Bering Sea.

Copy seen: DLC.

968. BAILEY, MARIE BEEMER. Old Harbor. (Alaska sportsman, Apr. 1949. v. 15, no. 4, p. 6-11, 38-40, illus.)

Description of a fishing village and its people on Kodiak Island.

Copy seen: DLC.

969. BAILEY, VERNON, and J. K. DOUTT. Two new beavers from Labrador and New Brunswick. (Journal of mammalogy, 1942. v. 23, p. 86-88)

Description of *Castor canadensis labradorensis*, subsp. nov. from Hamilton River, Labrador, collected in 1939 during a Carnegie Museum (Pittsburgh) field investigation.

Copy seen: DSI-M.

970. BAILEY, W. B., and H. B. HACHEY. An increasing Atlantic influence in Hudson Bay. St. Andrews, N. B., 1949. p. l., 11 numb. l. 12 plates (chart, diagrs.) Mimeographed.

Issued by the Canadian Joint Committee, results of work done by the Atlantic Oceanographic Group of the Canadian Fisheries Research Board. Based on observations made aboard the R.C.N. Ship *Haida*, Sept. 1948, at eight stations occupied in Hudson Strait and six in Hudson Bay, and on bathythermograph observations every 50 miles. Description of temperature and salinity distribution in Hudson Strait and Bay, discussion of T-S diagrams, and comparison of Hudson Bay waters in 1930 and 1948 (higher temperature and salinities in 1948).

Illus. include vertical section diagrams of temperatures and salinities, typical bathythermograph traces, and temperature-salinity correlation curves.

Copy seen: CaMAI.

971. BAILEY, W. B., and H. B. HACHEY. The vertical temperature structure of the Labrador Current. St. Andrews, N. B., 1949. p. l., 10 numb. l. 8 plates (2 sketch charts, diagrs.) Mimeographed.

Issued by the Canadian Joint Committee on Oceanography, results of research done by the Atlantic Oceanographic Group of the Canadian Fisheries Research Board. Based on data collected from ten hydrographic stations occupied during the cruise of H.M.C.S. *Haida*, Sept. 1948, and on works already published. Description of the current, the water masses making up its components, and its movements; discussion of temperature-salinity diagrams, and the dynamics of the current.

Illus. include vertical sections of temperature and salinity, T-S correlation curves, typical bathythermograph traces, and diagrams showing temperature structure, all for Sept. 1948.

Copy seen: CaMAI.

BAILLY, PIERRE, *see* Charcot, J. B. A. E., & others. Rapport préliminaire *Pourquoi-Pas?* 1925, 1926.

972. BAIN, GEORGE WILLIAM, 1901-. Physiographic development of Canadian Shield. (Pan-American geologist, Aug., Dec. 1926, Feb. 1927. v. 46, p. 53-62, 363-74; v. 47, p. 15-28, 6 plates)

Geomorphological study of five areas, one of which embraces the Harricaw and Bell River basin on the Hudson Bay slope in Quebec.

Copy seen: DGS.

972-A. BAIN, HARRY FOSTER, 1872-1948. Alaska's minerals as a basis for industry. Washington, 1946. 1 p. l., 89 p. 4 maps, diagr. (U. S. Bureau of Mines. Information circular 7379) Mimeographed.

Brief discussion of Alaska's population and climatic problems, sketch of the physical features, and a description of location, production and potentialities of the metallic and nonmetallic minerals.

Copy seen: DGS.

973. BAIRD, PATRICK D. Expeditions to the Canadian Arctic. (Beaver, Mar., June and Sept. 1949. Outfit 279, no. 4, p. 44-47; outfit 280, no. 1, p. 41-47, no. 2, p. 44-48, illus.)

List of 94 expeditions, each with note indicating objectives, results, important discoveries and principal published results. Forms an outline of sea voyages and land expeditions carried out by explorers of the Canadian Arctic from the earliest times to the year 1918. Pt. 1 covers the period, 1004-1793; pt. 2, 1818 to the end of the Franklin search, and pt. 3, from the Hayes Expedition, 1860-61, to the Canadian Arctic Expedition, 1913-18. A reprint (16 p., illus. maps (incl. 1 double)) was issued to its members by the Arctic Institute of North America.

Copy seen: CaMAI; DSI-M; NNStef.

974. BAIRD, PATRICK D. Snow and ice conditions on "Exercise Muskox" (Northern Canada). (Journal of glaciology, July 1947. v. 1, p. 75-76)

Brief notes on ice and snow encountered by this motorized expedition from Churchill across the Barren Grounds to Victoria Island and southward via Great Bear Lake.

Copy seen: CaOGB; DGS.

975. BAIRD, PATRICK D., and D. J. SALT. Report on expedition Snow Cornice. (National Research Council of Canada. Associate Committee on Soil and Snow Mechanics. Technical Memorandum, 1949. No. 14 (N.R.C. No. 2034), p. 1-13, incl. 4 plates)

Account of organization, personnel and methods used in sounding for depth of the Seward Glacier during Project Snow Cornice, summer 1948, with discussion and diagrammatic presentation of results.

Copy seen: CaMAI.

976. BAIRD, PATRICK D., and J. L. ROBINSON. A brief history of exploration and research in the Canadian Eastern Arctic. (Canadian geographical journal, Mar. 1945. v. 30, p. 136-57, illus., maps)

Review of the work of expeditions since 1000 A.D.; the mapping, investigations in geology, magnetism, botany, tides and currents, marine life, zoology, archeology and medical research; bibliography, p. 157.

Copy seen: DLC.

977. BAIRD, SPENCER FULLERTON, 1823-1887. On additions to the bird-fauna of North America made by the Scientific Corps of the Russo-American Telegraph Expedition. (Chicago Academy of Sciences. Transactions, 1869, v. 1, pt. 2, p. 311-25, 7 plates)

Descriptions, with notes on localities of sixteen species of birds new to Alaska, and in some cases new to North America.

Copy seen: DLC.

978. BAJKOV, A. D. The ice conditions of Hudson Bay. (Beaver, Mar. 1941. Outfit 271, no. 4, p. 15-19, illus.)

Discussion (based on modern knowledge of ice relationships) of the general conditions, the biological method of forecasting, the regional conditions and the possibility of keeping shipping lanes open for a longer season.

Copy seen: DSI-M.

979. BAKER, ALBERT WESLEY, 1891-. Mallophaga [etc.] (Canadian Arctic Expedition, 1913-1918. Report, 1918. v. 3: Insects, Pt. D, p. 3-9, incl. plate)

List, with locations, of twenty species of bird lice from thirteen birds and one mammal.

Copy seen: DSI-M.

980. BAKER, E. H. B. Winter surveying in Labrador. (Hydrographic review, 1936. v. 13, no. 1, p. 11-20, 2 plates, sketch map)

Account of a British Admiralty Hydrographic Survey party which wintered at Nain and made coastline surveys during 1933-34; with notes on dogs, sledges and sledging, and methods of surveying.

Copy seen: DN-HO.

BAKER, EDWARD CHARLES STUART, *see* Hortling, I., & E. C. S. Baker. Bird-notes, trip to Lapland. 1932.

981. BAKER, FRANK COLLINS, 1867-1942. Mollusca of the Crocker Land Expedition to Northwest Greenland and Grinnell Land. (American Museum of Natural History. Bulletin, 1919. v. 41, p. 479-517, 3 plates)

Scientific results of the Crocker Land Expedition; list, with some descriptions, notes on synonymy and distribution, of thirty-four (including five new) species of marine shells from Greenland and Grinnell Land fiords; note by W. E. Ekblaw on the places of collection, and notes on comparison with results of earlier expeditions.

Copy seen: DLC.

982. BAKER, MANLY BENSON, 1877-. Iron and lignite in the Mattagami basin. (Ontario. Dept of Mines. Annual report, 1911. v. 20, pt. 1, p. 214-46, illus., fold. map)

Contains a report on work done in the summer of 1910 in the Mattagami basin; remarks on the route in the lower river region; descriptions of the geological formations and of the lignite and iron deposits and their origin, including lignite on the Abitibi River.

Map: route map (scale 1:253,440) of parts of the Moose River tributaries, indicating the deposits.

Copy seen: DGS.

983. BAKER, MARCUS, 1849-1903. Alaskan geographic names. (U. S. Geological Survey. Annual report, 1899-1900, pub. 1900. v. 21, pt. 2, p. 487-509)

List, in alphabetic order, of the names appearing on the maps which accompany the three papers on Alaska (by A. H. Brooks, O. Rohn, and F. C. Schrader, q.v.) published in this Twenty-first Annual Report of the U. S. Geological Survey, with brief notes on their origin, application, and spelling.

According to W. A. Morris (Quarterly of the Oregon Historical Society, v. 4, p. 287-364) this work was written by H. H. Bancroft, Alfred Bates, Ivan Petroff and William Nemos. It was previously published in 1886 as v. 33 of Bancroft's *Works* with title *History of Alaska, 1730-1885*.

Comprehensive study of events in and relating to Alaska throughout its Russian period and in its early years as a colony of the United States. Based on archives, published books and documents (mainly Russian) and data collected from residents of Alaska. Chapters on Russian expansion 16th-18th centuries, the Great Northern Expedition 1725-43, Bering's voyages and discovery of Alaska; exploitation of the fur trade by private venture, trade and exploration under government auspices; efforts at settlement and colonization; the Russian American Co. development of Sitka, relations with natives, Russian administration. Alaska as United States' possession, its exploration, commerce, the fur-seal industry, fisheries, development of settlement,

mining, social and civic institutions. Bibliography (534 items).

1042. BANNISTER, HENRY MARTYN, 1844-1920. Journal, March 21, 1865-January 20, 1867. (In: James, J. A. *The first scientific exploration of Russian America and the purchase of Alaska*, 1942. p. 137-264, 3 plates. Note p. 245-52 appears between p. 260-261)

Contains introduction by J. A. James, outlining Bannister's life and work (with list of his publications), the significance and discovery (in 1939) of his journal, of which books 1-3 are published here for the first time.

The journal is a record of Bannister's participation as a member of the exploration party in the so-called Russian American expedition 1865-68, undertaken by the Western Union Telegraph Co. in cooperation with the Smithsonian Institution and the Chicago Academy of Sciences to investigate the possibility of establishing a telegraph route from America to Asia, and to make scientific collections and explorations.

Bannister gives day-to-day notes on the trip (by sea) from New York to San Francisco, to St. Michael, Alaska, arriving Aug. 1865; his activities at St. Michael; his instructions (from Prof. Henry) for making meteorologi-

cal observations, and Mar.-Sept. 1865, notes on temperature, wind, auroras, along with comment on Eskimos, Indians, Russians, and wild life, especially birds; the trip from St. Michael to Plover Bay, Chukotsk Peninsula, thence to Kamchatka (Petropavlovsk); the voyage home by San Francisco to New York. Appended (p. 265-73) is a letter from Bannister to his parents dated from Petropavlovsk, Kamchatka, Nov. 12, 1866, summarizing his experience.

Title tr.: Pinnipeds of Commander Islands.

Account of the distribution of seals observed in 1930-32 on the Commander Islands, with comment on their tagging and descriptions of the biological habits of six varieties.

Summary in German.

Copy seen: DLC.

1047. BARABASH-NIKIFOROV, I. I. Mammals of the Commander Islands and the surrounding sea. (Journal of mammalogy, Nov. 1938, v. 19, p. 423-29)

Contains a brief description of the natural conditions of these islands, and an annotated list of twenty-one species (with special attention to the arctic fox), including six whales, a porpoise, and six seals; with a bibliography (9 items).

Copy seen: DSI-M.

1048. BARABASH-NIKIFOROV, I. I. The sea otters of the Commander Islands. (Journal of mammalogy, Nov. 1935. v. 16, p. 255-61) Based on observations of the author, 1930-32.

Contains notes on sea otters' size and weight, external characteristics, pelage replacement, habitat and general habits, food and feeding habits, breeding habits, competitors, enemies, and parasites; with a bibliography (7 items).

Copy seen: DSI-M.

Contains a discussion of the theoretical and practical importance of information concerning permafrost, and suggests compiling it in the form of three kinds of maps: survey, semi-detailed, and detailed. Each type is described, and instructions are given for gathering necessary data on climate, relief, geology, hydro-geology, and fauna; for the field and laboratory work on ground investigation, depth of

permafrost; and for the actual preparation of the maps.

1053. BARBEAU, CHARLES MARIUS, 1883- . The Aleutian route of migration into America. (Geographical review, July 1945. v. 35, p. 424-43, illus.)

In support of the thesis that "the Aleutian path of entry has been traveled by successive waves of coast and island populations from eastern Asia,"

Barbeau tells of evidence of recent ancestral migration he has found in a traditional tale of the Githawn or Salmon-eater tribe in the Portland Canal region. From Haida, Tsimshian and other groups, he describes and illustrates art motifs, objects of adornment, use, and costume, exemplifying cultural affiliation of tribes of the North American west coast, with those of the Asiatic east coast.

[Washington] 1949. p. l., 12 p. 4 fold. plates, tables, fold. map. (U. S. Geological Survey. Mineral deposits of Alaska. Short preliminary reports) Mimeographed.

Contains a general description of the area lying (roughly) between 59°40'-60°25'N. 150°35'-151°50'W. which comprises the Homer district; brief notes on its stratigraphy and structure, and a report on the character and distribution, physical and chemical properties, burning of beds and reserves of the coal in the southern margin, along Kachemak Bay and westward along the southern end of the district to beyond Homer. *Illus., maps:* Fig. 1, Index map shows location of Homer district. Plates are (1) geologic map of the southern margin; (2-3) stratigraphic sections of coal-bearing strata, southern margin, and (4) sections illustrating lateral changes in coal beds in the Homer district. *Copy seen:* DGS.

1074. BARNES, FARRELL FRANCIS, 1905- . Geology of the Portage Pass area, Alaska. (In: U. S. Geological Survey. Mineral resources of Alaska in 1939. Bulletin, 1943. No. 926, p. 211-35, 9 plates (incl. 2 fold. maps))

Results of an investigation, made by the Alaska Railroad, in cooperation with the U. S. Geological Survey in 1939, to determine the feasibility of

constructing a railroad to connect the head of Turnagain Arm (Cook Inlet) with the head of Passage Canal (Prince William Sound), containing a description (with maps) of the topography and geology, with a summary of engineering problems. *Copy seen:* DGS

1075. BARNES, FARRELL FRANCIS, 1905- , and F. M. BYERS. Geology and coal resources of the eastern part of the lower Matanuska valley coal field, Alaska. [Washington] 1945? 2 p. l., 21 p. fold. table, map, 5 diagrs. (4 fold.) (U. S. Geological Survey. Mineral deposits of Alaska. Short preliminary reports) Mimeographed.

Based on field work, July-Oct. 1944. in "an area roughly seven miles long" centering about 61°45'N. 148°53'W. Description of general, stratigraphic, and structural geology, and (in more detail) the general character and distribution of the coal deposits, coal reserves and future mining operations. *Copy seen:* DGS.

1076. BARNES, HOWARD TURNER, 1873- . Ice engineering. Montreal, Renouf Publishing Co. [c1928] 5 p. l., 364, ii p. incl. illus., tables, diagrs.

A fundamental and exhaustive treatment of the physical properties and behavior of fresh-water ice, based on laboratory and field investigations.

Contents: 1. Equilibrium of the ice-water system. 2. Physical constants of ice. 3. Rate of growth and melting of surface-formed ice, infra-red absorption, various kinds of ice. 4. Theories of formation of anchor ice. 5. Frazil ice. Winter ice floods. 6. Ice remedial work, use of steam, thermit, hot water, calcium chloride and other chemicals. 7. Ice pressure and expansion. 8. Ice navigation and ice breaking. 9. Conservation of heat in lakes and rivers for ice prevention, evaporation, power houses and power canals. 10. Glacier ice and icebergs. Bibliography (over 350 items). *Copy seen:* DGS.

1077. BARNES, HOWARD TURNER, 1873- . Ice formation, with special reference to anchor-ice and frazil. New York, J. Wiley & Sons; [etc., etc.] 1906. x, 260 p. incl. illus., 9 plates, fold. diagr.

A coordination of the author's various papers on fresh-water ice, with addition of a chapter on the physical constants of ice. Includes chapters on

formation, growth, structure and temperature of river ice, theories concerning frazil and anchor ice, and notes for engineers faced with river ice problems. *Copy seen:* DLC.

1078. BARNES, HOWARD TURNER, 1873- . Icebergs and their location in navigation. (*Nature*, June 20, 1912. v. 89, p. 411-14, diagsr.)

"Abridged from a discourse delivered at the Royal Institution on" May 31, 1912, this is a concise statement of origin, movements, and limits of North Atlantic ice; notes on surface temperature of Labrador Current, Pettersson's theory of ice melting, also use of, and experiments with microthermometers for locating ice.

Copy seen: DLC.

1079. BARNES, HOWARD TURNER, 1873- . The rise of temperature associated with the melting of icebergs. (*U. S. Weather Bureau. Monthly weather review*, Nov. 1912. v. 40, p. 1754-6, diagsr.)

The rise of sea-water temperature in the vicinity of a melting iceberg in salt water is due to the warm salt current which develops and flows toward the ice, and to the light current of fresh water from the ice on the surface. The latter current is heated by the sun and does not mix readily with the salt water.

Copy seen: DLC.

1080. BARNES, HOWARD TURNER, 1873- . Some physical properties of icebergs and a method for their destruction. (*Royal Society of London. Proceedings*, 1927. v. 114, p. 161-68, 4 plates)

Notes on structure, chemical analysis, and amount of air in iceberg ice, and on the use of thermit, as an explosive for bergs' destruction.

Copy seen: DLC.

and H. O. JONES. A visit to Karaginski Island, Kamchatka. (Geographical journal, Sept. 1898, v. 12, p. 280-99, illus., sketch map)

Observations made during a visit of H.M.S. *Linnet*, Aug. 1897, while the authors were employed by the Bering Sea Mission. Includes descriptions of the physical features and natural history of the island (58°50'N. 164°E.) and of Karaga, a harbor on the nearby Kamchatka coast; also notes (in some detail) of the dwellings, clothing, and appearance of the inhabitants of the two places. *Copy seen:* DLC.

1092. BARRINGTON, DAINES, 1727-1800. The possibility of approaching the North Pole asserted . . . By the Hon. D. Barrington. A new ed. With an appendix, containing papers on the same subject, and on a North West Passage. By Colonel Beaufoy. 2d ed. London, T. & J. Allman [etc.] 1818. xxiv, 258 p. incl. front. (fold. map)

New edition of the author's *Probability of reaching the North Pole discussed*, 1775, with a new map and:

Appendix: Queries respecting the probability of reaching, from the island of Spitzbergen, the North Pole, by means of reindeer, during the winter. (Information on winter conditions, huts, clothing needed, etc., on West Spitsbergen). *Copy seen:* DLC; NNS Stef.

1093. BARRINGTON, DAINES, 1727-1800. The probability of reaching the North Pole discussed. London, C. Heydinger, 1775. 1 p. l., 90 p.

Compilation of facts derived from records of early navigators, and results from queries to whaling and fishing captains concerning ice conditions in northern Greenland Sea and Baffin Bay, with discussion of the best season for open water in polar regions.

Copy seen: DLC; NNS Stef.

1094. BARRON, WM. Old whaling days. Hull, Wm. Andrews & Co., 1895. (London, Simpkin, Marshall, etc.) x, 211 p.

Accounts of the author's many whaling voyages to Baffin Bay, in the middle 19th century, describing the whaling weather and ice conditions, life on board and uncertainties of the industry; with some statistics on Hull whaling vessels, and a glossary.

Copy seen: DLC; NNS Stef.

1095. BARROW, Sir JOHN, Bart., 1764-1848, and others. Communications on a North-West Passage, and further survey of the northern coast of America. (Royal Geographical Society. Journal, 1836. v. 6, p. 34-50)

Contains letters written in response to a request of a committee of the Royal Geographical Society, appointed to examine plans and suggestions for further exploration for a Northwest Passage. Includes communications from Sir John Barrow, Sir John Richardson, Sir John Franklin, Sir John Ross, and Sir Francis Beaufort.

Copy seen: DLC.

1096. BARROW, Sir JOHN, Bart., 1764-1848. Voyages of discovery and research within the arctic regions, from the year 1818 to the present time: under the command of the several naval officers employed by sea and land in search of a North-West Passage from the Atlantic to the Pacific; with two attempts to reach the North Pole. Abridged and arranged from the official narratives, with occasional remarks. London, J. Murray, 1846. xiv, 530 p. front. (port.) 2 maps (1 fold.) Also published in New York by Harper, 1846 (359 p. 2 maps).

Contains a detailed account of the principal British expeditions into the North American Arctic (also to Svalbard), from that of Ross in 1818 to those of Back and Simpson, 1836-39; their scientific achievements, and contribution towards discovery of a North-west Passage. The final chapter includes criticism of Sir John Ross' second voyage 1829-33, to which Ross replied in his *Observations on a work . . . by Sir John Barrow*, 1846, q.v.

Copy seen: DLC; NNStef.

1097. BARSKOV, A. Raboty biuro transkriptsii geograficheskikh nazvaniĭ Arkticheskogo instituta. (Problemy

Arktiki, 1940, no. 1, p. 97-99) *Title tr.:* Work of the Bureau of Transcription of Geographical Names of the Arctic Institute.

How Arctic Institute is solving problem of rendering native names into Russian.

Copy seen: DLC.

1098. [BARSUKOV, IVAN PLATO-NOVICH]. The life and work of Innocent, the Archbishop of Kamchatka, the Kuriles and the Aleutian Islands, and later the metropolitan of Moscow. San Francisco [Cubery & Co., Printers] 1897. 23, [1] p.

"Translated from the Russian and printed for distribution among the people by request of the Most Reverend Bishop Nicholas." Based on the author's *Pis'ma Innokentiĭu, mitropolita moskovskago i kolomenskago, 1828-1878.* (Letters of Innokenty, Metropolitan of Moscow and Kolomena. 1828-1878. pub. St. Peterburgh, 1897-1901, 3 v.)

Account of Veniaminov's early life and education; his missionary and educational work among the Aleuts and Kolosha (Tlingit Indians) on Unalaska, 1824-33, and Sitka (Baranof) Island 1833-38; his investiture as first bishop of Alaska, diocesan duties there and in Yakutia, 1840-67; elevation as metropolitan of Moscow, 1867; and death, 1879.

Copy seen: DLC.

1099. BARTELS, MAXIMILIAN CARL AUGUST, 1843-1904. Geräte der Eskimo aus Neu-Herrnhut bei Godthaab (an der südwest-Küste von Grönland). (Zeitschrift für Ethnologie. Berlin, 1900. v. 32 (Verhandlungen) p. 542-43 illus.) *Title tr.:* Implements of the Eskimo of New Moravia near Godthaab (on the southwest coast of Greenland).

Describes several bone and iron artifacts brought from western Greenland by a Moravian (Herrnhuter) missionary, Heinke.

Copy seen: DLC.

1100. BARTELS, MAXIMILIAN CARL AUGUST, 1843-1904. Die sogenannten Mongolen-Flecke der Eskimo-Kinder. (Zeitschrift für Ethnologie. Berlin, 1903. v. 35, p. 931-35) *Title tr.:* The so-called Mongolian spots of Eskimo children.

Reviews the reports of the occurrence of the so-called Mongolian spots (temporary bluish spots on the lower part of the backs of babies) among Eskimos.

Copy seen: DLC.

BARTENWERFFER, S. von, see Miethe, A., & H. Hergesell, editors. Mit Zeppelin nach Spitzbergen. 1911.

1101. BARTH, TOM. Die Pegmatitgänge der kaledonischen Intrusivgesteine im Seiland Gebiet. Oslo, Jacob Dybwad, 1927. 123 p. illus., 4 plates, maps (1 fold.) (Norske videnskapsakademi. Skrifter, I. Matematisk-naturvidenskapelig klasse, 1927, no. 8) *Title tr.*: Pegmatitic dikes in Caledonian intrusive rocks in the Seiland region.

Contains geographic note on Seiland (70°25'N. 23°E.) off the coast of northern Norway; geology of the region, petrology and petrography of its rocks; (2) minerals from the pegmatitic dikes; (3) petrology of the dikes; their origin and formation.

Copy seen: DLC.

1102. BARTHEL, CHRISTIAN, 1873- Recherches bactériologiques sur le sol et sur les matières fécales des animaux polaires du Groënland septentrional. (*In*: Thule ekspeditionen til Grønlands nordkyst. 2d, 1916-1918. [Beretninger] nr. 1. Pub. in: Meddelelser om Grønland, 1927. Bd. 64, p. 1-76, plate) *Title tr.*: Bacteriological investigations of the soil and the excrements of arctic animals of North Greenland.

Based on the collections and observations made by Dr. Thorild Wulff; discussion of bacteriological investigations, with lists of bacteria, samples of soils from Disko and samples of soils and animal excrements from the Cape York region and the northern coast of Greenland. *Copy seen:* DLC.

1103. BARTINI, R. L. Osobennosti poliarnogo samoleta. (Sovetskaiâ Arktika, 1935, no. 4, p. 31-32) *Title tr.*: Peculiarities of an arctic airplane.

The question of whether a special type of airplane should be built for flights in the Arctic is discussed by one who builds planes.

Copy seen: DLC.

1104. BARTLETT, EDWARD L., 1904- My views on the Alcan Highway. (Alaska life, Feb. 1943. v. 6, no. 2, p. 33-35)

Discussion of the influence which some Alaskans felt the new highway might have on colonization of the Territory. *Copy seen:* DLC.

1105. BARTLETT, MARION. Pack up your shovel. (Alaska life, Nov. 1946. v. 9, no. 11, p. 10-13, illus.)

General information on mineral resources of Alaska, for the amateur prospector. *Copy seen:* DLC.

1106. BARTLETT, ROBERT ABRAM, 1875-1946. Ice navigation. (*In*: American Geographical Society, N. Y. Problems of polar research, 1928. p. 426-42)

Discussion of polar ships and their construction, wooden versus steel ships, and ice movements in Baffin Bay and Labrador waters. Includes reminiscences of Bartlett's navigating experiences, especially with Peary.

Copy seen: DLC.

1107. BARTLETT, ROBERT ABRAM, 1875-1946. The log of Bob Bartlett; the true story of forty years of seafaring and exploration. New York, London, G. P. Putnam's Sons, 1928. xii, 352 p. front. (port.) 26 plates. Reissued subsequently several times, e.g., 6th impression, 1932.

Record of Captain Bartlett's many voyages, especially in the North American Arctic, including expeditions with Peary (on the last of which, 1908-09, he accompanied Peary part way to the Pole), also the Canadian Arctic Expedition 1913-18, under Stefansson (on which Bartlett commanded the *Karluk* on her final voyage); voyages in subsequent years of Bartlett's schooner, *Effie M. Morrissey*, in Greenland and Canadian arctic waters, as a collecting and expeditionary ship for many scientific institutions and explorers.

Copy seen: DLC; NNSf.

1108. BARTLETT, ROBERT ABRAM, 1875-1946. Loss of the *Karluk* and escape of the expedition to Wrangell Island. (American Geographical Society, N. Y. Bulletin, July 1914. v. 46, p. 520-23, sketch map)

Condensation of a dispatch dated from St. Michael, Alaska, May 31, 1914, printed in the *New York Times*, June 1, 1914, giving an account of the ship's drift in Beaufort and Chukchi Seas, Sept. 1913-Jan. 1914, its loss, efforts of survivors to reach Wrangell Island. *Copy seen:* DLC.

1109. BARTLETT, ROBERT ABRAM, 1875-1946. Peary's extended exploration of arctic lands culminating in the attainment of the North Pole. (Ameri-

can Philosophical Society. Proceedings, 1940. v. 82, p. 935-47)

Paper read before the society's Symposium on American Polar Exploration, Feb. 1940, giving an account of the voyages of the *Roosevelt*, 1905-06, 1908-09, and of Peary's polar march in 1909, as far as 87°47'N. where the author turned back. *Copy seen:* DLC.

1110. BARTLETT, ROBERT ABRAM, 1875-1946. Sails over ice, by Captain "Bob" Bartlett; with a foreword by Lawrence Perry. New York, C. Scribner's Sons, 1934. xii p., 1 l., 301 p. front., plates, ports.

The story of the schooner *Effie M. Morrissey* by her owner-skipper, and of her trips carrying exploring and research parties to Greenland, Alaska, and the Canadian Arctic waters, 1925-33. Included (p. 251-80) is Bartlett's account of the building of the Peary Memorial at Cape York, northwest Greenland, 1932. *Copy seen:* DLC.

1111. BARTLETT, ROBERT ABRAM, 1875-1946, and JUNIUS BIRD. The Bartlett East Greenland Expedition. (Geographical review, July 1931. v. 21, p. 398-414, illus.)

Account of the expedition to Shannon and Clavering Islands in 1930 by R. A. Bartlett; and archeological report by Junius Bird. *Copy seen:* DLC.

1112. BARTLETT, ROBERT ABRAM, 1875-1946, and RALPH T. HALE. The last voyage of the *Karluk*, flagship of Vilhjalmur Stefansson's Canadian Arctic Expedition of 1913-16, as related by her master, Robert A. Bartlett, and here set down by Ralph T. Hale. Boston, Small, Maynard & Co., [c1916] 6 p. l., 329 p. 26 plates (ports., maps, plans, facsimis.)

Account of the voyage and drift, July 1913-Jan. 1914, in Beaufort and Chukchi Seas; the loss of the *Karluk*, dog-sledge journey across the ice to Wrangell Island, thence to the Siberian coast, the rescue of the survivors.

Copy seen: DLC; NNS Stef.

1113. BARTLETT, ROBERT ABRAM, 1875-1946, and RALPH T. HALE. Northward ho! the last voyage of the *Karluk*. Boston, Small, Maynard & Co., [1919] 6 p. l., 329 p. 26 plates (ports., maps, plan, facsimis.)

A second printing without change in text, of the authors' *The last voyage of the Karluk*, 1916, q.v.

Copy seen: DLC; NNS Stef.

graphie und maritimen Meteorologie, Aug. 1913. Jahrg. 41, p. 414-17) *Title tr.:* The influence of icebergs on the temperature of sea water.

Brief summary of (then) current knowledge, on this subject, based on a review of published literature, especially papers following the *Titanic* disaster in Apr. 1912. *Copy seen:* DLC.

1120. **BASCHIN, OTTO, 1865-1933.** Zur Frage der Erreichung des Nordpols durch Peary. (Gesellschaft für Erdkunde zu Berlin. Zeitschrift, 1911. p. 180-85) *Title tr.:* The question of Peary's attainment of the North Pole.

Discussion of the geodetic positions and marches, reported by Peary, with remarks on the doubts voiced by others.

Copy seen: DLC.

1121. **BASHFORD, JAMES.** Frontier town. (Alaska sportsman, Mar. 1948. v. 14, no. 3, p. 12-13, 39-40, illus.)

History of the town of Ketchikan in Southeast Alaska. *Copy seen:* DLC.

1122. **BASHMAKOV, P. I.** Gibel' shkhuny "Ermak". (Sovetskaiâ Arktika, 1939, no. 10, p. 83-93, illus. *Title tr.:* Wreck of the schooner *Ermak*.)

Historical sketch of Kruzenshtern's expedition to Kara Sea in 1860 and 1862.

Copy seen: DLC.

1123. **BASHMAKOV, P. I.** Iz proshlogo Novozemel'skikh zimovshchikov. (Sovetskaiâ Arktika, 1939, no. 9, p. 86-92, illus.) *Title tr.:* Winter dwellers on Novaya Zemlya in years gone by.

Description of the tragic deaths of members of a hunting party, sent to Novaya Zemlya by a Russian merchant in 1910-11. Includes excerpts from the diary of Kulebiâkin, head of the party.

Copy seen: DLC.

1124. **BASHMAKOV, P. I.** Izmenâiâtsiâ li glubiny i ochertaniâ beregov severnykh morei. (Sovetskaiâ Arktika, 1938, no. 2, p. 53-57, illus.) *Title tr.:* Do the depths and shore lines of the northern seas change?

General discussion of uplift of shores and sea bottom, also marine erosion, exemplified by the Murman coast, White Sea, Morzhovets Island, and some other regions. *Copy seen:* DLC.

1125. **BASHMAKOV, P. I.** Kapitân èkspedit'sionnogo sudna "Gerkules" A. S. Kuchin. (Sovetskaiâ Arktika, 1939,

no. 7, p. 88-93, illus.) *Title tr.*: A. S. Kuchin, captain of expeditionary ship *Hercules*.

Historical sketch on the 25th anniversary of the death of A. S. Kuchin, oceanographer and captain of the *Hercules* on the ill-fated Rusanov Expedition in Barents and Kara Seas, 1912-13. *Copy seen*: DLC.

1126. BASHMAKOV, P. I. Leitenant Vasilii Pronchishev. (Sovetskaiâ Arktika, 1940, no. 9, p. 40-47, illus., maps) *Title tr.*: Lieutenant Basil Pronchishev.

Biographical sketch of a Russian explorer, who with his wife, Maria Pronchishcheva, participated in the Great Northern Expedition from 1733 till 1736, when both died apparently of scurvy. They led the third party of the expedition, whose aim was to explore the coast between the Lena and Pyasina Rivers, and reached 77°29'N.

Copy seen: DLC.

1127. BASHMAKOV, P. I. Maîâchnolot'smeisterskaiâ sluzhba v Karskom more. (Sovetskaiâ Arktika, 1936, no. 9, p. 102-104, illus.) *Title tr.*: Beacon pilot service in Kara Sea.

Contains data on beacons, spar-buoys, and signals in the southwestern section of Kara Sea, 1936. *Copy seen*: DLC.

1128. BASHMAKOV, P. I. Novaiâ Zemliâ i ostrov Vaigach. (Sovetskaiâ Arktika, 1939, no. 6, p. 76-83, illus., map) *Title tr.*: Novaya Zemlya and Vaygach Island.

Discussion of the origin of names of the islands; with criticism of V. I. Popov-Shtark's *Govorîashcheiâ karta Arktiki*, 1938, q.v. *Copy seen*: DLC.

1129. BASHMAKOV, P. I. Pervaiâ russkaiâ morskaiâ èkspedit'siia k ust'û reki Obi (1734-1739 godov) i dal'neishee razvitiie moreplavaniia v ust'e sibirskikh rek. (*In*: Severnyi morskoi put', 1939, no. 12, p. 55-71; no. 13, p. 43-64) *Title tr.*: The First Russian Sea Expedition to the estuary of Ob' River (1734-1739) and the further development of sea navigation to the Siberian rivers.

Outline of voyages to Kara Sea since earliest times, leading up to a more detailed account of that part of the Great Northern Expedition which sailed to the Ob from Arkhangelsk,

1734-39, with account of voyages by freight-carrying ships to the Ob and Yenisey during the last 100 years.

Copy seen: DLC.

1130. BASHMAKOV, P. I. Plavanie leitenanta Malygina. (Sovetskaiâ Arktika, 1939, no. 11, p. 107-117, illus., map) *Title tr.*: Lieutenant Malygin's voyage.

Historical sketch of the Ob Expedition in 1734-39, as a section of the Great Northern Expedition of 1725-43; its explorations along the Barents and Kara Sea coasts from the Pechora to the Ob River. Biographical note on Stepan Malygin, head of the expedition, who prepared a description and map of the region. *Copy seen*: DLC.

1131. BASHMAKOV, P. I. Plavanie Litke na brige "Novaiâ Zemliâ." (Sovetskaiâ Arktika, 1940, no. 1, p. 63-77, illus., map) *Title tr.*: The Litke expedition on the brig *Novaya Zemlya*.

Historical sketch of expeditions to Novaya Zemlya, especially of that of Litke in 1821-24. Sketch map shows the coasts of the islands according to Litke, also T'sivol'ka and Moiseev (1838-39), Pakhtusov (1832-33 and 1834-35) and Norwegian sealers (1869-71). *Copy seen*: DLC.

1132. BASINER, THEODOR FRIEDRICH JULIUS, 1817-1862. Enumeratio monographica specierum generis Hedy-sari. (Akademiia nauk SSSR. Mémoires . . . par divers savants, 1846-51, pub. 1846. T. 6, livr. 1, p. 45-97) *Title tr.*: Monographic enumeration of the species of the genus *Hedysarum*.

Contains a monographic description of fifty-seven species of *Hedysarum*, a genus of herbs, with a key to the species, synonymy, and critical notes; geographical distribution in the Arctic is mentioned for Russia only; bibliography (49 items). *Copy seen*: MH.

1133. BASTAMOV, S. L. Magnetic storms observed by the International Polar Expeditions, 1882-1883. (Terrestrial magnetism and atmospheric electricity, Mar. 1929. v. 34, p. 35-38, diags.)

Brief summary of his *Magnitnye vozmushcheniia po nablûdeniiaim mezhdunarodnykh poliarnykh èkspedit'sii 1882-83 g., 1921, q.v.*

Copy seen: DLC.

1134. BASTAMOV, S. L. Magnitnye vozmushcheniia po nablüdeniäm mezhdunarodnykh poliärnykh äkspeditšii 1882-83 godov. (Vsesoiüznoe geografičeskoe obščestvo. Meteorologičeskii vestnik, 1920, *pub.* 1921. T. 30, p. 40-50) *Title tr.*: Magnetic storms observed by the International Polar Year expeditions, 1882-83.

A review of the magnetic activity measurement taken at eleven polar stations during the First International Polar Year, 1882-83. Tables are given for number of days with declination disturbance, and number of days with disturbance in horizontal and vertical components. *Copy seen:* DWB.

1135. BATEMAN, ALAN MARA, 1899- . Geology of the Beatson copper mine, Alaska. (Economic geology, June-July 1924. v. 19, p. 338-68)

Description of the general features, the rocks and structure, ore deposits and origin, and the mineralogy of this mine on Latouche Island in Prince William Sound. *Copy seen:* DGS.

1136. BATEMAN, ALAN MARA, 1899- . Kennecott glacier of Alaska. (Geological Society of America. Bulletin, Sept. 1922. v. 33, p. 527-39, illus.)

Notes on the type, dimensions, surface, edges, overriding, melting, discharge, and movement of the glacier, located on the south slope of the Wrangell Mts., from data gathered during field seasons, 1915-20.

Copy seen: DGS.

1137. BATEMAN, ALAN MARA, 1899- . Notes on a Kennecott type of copper deposit, Glacier Creek, Alaska. (Economic geology, May 1932. v. 27, p. 297-306, illus.)

Contains notes on the general geology, descriptions of the ores and origin of the deposit on this tributary of the Chitistone River. *Copy seen:* DGS.

1138. BATEMAN, ALAN MARA, 1899- , and D. H. McLAUGHLIN. Geology of the ore deposits of Kennecott, Alaska. (Economic geology, Jan.-Feb. 1920. v. 15, p. 1-80, illus., 6 plates)

Results of field and laboratory studies, 1915-20, on the copper ores from the Bonanza and Jumbo mines, situated in the southeastern part of the Wrangell Mts. Descriptions of the topography, rock formations, structure,

physiographic development, and (in detail) the types and structural relations of the ore deposits. *Copy seen:* DGS.

1139. BATEMAN, JOHN DANVERS, 1910- . A day in the Arctic. Ottawa, E. Cloutier, Printer to the King, 1945. v, 9 p. illus. (incl. map) (Canada. Geological Survey. Geological Survey Bulletin, no. 1)

Contains notes on previous exploration, a sketch map of the route, and notes on the flight, made on Aug. 18, 1944, over the area between Great Bear Lake and Darnley Bay, for geological reconnaissance on the western boundary of Precambrian rocks of the Canadian Shield, and on the general character of the region; with discussion and conclusions. *Copy seen:* DGS.

1140. BATEMAN, JOHN DANVERS, 1910- . Permafrost at Giant Yellowknife. (Royal Society of Canada. Transactions, June 1949. Ser. 3, v. 43, sect. 4, p. 7-11, illus.)

Observations on depth of permafrost as a function of depth of overburden, amounting to 280 feet depth where thickness of overburden approaches 60 feet, with remarks on origin and probable age of the permafrost.

Copy seen: DGS.

1141. BATEMAN, JOHN DANVERS, 1910- . Petroleum possibilities in the Great Slave Lake area. (Western miner, Nov. 1947. v. 20, no. 11, p. 72-76, illus., 2 sketch maps)

"The western basin of Great Slave Lake and Mackenzie River valley are underlain by petroleum-bearing formations of Middle and Upper Devonian age."—Author's abstract. Sketch of previous geological work and oil drilling, the stratigraphic and structural geology of the region; bibliography (24 items).

Copy seen: DGS.

Contains a Russian translation of an Ostyak tale, recorded by the author in the Irtysh River region. It deals with the life and deeds of two Ostyak warrior-princes.

Copy seen: DLC.

1147. BAUENDAHL, OSKAR. Aus den wissenschaftlichen Ergebnissen der Polarfahrt des "Matador" unter Führung des Kapt.-Leut. a.D. Oskar Bauendahl, Herbst und Winter 1900/1901. (Annalen der Hydrographie und maritimen Meteorologie, Sept. 1901. Jahrg. 29, p. 414-25, 445-57) *Title tr.:* From the scientific results of the polar voyage of the *Matador* under command of Capt. Oskar Bauendahl, in the fall and winter, 1900-1901.

The *Matador* drifted in the pack ice north and west of West Spitsbergen, Sept. 25-Oct. 28, 1900, and wintered in the strait south of Danish Island (Danskøya). Members of the crew stayed in Pike's house on the north end of the island, 79°44'12"N. 11°35'12"E., where scientific observations were made, Dec. 1900-June 1901.

Contents tr.: 1. On ice conditions.

2. Astronomic determinations of position during the drift in the ice, Sept. 25 to Oct. 28, 1900.

3. Meteorological observations from Nov. 23, 1900 to June 23, 1901. (Four times daily, Nov. 23 to Dec. 9, 1900, at the anchorage on south side of Danish Island; Dec. 13, 1900 to June 23, 1901, at Pike's house, north end of Danish Island)

4. Water temperatures and tidal observations in Oct. 1900, Jan. and June 1901. (Daily tidal observations, June 8-26, 1901; and a very few sea-water temperature data)

5. Remarks on the magnetic observations made by Capt. Bauendahl at Pike's house, Mar. 28-Apr. 17, 1900.

1159. BAXTER, ALLEN J. Doctor Urquhart of Eskimo land. (Forest and outdoors, Feb. 1936. v. 32, p. 43-44, 60-62, illus.)

Account of Northwest Territories medical service, especially at Aklavik, and some remarks on health conditions among Mackenzie Eskimos.

Copy seen: DA.

1160. BAXTER, DOW VAWTER, 1898-. Occurrence of fungi in the major forest types of Alaska. (Michigan Academy of Science, Arts and Letters. Papers, 1945, pub. 1947. v. 31, p. 93-115, 18 plates, map, diagrs.)

Based on "several field seasons' work in Alaska", by the author and others from the University of Michigan School of Forestry and Conservation. An ecological study of fungus succession (1) of interior river valleys with meandering streams (Yukon River system below the mouth of the Tanana, southwest to the mouth of the Koyukuk); (2) after the retreat of a mountain glacier (glacial region not far from the summit of the Chugach Mts.); (3) where flora includes species characteristic of both the coastal and the interior forests (Kenai Peninsula near Russian River); (4) on Kodiak Island; and (5) after the retreat of a glacier in the Pacific coastal region (near Valdez, on Prince William Sound).

Contains notes on species, distribution, size, shape, color, migration, schooling, food, and diseases of the cod; brief notes on fishing banks, the vessels, fishermen, methods and finances.

Copy seen: DF.

1176. BEAN, TARLETON HOFFMAN, 1846-1916. Description of a new fish from Alaska (*Anarrhichas lepturus*) with notes upon other species of the genus *Anarrhichas*. (U. S. National Museum. Proceedings, 1879, pub. 1880. v. 2, p. 212-18)

Full description based on two specimens taken by Lucien M. Turner in waters off St. Michael Island.

Copy seen: DLC.

1177. BEAN, TARLETON HOFFMAN, 1846-1916. Description of a new species of *Alepidosaurus* (*A. aesculapius*) from Alaska. (U. S. National Museum. Proceedings, 1882, pub. 1883. v. 5, p. 661-63)

Full description, with table of measurements, of the wolf fish, based on a specimen taken from waters off Unalaska Island in 1880.

Copy seen: DLC.

1178. BEAN, TARLETON HOFFMAN, 1846-1916. Description of a new species of *Aspidophoroides* (*A. güntherii*), from Alaska. (U. S. National Museum. Proceedings, 1885, pub. 1886. v. 8, p. 74-75)

Description based on specimens collected by Captain M. A. Healy on the cruise of the revenue cutter *Corwin* in 1884, and by Lieut. G. M. Stoney.

Copy seen: DLC.

1179. BEAN, TARLETON HOFFMAN, 1846-1916. Description of a new species of rockfish, *Sebastichthys brevispinis* from Alaska. (U. S. National Museum. Proceedings, 1894, pub. 1895. v. 17, p. 627-28) *Copy seen:* DLC.

1180. BEAN, TARLETON HOFFMAN, 1846-1916. Description of a new species of whitefish. (*Coregonus nelsonii*), from Alaska. (U. S. National Museum. Proceedings, 1884, pub. 1885. v. 7, p. 48)

Description of a species apparently peculiar to Alaska, based on specimens taken from the Bristol Bay region and northward.

Copy seen: DLC.

1181. BEAN, TARLETON HOFFMAN, 1846-1916. Description of a new species of *Lycodes* (*L. turneri*) from Alaska, believed to be undescribed. (U. S. National Museum. Proceedings, 1878, pub. 1879. v. 1, p. 463-66, tables)

Description based on a specimen taken from waters off St. Michael, Alaska, by Lucien M. Turner in 1876, with tables of comparative measurements including also data on other North American species.

Copy seen: DLC.

1182. BEAN, TARLETON HOFFMAN, 1846-1916. Description of *Coregonus pusillus*, a new species of whitefish

from Alaska. (U. S. National Museum. Proceedings, 1888, *pub.* 1889. v. 11, p. 526)

Description based on specimens taken in northern Alaska, from the Yukon River northward. *Copy seen:* DLC.

1183. BEAN, TARLETON HOFFMAN, 1846-1916. Description of new fishes from Alaska and Siberia. (U. S. National Museum. Proceedings, 1881, *pub.* 1882. v. 4, p. 144-59)

Descriptions of fourteen new species, including some measurements and record of specimens, localities, etc., from a collection representing about eighty species made for the National Museum, when the author accompanied the U. S. Coast Survey party in the schooner *Yukon* under W. H. Dall, in the summer of 1880, in waters off the coasts of Alaska and islands and at Plover Bay (Chukotsk Peninsula).

Copy seen: DLC.

1184. BEAN, TARLETON HOFFMAN, 1846-1916. Descriptions of some genera and species of Alaskan fishes. (U. S. National Museum. Proceedings, 1879, *pub.* 1880. v. 2, p. 353-59)

Notes and diagnosis of one species previously described; descriptions of two new genera and species, all with record of specimens in the National Museum.

Copy seen: DLC.

1185. BEAN, TARLETON HOFFMAN, 1846-1916. The fishery resources and fishing-grounds of Alaska. (*In:* Goode, G. B., and others. The fisheries and fishery industries of the U. S., 1884-87. Section 3, C, p. 81-115, 4 plates)

Contains notes on the food fishes of the streams, lakes and oceanic waters of Alaska; a review of the fishing grounds by districts (southeastern Alaska, Cook Inlet, Kenai Peninsula, Kodiak, Shumagin Islands; Unalaska, Bristol Bay, Pribilof Islands, Kuskokwim and Yukon Rivers, Norton Sound, Port Clarence, Kotzebue Sound, and arctic coast northeast to Point Barrow) with lists of settlements, and kinds of fishes; commercial fishery, statistics for 1880; and a table showing the geographical range of food fishes in Alaska (sixty-five species).

Copy seen: DF.

1186. BEAN, TARLETON HOFFMAN, 1846-1916. Fishes collected in Cumberland Gulf and Disko Bay. (*In:*

Kumlien, L., and others. Contributions to natural history of arctic America, *pub.* in U. S. National Museum. Bulletin, 1879. No. 15, p. 107-138)

Annotated list of thirty-seven species (including two not hitherto recorded from the region) based on specimens collected by L. Kumlien during the Howgate Polar Expedition in 1877-78, and by Lieut. W. A. Mintzer in 1876, also on species in the U. S. National Museum recorded from northeastern North America.

Copy seen: DLC.

1187. BEAN, TARLETON HOFFMAN, 1846-1916. List of fishes known to occur in the Arctic Ocean north of Bering Strait. (*In:* U. S. Revenue Cutter Service. Cruise of the revenue-steamer *Corwin* in Alaska and the N.W. Arctic Ocean in 1881. Notes and memoranda, 1883. p. 118-20, plate)

Records of twenty-one species based on specimens in collections of the U. S. National Museum taken from the Alaskan side of the Arctic Ocean.

Copy seen: DSI-M.

1188. BEAN, TARLETON HOFFMAN, 1846-1916. New fishes collected off the coast of Alaska and the adjacent region southward. Scientific results of explorations by the U. S. Fish Commission steamer *Albatross*, no. 11. (U. S. National Museum. Proceedings, 1890, *pub.* 1891. v. 13, p. 37-45)

Descriptions of seventeen new species based on specimens taken by the *Albatross* 1888, in (among other localities) Aleutian waters and the Gulf of Alaska.

Copy seen: DLC.

1189. BEAN, TARLETON HOFFMAN, 1846-1916. Notes on a collection of fishes made by Captain Henry E. Nichols, U.S.N., in British Columbia and southern Alaska, with descriptions of new species and a new genus (*Delolepis*). (U. S. National Museum. Proceedings, 1881, *pub.* 1882. v. 4, p. 463-74)

List of thirty-one species with notes on the specimens, including many taken from waters off southeastern Alaska in the summer of 1881; also full description of the new genus and two new species with measurements.

Copy seen: DLC.

1190. BEAN, TARLETON HOFFMAN, 1846-1916. Notes on a collection of fishes made in 1882 and 1883 by Capt.

Henry E. Nichols, U.S.N., in Alaska and British Columbia, with a description of a new genus and species, *Priornistius macellus*. (U. S. National Museum. Proceedings, 1883, *pub.* 1884. v. 6, p. 353-61)

List of forty-eight species, with notes on specimens, many of which were taken from the coastal waters of southeastern Alaska. *Copy seen:* DLC.

1191. BEAN, TARLETON HOFFMAN, 1846-1916. Notes on birds collected during the summer of 1880 in Alaska and Siberia. (U. S. National Museum. Proceedings, 1882, *pub.* 1883. v. 5, p. 144-73)

Notes on seventy-seven species with record of specimens taken, tables of measurements and of distribution of the species in localities on the southeastern Alaskan coast and islands, and at Plover Bay on Chukotsk Peninsula. The collection was made while the author accompanied the U. S. Coast Survey party under W. H. Dall, primarily to investigate fishes and fisheries of Alaska. *Copy seen:* DLC.

1197. BEAN, TARLETON HOFFMAN, 1846-1916. A preliminary catalogue of the fishes of Alaskan and adjacent waters. (U. S. National Museum. Proceedings, 1881, *pub.* 1882. v. 4, p. 239-72)

List of one hundred sixteen species recorded in the literature, with note of the specimens in the U. S. National Museum, indicating their localities (mainly waters off the coast of southeastern Alaska and islands, Plover Bay (Chukotsk Peninsula), also (a few from) arctic waters and Yukon River.

Appendix lists ninety-nine species known to occur in waters bordering upon the limits of Alaska; lists also species not (then) found elsewhere than in Alaska, and species found in Alaska and in various other regions; finally, synopsis of the distribution of Alaskan fishes. *Copy seen:* DLC.

1198. BEAN, TARLETON HOFFMAN, 1846-1916. Report on the salmon and salmon rivers of Alaska, with notes on the conditions, methods, and needs of

the salmon fisheries. (U. S. Fish and Wildlife Service. Bulletin of the U. S. Fish Commission, 1889, *pub.* 1891. v. 9, p. 165-208, 35 plates, 8 fold. charts) First printed as House misc. doc. 211, 51st Congress.

The report covers work done on Kodiak Island, July 28-Sept. 11, 1889. Includes a description of the physical characteristics of Karluk Bay, River, spit, and Lake, Alitak, Olga and Uyak Bays (all on Kodiak Island), and Afgonak Bay, Lake and River (Afgonak Island), with detailed charts of each. Full discussion of the natural history of five species of salmon and two trout. Data on methods, conditions, and statistics of the salmon fisheries, with list (and map) of canneries of Alaska; data on artificial propagation of the salmon in Alaskan waters.

Revue de travaux, mars 1931. T. 4, p. 106-129, incl. tables, diagrs.) *Title tr.:* Report of the expedition to Newfoundland and Greenland, 1930. Pt. 3. Fisheries of Greenland.

Contains results of surface and bottom water temperature measurements, a discussion of the season's hydrographic conditions, and a report on the fisheries.

Copy seen: DF.

1206. BEAUGÉ, LUCIEN. Rapport de Mission au Groënland, campagne 1931. (France. Office Scientifique et Technique des Pêches Maritimes. Revue de travaux, mars 1932. T. 5, p. 41-81, incl. tables, diagrs.) *Title tr.:* Report of the expedition to Greenland, 1931.

Contains a discussion of the general meteorological conditions of Greenland, and the northern hemisphere's atmospheric circulation and its effect on water temperatures; report on the surface and deep water temperature measurements, summer 1931, and on the fishing grounds off West Greenland and Newfoundland.

Copy seen: DF.

1207. BEAUGÉ, LUCIEN. Rapport de Mission au Groënland et à Terre-Neuve (campagne 1929). Première partie. Mission au Groënland. (France. Office Scientifique et Technique des Pêches Maritimes. Revue de travaux, dec. 1929. T. 2, p. 369-411, incl. 10 p. of diagrs., 3 sketch charts) *Title tr.:* Report of the expedition to Greenland and Newfoundland, 1929. Pt. 1. Expedition to Greenland.

The Scientific and Technical Office of Sea Fisheries of France carried out, beginning in 1922, a series of research expeditions to investigate cod fisheries on the Newfoundland Banks. In July-Aug. 1929, the area was extended to include the fishing banks off southwest Greenland. This report contains a general description of the hydrology and meteorology (including ice) of Baffin

Bay-Davis Strait, and of the cold current which sweeps down the west side of Davis Strait; a full discussion of the Fylla Bank (64°N.) off West Greenland (its temperature, salinity, bottom characteristics and fisheries) and (in general) the history and present-day condition of the West Greenland fisheries.

1227. BEECHEY, FREDERICK WILLIAM, 1796-1856. Narrative of a voyage to the Pacific and Beering's Strait, to co-operate with the polar expeditions: performed in His Majesty's ship Blossom, under the command of Capt. F. W. Beechey . . . in the years 1825, 26, 27, 28. London, H. Col-

burn and R. Bentley, 1831. 2 v. (paged continuously; v. 1: xxi, [1] p., 1 l., 392 p.; v. 2: vii, [1], [393]-742 p.) front., plates, port., maps (part fold.) First edition, in 4to format.

Expedition to Bering Strait and beyond to meet and assist the Franklin and Perry expeditions which it was hoped would arrive from the east, and at the same time to make scientific observations in areas visited. Main base was in Kotzebue Sound.

Contents include: Chap. 10-12. Narrative of activities in the summer of 1826, discoveries by ship as far north and west as Franklin Point, and by barge under command of Thomas Elson, as narrated by William Smyth, as far as Point Barrow. Includes descriptions of the coasts, especially new discoveries such as Hotham Inlet, sea and ice conditions, Eskimo village sites and Eskimo culture, from Cape Prince of Wales to Point Barrow.

Chap. 18-19. Narrative of activities in 1827, including brief stop at Petropavlovsk, Kamchatka, in July, and trips along the northwest coast of Alaska during the balance of the summer and early fall. Includes account of the discovery of Port Clarence, observations on sea and ice conditions as far as Icy Cape (70°20'N. 161°50'W.); notes on Eskimo artifacts and on disputes with Eskimos: general summary description of Eskimo culture as observed in northwestern Alaska.

Appendices (v. 2, p. 593-742) include:

Buckland, W. On the occurrence of the remains of elephants, and other quadrupeds, in the cliffs of frozen mud in Eschscholtz Bay, within Beering's Strait, and in other distant parts of the shores of the arctic seas, p. 593-612. (Analysis, with illustrations, of fossil remains collected by Beechey).

Vocabulary of the words of the western Esquimaux, p. 619-27.

Nautical remarks, p. 628-742. (Includes discussion of navigation conditions with brief sections on the Kamchatka region; also tables of geographical positions; altitudes of mountains; meteorological observations (daily, 1825-28, on temperature, humidity, with remarks on clouds, wind, weather, also averages); aurora borealis; specific gravity and temperature of sea water; dip and variation of compass; these

tables include results of observations made while the expedition was in the Kamchatka, Bering Sea, Kotzebue Sound and Alaska regions.

Reviewed by W. Ainsworth, in Royal Geographical Society, *Journal*, 1831, pub. 1833. v. 1, p. 193-222.

Copy seen: DLC; NN.

1228. BEECHEY, FREDERICK WILLIAM, 1796-1856. Narrative of a voyage to the Pacific and Beering's Strait, to co-operate with the polar expeditions: performed in His Majesty's ship Blossom, under the command of Captain F. W. Beechey . . . in the year 1825, 26, 27, 28. A new edition. London, H. Colburn and R. Bentley, 1831. 2 v. v. 1: xxii, 472 p. 13 plates, 2 fold. maps. v. 2: iv, 452 p. 10 plates.

Another edition in 8vo format, in which material relating to arctic regions appears in v. 1, chap. 10-12, v. 2, chap. 6-7; also Appendices v. 2, p. 331-452.

Copy seen: DLC; NNA.

1229. BEECHEY, FREDERICK WILLIAM, 1796-1856. Narrative of a voyage to the Pacific and Beering's Strait, to co-operate with the polar expeditions: performed in His Majesty's ship Blossom, under the command of Captain F. W. Beechey . . . in the years 1825, 26, 27, 28. Philadelphia, Carey & Lea, 1832. vi p., 1 l., xi, [13]-493 p.

Another edition without plates, maps or scientific appendices, but with main text reprinted in smaller type and a few new footnotes.

Copy seen: DLC; NN.

1230. BEECHEY, FREDERICK WILLIAM, 1796-1856. A voyage of discovery towards the North Pole, performed in His Majesty's ships Dorothea and Trent, under the command of Captain David Buchan, R.N.; 1818; to which is added, a summary of all the early attempts to reach the Pacific by way of the Pole. London, R. Bentley, 1843. ix, [1] p., 1 l., 351, [1] p. front., plates (part fold.) fold. chart.

The *Dorothea* and *Trent*, Capt. Buchan in command, sailed from the Shetland Islands into western and northern Svalbard waters above 80°N., and returned along the edge of the Greenland pack ice, during May-Oct. 1818. The objective was to discover a passage to the Pacific via arctic waters. The au-

thor took part in this cruise under Capt. Franklin, who commanded the *Trent*. Beechey's narrative (in pt. 1) describes the voyage, gives information on ice conditions, on surveying accomplished in northwestern West Spitsbergen, and relates attempts to establish colonies on West Spitsbergen and Jan Mayen and winterings made there.

Pt. 2 is a brief account of earlier voyages near West Spitsbergen and Novaya Zemlya to discover a Northeast Passage, their progress and difficulties.

1231. BEECHEY, FREDERICK WILLIAM, 1796-1856, and others. The zoology of Captain Beechey's voyage; comp. from the collections and notes made by Captain Beechey, the officers and naturalist of the expedition, during a voyage to the Pacific and Beering's Straits performed in His Majesty's ship Blossom, under the command of Captain F. W. Beechey . . . in the years 1825, 26, 27 and 28. Illustrated with upwards of fifty finely coloured plates by Sowerby. Pub. under the authority of the Lords Commissioners of the Admiralty. London, H. G. Bohn, 1839. xii, 180 (i.e. 186) p. col. plates, 3 maps (1 fold.)

The zoological results of Beechey's voyage to the Pacific and Beering Strait, 1825-28, including material from Kamchatka, northwestern Alaska, and some intervening islands.

Contents: Beechey, F. W. Introduction, with acknowledgments.

RICHARDSON, Sir J. Mammalia.

VIGORS, N. A. Ornithology.

LAY, G. T., and E. T. BENNETT. Fishes.

OWEN, Sir Richard. Crustacea.

Gray, John Edward. Reptiles. (None from the Arctic).

Gray, John Edward. Batrachians. (None from the Arctic).

GRAY, John Edward, and G. B. SOWERBY. Molluscan animals and their shells.

BUCKLAND, W. ed. Geology.

Each paper (excepting introduction and those without arctic material) appears in this Bibliography under its author's name.

1241. BELCHER, SIR EDWARD, 1799-1877. The last of the arctic voyages; being a narrative of the expedition in H.M.S. *Assistance*, under the command of Captain Sir Edward Belcher, C. B., in search of Sir John Franklin, during the years 1852-53-54. With notes on the natural history, by Sir John Richardson, Professor Owen, Thomas Bell, J. W. Salter, and Lovell Reeve. London, L. Reeve, 1855. 2 v.: xx, 383 p.; vii, 419 p. col. fronts., illus., 36 plates (part col.), 4 maps (3 fold.), tables.

Narrative of the five-ship expedition (*Assistance*, *Resolute*, *Pioneer*, *Intrepid*, *North Star*) under Belcher's command, with text of instructions, etc. Day-to-day record of the *Assistance* (in detail, with mention of the other ships), the voyage, the winterings 1852-53 in Belcher Channel (76°52'N. 97°W.), and 1853-54 in Wellington Channel (75°-31'N. 92°10'W.), boat and sledge trips, making explorations and scientific ob-

servations; notes on islands visited, Exmouth (base), Pioneer, Cornwall, Princess Royal, Beechey, Dealy, Bathurst, Melville, Devon, Graham, etc. The meeting and rescue of Capt. McClure and crew of the *Investigator*, northern Banks Island. Belcher's abandonment of four ships icebound in Wellington Channel, Aug. 1854, and return home. Includes throughout records on traveling conditions, temperatures, food, ice and snow conditions, frost-bite, snow blindness, scurvy, optical phenomena, natural history, hunting, fishing, etc. Summary of results of Franklin search expeditions by sea and land to date.

Appendices: A. Orders. B. Provisions, clothing, etc. C. Winter fittings. D. Weight and analysis of cubes of salt water or floe ice. E. Observations on ice crystals. F. Tables of meteorology (daily, May 1852-Aug. 1854). G. Comparative tables of temperature, obtained from arctic voyages, 1819 to 1855.

RICHARDSON, Sir J. Account of the fishes.

SALTER, T. W. Account of the arctic Carboniferous fossils.

OWEN, Sir R. Note on some remains of an *Ichthyosaurus*.

REEVE, L. Account of the shells.

BELL, T. Account of the Crustacea.

Each of these five papers appears under its author's name in this Bibliography. *Copy seen:* DLC; NNSf.

Discussion of the composition, genesis and provenance of a carbon mineral found in alluvial deposits of the Olenek River. The composition approaches that of shungite from Karelia. The mineral was probably formed as a result of intrusion of trap rock in the bituminous Cambrian and Silurian limestones of the peripheral zone of the Anabar massif. It exhibits the effects of extreme metamorphism.—Geological Society of America. Bibliography and index of geology.

1269. BELL, HUGH PHILIP, 1889- ,
and **CONSTANCE MACFARLANE.** Some marine algae from Labrador, Hudson Bay, and arctic Canada. (Canadian field naturalist, Jan. 1938, v. 52, p. 9-10)

Based on collections of the Canadian Eastern Arctic Expedition, 1934. List of seven green, ten brown, and thirteen red algae from Devon, Baffin, Southampton, and Charlton Islands, Wakeham Bay, Cape Wolstenholme, and Churchill.

Copy seen: DLC.

1270. BELL, JAMES MACKINTOSH, 1877-1934. Economic resources of Moose River basin. (Ontario. Dept. of Mines. Annual report, 1904. v. 13, pt. 1, p. 135-97, illus., fold. map)

Contains a report on a coal investigation made in the summer of 1903; a physiographic description of the route of the Opazatika, Wabiskagami and Nettogami Rivers, the lakes and rivers of the Moose basin and Lake Kesagami; the stratigraphy and glacial geology of the whole area; the results of a study of the economic mineral resources: iron ores on the Opazatika and

Mattagami, gypsum on the Moose and other rivers, shales and clay, lignite on the Missanaibi, Opazatika, Sowseska, Kwataboahagan, and Abitibi Rivers; remarks on the peat bogs, climate, soils, forests, animals and Indians of this part of northern Ontario.

Copy seen: DGS.

1271. BELL, JAMES MACKINTOSH, 1877-1934. Explorations in the Great Bear Lake region. (Geographical journal, Sept. 1901. v. 18, p. 249-58, illus. fold. map)

Account of a Canadian Geological Survey party's explorations, Apr.-Aug. 1900; an overland trip from Great Bear Lake to Coppermine River and return, and thence to Great Slave Lake (with route map); notes on the Indians, general geographic features, and the game.

Copy seen: DLC.

1272. BELL, JAMES MACKINTOSH, 1877-1934. The fireside stories of the Chippewyans (Journal of American folk-lore, 1903. v. 16, p. 73-84)

Brief notes on Athapaskan tribes of the Barren Lands, especially the Hares and Dogribs, with texts of three tales (in English).

Copy seen: DLC.

1273. BELL, JAMES MACKINTOSH, 1877-1934. Great Slave Lake. (Royal Society of Canada. Transactions, May 1929. Ser. 3, v. 23, sec. 4, p. 5-38, map)

Contains an historical introduction, general descriptions of the climate, vegetation, fauna and inhabitants, and (in detail) the general geology and physical features, with a bibliography.

Copy seen: DLC.

1274. BELL, JAMES MACKINTOSH, 1877-1934. Great Slave Lake. (Geographical review, Oct. 1929. v. 19, p. 556-80, illus. (incl. map)

Text similar to that of the item above with somewhat less detail in certain sections, e.g. geology, bibliography omitted, and illustrations added.

Copy seen: DLC.

1275. BELL, JAMES MACKINTOSH, 1877-1934. The lead-zinc deposits near Pine Point, Great Slave Lake. (Canadian Institute of Mining and Metallurgy. Transactions, 1929. v. 32, p. 122-39, illus., incl. sketch maps; also *pub.* in Canadian mining and metallurgical bulletin, Oct. 1929. No. 210, p. 1141-57)

Contains history of the exploration and prospecting of the area, a descrip-

tion of the climate, topography, general geology, and (in detail) the nature and origin of the deposit; with discussion, p. 138-39. *Copy seen:* DGS.

1276. BELL, JAMES MACKINTOSH, 1877-1934. Legends of the Slave Indians of the Mackenzie River. (Journal of American folk-lore, 1901. v. 14, p. 26-29)

Two tales (in English).

Copy seen: DLC.

1277. BELL, JAMES MACKINTOSH, 1877-1934. Report on the topography and geology of Great Bear Lake and of a chain of lakes and streams thence to Great Slave Lake. Ottawa, Printed by S. E. Dawson, 1901. 36 p. (Canada. Geological Survey. Annual report. v. 12, 1899, pt. C)

Report on explorations during the seasons 1899-1900, under the direction of Dr. Robert Bell, the author being his assistant during the 1899 season. Contains an account of the sledge journey in 1900, from Fort Resolution across Great Slave Lake to Fort Providence, thence by river steamer to Fort Simpson, and by canoe down the Mackenzie River and up the Bear River; the exploration around Great Bear Lake, and across the Barren Grounds to Dease and Coppermine Rivers; and the return from Fort Confidence, via MacTavish and Dease Bays, Camsell River and its lakes, to Great Slave Lake. Includes descriptions of routes, physical features and rocks, of the streams, lakes and shorelines, of the features mentioned, also of Gruard, Hottah, Stairs, Beaver Lodge, Malfait, Isabella, Ste. Croix, Rae, Faber, Sarah, and Marian Lakes.

Appendix: Barlow, A. E. Descriptions of rocks collected.

Copy seen: DLC.

1278. BELL, ROBERT, 1841-1917. The geographical distribution of forest trees in Canada. (Scottish geographical magazine, June 1897. v. 13, p. 281-96, plate, fold. map)

Notes on a tree-line map showing limits of the more important species from Labrador to Lake Athabaska, and discussion of features of the tree line, the post-Pleistocene conditions, means for diffusion of trees, conditions governing distribution, etc.

Copy seen: DLC.

1279. BELL, ROBERT, 1841-1917. The geology of Hudson's Bay and Strait. (In: Canada, Dept. of Marine. Report of the Second Hudson's Bay expedition 1885, pub. 1885, p. 55-70, fold. chart)

Contains a report on the expeditions of 1884 and 1885, and of the author's earlier journeys into the region; descriptions of the rocks of the shore and islands from Rupert's Bay northward to Cape Dufferin, and the west shore to Chesterfield Inlet, with mention of Repulse Bay; a discussion of the economic minerals of the Northwest Territories, including iron, copper, lead, zinc, molybdenum, silver, gold, gypsum, salt, coal, petroleum, and others.

The work done in 1885 is also reported in: Robert Bell's *Observations on the geology, zoology and botany of Hudson's Strait and Bay*, 1885.

Copy seen: DLC.

1280. BELL, ROBERT, 1841-1917. The history of the Che-che-puy-ew-tis, a legend of the northern Cree. (Journal of American folk-lore, 1897, v. 10, p. 1-8)

A hero legend (collected in the James Bay region) with some comparative discussion.

Copy seen: DLC.

1281. BELL, ROBERT, 1841-1917. The Labrador Peninsula. (Scottish geographical magazine, July 1895, v. 11, p. 335-61, 7 plates, fold. map)

Description of the physical geography and geology with notes on climate, forests, fauna, population and Moravian missions, of the area now comprising northern Quebec, Ungava Peninsula and Labrador.

Copy seen: DLC.

1282. BELL, ROBERT, 1841-1917. Mackenzie District. (Canada. Geological Survey. Annual report, 1899, pub. 1902. Pt. A. Summary report, 1899. pub. 1900. p. 103-110)

Report on exploration of Great Slave Lake, June-Sept. 1899: brief summary of activities in surveying the lake northeast of Fort Resolution, and a description of the rocks, with note of ore occurrences of the southeast side of the lake and part of the northwest side of McLeod Bay.

Copy seen: DLC.

1283. BELL, ROBERT, 1841-1917. Observations on the geology, mineralogy, zoology and botany of the Labrador Coast, Hudson's Strait and Bay. Montreal, Dawson Brothers, 1884. 62 p. 2 plates. (Canada. Geological Survey. Report of progress, 1882-83-84. Pt. DD)

Contains an account of Dr. Bell's work on the Canadian Hudson Bay Expedition, 1884; descriptions of the physical features, the geology and minerals of the Labrador coast, especially along Nachvak Bay, Cape Chidley, and Hudson Strait; notice of the discovery and naming of McLelan Strait; notes on the tree line, the tides, the natives, the ice and dust carried by it, the fauna and flora, fishes, seals, etc.; similar notes on Nottingham, Digges, and Mansfield (i.e. Mansel) Islands.

Appendices: 1. List of plants (two hundred ninety-nine species), by Prof. Macoun.

2. List and notes of mammals (fifty-four species).

3. List and notes of birds (fifty-two species).

4. Smith, S. J. List of Crustacea from Port Burwell (sixteen species).

Whiteaves, J. F. List of marine invertebrates from Hudson's Strait (seventy-one species).

5. Lyman, H. H. List of Lepidoptera collected in Hudson's Strait, 1884 (six species).

Smith, J. B. List of Coleoptera collected at Fort Churchill (fourteen species).

Copy seen: DGS.

1284. BELL, ROBERT, 1841-1917. Observations on the geology, zoology and botany of Hudson's Strait and Bay, made in 1885. Montreal, Dawson Brothers, 1885. 27 p. illus., 2 plates, fold. map. (Canada. Geological Survey. Annual report, 1885. Pt. DD)

Contains observations on the ice conditions, the shore lines, the rocks and geological formations, and the islands, made during the second Hudson Bay expedition of the *Alert*, 1885; also chapters of the Laurentian system around Hudson Bay, and geology of the west coast; with an appendix: Partial list of insects collected in 1885 by Dr. Robert Bell, in connection with the Hudson's Bay Expedition. Material from this paper appears also in the author's *Geology of Hudson's Bay and Strait*, 1885.

Copy seen: DLC.

1285. BELL, ROBERT, 1841-1917. On glacial phenomena in Canada. (Geological Society of America. Bulletin, Apr. 1890. v. 1, p. 287-310)

Discussion of the evidences of glaciation, direction of flow, geologic results, period and cause of glaciation in the Canadian area. *Copy seen:* DGS.

1286. BELL, ROBERT, 1841-1917. On the commercial importance of Hudson's Bay, with remarks on recent surveys and investigations. (Royal Geographical Society. Proceedings, Oct. 1881. New ser., v. 3, p. 577-86, fold. map)

General description of the region, depth, drainage basin, tributaries, ice conditions, and harbors of the bay, with discussion of its future as a shipping route, and of the agricultural, timber, and mineral resources of its surrounding territory. *Copy seen:* DLC.

1287. BELL, ROBERT, 1841-1917. On the occurrence of mammoth and mastodon remains around Hudson Bay. (Geological Society of America. Bulletin, June 1898. v. 9, p. 369-90)

Discussion of the geographical range of the species, the related geologic climate, the animals' migration, and causes of their extinction; occasioned by the discovery of a mammoth tooth on Long Island, Hudson Bay, and mastodon remains on the mainland near the head of James Bay.

Copy seen: DGS.

1288. BELL, ROBERT, 1841-1917. Recent explorations to the south of Hudson Bay. (Geographical Journal, July 1897. v. 10, p. 1-19, illus. fold. map)

Account of a Canadian Geological Survey mapping trip, 1895-96, in the region south and east of James Bay, during which the Nottaway River was surveyed. Includes descriptions of the physical features of the territory between Lake Mattagami and Rupert River, with more detailed remarks on the Nottaway River.

Map "The Noddawai River and its tributaries, southeast of James Bay (Canada) from the surveys of Robert Bell," scale 1:750,000, follows p. 128.

Copy seen: DLC.

1289. BELL, ROBERT, 1841-1917. Report of an exploration on the northern side of Hudson Strait. Ottawa, S. E. Dawson, 1901. 38 p. 4 plates, fold. col.

map. (Canada. Geological Survey. Annual report, 1898. New ser., v. 11, pt. M)

Contains a report of a track survey and geological exploration from Big Island to Chorkbak Inlet, 1897, with notes on the islands, ice and harbors; descriptive notes on the mountains, glaciers, and lakes of the southern Baffin Island and (in detail) on the geological formations and glacial geology.

Appendices: 1. Astronomical observations. 2. List of plants collected. 3. List of Lepidoptera.

Map: Map of the coasts of Hudson Strait and Ungava Bay to illustrate reports of R. Bell and A. P. Low, scale: 25 mi.:1 in.

Copy seen: DLC.

1289A. BELL, ROBERT, 1841-1917. Report on an exploration in 1865 [sic] between James' Bay and Lakes Superior and Huron. (Canada. Geological Survey. Report of progress, 1875-76, pub. 1877. p. 294-342)

Contains descriptions of the geology, minerals, and physical features of the country on the Mattagami, Moose, and Missinaibi Rivers, with remarks on James Bay and its eastern shore, explored in 1875.

Copy seen: DGS.

1290. BELL, ROBERT, 1841-1917. Report on an exploration of portions of the At-ta-wa-pish-kat and Albany Rivers, Lonely Lake to James' Bay, 1886. Montreal, Dawson, 1887. 38 p., 1 l. 4 plates. (Canada. Geological Survey. Annual report, 1886. Pt. G.)

Contains a narrative of the journey, with notes on the routes, soil, climate, vegetation, glacial geology, rocks, Devonian fossils, Indians, and descriptive details of the rivers.

Copy seen: DLC.

1291. BELL, ROBERT, 1841-1917. Report on an exploration of the east coast of Hudson's Bay 1877. Montreal, Dawson Brothers, 1879. 2 p. l., 37 p. 6 plates. (Canada. Geological Survey. Report of progress, 1877-78. Pt. C)

Contains a narrative of a trip from Lake Superior to Moose Factory, thence by small boat, along the east shore, north to Portland Promontory and return; a survey of the Abitibi River; description of the rocks, the islands, the rivers, geology, minerals, soils, climate and timber of the Eastmain shore; a list of fossils collected between Missi-

naibi River and Moose Factory, and remarks on the soil south of James Bay.

Copy seen: DGS.

1292. BELL, ROBERT, 1841-1917. Report on Hudson's Bay and some of the lakes and rivers lying to the west of it. Montreal, Dawson Brothers, 1881. 2 p. l., 113 p. incl. tables, 8 plates, fold., col. map. (Canada. Geological Survey. Report of progress, 1879-80. Pt. C)

Contents include: Notes on a voyage in 1880 from York Factory to London, by the bark *Ocean Nymph* (with notes on Hudson Strait and on the fishes and ice of Hudson Bay).

General account of Hudson Bay (dimensions, depth, rivers, harbors, navigation, tides, resources, trade route, and exports).

The northern limits of the principal forest trees of Canada, east of the Rocky Mts. (with map).

Geographical distribution of trees, not represented on map.

Appendices: 2. List of plants collected in 1880 (two hundred sixty-one species).

3. List of Coleoptera, York Factory (twenty-seven species).

4. Mollusca (fourteen land shells, eleven marine).

5. Analysis of the waters of Hayes and Nelson Rivers.

6. York Factory seasonal or periodic events (climate and natural history).

7. Table of opening and closing dates for Hayes River at York Factory.

8. York Factory, dates of arrival and sailing of Hudson's Bay Co. vessels, 1788-1880.

9. Moose Factory seasonal or periodic events.

10. Moose Factory, dates of arrival and sailing of Hudson's Bay Co. vessels, 1735-1880.

11. Weather statistics for two years at York and Moose Factories (abstracts of all observations, daily mean temperatures, daily high and low temperatures). *Copy seen:* DGS.

1293. BELL, ROBERT, 1841-1917. Report on the country between Lake Winnipeg and Hudson's Bay, 1878. Montreal, Dawson Brothers, 1879. 2 p. l., 31 p. 5 plates. (Canada. Geological Survey. Report of progress, 1877-78. Pt. CC)

Contains a narrative of a trip from Norway House to York Factory by

way of Oxford House and Nelson River; observations on geology, soil, climate, timber, fishes, birds and mammals.

Copy seen: DGS.

1294. BELL, ROBERT, 1841-1917. Report on the geology of the basin of Nottaway River. Ottawa, King's Printer, 1902. 11 p. fold. map. (Canada. Geological Survey. Annual report, 1900. New ser., v. 13, pt. K)

Results of a micrometer and compass survey carried out 1895-96. Description of the Huronian areas, the Great Belt rocks (crystalline schists, greenstones, and granites) and the Laurentian rocks.

A narrative of this survey trip and description of the general physical features appear in the Canadian Geological Survey *Summary reports, 1895-96*, and in the author's *Recent explorations to the south of Hudson Bay*, 1897, q.v.

Map: No. 702. Geological map of the basin of the Nottaway River, north-western Quebec, 47°30'-51°30'N. 74°-79°W. (scale 1:633,600). The information on strike, dip, and glacial striae shown here, is not repeated in the text.

Copy seen: DLC.

1295. BELL, ROBERT, 1841-1917. Reports on the geology of the basin of Moose River and of the Lake of the Woods and adjacent country. Montreal. Dawson Brothers, 1883. 2 p. l., 39 p. 2 plates, 2 fold maps. (Canada. Geological Survey. Report of progress, 1880-81-82. Pt. C)

Maps only, have information on regions within the scope of this Bibliography: Geological (scale, 8 mi.: 1 in.) including the lower reaches of the Mattagami and Abitibi Rivers flowing into James Bay. Plan of Moose River from neighborhood of Moose Factory to James Bay (scale, 2 mi.: 1 in.).

Copy seen: DGS.

1296. BELL, ROBERT, 1841-1917. Rising of the land around Hudson Bay. (Smithsonian Institution. Annual report, 1897, *pub.* 1898. p. 359-67) Abstract, as printed in American journal of science, ser. 4, v. 1, p. 219-28, Mar., 1896, of a paper read before the Geological Society of America, Philadelphia, Dec. 27, 1895.

A discussion of the raised beaches, stranded driftwood, marine fossils and bathymetric variations as observed by the author along east and west shores

of Hudson and James Bays, in the period 1875-95, with references to observations in earlier explorers' narratives.
Copy seen: DLC.

1297. BELL, ROBERT, 1841-1917. A survey in Baffinland, with a short description of the country. (Geographical journal, July 1901. v. 18, p. 25-46, illus., fold. map)

Account of a Canadian Geological Survey party, sent out on the *Diana* in 1897. Includes a description (in general) of the physiography and natural history of the southern part of Baffin Island, and (in particular) of the coast from Big Island to Chorkbak Inlet, of which a track survey was made; also notes on currents.

Note on the occasion of the founding of the vicariate by the Oblats de Marie Immaculée.
Copy seen: CaOUS.

1302. BELLEBON, Dr., and J. H. GUÉRAULT. Les Esquimaux du Gröenland considérés sous le point de vue de leur race, de leurs caractères au physique et au moral, de leur hygiène et de leurs maladies ordinaires. (In: Chojceki, K. E. Voyage dans les mers du nord à bord de la corvette la Reine Hortense, 1857. Notices scientifiques, p. 21-41) *Title tr.:* The Eskimos of Greenland; their race, physical and moral characteristics, hygiene and common diseases.

Based on the authors' observations during a visit to West Greenland with Prince Bonaparte's party on the *Reine Hortense* in the summer of 1856, and on published works. Describes the appearance, general way of life and common ailments of the Eskimos.
Copy seen: DLC.

1303. BELLOT, JOSEPH RENÉ, 1826-1853. Journal d'un voyage aux mers polaires à la recherche de Sir John Franklin; par J. R. Bellot; avec une introduction par M. Paul Boiteau. 3. éd. Paris, Garnier frères, 1875. xlv, 363 p. front. (port.) fold. map.

Another edition of the *Journal* (pub. 1854) without the biographical sketch of the author, but with addition of a foreword summarizing events preceding and following the second cruise of the *Prince Albert*. *Copy seen:* DLC.

1304. BELLOT, JOSEPH RENÉ, 1826-1853. Journal d'un voyage aux mers polaires, exécuté à la recherche

de Sir John Franklin, en 1851 et 1852, par J. R. Bellot précédé d'une notice sur la vie et les travaux de l'auteur, par m. Julien Lemer. Paris, Perrotin, 1854. lvi, 414 p., 1 l. front. (port.) fold. map. *Title tr.*: Journal of a voyage to the polar seas in search of Sir John Franklin, 1851 and 1852, by J. R. Bellot, preceded by a notice on the life and works of the author, by Julien Lemer.

Account of the second voyage of the *Prince Albert*, outfitted and dispatched by Lady Franklin under command of Capt. William Kennedy. Describes the voyage to Prince Regent Inlet, establishment of a base in Batty Bay, Somerset Island; overland trips around the island in Peel Sound region and eastern Prince of Wales Island; discovery of Bellot Strait. Includes throughout, observations on the ice, animals, and birds seen at sea, the physical features of the country and the climate, with notes on the Eskimos of West Greenland and the Canadian Arctic Islands.

1314. BELOWSKY, MAX, 1865-. Beiträge zur Petrographie des westlichen Nord-Grönlands. (Deutsche geologische Gesellschaft. Zeitschrift, 1905. Bd. 57, p. 15-90) *Title tr.:* On the petrography of western North Greenland.

Based on laboratory examination of the rocks collected by the Greenland Expedition of the Geographical Society of Berlin, 1891-93, and on previous publications concerning the west coast of Greenland, with a bibliography.

Copy seen: DGS.

1315. BELYK, V. I. O rasprostraneniī sobol'ia v Yakutii. (Priroda, 1948, no. 6, p. 64) *Title tr.:* On the distribution of the sable in Yakutia.

Sable is less plentiful than it was in the 19th century and is found in different parts of Yakutia from its former localities.

Copy seen: DLC.

1316. BELYKH, F. I. Ozero Lama i ego rybokhoz'iaistvennoe ispol'zovanie. (Leningrad. Nauchno-issledovatel'skii institut poliarnogo khoz'iaistva. Trudy; seriā "Promyslovoe khoz'iaistvo", 1940. Vyp. 11, p. 73-100, tables, diagrs.) *Title tr.:* Lake Lama and the exploitation of its fish resources.

Description of Lake Lama (one of the Noril'sk Lakes in Krasnoyarskiy Kray, 69°25'-69°40'N. 89°51'-93°43'E.), its fish population, fisheries, and statistical data on the catch.

Copy seen: DLC.

1317. BENCKER, H. The bathymetric soundings of the oceans. (Hydrographic review, 1930. v. 7, no. 2, p. 64-97, incl. tables)

Résumé of source material for the subject; chronological list of oceanic explorations since 1800; cable ships and war vessels which have contributed to deep-sea soundings; and lists of principal deeps and shallows, arranged by oceans, including Bering and Beaufort Seas, Aleutian Trench, and Arctic Basin.

BENNETT, EDWARD TURNER, 1795-1836, see Lay, G. T., & E. T. Bennett. Fishes. (Beechey's voyage 1825-28). 1839.

1334. BENNETT, HUGH HAMMOND, 1881- . Report on a reconnaissance of the soils and agriculture of the Kenai Peninsula region of Alaska. (In: U.S. Bureau of Soils. Field operations, 1916, pub. 1921. Report 18, p. 39-174, illus., 34 plates, 3 fold. maps (1 separate) tables)

Results of a U. S. Bureau of Soils and Forest Service reconnaissance in the summer of 1916, in the Chugach National Forest and environs, Kenai Peninsula. Brief but informative descriptions of the climate, geography, physiography, geology, regional drainage, vegetation, (forests), forest fires, settlement and general development. Description (in full) of the soils, with tabular results of chemical and mechanical analyses. Estimate of suitable farm land, and notes on raising potatoes and other vegetables, berries, flowers, grasses and forage, grain, livestock, poultry, etc., on land clearing, and cultivation. Notes on furs, game, other birds and animals, insects, fish, and recreation facilities; with a brief section on the Knik Arm strip, the physical features and soils of Prince William Sound region, and the Copper River delta. Copy seen: DA.

1335. BENNETT, HUGH HAMMOND, 1881- , and **THOMAS D. RICE**. Soil reconnaissance in Alaska, with an estimate of the agricultural possibilities. (U.S. Bureau of Soils. Field operations, 1914, pub. 1919. Report 16, p. 43-236, illus., 38 plates, 4 fold. maps)

Report of a survey made in connection with, and at the expense of, the Alaska Engineering Commission, in the summer of 1914. Includes information regarding crops, physiography, soil, transportation, markets, mining industries, and settlement as they relate to the development of agriculture in (1) Cook Inlet-Susitna region, (2) Yukon-Tanana region, (3) Copper River basin and delta; also a comparison of Alaska with Finland and parts of Siberia.

Maps include soil maps of (1) Cook Inlet-Susitna region, and (2) Yukon-Tanana region. Copy seen: DLC.

1336. BENNETT, P. M. The British Canadian Arctic Expedition. (Geographical journal, Feb. 1940. v. 95, p. 109-120, 4 plates, fold. map)

Account of an expedition under leadership of T. H. Manning, with support of the Royal Geographical Society, to the Southampton Island region, to survey the coasts, and study bird life and geology. Includes report on the surveying accomplished in 1936-37, remarks on the geography, coasts, and ice conditions in the region of Southampton Island, Roes Welcome Sound, Repulse Bay and Wager Inlet.

1338. BENSON, J. S. Meteorology. The Oxford University Expedition to Spitsbergen, 1933. Appendix 3. (Geographical journal, Aug. 1934. v. 84, p. 122-26)

Contains tables of (mean) monthly (July-Sept.) data on temperature, wind, and weather, representing the observations of the several parties taken at irregular times; and notes on mist and mirages. Copy seen: DLC.

1339. BENSON, ROBERT B. Sawflies from Bear Island (Hymenoptera, Symphyta). (Annals and magazine of natural history, Aug. 1934. Ser. 10, v. 14, p. 207-213)

Descriptions and notes on three species, one new, collected by the Cambridge Expedition to Bear Island, 1932.

Copy seen: DSI-M.

1340. BENT, ARTHUR CLEVELAND, 1866- . The Hudsonian curlew. (Birdlore, Jan.-Feb. 1913. v. 15, p. 59-62, plate) National Association of Audubon Societies' Educational leaflet, no. 62.

Notes on the appearance, range, migration, nesting and habits of this species which breeds on the barren grounds of Mackenzie District and western Alaska. *Copy seen:* DSI-M.

1341. BENT, ARTHUR CLEVELAND, 1866-. Life histories of North American [. . . birds, etc.] Washington, U.S. Govt. Print. Off., 1919-1949.

Published as U.S. National Museum Bulletins, this series (sixteen volumes already issued as of 1949) is a basic reference work. It includes, within its comprehensive scope, birds of arctic and subarctic habitat and breeding grounds, represented mainly by the volumes listed below. "The life history of each species is written in substantially the following sequence: spring migration, courtship, nesting habits, eggs, young, sequence of plumages to maturity, seasonal molts, feeding habits, flight, swimming and diving habits, vocal powers, behavior, enemies, fall migration, and winter habits." The main breeding and winter ranges are outlined and the normal migrations are given in sufficient detail to indicate the usual movements of each species. The arrangement follows the classification scheme of the American Ornithologists' Union.

Series includes: Diving birds, *pub.* 1919. (Bulletin 107) xiii, 245 p. 55 plates. (Includes the grebes, loons, puffins, auklets, murrelets, guillemots, murres, auks, and dovekies)

Gulls and terns, *pub.* 1921. (Bulletin 113) x, 345 p., 93 plates.

Petrels and pelicans and their allies, *pub.* 1922. (Bulletin 121), xii, 343 p. 69 plates.

Wild fowl, *pub.* 1923-25. (Bulletin 126, 130) 2 v. 46, 60 plates respectively. (Ducks, geese, swans, mergansers)

Marsh birds, *pub.* 1926. (Bulletin 135) xii, 490 p. 98 plates. (Hérons, cranes, and allies)

Shore birds, *pub.* 1927-29. (Bulletin 142, 146) 2 v. 55, 56 plates respectively. (Plovers, etc.)

Gallinaceous birds, *pub.* 1932. (Bulletin 162) xi, 490 p. 93 plates on 47 l. (Partridge, grouse, ptarmigan, etc.)

Birds of prey, *pub.* 1937-38. (Bulletin 167, 170) 2 v. 102, 92 plates respectively. (Falcons, hawks, and owls)

1342. BENT, ARTHUR CLEVELAND, 1866-. A new subspecies of ptarmi-

gan from the Aleutian Islands. Washington, Smithsonian Institution, 1912. 1 p. l., 2 p. (Smithsonian miscellaneous collections. v. 56, no. 30)

Description of subspecies, of which a good series of the bird and nest were collected at Tanaga Island in 1911 for the Smithsonian Institution.

Copy seen: DLC.

1343. BENT, ARTHUR CLEVELAND, 1866-. Notes from Labrador. (Birdlore, Jan.-Feb. 1913. v. 15, p. 11-15, illus.)

The author spent July-Aug. 1912 on the coast of Labrador and gives here his comments on the status and need for protection of nineteen species of water birds there, of special interest as game or food birds.

Copy seen: DSI-M.

1344. BENT, ARTHUR CLEVELAND, 1866-. Notes on birds observed during a brief visit to the Aleutian Islands and Bering Sea in 1911. Washington, Smithsonian Institution, 1912. 1 p. l., 29 p. (Smithsonian miscellaneous collections, v. 56, no. 32)

Account of a reconnaissance to collect material for the author's work on life histories of American birds; with notes on sixty-three species of birds seen in June in the Aleutian Islands, and on twenty-two seen in Bering Sea and islands in July.

Copy seen: DLC.

BENT, ARTHUR CLEVELAND, 1866-, *see also* Hersey, F. S. List of birds observed in Alaska & NE. Siberia. 1916.

1345. BENT, SILAS, 1820-1887. An address before the St. Louis Historical Society, December 10, 1868, and repeated by request before the Mercantile Library Association, January 21, 1869, upon the thermometric gateways to the Pole; surface currents of the ocean and the influence of the latter upon the climate of the world. Saint Louis, R. P. Studley & Co., Printers, 1869. 29 p. front. (fold. map)

Another edition with some additional material was published as: An address delivered before the St. Louis Mercantile Library Association, January 6th, 1872, upon the thermal paths to the Pole, the currents of the ocean, and the influence of the latter upon the climates of the world. Saint Louis, 1872. 40 p. 2 fold. maps (incl. front.)

Includes an explanation of northern hemispheric ocean currents (as then understood), evidence in support of the open polar sea theory, and comment on explorations for a Northwest Passage.

Copy seen: DLC; NNSf.

1346. BENT, SILAS, 1820-1887. Communication from Captain Silas Bent upon the routes to be pursued by expeditions to the North Pole. (American Geographical Society. Journal, 1870. v. 2, pt. 2, p. 31-40)

Capt. Bent. U.S.N., made hydrographic surveys in Pacific waters during Commodore Perry's mission to Japan, 1852-54. He was a proponent of the theory that a warm current kept the polar sea open north of Bering Strait, perhaps as far as the North Pole. This paper expresses his view that the Kuro Sio (Japan Current) sends an offshoot north and eastward, similar to the offshoot from the Gulf Stream in the Atlantic. He cites information given him by whalers of the seas north and east of Bering Strait.

Bent's views are discussed in C. P. Daly's presidential address to the Society 1870, which included a survey of polar exploration (same volume, p. xcvi-cxxvi).

Copy seen: DLC.

1347. BENTHAM, ROBERT. Geology. Oxford University Ellesmere Land Expedition. Appendix I. (Geographical journal, May 1936. v. 81, p. 427-31)

Contains descriptive notes on the rock formations of the Etah region of North Greenland, the physical features of the Princess Marie Bay region and the rocks of Bache Peninsula, in the southeast part of Grinnell Land, Ellesmere Island.

Copy seen: DLC.

1348. BENTHAM, ROBERT. Structure and glaciers of southern Ellesmere Island. (Geographical journal, Jan. 1941. v. 97, p. 36-45, 2 plates, fold. map)

Report on two seasons' work, Sept. 1936-Aug. 1938, during which the coast was surveyed from Makinson Inlet to Starnes Fiord, and journeys made along the south coast and across Sverdrup Land (names suggested for southernmost part of Ellesmere Island). Includes descriptions of the structural geology, coastal features, fiords, glaciers, and raised beaches.

Appendix: Notes on the survey; degree of accuracy. *Copy seen:* DLC.

1349. BENTHAM, ROBERT, and DIAMOND JENNESS. Eskimo remains in S. E. Ellesmere Island. (Royal Society of Canada. Transactions, 1941. Ser. 3, sect. 2, v. 35, p. 41-55, 6 plates (4 fold.))

Notes by Diamond Jenness on specimens collected by R. Bentham during a geological investigation, 1937-38. Description of specimens, plans, photographs, and field notes from (1) Cobourg Island, (2) east coast of Ellesmere Island between Edward Point and Makinson Inlet, and (3) vicinity of Fram Fiord. The remains (17-18th century) are identified as examples of Thule culture with admixture of Dorset culture.

1384. BERG, LEV SEMENOVICH, 1876-1951. Geograficheskie zony Sovetskogo Soŭza. Izd. 3. Moskva, Ogiz. Geografiz., 1947. 397 p., illus., maps. *Title*

tr.: Geographical zones of the Soviet Union, 3d ed.

First published under the title: Landshaftno-geograficheskie zony SSSR., cf. Kn. let. 1931. No. 840. French translation was published as: *Les régions naturelles de l'URSS*. English translation was published as *Natural regions of the U.S.S.R.*, 1950.

Basic work on the zonation of the U.S.S.R. as a whole, its lowland and mountain regions. The lowland areas, treated in seven climatic zones (by latitude) of similar floral and faunal characteristics, include the tundras of the North. The mountainous areas treated include the Verkhoyanskiy, Cherskiy and Gydan ranges of north-eastern Siberia, mountains of Chukotsk National District, Kamchatka, and of the Arctic (Franz Josef Land, Novaya Zemlya, Severnaya Zemlya).

Contents tr.: Introduction: geographical landscapes; succession of landscapes.

1. Tundra zone: climate, vegetation, relief, fauna, origin of tundra landscape.

2. Forest zone: A. Taiga subzone: climate, relief, subsoils, soil, vegetation, fauna. B. Mixed forest zone: climate, relief, subsoils, soils, vegetation, fauna.

3. Broad-leaved forests of the Far East (Priamur'e): relief and water supply, climate, soils, vegetation, fauna.

4. Forest-steppe: determination and borders, climate, relief, soils, vegetation, fauna.

Each section has bibliography.

teshestvii, 4) *Title tr.:* The discovery of Kamchatka and the Kamchatka expeditions of Bering.

Account of the expeditions of Bering (1725-42), examined from the point of view of scientific results achieved, in the light of more recent information. Bering's first voyage from Okhotsk to Bering Strait; his subsequent voyage (based on Kamchatka), in Bering Sea and Alaskan waters, landings in Alaska, wintering on Bering Island; the related voyage of Chirikov; and the work of other sections of the expedition sent to map the shores from the White Sea to Kamchatka. Brief biographical sketches of the principal participants. Chapters on early voyages to Kamchatka, Kuriles Islands, and Japan.

Critical bibliography of results as published or utilized by others, and a list of works about the expeditions (p. 227-34).

List, with localities, of one hundred seventy-five species, of which about forty-six occur in the Gulf of Alaska, Aleutian waters, Bering Sea, and Chukchi Sea. *Copy seen: DLC.*

1442. BERKELEY, EDITH, and C. BERKELEY. Polychaeta from the western Canadian arctic region. (Canadian journal of research, Feb. 1944. v. 22, sec. D, p. 1-5, illus.)

Based on collections made during the cruise of the *St. Roch* 1936-37, in Dease, and Dolphin and Union Straits, Bernard Harbour, Coronation Gulf, etc. A list, with localities and distribution, of seventeen (including with de-

scription, one new) species of annelid worms; and a bibliography (12 items).

Copy seen: DSI-M.

1443. BERKELEY, M. J. Enumeration of the Fungi collected during the Arctic Expedition, 1875-76. (Linnean Society, London. Journal; botany, 1878. v. 17, p. 13-17)

Results of the British Arctic Expedition, 1875-76, under Sir George Nares, to the Smith Sound-Robeson Channel region. An annotated list, with localities, and habitats, of twenty-six (including with descriptions, seven new) species from Ellesmere Island and West Greenland. *Copy seen: DLC.*

1444. BERKH, VASILII NIKOLAEVICH, 1781-1834. The chronological history of the discovery of the Aleutian Islands; or, The exploits of the Russian merchants, with the supplement of historical data on fur trade. Seattle, Wash., Works Progress Administration, 1938. 1 p. l., iii, 127 numb. 1.

Translation of the author's *Khronologicheskaiia istoriia otkrytiia Aleutskikh ostrovov*, 1823, q.v., translated by Dimitri Krenov, and reproduced from typewritten copy. *Copy seen: DLC.*

1445. BERKH, VASILII NIKOLAEVICH, 1781-1834. *Khronologicheskaiia istoriia otkrytiia Aleutskikh ostrovov; ili, Podvigi rossiiskago kupechestva. S prisovokuplenniem istoricheskago izvistiia o mfkhovoi trgovli. Sanktpeterburg, N. Grecha, 1823. 169, [2] p. fold. tables, fold. map. Title tr.: The chronological history of the discovery of the Aleutian Islands; or, The exploits of the Russian merchants, with supplement of historical data on the fur trade.*

Translated into English as *Chronological history*, etc., 1938.

Contains a collection of short accounts of the voyages of Russian merchants to the Aleutian Islands, based on written and oral narratives of participants, on contracts, reports of governors, etc. Report on the Russian fur trade on Kuril Islands, Aleutian Islands and northwest coast of America. Lists of approximately 130 voyages of Russian merchants, 1745-1822, with statistics on the fur cargoes they brought home. *Copy seen: DLC.*

BERKH, VASILII NIKOLAEVICH, 1781-1834, *see also* Dall, W. H. Notes

Report on results of recoveries of banded birds (about twenty species), indicating migration patterns involving European and American continents.

Copy seen: DGS.

1476. BERTELSEN, ALFRED, 1877-. Fuglene i Umánaq distrikt. (Meddelelser om Grønland, 1921, pub. 1923. Bd. 62, p. 139-214. illus., maps (1 fold.)) *Title tr.:* Birds in the Umánaq district.

List, with Greenlandic names, localities and remarks, of fifty-seven species; also list of localities; bibliography, p. 214.

Copy seen: DLC.

1477. BERTELSEN, ALFRED, 1877-. Grønlaenderne i Danmark; bidrag til belysning af grønlandsk kolonisationsarbejde fra 1605 til vor tid. København, C. A. Reitzel, 1945. 211 p. illus., ports. (Meddelelser om Grønland. Bd. 145, nr. 2) *Title tr.:* The Greenlanders in Denmark. A contribution to the understanding of Danish colonization work from 1605 to 1945.

Contains an account of the first Greenlanders brought to Denmark by Godske Lindenow in 1605, and of other Eskimos in the 17th century; notes early Greenlandic vocabulary compiled by Reinhold Horn and Caspar Bartholin; treatment accorded Eskimos in Denmark; Hans Egede's views on sending Eskimos to Denmark; Eskimos who came to Denmark and to Holland in the 18th century; plan to train Eskimos in trades in Denmark and Norway; establishment of the "Home for Greenlanders" in Copenhagen; the training of Greenlandic women as nurses, etc.; and comments on the Eskimo and Danish languages in Greenland, and relations between the Eskimos and Danes, etc. Includes bibliography.

Copy seen: DGS; NN.

1478. BERTELSEN, ALFRED, 1877-. Grønlands befolkningsstatistik, 1901-30. København, C. A. Reitzel, 1935. 83 p. sketch map. (*His: Grønlandsk medicinsk statistik og nosografi, 1. del. Pub. in: Meddelelser om Grønland. Bd. 117, nr. 1*) *Title tr.:* Vital statistics of Greenland, 1901-1930.

Discussion, with statistical tables of birth rate, number of births per marriage, childless marriages, abortions and stillbirths, plural births, births out of wedlock, ratio between boys and girls, etc., of West Greenland districts; also

death rate, mortality according to sex, age, month of year and cause of death. With brief vital statistics for Angmagssalik, East Greenland; bibliography (181 items). Summary in English.

Copy seen: DSI-M.

1479. BERTELSEN, ALFRED, 1877-. Grønlandsk medicinsk statistik og nosografi; undersøgelser og erfaringer fra 30 aars grønlandsk lægevirksomhed . . . Med et engelsk résumé . . . København, C. A. Reitzel, 1935-43. 4 v. illus. (incl. maps) (Meddelelser om Grønland. Bd. 117, nr. 1-4) *Title tr.:* Medical statistics and nosography of Greenland; investigations and experiences resulting from thirty years' medical practice in Greenland . . . With an English summary.

Contents tr.: 1. Vital statistics 1901-30. 2. Public health in Greenland. 3. Prevalent diseases in Greenland. 4. Acute contagious diseases in Greenland.

Each number appears in this Bibliography under the author's name.

Copy seen: DSI-M.

1480. BERTELSEN, ALFRED, 1877-. De i Grønland brugte fuglenavne og deres betydning. (Meddelelser om Grønland, 1907. Bd. 33, p. 69-93. illus. (music)) *Title tr.:* Names of birds used in Greenland and their meaning.

List, (by the doctor on the Literary Expedition to West Greenland, 1902-1904) of fifty-four species of birds, indicating for each, the name with meaning in East Greenlandic and West Greenlandic; also musical notes of bird-calls.

Copy seen: DLC.

1481. BERTELSEN, ALFRED, 1877-. Meddelelser om nogle af de i Vestgrønlands distrikter mellem 60° og 77° N. br. almindeligere forekommende fugle, særlig om deres udbredelsesomraade, deres yngleomraade og deres traek. København, C. A. Reitzel, 1932. 73, [1] p., 1 l. illus. (4 sketch maps). (Meddelelser om Grønland. Bd. 91, nr. 4) *Title tr.:* Reports on birds occurring generally in West Greenland between 60° and 77° N.; with special regard to their distribution, breeding area and migration.

List of forty-one species, indicating for each, occurrence during winter and summer, breeding area and migratory routes and habits; bibliography (17 items). Summary in English.

Copy seen: DSI-M.

1482. BERTELSEN, ALFRED, 1877-. Navnegivning i Grønland. (Meddelelser om Grønland, 1918. Bd. 56, p. 221-87, illus.) *Title tr.:* Personal names in Greenland.

Discussion and tables of personal names of West Greenland Eskimos.

Copy seen: DLC.

1483. BERTELSEN, ALFRED, 1877-. Nogle meddelelser om fuglelivet i Vest-Grønland. (Grønlandske selskab. Aarsskrift, 1931-32. p. 5-22, illus.) *Title tr.:* Some notes on the bird life of West Greenland.

Survey of the literature, 1250-20th century, discussion of distribution of Greenland species (based on ring markings), their breeding grounds, etc.; migratory birds in Greenland (especially North American species).

Copy seen: NN.

1484. BERTELSEN, ALFRED, 1877-. Det sædvanlige grønlandske sygdomsbillede. København, C. A. Reitzel, 1940. 234 p. illus., sketch map. (*His:* Grønlandsk medicinsk statistik og nosografi, 3. del. *Pub. in:* Meddelelser om Grønland. Bd. 117, nr. 3) *Title tr.:* Prevalent diseases in Greenland.

Study of diseases occurring among the indigenous population of Greenland: malformations, neoplasms, deficiency diseases, tuberculosis, gonorrhea, syphilis and leprosy; diseases caused by parasites and various miscellaneous diseases; also a section on diseases among Europeans in Greenland; bibliography (188 items). Summary in English.

1485. BERTELSEN, ALFRED, 1877-. Sanitation and health conditions in Greenland. (*In:* Greenland. Copenhagen, 1929. v. 3, p. 363-86, illus.)

Contents: Sanitation at the time of the beginning of colonization; introduction of a system on European lines; midwifery; present organization of medical aid; birthrate and mortality; hygienic conditions; health conditions; diseases, influence of climate, epidemics. Bibliography.

Copy seen: DLC.

1486. BERTELSEN, ALFRED, 1877-. Sundhedsvilkaarene i Grønland. København, C. A. Reitzel, 1937. 248 p. illus. 3 sketch maps. (*His:* Grønlandsk medicinsk statistik og nosografi, 2. del. *Pub. in:* Meddelelser om Grønland. Bd. 117, nr. 2) *Title tr.:* Public health in Greenland.

Discussion, with statistical tables, of West Greenland houses (types of houses, number of inhabitants per house and per room, heating, lighting, sleeping accommodations, etc.), gardening, sanitation, water supply, nutrition and diet, clothing, personal hygiene, sex and marriage, child care, schooling, occupations, care of the sick and the aged, etc., bibliography, p. 238-44. Summary in English. *Copy seen:* DSI-M.

1487. **BERTELSEN, ALFRED**, 1877-. Tilføjeelse til A. Bertelsen: Bemaerkninger vedrørende det grønlandske laegevaesens historie. (Grønlandske selskab. Aarsskrift, 1913. p. 39) *Title tr.*: Addenda to A. Bertelsen: Remarks concerning the history of the medical service in Greenland.

Adds that the German-born Reinhold Horn accompanied Danell as "army-surgeon" on his third Greenland trip in 1654 and published the first Greenlandic vocabulary of 100 words in 1656.

1488. **BERTELSEN, ERIK**. Contributions to the animal ecology of the fjords of Angmagssalik and Kangerdlugssuaq in East Greenland. København, C. A. Reitzel, 1937. 58 p., 1 l. 2 maps. (Meddelelser om Grønland. Bd. 108, nr. 3) Results of the 6th and 7th Thule Expeditions to southeast Greenland, 1931-33. Based on collections made during the 7th Thule Expedition, summer 1933, in Tasissarsik, 65°38'N. 37°16'W., Angmagssalik Fjord and Sermilik, 65°36'-66°07'N., Mikis Fjord, 68°10'N. 31°30'W., Tasiussaq (Kong Oscars Havn), 65°36'N. 37°30'W., and in Uttental Sound of Kangerdlugssuaq, 68°09'-14'N., July 20-Aug. 29.

Contains some remarks on the hydrography, bottom conditions, and the vegetation; and description of the fauna of the tidal zone and the smallest depths, of the level sea-bottom, the vegetation and stones, also the swimming fauna of the sea-bottom; discussion of the productivity of the bottom fauna in the fjords of Angmagssalik region; and a bibliography (35 items).

Discussion of the effects of cold on man and animals; clothing, tents and camping, food, dogs, and transport for travel in polar regions. Condensation, entitled *Life at the poles of the earth*, was published in Science digest, Apr. 1940, v. 7, no. 4, p. 7-13.

Copy seen: DLC; NNStef.

1491. **BERTRAM, G. C. L.** The freshwater Crustacea of Bear Island. (Annals and magazine of natural history, Nov. 1933. Ser. 10, v. 12, p. 538-43)

Contains notes on the lakes, and on the thirteen species collected by Cambridge University Zoological Expedition to Bear Island, 1932, with a table summarizing the various collections made 1898-1932.

Copy seen: DSI-M.

1492. **BERTRAM, G. C. L.** The low temperature limit of activity of arctic insects. (Journal of animal ecology, May 1935. v. 4, p. 35-42, table)

Results of the Cambridge University Zoological Expedition to Scoresby Sound, East Greenland, 1933. Report on controlled field experiments, which showed that "the insects of Scoresby Sound region are much better equipped in their reactions for successful life

under the prevailing low temperature conditions than would be those of Finland were they transported there." Bibliography (10 items). *Appendix*: Table of species (Greenland and Finland) shows difference between the lowest temperature at which any activity is possible and that at which complete activity is attained. *Copy seen*: DA.

1495. BERTRAM, G. C. L., and DAVID LACK. Bear Island. (Geographical journal, Jan. 1933, v. 81, p. 45-53, 2 plates, sketch map)

Results of the Cambridge University Zoological Expedition to Bear Island, 1932. Description of the physical features of the island and of the animal communities, both land and fresh-water, in relation to the physical conditions, the plant life and to each other, with special attention to the birds and insects.

Copy seen: DLC.

1496. BERTRAM, G. C. L., and DAVID LACK. Notes on the animal ecology of Bear Island. (Journal of animal ecology, May 1938. v. 7, p. 27-52, 2 plates, sketch map)

Results of the Cambridge University Zoological Expedition to Bear Island, 1932. During the period June 20-Aug. 10, the authors made observations and

collections of fauna from important land and fresh-water habitats, concentrating on vertebrates and arthropods (exclusive of Tardigrada and insect parasites of mammals and birds). In this paper they give brief notes on the island, its climate, flora, and manuring by sea birds; description of the lake and land vertebrate and arthropod faunas of the various habitats. Discussion of general aspects of composition and origins of the fauna, and notes on population control; with a bibliography (30 items). *Appendix*: Complete list of vertebrates and most groups of arthropods from Bear Island. *Copy seen*: DA.

1497. BERTRAM, G. C. L., and DAVID LACK. Notes on the birds of Bear Island. (Ibis, Apr. 1933. Ser. 13, v. 3, p. 283-301)

Results of the Cambridge University Zoological Expedition to Bear Island, 1932. Discussion of the abnormally large non-breeding bird population, and an annotated list of forty-one species and subspecies, including nine new records for Bear Island, and six for Svalbard; with a bibliography (12 items).

1503. BESSELS, EMIL, 1847-1888. Die amerikanische Nordpol-Expedition. Leipzig, W. Engelmann, 1879. xx, 647, [1] p. illus., plates, fold. map, fold. diagr. *Title tr.*: The American North Pole Expedition.

Account by the surgeon and chief scientist, of the U. S. Arctic Expedition on the *Polaris*, north of the Smith Sound region 1871-73, under command of Dr. C. F. Hall.

Contains description of the *Polaris*, the scientific equipment, the course of the expedition, with notes on previous exploration in the Smith Sound region; the wintering 1871-72 at Thank God Harbor, *Polaris* Bay (81°36'N. 62°15'W.), sledge journeys, scientific activities, death of Dr. Hall; the *Polaris'* drift southward in the ice-pack; separation of part of the crew caught on an ice-floe and return of the others to the Greenland coast; the wintering 1872-1873 at *Polaris* House (near Port Foulke, 78°10'N. 73°W.); notes on animal life and the Eskimos; the main party's voyage south by small boats, then by the rescue ship *Ravenseraig*, via Lancaster Sound and Prince Regent Inlet, with notes on Eskimos, whaling, etc., in that region. Also some account of the ice-floe party, its drift from Smith Sound to the coast of Labrador, Oct. 1872-Apr. 1873, and rescue by the *Tiger*.

Scientific appendices (p. 527-647): 1. Oceanography, tidal observations, density measurements, ocean currents; remarks on ice conditions. 2. Terrestrial magnetism and auroras. 3. Me-

teorology: air temperature, wind, air pressure, humidity, clouds (summary of observations made at Polaris Bay and Polaris House), the ozone content of air. Instructions.

Contains a monographic treatment of thirty-six species of *Artemisia* of the section *Dracunculi*, including some arctic and Kamchatka species.

Copy seen: MH-A.

1506. BESSER, WILIBALD SWIBERT JOSEF GOTTLIEB von, 1784-1842. *Tentamen de Abrotanis seu de sectione II^{de} Artemisarum Linnaei.* Moscou, 1843. 89 p. (Moskovskoe obshchestvo ispytatelei prirody. Nouveaux mémoires. T. 3) *Title tr.:* An essay on *Abrotana* or second section of *Artemisia* Lin.

Contains a revision of the section *Abrotana* of herbaceous genus *Artemisia* with a key to the species, description of seventy-four species, critical notes and date on distribution, includes some native to arctic Siberia and Kamchatka. *Copy seen:* MH-A.

1507. BETHUNE, WILLIAM CLARK, 1896- . Canada's Eastern Arctic; its history, resources, population and administration. Assembled by W. C. Bethune for the Northwest Territories Council. Ottawa, Kings Printer, 1934. 166 p. incl. illus., port., tables, maps (1 fold.)

A collection of papers giving a general description of "that portion of northern Canada patrolled annually by the Eastern Arctic Expedition together with those areas not visited annually which could normally be reached more readily from the east than . . . the west"—the mainland, islands and waters westward to McClintock Channel-Melville Sound-McClure Strait.

Contents: History, location and extent.

Macdonald, C. S. The compass in the eastern Arctic.

Middleton, W. E. K. Climate and weather.

Government and administration. Population (Eskimos). Missions, schools and hospitals. Industries (fur and fur trade, whaling, mining).

Elton, C. Fluctuations in wild life. Anderson, R. M. Mammals. Eskimo dogs.

Taverner, P. A. Birds. Fish.

Anderson, R. M. Arctic flora.

Weeks, L. J. Geology.

Soper, J. D. Zoological collecting and research in arctic regions.

Brief notes respecting places on accompanying map. Bibliographical notes throughout. *Copy seen:* DLC.

1508. BETHUNE, WILLIAM CLARK, 1896- , and others. Canada's western northland; its history, resources, population and administration. Assembled by W. C. Bethune. Ottawa, King's Printer, 1937. 162 p. incl. illus., tables. 7 sketch maps. Issued by: Canada. Dept. of Mines and Resources. Lands, Parks and Forests Branch.

"Covers the mainland portion of the Northwest Territories and the more southwesterly islands of the arctic archipelago, in particular, Banks, Victoria, Prince of Wales and King William Islands."—Introd.

Contents: Bethune, W. C. Government and administration. Historical, present day, and missions, schools and hospitals.

MacDonald, C. S. Geography.

Bethune, W. C. Transportation and communication.

Connor, A. J. Climate and weather of the Arctic.

Population: JENNESS, D. Indians of the Northwest Territories and Yukon.

URQUHART, J. A. Present day Eskimos of the Canadian western Arctic.

Commerce and industry: Bethune, W. C. Fur trade and mining. Albright, W. D. Agriculture and horticulture.

Conservation of game: BETHUNE, W. C. Caribou, reindeer, musk-ox, reservations.

SOPER, J. D. Wood Buffalo Park.

ANDERSON, R. M. Mammals and birds.

BETHUNE, W. C. Fish.

PORSILD, A. E. Flora.

Canada. Dominion Forest Service. Forests.

ALCOCK, F. J. Geology and physiography.

Canada. Water and Power Bureau. Water powers.

The papers on population, conservation of game, mammals, birds, fish, flora and geology appear in this Bibliography under their respective authors' names.

Copy seen: DLC.

1509. BETHUNE, WILLIAM CLARK, 1896-. Conservation of game. Caribou, reindeer, musk-ox, and reservations. (In his, and others: Canada's western northland, 1937. p. 82-90, illus., sketch map)

Includes definitions of four game preserves, and a map showing range of the musk ox.

Copy seen: DLC.

1510. BETHUNE, WILLIAM CLARK, 1896-. Fish. (In his, and others: Canada's western northland, 1937. p. 123-29)

Compiled from published reports of other writers, notes on the occurrence, abundance, and distribution of sixteen fresh-water and two marine food fishes common to Northwest Territories, Yukon, and the Canadian Arctic Islands.

Copy seen: DLC.

1511. BETHUNE, WILLIAM CLARK, 1896-. 1933 Eastern Arctic Expedition. (Canadian surveyor, Oct. 1933. v. 4, no. 10, p. 9-12, illus.)

Report of work accomplished on the cruise of the *Nascope*, 1933, giving a

broad survey of the administration of the Canadian Eastern Arctic.

Copy seen: DLC.

1512. BETTS, H. W. Bird notes from Yukon Territory. (Murrelet, Jan.-Apr. 1940. v. 21, p. 11)

Observations of arrival of migrant birds, in May.

1513. BEURLING, PEHR JOHAN, 1800-1866. Caricum Scandinaviae conspectus, commentariis illustratus. (Botaniska notiser, 1853, no. 3, p. 33-38) Title tr.: Conspectus of Scandinavian Carices with comments.

Contains a list of one hundred twelve species of the genus *Carex*, with critical comments in the footnotes; includes *C. fuliginosa* var. *misandra*, *C. limosa* var. *agynostachys* and *C. ampullacea*, native to Swedish Lapland.

Copy seen: MH-A.

1514. BEURLING, PEHR JOHAN, 1800-1866. Conspectus Cyperacearum Scandinaviae. (Botaniska notiser, 1853, no. 4-5, p. 52-54) Title tr.: Conspectus of Scandinavian Cyperaceae.

Contains a list of thirty Scandinavian species of Cyperaceae or sedge family, with critical data in footnotes; includes some native to Swedish Lapland.

Copy seen: MH-A.

1515. BEURLING, PEHR JOHAN, 1800-1866. Conspectus Onagracearum Scandinaviae. (Botaniska notiser, 1853, no. 12, p. 184-86) Title tr.: Conspectus of Scandinavian Onagraceae.

Contains critical notes on thirteen species of the evening primrose family, Onagraceae, including *Epilobium hornemanni*, and *E. alpinum* (willow herbs) native to Lapland.

Copy seen: MH-A.

1516. BEURLING, PEHR JOHAN, 1800-1866. Graminearum Scandinaviae conspectus. (Botaniska notiser, 1856, no. 5-6, p. 65-73) Title tr.: Conspectus of Scandinavian Gramineae.

Contains a list of about one hundred thirty Scandinavian grasses (Gramineae) with critical comments in the footnotes; includes some native to Swedish and Russian Lapland.

Copy seen: MH-A.

1517. BEURLING, PEHR JOHAN, 1800-1866. Luzularum Scandinaviae conspectus. (Botaniska notiser, 1853, no. 4-5, p. 54-55) Title tr.: Conspectus of Scandinavian species of *Luzula*.

Contains a conspectus of Scandinavian species of *Luzula* (wood-rush) including *L. melanocarpa* from Torne Lappmark and *L. nivalis*, known also from Greenland, West Spitsbergen, Alaska and Labrador.

Copy seen: MH-A.

1518. BEURLING, PEHR JOHAN, 1800-1866. Species Scandinaviae generis *Thalictri* Linn. (Botaniska notiser, 1853, no. 4-5, p. 55-56) *Title tr.*: Scandinavian species of the genus *Thalictrum* Linn.

Contains a conspectus of nine Scandinavian species of the herbaceous genus *Thalictrum*, including *T. majus* native to Swedish Lapland, Unalaska and Kamchatka. Copy seen: MH-A.

1519. BEURLING, PEHR JOHAN, 1800-1866. De svenska arterna af *Sparganium* L. (Svenska vetenskapsakademien. Öfversigt af förhandlingar, 1852. Årg. 9, p. 191-93) *Title tr.*: Swedish species of *Sparganium* L.

Brief discussion of taxonomic relationships of five species of bur-reeds, of which one or two are native to Swedish Lapland. A criticism of this paper was written by J. Ångström, *Några anmärkningar* (etc.), 1853, q.v.

Copy seen: DLC.

1520. BEURLING, PEHR JOHAN, 1800-1866. Synopsis specierum scandinavicarum generis *Potamogeton* Linn. (Botaniska notiser, 1853, no. 6-7, p. 88-90) *Title tr.*: Synopsis of Scandinavian species of the genus *Potamogeton* Linn.

Contains a list of twenty-four Scandinavian species of the bur-reed genus *Potamogeton*, with critical matter in footnotes; includes *P. rufescens* and *P. salicifolius* from Kengis, Torne Lappmark.

1521. BEZOBRAZOV, VLADIMIR PAVLOVICH, 1828-1889. Graf Fedor Petrovich Litke. I. 1797-1832. Sankt-peterburg, 1888. lxx, 239 p. 3 ports. (Akademiia nauk SSSR. Zapiski. T. 57, suppl. 2)

Four prefatory studies of Count F. P. Litke, his archives, and his work, by Bezobrazov; followed by Litke's autobiography covering his life to 1832, when he was appointed tutor to Grand Duke Konstantin Nikolaevich and gave up active arctic exploration and scientific work. Litke's voyages to Kam-

chatka and his work in the Barents and White Seas are dealt with only briefly, on the ground that he had already published complete accounts (see his *Puteshestvie vokrug svieta*, 1834-36, *Chetyrekratnoe puteshestvie*, 1828, etc., as well as V. M. Golovnin's *Puteshestvie vokrug svieta*, 1822).

Appendices consist of laudatory speeches by O. N. Struve (reprinted from his *Ob uchenykh zaslugakh Grafa F. P. Litke*, 1883, q.v.) and F. F. Veselago, both giving only brief accounts of Litke's work; and texts of a letter and papers (some in French) by Litke.

1525. BĀLYNITSKII-BIRULĀ, ALEK-SEI ANDREEVICH, 1864-1937. Beiträge zur Kenntnis der Decapoden-Krebse der eurasiatischen Arctis. St.-Petersbourg, 1910. 2 p. l., 42, viii p. illus., plate. (Russkaiā poliārnaia ēkspeditīia, 1900-1903. Résultats scientifiques. Sect. E, vol. 2, livr. 1. *Pub.* as: Akademiā nauk SSSR. Mémoires. Sér. 8, classe physico-mathématique, vol. 29, no. 1) *Title tr.:* Contribution to knowledge of the decapod crustaceans of the Eurasian Arctic.

Contains a systematic list, with synonyms, references, localities, taxonomic and descriptive notes, of nine species of crabs and shrimps from the Barents, Kara and Laptev Seas, and the Arctic Basin north of the New Siberian Islands; with a station list showing positions, depths and bottom sediments.

Copy seen: DSI-M.

1526. BĀLYNITSKII-BIRULĀ, ALEK-SEI ANDREEVICH, 1864-1937. Materialy dlia biologii i zoogeografii preimushchestvenno russkikh morei. I. K faune meduz Solovetskago zaliva. (Akademiā nauk SSSR. Zoologicheskii muzei. Ezhegodnik, 1896. T. 1, p. 327-54) *Title tr.:* Materials on biology and zoogeography especially of Russian seas. I. The Medusae of Solovetskiy Gulf.

Based on collections made at the Solovetskiy Zoological Station (Solovetskiye Islands, White Sea) summers of 1895-96.

Contains discussion of arctic distribution of jellyfish species treated in the paper, a key to species and a systematic list, with synonyms, references and descriptions of seventeen species.

Copy seen: DLC.

1527. BĀLYNITSKII-BIRULĀ, ALEK-SEI ANDREEVICH, 1864-1937. Ocherki iz zhizni ptits poliārnaego poberezh'ia Sibiri. St.-Petersburg, 1907. [4], xxxvi, 157 p. illus., 8 plates. (Russkaiā poliārnaia ēkspeditīia, 1900-1903. Résultats scientifiques. Sect. E, vol. 1, livr. 2. *Pub.* as: Akademiā nauk SSSR. Mémoires. Sér. 8, classe physico-mathématique, vol. 18, no. 2) *Title tr.:* Sketches of bird life on the arctic coasts of Siberia.

Contains a short history of the Russian Polar Expedition under Baron Toll, a sketch of the physico-geographical characteristics of western Taymyr and the New Siberian Islands; the author's ornithological journal for 1900-02, and a systematic annotated list, with localities, of fifty-one species of birds frequenting these regions and adjacent waters. As the author's interest was largely ecological, he did not include in this list species casually observed. Synonyms in local Russian dialect, Yakut, and Tungus are often given.

1528. BĀLYNITSKII-BIRULĀ, ALEK-SEI ANDREEVICH, 1864-1937. Über die Seesäugetiere des Weissen Meeres. (Zoologischer Anzeiger, Juli 1934. Bd. 107, p. 10-22) *Title tr.:* On the marine mammals of the White Sea.

Contains notes on the biology of four species of whales, and mention of three additional species from Murman coastal waters which occasionally occur also in the White Sea; bibliography (15 items).

Copy seen: DSI-M.

1529. BĀLYNITSKII-BIRULĀ, ALEK-SEI ANDREEVICH, 1864-1937. Zoologische Ergebnisse der Russischen Expeditionen nach Spitzbergen. Crustacea-Decapoda. (Akademiā nauk SSSR. Zoologicheskii muzei. Ezhegodnik, 1906. T. 11, p. 1-68, illus., sketch map, tables) *Title tr.:* Zoological results of the Russian Expedition to Spitsbergen. Crustacea-Decapoda.

Based on collections made by the Russian Expedition for the Measurement of an Arc of Meridian, 1899-1901,

in Storfjord, Ice Fiord, and Horn Sound, also on some made by the *Ermak*, in waters north and west of West Spitsbergen, 1899. A classified, fully annotated list, with synonyms, references, localities, and arctic distribution, of the forty-eight species of crabs and shrimps known to occur in Svalbard waters and circumpolar seas.

1915. T. 15, vyp. 2, p. 206-257) *Title tr.*: Bibliography. Flowering plants and vascular cryptogams; geobotany and paleobotany.

Contains an alphabetic list of about one thousand botanical works of Russian and foreign authors, published in 1912-14, some concerning the arctic regions.

Copy seen: MH-A.

1536. BIBLIOGRAFIJA DAL'NEVOSTOCHNOGO KRAJA, 1890-1931. Otvetstvennaja redakcija: A. N. Asatkin, V. A. Samoilov. T. 1-2. Moskva, Vsesoiuznaja assotsiatsija s.-kh. bibliografii, 1935. 2 v.: 376, [1] p.; 414, [1] p. *Title tr.*: Bibliography of the Far-East region, 1890-1931. Editorial directors: A. N. Asatkin, V. A. Samoilov.

Contents tr.: Vol. 1. Physical geography. Vol. 2. Geology, mines and ores, paleontology.

A basic annotated bibliography of the Far East region, including the East Siberian, the Bering, and Okhotsk Seas, the eastern sections of the Yakut A.S.S.R., Kamchatka Province and Kamchatka Peninsula. Vol. 1 has 2106 items, and vol. 2, 1997 items listed chronologically according to subject; with indexes for authors, subjects and geographic names. *Copy seen*: DLC.

1537. BIDENKAP, OLAF. Die Bryozoen. I. Teil: Die Bryozoen von Spitzbergen und Kong-Karls-Land. (*In*: Fauna arctica, 1900. Bd. 1, p. 503-540, 2 plates) *Title tr.*: Bryozoa. Pt. 1. Bryozoa of Spitzbergen and King Charles Land.

Contains a systematic list (with synonymy, distribution, depths and station numbers from the German Expedition to the Arctic Ocean 1898) of one hundred thirty-two species reported to date from the waters traversed; list of stations, showing for each, the species collected and the type of bottom; tabular representation of vertical distribution, and a bibliography (8 items).

1540. BIDENKAP, OLAF. Foreløbig oversigt over de i arktiske Norge hidtil bemærkede Diptera Brachycera. (Tromsø, Norway. Museum. Årshefter, 1900, pub. 1901. Bd. 23, p. 13-112) *Title tr.*: Provisional summary of the Diptera Brachycera known to occur in arctic Norway.

Contains a classified list, with synonyms, arctic, and other distribution, of three hundred thirty-six species of flies, of which fourteen are new to Norway. *Copy seen*: DLC; DSI-M.

1541. BIDENKAP, OLAF. Fortegnelse over de arktiske bryozoaer. Bergen, J. Grieg, 1906. 79 p. incl. tables. (Bergen, Norway. Museum. Aarbok. 1905. No. 9) *Title tr.*: Catalog of arctic bryozoans.

Contains a classified list of two hundred twenty-three species, showing distribution and bibliographic references; a brief historical résumé of the literature, a bibliography (46 items) and a table of species showing occurrence in northern Norwegian waters, Barents Sea, Kola Peninsula waters, White Sea, Novaya Zemlya waters, Kara Sea, Svalbard, Franz Josef Land, Jan Mayen, Greenland, Canadian Arctic Islands, Alaskan, and Iceland waters and Labrador Sea.

Copy seen: DLC.

1542. BIDENKAP, OLAF. Tromsøundersøgte echinodermer. (Tromsø, Norway. Museum. Årshefter, 1897, *pub.* 1899. Bd. 20, p. 104-112) *Title tr.:* Echinoderms of Tromsø Sound.

Contains a classified and annotated list of twenty-five species, with tabular presentation of their vertical distribution.

Copy seen: DSI-M.

1543. BIDRAG TIL FINNERNES BYGDEHISTORIE OG ETNOGRAFI. Oslo, A. W. Brøgger, 1934-44. Bd. 1-bd. 2, 1. hefte. bd. 1: 340 p. illus. plates, diags., fold. sketch map; bd. 2, 1. hefte: 136 p. illus., diags., sketch maps (incl. 1 fold.) (Oslo. Universitet. Etnografisk museum. Nordnorske samlinger, 2, 6) *Title tr.:* Contributions to the local history and ethnography of the Lapps.

Contents include in bd. 1, hefte 2. (p. 51-159) Falkenberg, J. Bosetningen ved indre laksefiord i Finnmark optegnelser fra 1938. (Settlements at inner Laksefiord in Finnmark. Gathered in 1938.) Outlines the history of settlement in the inner Laksefiord area, and describes the modern settlements and the way of life of the people. Includes descriptions of Lappish and Norwegian house types, agriculture, and fishing.

Maps include four detail sketch maps showing location of individual dwellings of different types; and folding map, scale about 1:240,000, showing location of villages about the fiord.

Bd. 2, hefte 1: 1, (p. 1-99) Vorren, Ø. Dyregraver og reingjerder i varanger. (Animal pitfalls and reindeer fences in Varanger.) Describes the remains and methods of use of pitfalls and stone fences used in hunting in the Varanger area. Illustrations include thirteen sketch maps showing arrange-

ment and location of pits and fences.

1553. BILDSØE, JENS ARNOLD DIEDRICH JENSEN, 1849-1936. Astronomiske observationer, foretagne i en del af Holstensborgs og Egedesminde distrikter, og undersøgelser over vandets saltholdighed, af J. A. D. Jensen. 1879. (Meddelelser om Grønland, 1881. Bd. 2, p. 195-208 incl. tables) *Title tr.*: Astronomical observations made in the Holsteinsborg and Egedesminde Districts, and research on the salinity of the sea water.

Based on the work of the Expedition to Holsteinsborg and Egedesminde Districts, 1879. Geodetic observations and resultant coordinates for thirty-six places between 66°55'-68°30'N., and surface salinity (vertical measurements for interior of Nagsugtok Fjord), data for five fiords and three places along the coast.

Copy seen: DLC.

1554. BILDSØE, JENS ARNOLD DIEDRICH JENSEN, 1849-1936. Astronomiske og meteorologiske observationer tagne paa rejsen i Syd-Grønland 1878. (Meddelelser om Grønland, 1879. Bd. 1, p. 153-64, tables) *Title tr.*: As-

tronomical and meteorological observations taken during the expedition to South Greenland, 1878.

Contains tables of observations for geographic position of twenty places between 62°21'–64°19'N.; meteorological observations (including pressure, air temperature, wind and weather) two or three times daily, July 14–Aug. 6, from various coastal localities and on the inland ice. *Copy seen:* DLC.

1555. BILDSØE, JENS ARNOLD DIEDRICH JENSEN, 1849–1936. Beretning om en undersøgelse af Grønlands vestkyst (en del af Holstensborgs og Egedesminde distrikter) fra 66°55'–68°30'. (Meddelelser om Grønland, 1881. 2. hefte, p. 113–47, illus., col. fold. map) *Title tr.:* Report of an investigation of the west coast of Greenland 66°55'–68°30'N. (part of the Holstensborg and Egedesminde Districts)

Account of preparations in Holstensborg and the trip from there to Agto (68°N.); description of the physical geography and geology of the region; tables and discussion of geodetic research in Holstensborg and oceanographic observations in Nordre Strømfjord. Summary in French, p. 232. *Copy seen:* DLC.

1556. BILDSØE, JENS ARNOLD DIEDRICH JENSEN, 1849–1936. Indberetning om den af ham ledede expedition i 1878. (Meddelelser om Grønland, 1879. 1. hefte, p. 17–76, illus., 2 plates, fold. map) *Title tr.:* Report on the Expedition in 1878, led by the author.

Report of a reconnaissance and mapping of the west coast of Greenland from Tiningnertok, 62°15'N., to Ameralik Fiord, 64°15'N., with an excursion upon the inland ice and observations on physical geography, geology and archeology. Summary in French at end of volume. *Copy seen:* DLC.

1557. BILDSØE, JENS ARNOLD DIEDRICH JENSEN, 1849–1936. Om Grønland i forhold til æronautik. (Geografisk tidsskrift, København, 1929. Bd. 32, p. 4–14, illus., sketch map) *Title tr.:* Greenland in relation to aeronautics.

Account of Hassel and Cramer's projected flight from Canada over Greenland to Europe, in Aug. 1928, their forced landing on Greenland's west coast, difficulties connected with flying in Greenland and possibilities for the future. *Copy seen:* DLC.

1558. BILDSØE, JENS ARNOLD DIEDRICH JENSEN, 1849–1936. Undersøgelse af Grønlands vestkyst fra 64° til 67°N. B., 1884 og 1885. (Meddelelser om Grønland, 1889. 8. hefte, p. 33–121, illus., 4 plates, 3 fold. maps) *Title tr.:* Research on Greenland's west coast from 64° to 67°N., 1884–1885.

Based on the work of expeditions led by the author in 1884–85, to survey the coast between Holstensborg and Kangæk, including parts of Holstensborg and Godthaab Districts and the entire coast of Sukkertoppen District. Descriptions of the physical features, and the geology of the coastal strip, including mountains, glaciers, streams, the salt lake Tarajornitsok (with water analysis), and the fiords (the arid north shore of Søndre Strømfjord and the fertile south shore; temperature and salinity data for Sermilik, Angmagsivik, and Godthaab Fiords); account of observations on a nunatak, its vegetation fauna and rocks; discussion of the Norse ruins in the Godthaab Fiord region; and a list of over seventy geographic positions and altitudes. Summary in French at end of volume. *Copy seen:* DLC.

1559. BILDSØE, JENS ARNOLD DIEDRICH JENSEN, 1849–1936. Vandring paa den grønlandske indlandsis i aaret 1878. (Geografisk tidsskrift, København, 1879. Bd. 3, p. 100–107, 2 plates) *Title tr.:* Wandering on the inland ice during the year 1878.

Account of the author's sledge journey on the inland ice (62½°N.) from Frederikshaab Iceblink to the Jensen Nunataks (about 40 miles), during the Danish Expedition to South Greenland, 1878; with description of the inland ice. *Copy seen:* DLC.

1560. BILDSØE, JENS ARNOLD DIEDRICH JENSEN, 1849–1936. Vandring paa indlandsisen i Sydgrønland paa 62½°N. B.; foreløbig indberetning, afsendt fra Fiskernaesset den 9de august 1878. (Geografisk tidsskrift, København, 1878. Bd. 2, p. 174–81) *Title tr.:* The wandering on the inland ice 62½°N., preliminary report, sent from Fiskernaesset August 9, 1878.

Account of the author's sledge trip on the inland ice, July–Aug. 1878, during the Danish Expedition to Greenland; with description of the inland ice. *Copy seen:* DLC.

BILDSØE, JENS ARNOLD DIEDRICH JENSEN, 1849–1936, *see also* Steen-

strup, K. J. V., & others. Astronomiske observationer Julianehaab. 1881.

SANDFORD, K. S. Geology and glaciology.

TYMMS, F. Meteorology.

TYMMS, F. Aerial navigation.

RELF, E. Magnetic observations.

RELF, E. Wireless.

TYMMS, F. Aerial survey.

Each paper (except Binney's) appears in this Bibliography under its author's name. *Copy seen:* DLC.

1572. BINNEY, Sir GEORGE, 1900- . With seaplane and sledge in the Arctic. London, Hutchinson & Co. [1925] 287 p. front. 39 plates, ports., fold. map.

Narrative, by the leader, of the Oxford University Arctic Expedition's exploration of the icecap of Northeast Land, July-Aug., 1924; its experiment in the use of the seaplane in research, its topographic survey, the geologic, glaciologic, meteorologic, biologic, and geographic studies; the first crossing of Northeast Land. The author describes the "practical and human" side of the expedition, and gives (in appendices) information on the organization and management of expeditions. *Copy seen:* DLC; NNSf.

1573. BINNING, G. Indians of the Yukon. (Royal Canadian Mounted Police quarterly, July 1941. v. 9, p. 64-65)

General notes on present status of the Indians, by the Superintendent of Indian Affairs in Yukon Territory, 1934-38. *Copy seen:* CaOM.

1574. BIRCH, STEPHEN. Geology and mining methods of Kennecott mines. (American Institute of Mining and Metallurgical Engineers. Transactions, 1922-25, pub. 1925. v. 72, p. 499-510)

Description of the ore deposits and methods of the Kennecott Copper Corporation holdings in the Chitina mining district. *Copy seen:* DGS.

1575. BIRD, CHARLES GODFREY, 1913-1942. List of plants collected in 1934 in Jan Mayen Island. (Journal of botany, May 1935. v. 73, p. 121-24)

List, with localities, of thirty-five flowering plants, fifteen mosses, six lichens, eleven marine algae, and three fresh-water algae. *Copy seen:* DA.

1576. BIRD, CHARLES GODFREY, 1913-1942, and E. G. BIRD. The birds of Jan Mayen Island. (Ibis, Oct. 1935. Ser. 13, v. 5, p. 837-55, plate)

Contains annotated list of sixty species, result of a visit, July 8-Aug. 28, 1934. *Copy seen:* DSI-M.

1577. BIRD, CHARLES GODFREY, 1913-1942, and E. G. BIRD. The birds of north-east Greenland. (Ibis, Jan. 1941. Ser. 14, v. 5, p. 118-61, 3 plates, sketch map)

Detailed notes on fifty-eight species of birds based on observations and collections made Aug. 1936-Aug. 1938, along the east coast of Greenland from 71°30'N. northward to Peary Land, especially in the Mackenzie Bay region (Myggbukta) and on Hochstetter Foreland, with a bibliography (12 items). *Copy seen:* DSI-M.

1578. BIRD, CHARLES GODFREY, 1913-1942, and E. G. BIRD. The management of sledge dogs. (Polar record, Jan. 1939. No. 18, p. 180-88)

From thirty months' continuous driving experience with Norwegians, the authors take issue with some of the Greenlanders' and Danes' methods of handling dogs. They discuss the training of dogs, problems of dog fighting, and lead-dog, and give notes on harness. A. R. Glen and G. C. L. Bertram add comments in defense of the English drivers criticized by the Birds. *Copy seen:* DLC.

1579. BIRD, CHARLES GODFREY, 1913-1942, and E. G. BIRD. Some remarks on non-breeding in the Arctic, especially in north-east Greenland. (Ibis. Oct. 1940. Ser. 14, v. 4, p. 671-78)

Discussion of different factors in non-breeding of migratory and non-migratory birds, and the relation of breeding to numbers of lemmings, snow-cover, weather conditions, and light factors.

Copy seen: DSI-M.

1580. BIRD, EDWARD GODFREY. Jan Mayen Island. (Geographical journal, June 1935. v. 85, p. 553-57, 2 plates)

Results of a summer visit in 1934, during which the author did natural history work. Brief notes on skeletal remains of whales, collections of birds and plants, the scarcity of water supply, and (in more detail) corrections to the British Admiralty's map of Jan Mayen, including eight changes of place names.

1589. BIRKELAND, BERNT JOHANES, 1879-. Ältere meteorologische Beobachtungen in Vardö. Oslo, Cammermeyer, 1934. 52 p. incl. tables. (Geofysiske publikasjoner. v. 10, no. 9) *Title tr.:* Older meteorological observations from Vardö.

Through the efforts of a number of people in Vardö (70°22'N. 31°08'E.) records of temperature and atmospheric pressure have been kept since 1829 with some interruptions and varying instrumentation, after 1867 observations being made about three times daily, by the Norwegian Meteorological Institute station.

This paper notes the observations, observers, instruments and circumstances during each period; shows monthly means and extremes resulting from each group of observations, including mention of those from Hammerfest,

1839-87, Varanger, 1851-59, Lebesby, 1858-64, and Alten, 1871-1930. Includes full discussion and tabular presentation (27 p.) of the Vardö results, including deviation from the daily mean; monthly means of five, twenty-five, and one hundred-year periods; monthly extremes and deviations.

A statistical work which provides voluminous tabulations of average and extreme values of air temperature and frost data for the network of climatological stations in Norway, West Spitsbergen, Jan Mayen, Bear Island, and two stations on the coast of Greenland. The annual, monthly and diurnal courses, ranges, and variabilities of the temperature, differences between normal values based on both long period and short periods, are the more important of the many aspects of this work. Methods of compiling the observational materials are discussed.

Account of the difficulties encountered by the North Pacific Sea Products Co., which operated in Aleutian waters beginning in 1913; description of the whales and the industry of whaling, with notes on the islands and native Aleuts. *Copy seen:* DLC; NNS Stef.

1594. BIRKELAND, KRISTIAN, 1867-1917. Expédition norvégienne de 1899-1900 pour l'étude des aurores boréales. Résultat des recherches magnétiques. Christiania, J. Dybwad, 1901. 2 p. l., 80 p., 1 l. 12 plates (8 fold.) port. (Norske videnskaps-akademi, Oslo. Skrifter. I. Matematisk-naturvidenskabelig klasse, 1901. No. 1) *Title tr.:* Norwegian Aurora Expedition, 1899-1900. Results of magnetic research.

Results of the second of a series of three expeditions, organized and led by the author, and financed by the Norwegian government, the University and Scientific Society in Christiania (now Oslo) and private persons. The first expedition in 1897 had no result, the third in 1902-03 had results published as Birkeland's *Norwegian Aurora Polar Expedition*, q.v. All three expeditions had as objective the investigation of the aurora borealis and magnetic disturbances in the polar regions. The Norwegian government built two small observatories near Bossekop on Mt. Haldde (69°57'N. 22°48'E.) at 1000 meters above sea level. There the author directed the second, four-man, expedition, which made the atmospheric elec-

tricity, magnetic, meteorologic and auroral observations in 1899-1900.

Contents tr.: 1. Small magnetic variations simultaneously at Bossekop and Potsdam. Magnetic waves.

2. Electric currents in the upper layers of the atmosphere.

Appendix: Aurora borealis. On the formation of upper clouds.

Copy seen: DLC.

1595. BIRKELAND, KRISTIAN, 1867-1917. The Norwegian Aurora Polaris Expedition, 1902-1903. Vol. 1. On the cause of magnetic storms and the origin of terrestrial magnetism. Christiania [etc.] H. Aschehoug & Co. [1908-1913] vi p., 1 l., 801 p. illus., 42 plates (part fold., part double face) tables, diagrs.

Results of the third of a series of expeditions organized and led by the author 1897-1903.

Contents include: Introduction. (Description of the first and second expeditions; and of the auroral stations at Kaafjord in Finmarken, Dyraffjord in Iceland, those in West Spitsbergen and Novaya Zemlya during the third expedition, 1902-03).

Pt. 1. Magnetic storms, 1902-1903. Investigations by means of diurnal registrations from 25 observatories. Chap. 1. Preliminary remarks. Chap. 2. Elementary perturbations. Chap. 3. Compound perturbations. Chap. 4. Concerning the intensity of the corpuscular precipitation in the arctic regions of the earth.

Pt. 2. Polar magnetic phenomena and terrella experiments. Chap. 1. Polar magnetic storms 1882-1883. Chap. 2. Mathematical investigations. Chap. 3. Statistical treatment of magnetic disturbances observed at the Norwegian stations 1902-1903.

Pt. 3. Earth currents and earth magnetism. *Copy seen:* DLC.

1596. BIRKELAND, KRISTIAN, 1867-1917. On a possible crucial test of the theories of auroral curtains and polar magnetic storms. Kristiania, J. Dybwad, 1915. 6 p. (Norske videnskaps-akademi, Oslo. Skrifter. I. Matematisk-naturvidenskabelig klasse, 1915. No. 6)

1600. BIRKENGOF, A. L. Iz nablūdeniĭ nad lesnym pokrovom i vechnoi merzlotoi. (Akademiĭa nauk. Komissiiā po izucheniiū vechnoi merzloty. Trudy, 1934. T. 3, p. 41-57) *Title tr.*: Some observations on the forest cover and permafrost.

Contains results of observations on the forest (which occupies about eighty per cent of the Indigirka basin) and its interrelation with permafrost. Distribution of the larch, *Larix dawrica*, effect of cutting forests on the lowering of the upper horizon of permafrost, super saturation of the ground and appearance of thick moss cover is indicated. Causes for dying-out of tree tops and for tree trunk deformation are analyzed. Occurrence of numerous lakes is attributed to the thawing of subterranean ice in treeless spots, devoid of former shading protection.

Copy seen: DLC.

1601. BIRKENGOF, A. L. Lesa tšentral'noi chasti poluostrova Kamchatki. Moskva, Izd-vo Akademii nauk, 1938. 220 p., illus., sketch maps, tables, diagrs. (incl. fold). (Akademiĭa nauk SSSR. Sovet po izucheniiū proizvoditel'nykh sil. [Trudy]. Seriiā kamchatskaĭa, vyp. 6) *Title tr.*: The forests of the central section of Kamchatka Peninsula.

Basic work. Gives summary of previously published literature and unpublished manuscripts on Kamchatka forests, and results of the author's participation in the Kamchatka Complex Expedition in 1935. Contains an historical sketch of explorations of forests in the region, p. 13-35; list of trees and bushes growing on Kamchatka Peninsula, p. 36-49; characteristics of forests (their geographical distribution, classification, regularity in spreading, relation between various forest groups, the growing process); dimensions of sample trees; results of analysis of trunk growth of larch, spruce and birch (*Betula ermani*) p. 50-137; natural regeneration and history of formation of forests, p. 138-47; review of wood resources, p. 148-65; characterization of forestry and the timber industry, p. 165-85; need for further investigation of wood resources and improvement of methods of exploitation in relation to fishing, agriculture, and other industrial needs; transportation facilities in Kamchatka, p. 186-89. Bibliography (83 items).

Appendices (p. 195-220): 1. Outline of the course of growth the larch *Larix dahurica*.

2. Physical and mechanical properties of the wood of larch (*L. dahurica* Turcz.) and spruce (*Picea jezoënsis* Sieb. et Zucc.)

3. Results of analyses of the rind of bast fiber (*Salix sachalinensis*).

1605. BIRKET-SMITH, KAJ, 1893- . Blandt eskimoer og indianere i Alaska. (Grønlandske selskab. Aarsskrift, 1933-34. p. 112-30, illus.) *Title tr.:* Among Eskimos and Indians in Alaska.

Contains a brief summary of investigations of the Eskimos in Greenland and North America; notes archeological and ethnological accomplishments by the Danish-American expedition to Alaska, 1933. Includes selections of Eskimo folklore.

Copy seen: NN.

1606. BIRKET-SMITH, KAJ, 1893- . The Caribou Eskimos, material and social life and their cultural position. Copenhagen, Gyldendal, 1929. 2 pt. pt. 1: 310 p., illus., fold. map, tables. pt. 2: 419, [2] p. (Thule Expedition, 5th, 1921-24. Report, v. 5)

"Caribou Eskimos is the name which the Fifth Thule Expedition has attached to a group of Eskimo tribes in the southern part of the extensive Barren Grounds west of Hudson Bay." —Introd.

Pt. 2 was issued also as the author's Ph.D. thesis, University of Copenhagen, with the title: *The Caribou Eskimos, their cultural position.*

Contents: Pt. 1. Descriptive part: geographical surroundings, habitation, economic life, communication, clothing and ornament, manufactures and art, social life.

Pt. 2. Analytical part: coast and inland population; cultural position of Caribou Eskimo among Eskimos, among polar peoples; origin and development of Eskimo culture; tables showing (a) distribution of culture elements within

Eskimo culture, including Chukchi and Koryak, (b) distribution of culture elements in Indians of North America and northern Eurasia; bibliography, p. 383-416.

Criticism of the author's views on origin and development of Eskimo culture was published by T. Mathiassen: *Spørgsmaalet eskimo-kulturens oprindelse*, 1929, q.v., also *The question of the origin of Eskimo culture*, 1930, q.v.

1612. BIRKET-SMITH, KAJ, 1893- . Ethnographical collections from the Northwest Passage. Copenhagen, Gylendal, 1945. 298 p. 189 figs. (Thule Expedition. 5th, 1921-1924. Report, v. 6, no. 2)

Based on collections in the National Museum of Copenhagen, brought back mainly by the Fifth Thule Expedition 1921-24, with some specimens from the *Gjøa* Expedition 1903-1906, and others. The collections were made among groups of Netsilik and Copper Eskimos along the northern coast of Canada and on adjacent islands especially King William and the southern parts of Victoria Island, in roughly the region 87°-118°N. 66°-72°W., altogether providing "an almost complete picture of the material culture of the people along the Northwest Passage."

Contains introductory survey (p. 9-22) of (1) the natural resources of the region in relation to distribution and material culture of its natives; (2) studies and (3) collections by earlier explorers. Detailed descriptions and illustrations of specimens of clothing, hunting implements, sledges, kayaks, etc., dwellings and furnishings, tools, and "objects appertaining to social life and

religion" (games, toys, drums and masks, amulets, etc.) from Netsilik (p. 22-140) and Copper (p. 141-217) Eskimos. Includes discussion (p. 218-86) of the cultural position of these groups based on the foregoing data with remarks on Thule culture and immigration of Eskimos into Greenland. Bibliography (159 items).

Copy seen: DSI-M.

1613. BIRKET-SMITH, KAJ, 1893- . Ethnography of the Egedesminde District, with aspects of the general culture of West Greenland. København, B. Lunos bogtrykkeri, 1924. 5 p. l., 484 p. 300 illus., fold. map. (Meddelelser om Grønland, Bd. 66)

Results of observations and collections made by the author among the Eskimos of the Egedesminde District, July-Aug. 1918, (under auspices of the Committee for carrying on Geological and Geographical Investigations in Greenland) and on various other observations.

Contents: 1. The country and its inhabitants. 2. Finds from dwelling houses and graves. 3. Industries and arts. 4. Habitation, clothing. 5. Communication. 6. Struggle for existence. 7. Manners and customs. 8. Old-fashioned views of life; bibliography, p. 460-73.

1640. BIRKET-SMITH, KAJ, 1893- . Vitus Bering og hans rejser. (Geografisk tidsskrift, Kjøbenhavn, 1928. Bd. 31, p. 131-38) *Title tr.*: Vitus Bering and his voyages.

Brief biographical sketch of Bering and account of his participation in the Russian exploratory arctic expeditions from 1725 till his death in 1741.

Copy seen: DLC.

1641. BIRKET-SMITH, KAJ, 1893- , and FREDERICA DE LAGUNA. The Eyak Indians of the Copper River delta, Alaska. København, Levin & Munksgaard, E. Munksgaard, 1938. 591, [1] p., 1 l. illus., 18 plates (incl. maps) on 9 l., fold. geneal. tab.

Results of an archeological and ethnological expedition to Prince William Sound in the summer of 1933, sponsored by the Danish National Museum (represented by Dr. Birket-Smith) and by the University of Pennsylvania Museum (represented by Dr. De Laguna). In addition to field interviews and observations, the authors used unpublished data from W. R. Abercrombie, and detailed data from published sources.

Contains: Introduction (p. 7-14) with remarks on background of the study and informants;

Part 1 (p. 17-242). Description of Eyak ethnology, including detailed data on material, social, and intellectual culture (village sites, use of dogs, hunting, potlatch, shamanism, etc.)

Part 2 (p. 242-323). Eyak folklore, including texts (in English) of legends and myths;

Part 3 (p. 327-61). Critical analysis of previous writers on the Eyaks, particularly in regard to confusion concerning Eyak identity, nomenclature, and distribution;

Part 4 (p. 367-533). Analysis of Eyak ethnology, particularly an analysis of the distribution in northwestern North America and northeastern Asia of individual culture traits similar to those of the Eyak, and including a summary of indicated cultural affiliations and culture stages in relation to neighboring Tlingit, Eskimo, and Athapaskan cultures;

Appendix 1 (folding inset). Genealogical table of Eyak informants.

Appendix 2 (p. 535-71). Eyak vocabulary, including notes on grammar.

Bibliography, p. 573-91.

Plates include pictures of people, landscapes, and artifacts.

Maps: (1) Alaska, showing location of Eyak territory; (2) territory known to Eyaks, scale about 1:200,000; (3) territory inhabited by Eyaks, scale about 1:650,000.

Copy seen: DSI-E; PU.

1681. BLACK, ROBERT FOSTER, 1918- , and W. L. BARKSDALE. Oriented lakes of northern Alaska. (Journal of geology, Mar. 1949. v. 57, p. 105-118, 6 plates, fold. map, diagrs.)

The lakes occur in the arctic coastal plain province of Alaska; have an average range of orientation of 12° (from N. 9°W to N. 21°W.) and are believed to be in part the result of thawing of permafrost, the origin of some not being known. The authors note briefly characteristics of the topography, drainage, vegetation, climate, geology, and permafrost of the area; give description (in more detail) of the distribution, concentration, size, shape, depth, and shore features of

the lakes; mention of former lake basins; remarks on the effect of wind, vegetation and permafrost on the lakes, and a comparison of these with similar lakes elsewhere in the world. Bibliography (10 items).

1694. BLAKE, EUPHEMIA (VALE), 1817-1904, editor. Arctic experiences: containing Capt. George E. Tyson's wonderful drift on the ice-floe, a history of the *Polaris* Expedition, the cruise of the *Tigress*, and rescue of the *Polaris* survivors. To which is added a general arctic chronology. New York, Harper & Brothers, 1874. 486 p. incl. front., illus., plates, map.

A narrative, designed to "present in popular form the entire history of the *Polaris* Exploring Expedition" to northwest Greenland; based on notes, etc., made by Captain Tyson, a member of the expedition, and of its ice-floe party, which drifted southward from Smith Sound till rescued, off the Labrador coast by the ship *Tigress*.

Appendix contains text of some of the documents issued in connection with the expedition. *Copy seen:* DLC.

1695. BLAKE, THEODORE A. General topographical and geological features of the northwestern coast of America, from the Straits of Juan de Fuca to the parallel of sixty degrees north latitude. (*In:* Davidson, George, and others. Report relative to the resources and the coast features of Alaska Territory. U. S. Coast and Geodetic Survey. Annual report, 1867, *pub.* 1869. Appendix no. 18, p. 281-90)

Includes general remarks on Sitka and the adjoining islands (Alexander Archipelago) Kodiak Island, Unalaska Island and the ascent of Makushin Volcano, known fossiliferous localities of Alaska, mineral resources, volcanoes and glaciers. *Copy seen:* DLC.

1696. BLAKE, THEODORE A. Topographical and geological features of the northwest coast of America. (*American journal of science*, Mar. 1868. Ser. 2, v. 45, p. 242-47)

Includes descriptive remarks on the mountains, glaciers, etc. in the vicinity of Sitka, and the islands of Unalaska and Unimak. *Copy seen:* DLC.

1697. BLAKE, WILLIAM PHIPPS, 1826-1910. The glaciers of Alaska, Russian America. (*American journal of science*, July 1867. Ser. 2, v. 44, p. 96-101, illus.)

Based on the author's observations made while a guest of the Russian corvette *Rynda*, on a reconnaissance of the Stikine River, southeastern Alaska, 1863. *Copy seen:* DLC.

BLAKISTON, Lt., see Sabine, Sir E. Remarks upon magnetic observations. York Fort. 1858.

1698. BLANCHARD, RAOUL, 1877- Notes sur les côtes de Colombie Britannique et d'Alaska. (*Revue de géographie alpine*, 1933. T. 21, p. 271-87, 3 plates, sketch map) *Title tr.:*

Notes on the coasts of British Columbia and Alaska.

Contains descriptive notes on the physical features, climate, vegetation, agriculture, forestry, fisheries and mines of southeastern Alaska, as far north as Skagway. *Copy seen:* DLC.

1699. BLANCHET, GUY HOUGHTON, 1884- "Barren Lands" geography. (*Canadian surveyor*, Jan. 1925. v. 1, no. 11, p. 4-7, illus., sketch map)

Description of the revisions accomplished by the Canadian Topographical Survey, 1924, in the lake country north and east of Great Slave Lake.

Copy seen: DLC.

1700. BLANCHET, GUY HOUGHTON, 1884- The caribou of the Barren Grounds. (*Beaver*, Sept. 1936. Outfit 267, no. 2, p. 22-25, 66, illus.)

Account for the general reader, of the Indians' and the Eskimos' hunting and use of the caribou, with remarks on its migrations and habits.

Copy seen: DSI-M.

1701. BLANCHET, GUY HOUGHTON, 1884- Conquering the northern arctic. (*Beaver*, Mar. 1939. Outfit 269, no. 4, p. 11-14, illus.)

History (in brief) of the commercial impetus to the development of flying in the Canadian Arctic, with casual mention of flights, and with remarks on difficulties of flying conditions.

Copy seen: DSI-M.

1702. BLANCHET, GUY HOUGHTON, 1884- An exploration into the northern plains north and east of Great Slave Lake, including the source of the Coppermine River. (*Canadian field naturalist*, 1924-25. v. 38, p. 183-87; v. 39, p. 12-16, 30-34, 52-54, illus., map)

Results of observations made during a Canadian Topographical Survey exploration, 1924. Description of the "Pike's portage route" into the Barren Grounds from Great Slave Lake, the interior waterways of the Artillery, Ptarmigan (Casba), Clinton-Colden, Aylmer, and MacKay Lakes system; notes on geology, topography, soil, vegetation, climate, animals, and birds (thirty-nine); with remarks (and map) on the changes made on the map of the area during the course of this survey. *Copy seen:* DLC.

1703. BLANCHET, GUY HOUGHTON, 1884- . In the land of the muskox. (Canadian geographical journal, June 1934. v. 8, p. 248-58, illus., sketch map)

Description of the Barren Grounds and game conservation within Thelon Game Sanctuary; remarks on the musk ox, its habits, present-day distribution and numbers. **Copy seen:** DLC.

1704. BLANCHET, GUY HOUGHTON, 1884- . New light on forgotten trails in the far Northwest. (Canadian field naturalist, Apr.-May 1926. v. 40, p. 69-75, 96-99, incl. 2 sketch maps)

Description of the country between Athabaska and Great Slave Lakes, represented on an old Indian map given to Dr. Richard King (of George Back's 1833-35 expedition); an account of exploration and mapping of this region by the Canadian Topographical Survey in 1925, with reproductions of the old and new maps; extracts from the author's journal on Nonachoh Lake, Eileen Lake and the Taltson River country. **Copy seen:** DLC.

1705. BLANCHET, GUY HOUGHTON, 1884- . Northern Canada—a heritage. (Canadian surveyor, Jan. 1931. v. 3, no. 11, p. 6-8)

General review of 20th century developments in opening up the Northwest Territories. **Copy seen:** DLC.

1706. BLANCHET, GUY HOUGHTON, 1884- . Searching the Arctic by aeroplane. (Canadian geographical journal, Dec. 1930. v. 1, p. 641-62, illus., map)

In Sept. 1929, Col. MacAlpine, president of Dominion Explorers, and a party of seven other men attempted an aerial inspection trip from Churchill to Bathurst Inlet. This paper is an account of the search undertaken by four planes, when the party was lost in the Dease Pt. region. It contains a narrative of the search party's flights from Lake Athabaska via Dubawnt and Pelly Lakes to Baker Lake, and return to Pelly Lake, and further flights to Dease Pt. and Bathurst Inlet. Includes descriptions of flying conditions, landing problems, and camping conditions in the Barren Grounds, both before and after snow and ice set in. **Copy seen:** DLC.

the west shore of Davis Strait in 1883
and 1884. (American Geographical Soci-
ety. Journal, 1884. v. 16, p. 242-72,
fold. map)

Contains a résumé of previous ex-
plorations in the Baffin Island region,
and account of Boas's sojourn among
the Eskimos there, also his trips for
geographical and ethnological observa-
tions. The geographical results were
published as his *Baffin-Land*, 1885,
q.v., and the ethnological results as his
The Central Eskimo, 1888, q.v.

Map shows the Cumberland Sound
and the Davis Strait coast of Baffin Is-
land as surveyed by Boas, with Eskimo
place names.

1742. BOAS, FRANZ, 1858-1942. Notes
on the Eskimo of Port Clarence, Alaska.
(Journal of American folk-lore, 1894.
v. 7, p. 205-208)

Some myths and angakok (or sham-
an's) words (collected from West
Alaska Eskimos passing through Chi-
cago) compared with those of the
Greenland Eskimos.

Copy seen: DLC.

1743. BOAS, FRANZ, 1858-1942. Prim-
itive art. Oslo, H. Aschehoug & Co.;
Cambridge, Mass., Harvard University
Press, 1927. 2 p. l., 376 p. illus. (incl.
music) 15 plates. (Instituttet for sam-
menlignende kulturforskning. [Publika-
tioner] ser. B: Skrifter, 13)

Includes a chapter, *Art of the North
Pacific Coast of North America* (p.
183-298, 158 illus., 6 plates), describing
and characterizing the decorative art
of the Tlingits and other tribes: the
men's wood carving and painting, and
the women's weaving, basketry, and

embroidery, also Alaskan Eskimo
needle cases. This chapter is a revision
of Boas' essay *The decorative art of
the Indians of the North Pacific Coast
of America*, 1897, q.v.

1744. BOAS, FRANZ, 1858-1942. Prop-
erty marks of Alaskan Eskimo. (Amer-
ican anthropologist, 1899, new ser. v.
1, p. 601-613, illus.)

Hunting implements of North and
West Alaska Eskimos.

Copy seen: DLC.

1745. BOAS, FRANZ, 1858-1942. Reise
im Baffinlande 1883 und 1884. (Gesell-
schaft für Erdkunde zu Berlin. Ver-
handlungen, 1885. Bd. 12, p. 288-97,
fold. map)

A summary account of the au-
thor's travels in Baffin Island, 1883-84.
Map: Cumberland Sound and the Davis
Strait coast of Baffin Island according
to Boas' survey, with Eskimo place
names.

Copy seen: DLC.

1746. BOAS, FRANZ, 1858-1942. Re-
lationships between north-west Amer-
ica and north-east Asia. (In: Jenness,
D. ed. The American aborigines, their
origin and antiquity; a collection of
papers . . . for presentation at the fifth
Pacific Science Congress, Canada, 1933,
pub. 1933, p. 355-70)

Discussion of relation of the Amer-
ican race to Old World races; circum-
polar culture traits; languages of
Siberia and America.

Copy seen: DLC.

1747. BOAS, FRANZ, 1858-1942. The
relationships of the Eskimos of East
Greenland. (Science, Oct. 15, 1909. new
ser. v. 30, no. 772, p. 535-36)

Discusses similarity of implements
from northeast Greenland, Ellesmere
Island, northern Baffin Island and the
northwestern part of Hudson Bay,
which is interpreted as indicating that
the line of Eskimo migration followed
the shores of Ellesmere Island, the
north coast of Greenland and then
southward along its east coast.

1761. BOBÉ, LOUIS THEODOR ALFRED, 1867-. Anders Olsen og hans slægt ved Igaliko. (Grønlandske selskab. Aarskrift, 1914. p. 100-12, illus.) *Title tr.:* Anders Olsen and his relatives at Igaliko.

Biography of the founder of Fiskenesset, Old Sukkertoppen (Kangamiut) and Julianehaab; his services in the interest of the Greenland Trade, cattle raising, whaling, etc.; places named for him; his exploration trip in south Greenland in 1783; his descendants and their services to Greenland, etc.

Copy seen: NN.

1762. BOBÉ, LOUIS THEODOR ALFRED, 1867-. Early exploration of Greenland. (*In:* Greenland. Copenhagen, 1928. v. 1, p. 1-35)

Account of expeditions from 1472-73 till the time of Giesecke's mineralogical researches ending 1812-13.

Copy seen: DLC.

1763. BOBÉ, LOUIS THEODOR ALFRED, 1867-. Godthaab. 1728-1928. (Grønlandske selskab. Aarskrift, 1927-28. p. 5-28, illus.) *Title tr.:* Godthaab, 1728-1928.

Describes official dedication of the Godthaab colony, 1728; régime of Gov. Paars; history and development, with data on Danish and German missions, epidemics, officials and officers, geography, fortification, trade, whaling, sealing, education, churches, seminaries, war years 1807-14, famine 1853-54, traditions, books about Godthaab, outstanding personalities, etc.

Copy seen: NNStef.

1764. BOBÉ, LOUIS THEODOR ALFRED, 1867-. Greve Edmund Bourke, ophavsmanden til Grønlands bevarelse for Danmark ved Kielerfreden 1814. (Grønlandske selskab. Aarskrift, 1918. p. 3-5, illus.) *Title tr.:* Count Edmund Bourke, author of proposal to preserve Greenland for Denmark through the Treaty of Kiel, 1814.

Notes correspondence on subject between Baron af Wetterstedt, Sweden's representative at the peace conference, and the Swedish Foreign Minister, von Engeström, quoting Bourke with a brief sketch of his life (1761-1821) and diplomatic career.

Copy seen: NN.

1765. BOBÉ, LOUIS THEODOR ALFRED, 1867-. Grønlaendere i Danmark. (Grønlandske selskab. Aarskrift, 1926-27. p. 5-28, illus.) *Title tr.:* Greenlanders in Denmark.

Notes first view of Eskimos in Denmark, 1605; later visits, forced and voluntary; Eskimos sent to Copenhagen to study for the ministry; the erection of the Greenlanders' Home (1879) to house Eskimos learning trades in Denmark.

Copy seen: NN.

1766. BOBÉ, LOUIS THEODOR ALFRED, 1867-. Grønlands genopdagelse og James Halls rejser. (Grønlandske selskab. Aarskrift, 1916. p. 71-92, illus. maps) *Title tr.:* The re-discovery of Greenland and James Hall's voyages.

Describes James Hall's four voyages to Greenland 1605-1612; exploration of West Greenland as far north as 68°-35'N; sighting of Labrador; discovery of Queen Anne's Cape (Kingatsiak), Queen Sophie's Cape (Kangarsuk) at 67°4'N., Mt. Cunningham (Kakatsiak) at 66°35'N., and King Christian Fjord (Itiudlek) at 66°33'N. etc.; geographical and ethnological remarks together with four sketch maps of West Greenland from Kingatsiak (66°10'N.) to Sark'ardlek (68°35'N.), of Grampus Road and the Harbour of Hope, also sketches of promontories and mountains.

Copy seen: NN.

1767. BOBÉ, LOUIS THEODOR ALFRED, 1867- . Grønlands guvernør Claus Enevold Paars og kolonien Godthaabs grundlaeggelse. (Grønlandske selskab. Aarsskrift, 1922-23. p. 38-49) *Title tr.:* Greenland's governor, Claus Enevold Paars and the foundation of the colony of Godthaab.

Hans Egede's struggles during early years of his missionary and colonization project in West Greenland. Gov. Paars at Godthaab 1728-31, building of fort on Nipisat Island and other activities; his place in Greenland history.

Copy seen: NNStef.

1768. BOBÉ, LOUIS THEODOR ALFRED, 1867- . Grønlands vaaben. (Grønlandske selskab. Aarsskrift, 1918. p. 1-2, plate) *Title tr.:* The coat of arms of Greenland.

Notes Holberg's comments on its existence during the reign of Frederik III; discusses origin and various designs.

Copy seen: NN.

1769. BOBÉ, LOUIS THEODOR ALFRED, 1867- . Den grønlandske handels og kolonisations historie indtil 1870; indledning nr. 2 til Diplomatarium groenlandicum 1492-1814. København, C. A. Reitzel, 1936. 152 p. 6 plates. (Meddelelser om Grønland. Bd. 55, nr. 2) *Title tr.:* The history of Greenland trade and colonization until 1870; introduction no. 2 to Diplomatarium groenlandicum.

Contents tr.: 1. Whaling and trading expeditions until the landing of Hans Egede. 2. The Bergen Trading Company, 1721-26. 3. Royal trade in Greenland, 1727-33. 4. Monopoly trade under Jakob Severin, 1734-50. 5. The General Trading Company, 1750-75. 6.

Trade under the state, 1774-1856. 7. "The Greenland Trade Place" (headquarters in Copenhagen of the Greenland trading companies). 8. Directors of the Royal Greenland Trade 1775-1882. 9. The royal inspectors; bibliographical notes, p. 120-32.

Copy seen: DLC.

1770. BOBÉ, LOUIS THEODOR ALFRED, 1867- . Hans Egede, Grønlands missionær og kolonisateur. København, C. A. Reitzel, 1944. x, 344 p., 1 l. incl. 54 illus. (incl. facsim.) port. maps (part fold.) (Meddelelser om Grønland. Bd. 129, nr. 1) *Title tr.:* Hans Egede, missionary and colonizer of Greenland.

Contains a brief genealogy of the Egede family, the history of Hans Egede's childhood, his youth and early years as a clergyman in northern Norway, his arrival and years in Greenland; his work as a missionary, and other achievements; Governor Paars' residence in Greenland; the founding of Godthaab; other colonies, and fortifications; the recall of the governor and the military; the abandonment and resurrection of the Greenland colony and the trade, through Jacob Severin; the Jochimsson expedition; the smallpox epidemic; Greenlanders in Denmark; Egede's return to Denmark; his first years in Copenhagen and literary activity; his direction of the Greenland mission; his last years and death.

1796. BÖCHER, TYGE WITTRÖCK, 1909- . Biological distributional types in the flora of Greenland; a study on the flora and plant-geography of south Greenland and Eastgreenland between Cape Farewell and Scoresby Sound. København, C. A. Reitzel, 1938. 339 p., 1 l., 147 illus. (incl. maps) 2 plates. (Meddelelser om Grønland. Bd. 106, nr. 2) Issued also as a doctoral dissertation, Copenhagen University, 1938. Results of the 6th and 7th Thule Expeditions to southeast Greenland, 1931-33.

Description of the three hundred ninety-one vascular plant species collected by the 7th Thule Expedition, 1933, with consideration of the taxonomic, cytogenic, floristic and ecological factors relating to the plants; bibliography (329 items). Summary in Danish. *Copy seen:* DGS; DSI-M.

1797. BÖCHER, TYGE WITTRÖCK, 1909- . The Botanical Expedition to West Greenland 1946; introduction with a short mention of the vegetation areas examined. København, C. A. Reitzel, 1949. 27, [1] p. illus. (incl. sketch map) Meddelelser om Grønland. Bd. 147, nr. 1)

Account of the expedition supported by the Carlsberg Foundation, its purpose and activity; description of the locality behind Holsteinsborg, at the head of Søndre Strømfjord, a region intersected by several important phytogeographic borders, and having extreme climatic conditions; field-notes on vegetation of various regions in the area, and a general survey of the collections made by the expedition; with a bibliography (11 items).

Copy seen: DGS.

1798. BÖCHER, TYGE WITTRÖCK, 1909- . Botany. The Blossville Coast of East Greenland. Appendix 3. (Geographical journal, May 1933. v. 81, p. 400-402)

Discussion (in brief) of the plant communities and plant zones, studied during the Scoresby Sound Committee's 2nd East Greenland Expedition, in 1932 to King Christian IX's Land.

Copy seen: DLC.

1799. BÖCHER, TYGE WITTRÖCK, 1909- . Climate, soil, and lakes in continental West Greenland in relation to plant life. København, C. A. Weitzel, 1949. 63 p. illus. (incl. sketch map) 4 plates. (Meddelelser om Grønland. Bd. 147, nr. 2)

Results of the four-man Botanical Expedition to West Greenland, 1946, led by the author, who used also in this study, data originating from work at air bases in South and West Greenland from the end of 1941 to 1946. Discussion of the climate at the head of Søndre Strømfjord compared with that of the rest of southwest Greenland; some climatically conditioned main features in the plant geography; microclimate; the pH, electric conductivity, salt crusts, potassium and phosphoric acid values of the soils (head of Søndre Strømfjord); and the plant relations of lakes with varying salt content and acidity. Bibliography (44 items).

Copy seen: CAMAL

1800. BÖCHER, TYGE WITTRÖCK, 1909- . Contribution to the flora and

plant geography of West Greenland. 1. *Selaginella rupestris* and *Sisyrinchium montanum*. København, C. A. Reitzel, 1948. 26 p. illus. (incl. 5 sketch maps) 2 plates. (Meddelelser om Grønland. Bd. 147, nr. 3)

Results of the Botanical Expedition to West Greenland, 1946. Description of the biology and distribution of two species (*Selaginella rupestris* and *Sisyrinchium montanum*) of particular interest as bearing on the question, of post-glacial immigration of plants, and plant refuges during the glacial periods in Greenland; bibliography (37 items).

Copy seen: DGS.

1801. BÖCHER, TYGE WITTRÖCK, 1909-. On the origin of *Saxifraga nathorstii* (Dusén) v. Hayeck. København, C. A. Reitzel, 1941. 14 p. 5 illus. (Meddelelser om Grønland. Bd. 131, nr. 2)

Cytological study on this hybrid saxifrage, with a bibliography (27 items).

Copy seen: DSI-M.

1802. BÖCHER, TYGE WITTRÖCK, 1909-. Phytogeographical studies of the Greenland flora, based upon investigations of the coast between Scoresby Sound and Angmagssalik. København, C. A. Reitzel, 1933. 56 p. illus. (incl. diagr.) 8 maps (1 double) (Meddelelser om Grønland. Bd. 104, nr. 3)

Results of the Scoresby Sound Committee's 2nd East Greenland Expedition in 1932 to King Christian IX's Land. The area investigated (East Greenland coast 68°-69°30'N.) is treated in 14 divisions: Scoresby Sound, Turner Sound and Island, Cape Dalton region, Barclay Bay, d'Aunay Bay, Store Glacier region, Cape Daussey, Cape Ravn, Mikis and Watkins Fiords, Kangerdlugssuaq (inner and outer), 66°30'-68°N., and Angmagssalik District (northern and southern).

A study of floristic boundaries; the author shows a pronounced floristic boundary on Bløseville Coast in about 68°43'-68°48'N., by computing the floristic decline in a northerly and southerly direction; also shows the distribution of the chief associations in relation to the floristic boundaries; and gives a preliminary review of the phytogeographic division of Greenland. Bibliography (56 items).

Copy seen: DLC; DSI-M.

1803. BÖCHER, TYGE WITTRÖCK, 1909-. Studies on the vegetation of the east coast of Greenland between Scoresby Sound and Angmagssalik (Christian IX's Land). København, C. A. Reitzel, 1933. 132, [2] p. incl. illus., tables, 6 plates, maps (1 fold.) (Meddelelser om Grønland. Bd. 104, nr. 4)

Results of the Scoresby Sound Committee's 2nd East Greenland Expedition in 1932 to King Christian IX's Land. These ecological results include a description of the individual localities mentioned in the author's *Phytogeographical studies* (etc.) 1933, q.v.; detailed description of the plant communities and their conditions, life-forms in the communities, and geographical distribution of the associations; with a bibliography (91 items).

Copy seen: DGS; DSI-M.

1804. BOECK, AXEL, 1833-1873. De skandinaviske og arktiske amphipoder. Christiania, A. W. Brøgger, 1872-76. 2 v. in 1: v. 1: 1 p. l., 160 p.; v. 2: iv, 161-711, [1] p., 1 l. front. (port.) 32 plates. Each plate accompanied by leaf with descriptive letterpress. *Title tr.:* The Scandinavian and arctic amphipodes.

Vol. 2 was edited by Hakon Boeck after the death of Axel Boeck.

This comprehensive work gives a description of the morphology of the amphipodes; alphabetic list of the more important works written about this order of crustaceans to 1870; chronological survey of knowledge of the amphipodes, from Aristotle to the year 1855; development of a system of classification; descriptions of species, with habitats, distribution and other data. Includes alphabetic listing of the species (p. 705-711), and a preface to each volume.

1805. BOE, JOHANNES, 1891-, and A. NUMMEDAL. Le Finnmarkien; les origines de la civilisation dans l'extrême-nord de l'Europe. Oslo, H. Aschehoug & Co.; Cambridge, Mass., Harvard University Press; [etc., etc.] 1936. 5 p. l., 263 p., 1 l. 46 illus. (incl. maps) 104 plates. (Institutet for sammenlignende kulturforskning. [Publikasjoner] ser.

B: Skrifter. 32) *Title tr.*: The Finnmarkian; the origins of civilization in the far North of Europe. Translated from the Norwegian manuscript by Jean Lescoffier.

Describes the stone artifacts from dwelling sites of a previously unknown Paleolithic culture along the fiords of Northern Finnmark, Norway, and discusses the age and origin of this *Finnmarkian civilization* on the basis of an analysis of glacial geology of northern Europe and distribution of archeologic finds from other parts of Europe and Asia. Includes general description of the physical geography of Finnmark, and detailed descriptions of archeological sites. Plates show views of archeological sites and large-scale photographs of stone artifacts. Bibliography, p. 257-63.

Maps: (1) location of Finnmark, on small-scale map of Europe; (2) north coast of Finnmark, scale about 1:2,500,000, showing archeologic sites; (3) sketch map, scale about 1:75,000, showing archeologic sites on coast near 31° E. long., east of Kirkenes; (4) small-scale map of northern Europe showing position of front of last continental glacier in northern Europe at various periods.

Lecture before the Danish Geological Society, Mar. 14, 1949, sketching the history of mineralogical investigations in Greenland.

Copy seen: DGS.

1837. BØGVAD, RICHARD, 1897-. New minerals from Ivigtut, southwest Greenland. København, C. A. Reitzel, 1933. 11 p. 1 illus., 2 plates. (Meddelelser om Grønland. Bd. 92, nr. 8)

Physical properties and chemical analyses of jarlite and meta-jarlite, two new minerals collected at Ivigtut (61° 12'N. 48° 16'W.) in 1920, by Svend Jarl.

Copy seen: DLC.

1838. BØGVAD, RICHARD, 1897-. Quaternary geological observations, etc., in south-east and south Greenland. København, C. A. Reitzel, 1940. 42 p. illus. (incl. maps) (Meddelelser om Grønland. Bd. 107, nr. 3)

Result of "casual" observations made during the 7th Thule Expedition under Knud Rasmussen to southeast Greenland, 1932-33, when the author's attention was directed mainly to other geologic studies. Description of late Quaternary land rise, recent subsidence, peat bogs, glacial recession, the Igdlorssuit Glacier, icefall and ice caves, also blocks transported by drift ice,

in the region between Cape Farewell and Cape Dalton. *Copy seen:* CaMAI.

1839. BØGVAD, RICHARD, 1897- . Weberite, a new mineral from Ivigtut. København, C. A. Reitzel, 1938. 11, [1] p. illus., plate. (Meddelelser om Grønland. Bd. 119, nr. 7)

Full description and results of chemical analysis of the new mineral, with note on the chemical treatment of cryolite which resulted in its discovery in Aug. 1937. *Copy seen:* DSI-M.

1840. BØGVAD, RICHARD, 1897- , and ALFRED ROSENKRANTZ. Beiträge zur Kenntnis der unteren Kreide Ostgrönlands. København, C. A. Reitzel, 1934. 28 p. illus. (incl. map) 5 plates. (Meddelelser om Grønland. Bd. 93, nr. 1) *Title tr.:* Contributions to the knowledge of the Lower Cretaceous in East Greenland.

Contains descriptions of the localities and rocks on Kuhn, Clavering, and Shannon Islands; and list, with synonymy, occurrence and remarks, of fossil molluscs; also general remarks on the Mesozoic of Kuhn Island. Bibliography (128 items).

Copy seen: DLC.

1841. BÖHM, JOHANNES, 1857- . Über die obertriadische Fauna der Bäreninsel. Stockholm, P. A. Norstedt, 1903. 76 p. illus., 7 plates. (Svenska vetenskapsakademien. Handlingar. [Ny följd] Bd. 37, no. 3) *Title tr.:* On the Upper Triassic fauna of Bear Island.

List, with descriptions, localities and references to literature, of Triassic fossils collected by the Swedish Arctic Expedition, 1898, and the Swedish Expedition to Bear Island (Bjørnøya), 1899.

Copy seen: DLC.

1842. BÖHM, JOHANNES, 1857- . Über *Nathorstites* und *Dawsonites* aus der arktischen Trias. (Deutsche geologische Gesellschaft. Zeitschrift, 1904. Bd. 56, briefliche Mitteilungen, p. 96-97)

Notice of change of name from *Arctoceras* to *Nathorstites*, for a Bear Island (Bjørnøya) fossil cephalopod.

Copy seen: DGS.

1843. BÖHM, JOHANNES, 1857- . Ueber Triasfossilien von der Bären-Insel. (Deutsche geologische Gesellschaft. Zeitschrift, 1899. Bd. 51, p. 325-26) *Title tr.:* Triassic fossils from Bear Island.

Report on determination of six molluscan species collected by A. G. Nathorst in 1898. *Copy seen:* DGS.

1844. BÖHM, JOHANNES, 1857- . Über Triasversteinerungen vom Bellsunde auf Spitzbergen. [Stockholm] 1912. 15 p. illus., plate. (Arkiv för zoologi. Bd. 8, no. 2) *Title tr.:* Triassic fossils from Bell Sound, Spitsbergen.

Based on collections of the Nathorst Expedition, 1898. Description of localities, remarks on the geology, annotated list (with synonyms, localities, and descriptions) of fourteen (including with descriptions one new brachiopod and four new pelecypod) species of fossils, including a cephalopod, and mention of a crustacean and some fish scales. *Copy seen:* DA.

1845. BÖHNECKE, GÜNTHER. Beiträge zur Ozeanographie des Oberflächenwassers in der Dänemarkstrasse und Irminger See. Teil I. Zugleich Bericht über die Fahrt des "Meteo" im Sommer 1930. (Annalen der Hydrographie und maritimen Meteorologie, Sept. 1931. Bd. 59, p. 317-25, illus., fold. diags.) *Title tr.:* Contributions to the oceanography of the surface water in Denmark Strait and Irminger Sea. Pt. 1. Report on the *Meteo* Expedition, 1930.

Contains discussion of the temperature-salinity relationship, the mean surface distribution of temperature, salinity and density, the resultant currents (East Greenland and Irminger), and the surface temperature-salinity for Aug. 1928 and 1930.

Copy seen: DLC.

1846. BÖHNECKE, GÜNTHER, and others. Beiträge zur Ozeanographie des Oberflächenwassers in der Dänemarkstrasse und Irminger See. II. Teil. (Annalen der Hydrographie und maritimen Meteorologie, Aug. 1932. Bd. 60, p. 314-21, illus., 2 fold. diags.) *Title tr.:* Contribution to the oceanography of the surface waters of Denmark Strait and Irminger Sea, pt. 2. *Other authors:* B. Foyn and H. Wattenburg.

Based on the observations of the *Meteo* Expedition, Aug. 1930, a discussion of the relationship between the chemistry and plankton in the East Greenland and Irminger Currents and their mixed waters. *Copy seen:* DLC.

1847. BÖHNECKE, GÜNTHER, and others. Über die hydrographischen,

chemischen und biologischen Verhältnisse an der Meeresoberfläche zwischen Island und Grönland. Ergebnisse einer Fahrt mit dem Vermessungsschiff "Meteor" im August 1929. (Annalen der Hydrographie und maritimen Meteorologie, Juli 1930. Bd. 58, p. 233-50, illus., fold. diagrs.) *Title tr.*: On the hydrographic, chemical, and biological relationship in surface waters between Iceland and Greenland. Results of the Meteor Expedition in August 1929. *Other authors*: E. Hentschel and H. Wattenberg.

Contains discussion of (1) the temperature, salinity, density and currents, (2) the phosphate, nitrate, ammonia, oxygen and pH, (3) the plankton, and (4) the connection between the distribution of plankton, nutrients, salinity, temperature and density.

Copy seen: DLC.

1848. BÖHTLINGK, OTTO von, 1815-1904. Über die Sprache der Jakuten. Theil 1. Einleitung. Jakutischer text. Jakutische Grammatik. St. Petersburg, 1851. liv, 397, ii p. (Middendorff, A. T. v., and others. Reise in der äussersten Norden und Osten Sibiriens, 1843-44, pub. 1847-75. Bd. 3, Theil 1) *Title tr.*: On the Yakut language. Part 1. Introduction. Yakut text. Yakut grammar.

Contains in the introduction (p. i-liv), a history of linguistic research among the Yakuts, characterization of the Yakut language, and discussion of its Turkic and Mongolic affiliations. Yakut text (p. 1-96), is an autobiographical statement by a Yakut-raised Russian, Uvarovskiy, with text in Yakut and German, including description of Yakut life and beliefs. Yakut grammar (p. 97-395), includes detailed analysis of phonetics, word construction, declension, and syntax. This and the item following (Theil 2) were also issued together in one volume in 1851 (p. l, lviii, 300, 97 p.; p. l, 184 p.)

Copy seen: DLC; DSI-M.

1849. BÖHTLINGK, OTTO von, 1815-1904. Über die Sprache der Jakuten. Theil 2. Jakutisch-Deutsches Wörterbuch. St. Petersburg, 1851. 3 p. l, 184 p. (Middendorff, A. T. v., and others. Reise in den äussersten Norden und

Osten Sibiriens, 1843-44, pub. 1847-75. Bd. 3, Theil 2) *Title tr.*: On the Yakut language. Part 2. Yakut-German dictionary.

Contains Yakut words in Cyrillic alphabet, German translation and, for some words, citation of sources. Nearly three hundred additional words, phrases or definitions are given in Middendorff's *Die Eingeborenen Sibiriens*, 1875, q.v.

Copy seen: DLC; DSI-M.

Russian translation of part of this work was published as *Chukchi*, Lenin-

grad, Izd-vo Ins-ta narodov Severa, 1934. (Part I, XXX, 191 p.)

Basic work. Results of the author's observations during sojourns and travels among the Chukchis and Eskimos of Chukotsk Peninsula, 1890-1901, including work with the Sibiriaĸov Yakut Expedition, and with the Jesup North Pacific Expedition.

Contents: Pt. 1, Material culture, *pub.* 1904, (p. 11-276) has chapters on names, habitat, general characteristics, trade, reindeer and dog breeding, hunting, fishing and war, habitations, utensils, food, manufactures, clothing (including snow goggles, snowshoes, staff and ice creepers). Pt. 2, Religion, *pub.* 1907, (p. 277-536) has chapters on religious concepts, charms, ceremonials, shamanism, magic, birth and death customs and beliefs. Pt. 3, Social organization, *pub.* 1909, (p. 537-733) has chapters on organization of the family and family group, marriage, camp and village, strong men, warriors, slaves, law, contact of the Chukchis with Russians, etc. Bibliography, p. 3-9. *Copy seen:* DLC.

1892. BOGORAZ, VLADIMIR GERMANOVICH, 1860-1936. New data on the types and distribution of reindeer breeding in northern Eurasia. (International Congress of Americanists. 23rd, New York, 1928. Proceedings, New York, 1930. p. 403-410, map)

Describes (on the basis of new information from students at the Northern College for Lesser Nationalities of the U.S.S.R.) the types of reindeer breeding (husbandry) as they exist from Lapland to the Chukotsk Peninsula, including a new type of husbandry without the use of herd dogs west of the Yenisey. Classifies reindeer husbandry into seven types on the basis of riding or driving, type of sledge, use or non-use of herd dogs, and practice of milking. Includes clarification of relationships and distribution of native tribes in Siberia. Discusses the spread of dog herding in northeastern Asia.

Map, scale about 1:35,000,000, shows distribution of the seven types of reindeer husbandry.

1920. BOGOSLOVSKII, N. N. Melkoe zalozhenie fundamentov maloëtazhnykh zdaniï. (In: T'Syovich, N. A., and others. Glubina zalozheniia fundamentov maloëtazhnykh zdaniï, 1946. p. 16-43) **Title tr.:** Shallow laying of foundations for few-story buildings.

Contains theoretical discussion of the factors affecting the stability of foundations due to pressure: specific construction, carrying capacity of the ground and depth of freezing. The latter question is dealt with theoretically and on the basis of practical experience (quotations from technical literature and actual experiences are given). Unsatisfactory nature of existing instructions resulted in a conference of the Institute of Permafrostology of the Academy of Sciences of the U.S.S.R. which worked out a new set of technical directives; explanations and analyses are given. **Copy seen:** NN.

(Svenska vetenskapsakademien. Handlingar. Bihang. Bd. 19, afd. 3, no. 5) **Title tr.:** Fresh-water Chlorophyceae collected by Dr. A. Kihlman in northern Russia, Arkhangelsk province.

Contains a list of localities and a systematic enumeration of two hundred seventeen species of fresh-water algae collected in June-Sept. 1891 by A. O. Kihlman (later known as A. O. Kairamo) in the lower courses of Pechora, Mezen' and Pinega Rivers in the Arkhangelsk region. **Copy seen:** MH.

1986. BORGE, OSKAR FREDRIK, 1862-1938. Süßwasseralgen von Franz Josefs-Land, gesammelt von der Jackson-Harmsworth'schen Expedition. (Svenska vetenskapsakademien. Öfversigt af förhandlingar, 1899. Årg. 56, p. 751-66, illus.) **Title tr.:** Fresh-water algae from Franz Josef Land, collected by the Jackson-Harmsworth Expedition.

List, with characterization, of 57 stations (mainly on Cape Flora) from which algal materials were collected by this expedition in the summers of 1895 and 1896; annotated list of about forty-five species and forms of fresh-water algae, some figured and discussed in detail; and tabular record of their

occurrence in Novaya Zemlya, West Spitsbergen and Greenland, also distribution elsewhere. **Copy seen:** DLC.

1987. BORGES, GUS. Don't go halibut fishing! (Alaska sportsman, Aug. 1936, v. 2, no. 8, p. 16-18, 20, illus. diagr.)

Description of vessels, gear, and methods of halibut fishing in the Gulf of Alaska, with note on regulations.

Copy seen: DLC.

1988. BORGMAN, FRIEDRICH WILHELM. Klima und Politik im Eismeer. (Zeitschrift für Geopolitik, Juni 1938. Jahrg. 15, p. 439-50, 8 sketch maps) **Title tr.:** Climate and politics of the Arctic Ocean.

Contains discussion of temperature variations in the Eurasian Arctic from the ice age to modern time, including the influence of the Gulf Stream, the pack ice, etc., the retreat and advance of peoples, and exploration of the Arctic.

Maps include: ice age temperature inversions in historic time; dynamics of discovery in the 16th century; the development of the Siberian arctic sector of the Soviet Union, as of 1937 (showing maximum and minimum extent of drift ice, inland waterways, railroads, air lines, Siberian road, radio stations, and number of months of open navigation on various parts of the Northern Sea Route).

1990. BORISHANSKII, P. I. O perezhitkakh rodovyykh otnoshenii na severovostoche Azii. (Sovetskaya étnografiya, 1935, vyp. 4-5, p. 85-106) **Title tr.:** Concerning the survival of clan relations in northeast Asia.

Contains a detailed analysis of the form of the social organization, the clans, marriage regulations, position of women among the Reindeer Yukaghir,

and the Hunting and Fishing Yukaghir, and the Koryaks. The author differs in his interpretation from other authorities in that he finds evidences of a matriarchal clan among the first group. The second group represents the second stage of development, the matriarchal clan is substituted by the patriarchal, and matrilineal residence by patrilineal. The Koryaks represent the third stage, and only slight traces of the former matriarchal organization are present.

1992. BORISOV, A. A. Klimaty SSSR. Moskva, Gosudarstvennoe uchebno-pedagogicheskoe izd-vo, 1948. 222, [2] p. illus., sketch maps, diagrs., 5 fold. maps (mounted inside back cover) *Title tr.*: Climate of the U.S.S.R.

"This publication is intended as a text for advanced students in universities. The first section is devoted to a discussion of the various climatic elements in logical order: solar radiation, pressure and general circulation, temperature, humidity, cloudiness and sunshine, snow cover and evaporation, with special attention to their annual and geographical variation. The second part takes up the climate of various sections of the USSR divided according to maritime regions, plains and lowlands, and mountainous regions. [etc.]" Includes northern seas, p. 103-121, eastern seas (Bering and Okhotsk) p. 121-25, the tundra, p. 138-46, Khimyn, p. 177-81.

Reviewed in *Meteorological abstracts and bibliography*, Feb. 1950, v. 1, no. 2, p. 112-13.

Copy seen: DLC.

1993. BORISOV, A. A. Ob izuchenii klimata Arktiki. (Priroda, 1937. No. 6, p. 9-12) *Title tr.*: On the state of climatological investigations in the Arctic.

Results of recent investigations show the following typical peculiarities of the Arctic: (1) a prevalence of inversions; (2) a rise of temperature during one of the winter months; (3) weak winds in the Arctic Basin; (4) the presence of monsoon winds; (5) great extent of fogs.

2027. BOSTOCK, HUGH SAMUEL, 1901- . Mayo District, Yukon. (In: Canadian Institute of Mining and Metallurgy. Geology Division. Structural geology of Canadian ore deposits, 1948. p. 110-12, sketch map)

Brief statement of the structure of this central Yukon area, relative to the silver-lead deposits. *Copy seen:* DGS.

2028. BOSTOCK, HUGH SAMUEL, 1901- . Physiography of the Canadian Cordillera, with special reference to the area north of the fifty-fifth parallel. Ottawa, King's Printer, 1948. ix, 106 p. incl. front. and 32 plates. fold. map. (Canada, Geological Survey. Memoir 247)

Study of the characteristic topographic features. The author establishes a broad terminology (for use in future more detailed studies) based on knowledge of the Canadian Cordillera and on a "careful study of many thousands of air photographs" made by the United States and Canadian Air Forces. He gives characterizations of (1) the eastern system, comprising the Rocky Mts., Mackenzie Mts., and arctic area (Richardson Mts., Arctic Plateau and Coastal Plain); (2) the interior system, including northern plateau and mountains (Selwyn and Ogilvie Mts. and Yukon Plateau); and (3) the western system, including St. Elias Mts.

Maps: physiographic subdivision of Canada north of 55°N. between 120°-140°W., scale 1:2,534,400.

Copy seen: DGS.

2043A. BOWDEN, F. P. and T. P. HUGHES. The mechanism of sliding on ice and snow. (Royal Society of London. Proceedings, 1939. Ser. A. v. 172, p. 280-98, diagrs.)

"Experimental studies of the friction on ice surfaces have shown that the low frictions observed at temperatures near the melting-point were due to lubrication by a thin water film at the points of contact between the sliding surfaces. The coefficient of kinetic friction was found to be independent of the load, apparent area of contact, and speed of sliding over a certain range. When the temperature of the ice was decreased, the friction rose markedly as the water film became more difficult to form. Using ski of various materials, it was observed that the friction depended very largely on the thermal conductivity of the ski. This result suggested that frictional heating played a large part in melting a water film during sliding; it had been previously considered that pressure melting was alone responsible for the formation of this water film.

"Experiments with miniature and real ski on snow surfaces showed that the same general laws were obeyed as on ice surfaces. The higher frictions obtained on snow were attributed to the extra work done in displacing and compressing the snow crystals."—Authors' summary.

2053. BRAARUD, TRYGVE, 1903- The "Øst" Expedition to the Denmark Strait 1929. II. The phytoplankton and its conditions of growth (including some qualitative data from the Arctic in 1930). Oslo, J. Dybwad, 1935. 173 p. (incl. 39 p. of tables) illus. (4 charts, diagrs.) (Hvalrådets skrifter. Nr. 10)

The author carried out investigations from a sealing vessel in Denmark Strait, 66°-68°N., June-Aug. 1929. He gives a detailed discussion of the factors of productivity (light, oxygen, carbon dioxide, nutrient salts, temperature, salinity, etc.) and of the observations between Norway and Iceland, and in the strait, comparisons with waters off northeastern Spitsbergen and Franz Josef Land; remarks on the Denmark Strait and Irminger currents, on the conditions of production in arctic

and Atlantic waters, and on the distribution and taxonomy of the phytoplankton population; with a bibliography.

Tables include: Distribution of plankton, oxygen and nutrient salts in Denmark Strait. Wind and cloudiness observations in Denmark Strait, June 8-20, 1929. Relative abundance and plankton content of net samples from Spitsbergen-Franz Josef Land, Aug. 1930. Data for hydrographic, oxygen, nutrient salt, and phytoplankton conditions in a section from open to close pack ice. Oxygen observations below the 75-meter level. Temperature at sea surface and air, cloudiness and wind in Denmark Strait, June 14-Aug. 19, 1929. Quantitative plankton data, temperature, salinity, density, oxygen, nitrate and phosphate, June-Aug. 1929, with notes on ice conditions in Denmark Strait. *Copy seen:* DF.

2054. BRAARUD, TRYGVE, 1903-, and JOHAN T. RUUD. The "Øst" Expedition to the Denmark Strait 1929. I. Hydrography. Oslo, J. Dybwad, 1932. 44 p. (incl. 4 p. of tables, 6 charts, diagrs.) (Hvalrådets skrifter. Nr. 4)

The authors made investigations from a sealing vessel in Denmark Strait between 66°-68°N., June-Aug. 1929. They describe here the currents, bathymetric features, hydrographic sections, character of different types of water, and the ice conditions; and comment upon their eight stations between Iceland and Norway. *Tables:* Oceanographic tables and soundings.

2070. BRAESTRUP, FRITZ WIMPFEN, 1906- . A study on the arctic fox in Greenland, immigrations, fluctuations in numbers, based mainly on trading statistics. København, C. A. Reitzel, 1941. 101, [1] p. incl. 6 illus. (maps) tables. fold. plate (diagrs.) (Meddelelser om Grønland. Bd. 131, nr.

4) Also issued as a thesis, Copenhagen, 1941.

Ecologic differentiation seems to exist between "lemming foxes", and those which live where rodents are not found, or "coast foxes". When lemmings are scarce, foxes migrate. Such migrating foxes arrive in West Greenland in considerable numbers from Canada and far northern Greenland, by Baffin Bay pack ice, and via Thule District, probably also from northeastern Greenland by the East Greenland pack ice. A disease ("mad" fox) which is transmissible to dogs, is brought to Greenland by migrating foxes. Chap. 1, is a summarized compilation of literature on fluctuations in numbers of lemmings and foxes. Chap. 2 discusses the extent of migrations of foxes during lemming scarcity and the precise years (as known) of fox maxima in Canada; also the means of subsistence of foxes on drift ice. In later chapters other food of foxes is discussed.

Table: total number and percentage of white foxes, 1793-1939, from twelve localities in West and North Greenland.

2073. BRAINARD, DAVID LEGGE, 1856- . Six came back; the arctic adventure of David L. Brainard, edited by Bessie Rowland James. Indianapolis, New York, Bobbs-Merrill Co. [c1940] 305 p. incl. front. (ports.) 11 plates, ports., map on lining-papers.

Author's diary, July 7, 1881-June 21, 1884, of his participation in the U. S. Lady Franklin Bay Expedition under Greely, and its disastrous retreat over the ice of Kennedy Channel and Kane Basin, to Cape Sabine in Smith Sound. The last four chapters were published as *The outpost of the lost*, 1929, q.v. Copy seen: DLC; NNS Stef.

2074. BRAITHWAITE, JOHN, 1797-1870. Supplement to Captain Sir John Ross's Narrative of a second voyage in the Victory, in search of a Northwest Passage containing the suppressed facts necessary to a proper understanding of the causes of the failure of the steam machinery of the Victory, and a just appreciation of Captain Sir John Ross's character as an officer and a man of science. London, Chapman and Hall, 1835. 1 p. l., ii, 18 p. 28½ x 22½ cm.

Reply to Ross' criticism, by one of the two patentees (Braithwaite and Ericsson) of the boilers used on board the Victory, on Ross' second voyage 1829-33. The reply dated (in preface) London, 1st October, 1835, is a point-by-point refutation of Ross' charges, and an outline (with remarks) of Ross' instructions for the reconstruction of the vessel for his voyage.

Copy seen: DLC.

2075. BRAITHWAITE, JOHN, 1797-1870. Supplement to Captain Sir John Ross's Narrative of a second voyage in the Victory, in search of a northwest passage, containing the suppressed facts necessary to a proper understanding of the causes of the failure of the steam machinery of the Victory, and a just appreciation of Captain Sir John Ross's character as an officer and a man of science. London, Printed by H. Silverlock, 1849. 1 p. l., ii, 26 p.

Contains Braithwaite's paper (1 p. l., ii, 15 p.) and Ross' reply *Explanation and answer to Mr. John Braithwaite* [etc.] (p. 17-26) reprinted from the 1835 edition.

2123. BREITFUS, LEONID L'VOVICH, 1864-1950. Das Internationale Polarjahr einst und jetzt. Rückblick und Ausblick. (Arktis, 1930. Jahrg. 3, p. 14-30, incl. sketch map) *Title tr.:* The International Polar Year, in the past and at present. Retrospect and prospect.

Contents a succinct review of the organization, stations, and kind of research accomplished in 1882-83; outline of the plans of each nation for the expeditions of 1932-33, with locations plotted on circumpolar map and tabular data on each station.

Copy seen: DLC; NNSf.

2124. BREITFUS, LEONID L'VOVICH, 1864-1950. K spongio-faunë Kol'skago zaliva. (Leningradskoe obshchestvo estestvoispytatelei. Trudy, 1911. T. 42, vyp. 1, p. 209-221, 223-26) *Title tr.:* On fauna of sponges of Kola Bay.

Contains a systematic list of seventy species (in forty-two genera) of sponges, collected in 1908 and 1909 in Kola Bay, Murman coast, with data on stations and general geographic distribution; a special list of pure arctic species includes twenty-three names, or about one third of those found. Summary in German. *Copy seen:* MH-Z.

2125. BREITFUS, LEONID L'VOVICH, 1864-1950. Kalkschwämme der Bremer Expedition nach Ost-Spitzbergen im Jahre 1889 (Prof. W. Küenthal und Dr. A. Walter). Vorläufige Mittheilung. (Zoologischer Anzeiger, 1896. Bd. 19, p. 426-32) *Title tr.:* Calcareous sponges of the Bremen Expedition to East Spitsbergen, 1889 (Prof. W. Küenthal and Dr. A. Walter). Preliminary report.

Contains a list, with descriptive notes, localities and depths, of ten (including with descriptions, four new) species from eastern Svalbard waters.

Copy seen: DSI-M.

2126. BREITFUS, LEONID L'VOVICH, 1864-1950. Die Kalkschwammfauna des arktischen Gebietes. (*In:* Fauna arctica, 1932. Bd. 6, p. 235-52, table) *Title tr.:* Calcareous sponges of the arctic region.

Contains a classified list, with synonymy and circumpolar distribution, of ninety-six species from arctic seas; tabular presentation of stations (with depths and bottom characteristics) of the German Expedition to the Arctic Ocean and the Olga Expedition in 1898. Bibliography (75 items).

Copy seen: DA.

2127. BREITFUS, LEONID L'VOVICH, 1864-1950. Kalkschwammfauna des Weissen Meeres und der Eismeerküsten des Europäischen Russlands, mit Berücksichtigung und Aufstellung der Kalkschwamm-fauna der arktischen Region. St.-Petersbourg, 1898. 2 p. l., 41 p. 4 plates. (Akademiia nauk SSSR. Mémoires. Sér. 8, classe physico-mathématique. T. 6, no. 2) *Title tr.:* Calcareous sponges of the White Sea and arctic coasts of European Russia with regard to, and a statement of,

the calcareous sponges of the arctic region.

Contains discussion and tabular presentation of the distribution of sponges from East Greenland waters to Novaya Zemlya, with mention of more easterly waters; a systematic list, with synonymy, notes, localities, and descriptive remarks, of twenty-five (including with full descriptions, five new) species; a key to the species, and a bibliography (65 items).

Copy seen: DSI.

2128. BREITFUS, LEONID L'VOVICH, 1864-1950. Die Kalkschwammfauna von Spitzbergen. Nach den Sammlungen der Bremer Expedition nach Ost-Spitzbergen im Jahre 1889. (Prof. W. Küenthal und A. Walter). Zoologische Jahrbücher; Abt. für Systematik, Geographie und Biologie, 1898. Bd. 11, p. 103-120, 2 plates) *Title tr.:* The sponges of Spitsbergen. From the collections of the Bremen Geographical Society Expedition to East Spitsbergen, 1889. (Prof. W. Küenthal and A. Walter).

Contains a list, with synonymy, descriptions, locations, depths, and worldwide distribution of ten (including five new) species from the coastal waters of eastern Svalbard.

Copy seen: DSI-M.

2129. BREITFUS, LEONID L'VOVICH, 1864-1950. Neue wertvolle Beiträge zur Erschliessung der Innerarktis. (Petermanns geographische Mittheilungen, 1949. Jahrg. 93, p. 33-35, incl. sketch chart) *Title tr.:* New valuable contributions to the opening up of the central Arctic.

Contains remarks on German editions of two Russian books (1) by V. Chkalov on his transpolar flight, and (2) by K. Badigin and N. Zubov on the drift of the *Sedov*, comprising a review of Arctic Basin drifts and flights.

Copy seen: NNStef.

2130. BREITFUS, LEONID L'VOVICH, 1864-1950. Die neuen Radio-Wetterstationen auf der Wrangelinsel und in Bulun. (Arktis, 1929. Jahrg. 2, p. 129-30) *Title tr.:* The new radio weather stations on Wrangel Island and at Bulun.

Note on Vrangelya Island, brief description of the station, mention of the station at Bulun (70°45'N. 127°47'E.) and review of other Soviet stations.

Copy seen: DLC; NNStef.

2131. BREITFUS, LEONID L'VOVICH, 1864-1950. Die Nobile-Nordpolexpedition mit dem Luftschiff. (Petermanns Mitteilungen, 1929. Jahrg. 75, p. 1-7, 71-76, illus.) *Title tr.:* The Nobile North Polar expedition with an airship.

Contents tr.: 1. Introduction. (The plans, personnel and airships). 2. The Norge and Italia flights. 3. The rescue operations. (for the Italia). 4. Conclusion. (Significance of the flights for arctic research). *Copy seen:* DLC.

2132. BREITFUS, LEONID L'VOVICH, 1864-1950. Nordland (Nikolaus-II.-Land) und die angrenzenden Gewässer. (Gesellschaft für Erdkunde zu Berlin. Zeitschrift, 1931. p. 356-61, map) *Title tr.:* Northland (Nicholas II Land) and the adjacent waters.

Sketch of the discovery and exploration of Severnaya Zemlya, 1913-31; and reasons for naming part of Kara Sea, the West Siberian Sea, based on the depths and the islands west of Severnaya Zemlya. *Copy seen:* DLC.

2133. BREITFUS, LEONID L'VOVICH, 1864-1950. Die Nordostdurchfahrt und ihre Erzwingung. (Petermanns geographische Mitteilungen, 1934. Bd. 80, p. 336-38) *Title tr.:* The Northeast Passage and the forcing of it.

Sketch of voyages part way along the route, attempts to a through passage, especially in the 20th century.

Copy seen: DGS.

2134. BREITFUS, LEONID L'VOVICH, 1864-1950. Das Nordpolargebiet, seine Natur, Bedeutung und Erforschung. Berlin, Springer-Verlag, 1943. vi, 179, [1]. p., 59 illus., 2 maps (1 fold.) (Verständliche Wissenschaft, 48. Bd.) *Title tr.:* The north polar region, its nature, significance and exploration.

Handbook for general readers, giving succinct information in a broad survey of the physical, economic and human geography of the Arctic.

Maps include one showing routes of twenty-nine expeditions, nineteen flights, limits of permafrost, isobaths, northern railroad lines and meteorological stations. *Copy seen:* DLC.

2135. BREITFUS, LEONID L'VOVICH, 1864-1950. Poliarnaiâ ekspeditsiia leitenanta G. L. Brusilova na shkhune "Sv. Anna". (Vsesoiuznoe geograficheskoe obshchestvo. Izvestiia, 1914. T.

50, p. 181-90, plate, map) *Title tr.:* The arctic expedition of Lieutenant G. L. Brusilov on the schooner Sv. Anna.

A survey of the status of the expedition, containing an account of the drift of the St. Anna, which began Oct. 1912 in the Kara Sea, reconstructed from the journal brought back by Mate Al'banov's group, which left the ship seventy miles north of Franz Josef Land (with a list of the members of the expedition, and their fate when known, p. 185-86); remarks on the rescue expeditions; conjectures on the probable outcome of the drift, and comparison with that of the Fram. *Copy seen:* DLC.

2136. BREITFUS, LEONID L'VOVICH, 1864-1950. Proekt kapitana Brunsa. (Priroda, 1924. No. 7-12, col. 71-88, map) *Title tr.:* The project of Captain Bruns.

Discussion of the airman Walther Bruns' plan for regular airship sailings on the route Amsterdam-Copenhagen-Leningrad-Arkhangelsk-Nome-Unimak-Yokohama; with some description of its technical and navigational feasibility, and of conditions peculiar to the arctic section of the route.

Copy seen: DF.

2137. BREITFUS, LEONID L'VOVICH, 1864-1950. Reliktovoe ozero Mogil'noe. (In: Deriugin, K. M., and others. Murmanskaiâ biol. stantsiia 1898-1905, pub. 1906, p. 101-106) *Title tr.:* Relict Lake Mogilnoye.

Contains a general description of this relict lake (on Kildin Island, off the Murman coast) having an upper layer of fresh water with the usual fauna and flora, a middle layer of salt water (8-14 meters deep) with marine fauna and flora, and dead belt of 14 to 16 meters as the bottom layer. Includes a list of about forty species of freshwater and marine plankton, and a table showing water temperature and salinity at various levels.

Copy seen: MH-Z.

2138. BREITFUS, LEONID L'VOVICH, 1864-1950. Roald Amundsens "Maud"-Expedition zum Nordpol, ihr Verlauf und Abschluss. (Gesellschaft für Erdkunde zu Berlin. Zeitschrift, 1925. p. 129-33, sketch map) *Title tr.:* Roald Amundsen's North Pole Expedition in the Maud, its course and conclusion.

Notes on the Maud's progress, 1919-

25, and mention of its drift in comparison with that of the *Jeannette*.

Copy seen: DLC.

2139. BREITFUS, LEONID L'VOVICH, 1864-1950. Der Sibirische Seeweg. (Osteuropa, Okt. 1930-Juni 1931. Jahrg. 6, p. 21-40, 507-524, 2 sketch maps) *Title tr.:* The Siberian sea route.

Contains in pt. 1, on the western section of the route, an historical sketch of the opening of a Northeast Passage, 16th to 20th centuries; brief survey of trading voyages to the Ob-Yenisey Rivers, before the Revolution; the "Kara Expeditions" in the same region, beginning 1921; also shipping history (with data on imports and exports); discussion of navigational problems and an analysis of future requirements for trade and shipping.

Pt. 2, on the eastern section, opens with an analysis of the isolated position of northeastern Siberia (Yakutia) in history and modern trade and communication; followed by a survey of the investigations, 1909-29, of the sea route between the Lena River and Bering Strait; general notes on the severe ice conditions to be faced in the seas and on the river courses of Yakutia.

Copy seen: DLC.

2140. BREITFUS, LEONID L'VOVICH, 1864-1950. Der Sibirische Seeweg und seine physikalischen Verhältnisse. (Arktis, 1931. Jahrg. 4, p. 27-31, 73-109, fold. chart) *Title tr.:* The Siberian sea route and its physical characteristics.

Discussion of the temperature-salinity relationships of each of the Russian arctic seas, and of the climate, geomagnetism, and atmospheric electricity of the region as a whole; a chronological list of voyages (1) along the route, till 1931; (2) on the western section from European ports to the Ob-Yenisey, 1734-1931; and (3) east of Cape Chelyuskin, 1633-1931; an analysis of this traffic in terms of tonnage and mileage.

Copy seen: DLC; NNStef.

2141. BREITFUS, LEONID L'VOVICH, 1864-1950. Um die Erschliessung der inneren Arktis. (Osteuropa, März 1938. Jahrg. 13, p. 402-409) *Title tr.:* On the opening of the central Arctic.

Critical analysis of the results of the Russian drifting ice-floe station "North Pole", 1937-38, and the transarctic flights carried out by the U.S.S.R. during 1938.

Copy seen: DLC.

2142. BREITFUS, LEONID L'VOVICH, 1864-1950, and K. M. DERÛGIN. Hidrologicheskiï ocherk Ekaterinskoi gavanî. (In: Derûgin, K. M., and others. Murmanskaiâ biol. stantsiia, 1899-1905, pub. 1906, p.77-86, illus. plate) *Title tr.:* Hydrological outline of Catherine Harbor.

Contains a general hydrological outline of this harbor (69°13'N. 33°26'E.) of the port of Murmansk, with a diagram of water temperature and salinity for the years 1898-1903, and tabulated data on temperature, salinity, chlorine content and specific gravity at various depths, 1903-1904.

Copy seen: MH-Z.

2146. BRENNER, MÄRTEN MAGNUS WILHELM, 1843-1930. *Euphrasia hebecalyx* Brenn., förut *E. micrantha* Brenn. (Botaniska notiser, 1898, p. 181-83) *Title tr.:* *Euphrasia hebecalyx* Brenn., previously *E. micrantha* Brenn.

Contains a taxonomic note on identity and synonymy of *Euphrasia micrantha*, an herb native to northern Scandinavia and Kola Peninsula, and change of this name to *E. hebecalyx* Brenn. nom. nov.

Copy seen: MH-A.

2147. BRENNER, MÄRTEN MAGNUS WILHELM, 1843-1930. Hieraciologica meddelanden. 6. Nya *Hieracium*-former från Kuusamo. (Societas pro fauna et flora fennica. Meddelanden, 1908-1909, pub. 1909. Häfte 35, p. 119-23) *Title tr.:* Notes on *Hieracium*. 6. *Hieracium* forms from Kuusamo.

Contains Latin description of four new species of herbaceous genus *Hieracium* from the Kuusamo region, north-east Finland: *H. piliscapum*, *H. monotium*, *H. atricapitatum*, and *H. comparile* n. spp.

Copy seen: MH-A.

2148. BRENNER, MÄRTEN MAGNUS WILHELM, 1843-1930. En hvitblommig *Taraxacum*-art från Ryska Lappmarken. (Societas pro fauna et flora fennica. Meddelanden, 1914-1915, pub. 1915. Häfte 41, p. 46-48, illus.) *Title tr.:* *Taraxacum* species with white flowers from Russian Lapland.

Contains Latin diagnosis of *Taraxacum leucoglossum*, a new species with white flower, found by T. Brenner in Kola Peninsula, and critical notes on some related species of this herb.

Copy seen: MH-A.

2149. BRENNER, MÄRTEN MAGNUS WILHELM, 1843-1930. I Ostenfennoskandia fauna former af *Pimpinella*

saxifraga L. (Societas pro fauna et flora fennica. Meddelanden 1921-22, pub. 1925. Häfte 48, p. 152-57) **Title tr.:** Forms of *Pimpinella saxifraga* found in eastern Fennoskandia.

Contains critical notes and brief Latin descriptions of fourteen forms of the herb *Pimpinella saxifraga*, including the form *subtriangularis* native to northern Ostrobothnia (Kemi) and Keret Karelia (Oulanka).

Copy seen: MH-A.

2150. BRENNER, MÄRTEN MAGNUS WILHELM, 1843-1930. Några *Atriplex*-och *Chenopodium*-former. (Societas pro fauna et flora fennica. Meddelanden, 1921-22, pub. 1925. Häfte 48, p. 135-38) **Title tr.:** Some *Atriplex* and *Chenopodium* forms.

Contains some critical notes on the species of herbaceous genera *Atriplex* and *Chenopodium* of Finland, including *A. patulum* occurring on the Murman coast of Kola Peninsula, in Kandalaksha and on Kildin Island, and *A. oblongifolia* native to Imandra Lappmark.

Copy seen: MH-A.

2151. BRENNER, MÄRTEN MAGNUS WILHELM, 1843-1930. Några lapska *Taraxacum*-former. (Societas pro fauna et flora fennica. Meddelanden, 1906-1907 pub. 1907. Häfte 33, p. 108-112) **Title tr.:** On some *Taraxacum* forms from Lapland.

Contains Latin diagnoses of four new species of weedy herbaceous genus *Taraxacum* from Kemi Lappmark, and critical notes on three other species from Kemi, Muonio and Enontekis regions of northwest Finland.

Copy seen: MH-A.

2152. BRENNER, MÄRTEN MAGNUS WILHELM, 1843-1930. Några ord om namnen *Euphrasia tenuis* och *micrantha* och dermed betecknade växtformer. (Botaniska notiser, 1896, p. 197-201) **Title tr.:** A few words on the names *Euphrasia tenuis* and *micrantha* and the plant forms they represent.

Contains a taxonomic discussion on complicated identity and synonymy of two hemiparasitic herbs, *Euphrasia tenuis* and *E. micrantha*, the latter from Swedish and Russian Lapland, and some related species of the same genus.

Copy seen: MH-A.

2153. BRENNER, MÄRTEN MAGNUS WILHELM, 1843-1930. Nya *Archieracia* från Norra Finland. (Societas pro

fauna et flora fennica. Meddelanden, 1901-1902, pub. 1902. Häfte 28A, p. 46-48) **Title tr.:** New *Archieracia* from northern Finland.

Contains Latin diagnoses of four new species of herbaceous genus *Hieracium*, section *Archieracia* from northern Ostrobothnia and Kemi Lappmark (Rovaniemi and Walmari parishes), collected by K. J. Ehnberg.

Copy seen: MH-A.

2154. BRENNER, MÄRTEN MAGNUS WILHELM, 1843-1930. Observationer rörande den nordfinska floran under adertonde och nittonde seklen, särskildt med afseende å karlväxterna i Öster-Norrbottnen, Nord-Österbottnen och Kajani. Helsingfors. 1899. 307 p. map (Societas pro fauna et flora fennica. Acta, 1897-1900, pub. 1899. v. 16, no. 4) **Title tr.:** Observations concerning the flora of northern Finland during the 18th and 19th centuries with an enumeration of vascular plants of East Norrbotten, North Ostrobothnia and Kajania.

Contains an historical survey of the progress of botanical investigation of northern Finland, based on literature sources starting with Linne's works, and on the author's own observations during his trips in 1864 and 1869; a description of the vegetation of various regions of northern Finland, an enumeration of about eight hundred flowering plants and vascular cryptogams; tabular presentation of (1) plant distribution in twenty-nine natural regions of the provinces mentioned in the title, also (2) the flowering period of various plants.

Copy seen: MH-A.

2155. BRENNER, MÄRTEN MAGNUS WILHELM, 1843-1930. Om några *Taraxacum* former. (Societas pro fauna et flora fennica. Meddelanden, 1888-1891 pub. 1889. Häfte 16, p. 107-114) **Title tr.:** On some *Taraxacum* forms.

Contains critical notes on some species of herbaceous genus *Taraxacum*, including *T. officinale* f. *ceratophora*, native to the Muonio region of northwest Finland and to Russian Lapland.

Copy seen: MH-A.

2156. BRENNER, MÄRTEN MAGNUS WILHELM, 1843-1930. Spridda bidrag till kannedom af Finlands *Hieracium*-former. II. Nordostrobottniska Hieracia. Helsingfors, J. Simelius, 1893. 43 p. (Societas pro fauna et flora fennica.

Acta, 1893-1894, pub. 1894. v. 9, no. 5)

Title tr.: Miscellaneous contributions to the knowledge of *Hieracium* forms. II. Hieracia of North Ostrobothnia.

Contains an enumeration of fifty-nine species of herbaceous genus *Hieracium* of section *Archieracia* and twenty-nine of section *Piloselloidea*; with critical notes and detailed data on distribution in this district of northern Finland; includes some species spreading to adjoining regions of Finnish Lapland.

2163. BREWER, WILLIAM M. Bornite ores of British Columbia and the Yukon Territory. (Canadian Institute of Mining and Metallurgy. Transactions, 1905. v. 8, p. 172-82)

Notes on the geology and mineralogy of a copper ore occurring in the White Horse copper belt and elsewhere, with discussion by others, p. 181-82.

Copy seen: DGS.

2164. BREWER, WILLIAM M. Some notes on the Copper River district, Alaska. (Canadian Institute of Mining and Metallurgy. Transactions, 1908. v. 11, p. 415-22, fold. map)

General remarks on the accessibility, occurrences of copper ores, and exploration of the Copper River district and its tributaries, the Chitina and Lakina Rivers.

Copy seen: DGS.

2165. BREWSTER, WILLIAM. An undescribed form of the black duck (*Anas obscura*). (Auk. Apr. 1902. v. 19, p. 183-88)

The red-legged bird which has breeding grounds along the northern Quebec-Ontario coast from Labrador to James and western Hudson Bays, is referred to a new subspecies *rubripes*.

Copy seen: DSI-M.

2166. BREYNAT, GABRIEL, and others. Vicariat apostolique du Mackenzie. (L'Apostolat, déc. 1940. v. 11,

p. 321-50, illus. (ports.) sketch map)
Title tr.: Apostolic vicariate of Mackenzie.

A special number of this monthly review of the Oblates of Mary the Immaculate. It is dedicated to the Mackenzie vicariate, in which some of the oldest missions were founded, at Lake Athabaska in 1847, and at Fort Simpson in 1858.

Contents include (tr.): A prefatory letter by G. Breynat. On Mackenzie. (Statement of the vicariate's personnel). Laffond, A. The vicariate of Mackenzie. (Brief history and notes on personnel, population, schools, hospitals, and the missions among Eskimos. Serurot, J. Transportation in the vicariate of Mackenzie. (Mackenzie River route). Binamé, A. Tour of the Mackenzie, 1940. **Copy seen:** CaOUS.

2167. BRICE, ARTHUR JOHN MONTEFIORE, 1859- . The Jackson-Harmsworth North Polar Expedition: an account of its first winter and of some discoveries in Franz Josef Land. (Geographical journal, Dec. 1895. v. 6, p. 499-522, sketch map)

Papers read before the Royal Geographical Society, Nov. 1895, noting early exploration, describing the track of the *Windward* in the ice, the house constructed at Cape Flora, the bear hunting, and Jackson's overland trip with ponies during the expedition's first year. **Copy seen:** DLC.

2168. BRICE, ARTHUR JOHN MONTEFIORE, 1859- . A note on the geography of Franz Josef Land. (Geographical journal, June 1894. v. 3, p. 492-97)

General statement of the facts (then) known, as drawn from the journals of J. Payer and B. Leigh Smith, and presented to the Society before the departure of the Jackson-Harmsworth Expedition, 1894-97. **Copy seen:** DLC.

2169. BRICE, ARTHUR JOHN MONTEFIORE, 1859- , and H. FISHER. The Jackson-Harmsworth Polar Expedition. Notes of the last year's work. (Geographical journal, Dec. 1896. v. 8, p. 543-66, illus., fold. map)

Contains an account of exploration along the southern coasts of Franz Josef Land, the story of Fridtjof Nansen's arrival (from the Fram Expedition) at Jackson's Camp on Cape Flora. Includes Some remarks on the flora of

Franz Josef Archipelago, also zoological notes (insects) by H. Fisher.

Copy seen: DLC.

2170. BRICE, HOWARD. The A. C. S. fights too. (Alaska life, Nov. 1944. v. 7, no. 11, p. 3-10, incl. 4 p. of illus.)

Account of work done by U. S. Army Signal Corps on the Alaska Communications System during World War II, under severe climatic conditions.

Copy seen: DLC.

2171. BRIDGE, MARY. The Arctic Institute of North America. (Canadian geographical journal, Dec. 1944. v. 29, p. 275-77)

Notes on the need for arctic research, the first meetings and committees which formed the Institute, and the scope of its activities and programme.

Copy seen: DLC.

BRIDGLAND, E. P., *see* Wilson, G. W., & E. P. Bridgland. Cold weather operation of aircraft. 1949.

2172. BRIDGMAN, HERBERT LAWRENCE, 1844-1924. Peary: an appreciation. (Geographical review, Mar. 1920. v. 9, p. 161-69, port.)

Contains a survey (in brief) of the geographical, ethnological, meteorological, hydrographic, and geological results of Peary's expeditions; with a Summary of Peary's tidal observations, prepared for this article by the U. S. Coast and Geodetic Survey.

Copy seen: DLC.

2173. BRIDGMAN, HERBERT LAWRENCE, 1844-1924. Peary: the man and his work. (International Geographical Congress. 10th, Rome, 1913. Atti, 1915. p. 617-34) **Copy seen:** DLC.

2174. BRIDGMAN, HERBERT LAWRENCE, 1844-1924. Peary's progress to the Pole. (American Geographical Society, N. Y. Bulletin, Dec. 1901. v. 33, p. 425-31)

A summary of the "more important features" of a lecture before the Society, Nov. 19, 1901, by the secretary of the Peary Arctic Club: an account (in brief) of the cruise of the *Erik*, July-Aug. 1901, to Etah under the author's command, the meeting with the Peary family and ship's company of the *Windward*, text of one telegram and two letters by Peary, Apr. 1901 (with additions made in Aug.), giving

details of his activities, May 1900–July 1901, in exploration around the north coast of Greenland.

Copy seen: DLC.

2175. BRIEF ACCOUNT OF THE MIS-
SIONARY SHIPS employed in the service of the mission on the coast of Labrador from the year 1770 to 1877. London, Printed by G. Norman & Son, 1877. 26 p. front.

Tribute to divine care of ships serving the Moravian missions, with some information on the ice conditions along the Labrador coast.

Copy seen: CaOAr.

2176. BRIERLY, J., and F. G. PAR-
SONS. Notes on a collection of ancient Eskimo skulls. (Royal Anthropological Institute of Great Britain and Ireland. Journal, 1906. v. 36, p. 104–120).

Contains detailed descriptions by Brierly of seventeen skulls collected by him on the west coast of Greenland between Godthaab and Umanak Fjord in 1905; with generalizations and conclusions by Parsons. Includes table of detailed craniometric measurements.

Copy seen: DLC.

2177. BRIGHT, Sir CHARLES TIL-
TON, 1832–1888. Synopsis of the surveys of the *Fox*, under the command of Capt. Allen Young. (Royal Geographical Society. Proceedings, Jan. 28, 1861. v. 5, p. 70–79)

Capt. Young's report (in brief) to promoters of the North Atlantic telegraph project, on the voyage, 1860. Includes notes on depths in Julianehaab Fjord, and ice in Davis Strait off southwestern Greenland.

Copy seen: DLC.

2178. BRINCHMANN, CHRISTOPHER, 1864–. Gronlands overgang til Danmark. (Norske geografiske selskab. Aarbok, 1919–21, pub. 1921. p. 89–188) *Title tr.:* The cession of Greenland to Denmark.

Discussion of the cession of Greenland by Norway to Denmark following the Treaty of Kiel, 1814, with historical documents.

Copy seen: DLC.

2179. BRINKMANN, AUGUST, 1878–. Noen evertebrater fra Barentshavet og Danmarkstredet; S/S "Borgenes" 's tokt 1932–33 og S/S "Heimland I" 's tokt 1933. Bergen, J. Grieg, 1942. 16 p. 2 sketch charts. (Bergen. Museum. Aarbok, 1941. Naturvidenskapelig

rekke, nr. 2) *Title tr.:* New invertebrates from Barents Sea and Denmark Strait; S.S. *Borgene* cruise 1932–33, and S.S. *Heimland I* cruise, 1933.

Based on collections from Norwegian fisheries investigations in waters from 30°–43°E., and northwards to 71°W. in Barents Sea, on the Bear Island banks, and in Denmark Strait. List of thirty species from Barents Sea and fourteen species from Denmark Strait, with discussion of size of some of the commercial shellfish; a list of the stations with position, depth, and bottom temperatures; and a bibliography.

Copy seen: DLC.

BRINKMANN, MARTIN CECILIUS
AUGUST, Jr., *see* Brinkmann, August, 1878–

2180. BRISKINA, M. M. Pitanie nepromyslovykh ryb Barentsova moria. (Moskva. Vsesoiuznyi nauchno-issledovatel'skii institut morskogo rybnogo khoziaistva i okeanografii. Trudy, 1939. T. 4, p. 339–54, diags.) *Title tr.:* Feeding of non-commercial fishes of Barents Sea.

A study based on 842 analyses of stomach contents of various non-commercial fish taken in Barents Sea, 1921–31, with a list of the collecting stations, fish species, and typical food. Bibliography (13 items). Summary in English.

Copy seen: DLC.

2181. BRISTOWE, WILLIAM SYER. The fauna of the arctic island of Jan Mayen and its probable origin. (Annals and magazine of natural history, Apr. 1925. Ser. 9, v. 15, p. 480–85)

Discussion of the affinity existing between the insect fauna of Jan Mayen and that of northern Europe, and statement of the conclusion that the westerly arctic current has brought the insects to Jan Mayen with the driftwood. Table shows complete list of insects and arachnids recorded from Jan Mayen, and their arctic distribution.

Copy seen: DSI–M.

2182. BRISTOWE, WILLIAM SYER. The insects and arachnids of Jan Mayen. (Cambridge Philosophical Society. Proceedings, 1921, pub. 1922. v. 21, p. 38–43)

Based on the author's collections made during the Cambridge Jan Mayen Expedition, 1921. Discussion of the manner in which these forms might

originally have reached Jan Mayen, and their relation to similar forms in other parts of the world; with list of five spiders, seven mites, ten insects (also eleven unidentified species), six fungi and three mosses. *Copy seen:* DLC.

2183. BRISTOWE, WILLIAM SYER. Spiders from the arctic island of Jan Mayen. (Zoological Society of London. Proceedings, 1948. v. 118, p. 223-25)

Notes on the four species of spiders recorded since 1882-83, and most recently found by the Oxford University Expedition, 1947.

Copy seen: DSI-M.

2184. BRISTOWE, WILLIAM SYER. The spiders of Bear Island. (Norsk entomologisk tidsskrift, 1933. Bd. 3, p. 149-54, illus.) Issued also as Norway. Norges Svalbard- og Ishavs-undersøkelser. Meddelelse nr. 21.

Based on collections of Sig Thor, 1928, and of the Cambridge Zoological Expedition, 1932. Discussion of the ecological relationships and the problem of how the two species of spiders reached Bear Island originally, with descriptive note on the two species.

Copy seen: DA.

2185. BRITISH COLUMBIA INDIAN ARTS AND WELFARE SOCIETY. Native designs of British Columbia. Victoria, B. C., 1948. 7 l., 7 col. plates, and 5 plates in pocket.

Reproductions of traditional Indian (mainly Haida) designs with explanatory notes, published as part of the Society's effort to encourage use of authentic figures and colors in handicrafts produced by present-day Indians for trade.

Copy seen: DSI.

2186. BRITISH MEDICAL JOURNAL. Food and health of Eskimos and Lapps. (British medical journal, Aug. 14, 1943. p. 207)

Brief remarks on present-day diet and diseases of these two peoples.

Copy seen: DGS.

2187. THE BRITISH POLAR EXPEDITION TO FORT RAE. (Meteorological magazine, Dec. 1932. v. 67, p. 249-52)

Review of the organization and program of the meteorological and geophysical work for Fort Rae in Mackenzie District, Canada, during the Second International Polar Year.

Copy seen: DLC.

2188. BRITTEN, M. Holothurien aus dem Japanischen und Ochotskischen Meere. (Akademiia nauk SSSR. Bulletin, 1906. Sér. 5, t. 25, p. 123-57) *Title tr.:* Holothuria from the Japan and Okhotsk Seas.

List, with synonyms, references and discussion, of eighteen species of sea cucumbers, of which five (including with descriptions two new) species were taken from the Okhotsk Sea, between 52°-55°N.

Copy seen: DLC.

2189. BRITTON, ELIZABETH GERTRUDE (KNIGHT) 1858-. Arctic mosses. (Bryologist, Nov. 1909. v. 12, p. 106)

List of fifty-seven mosses and five liverworts collected by Peary in Grant Land, Ellesmere Island, 1902, and by Dr. L. J. Wolf in Grant Land, 1906, especially in the Wrangel and Lincoln Bays region.

Copy seen: DLC.

2190. BRITTON, NATHANIEL LORD, 1859-1934, and P. A. RYDBERG. Contributions to the botany of the Yukon Territory. 4. An enumeration of the flowering plants collected by R. S. Williams and J. B. Tarleton. (New York Botanical Garden. Bulletin, 1901, v. 2, p. 149-87)

Annotated list with localities of more than three hundred (including with descriptions, thirty-three new) species of plants, collected 1898-99.

Copy seen: DA.

2191. BRÜGGEN, ERNST EDUARD-DOVICH. Amphipoda Ekaterinenskoï gavan i eia okrestnostei. (Leningradskoe obshchestvo estestvoipyitatelei. Trudy, 1905. T. 36, vyp. 1, p. 218-28, plate) *Title tr.:* On Amphipoda of Catherine Harbor and vicinity.

Contains a systematic list of amphipodous crustaceans collected in 1904 and 1905 in Yekaterininskaya Gavan' (69°13'N. 33°26'E.) the harbor at Murmansk and in adjoining parts of Kola Bay, and determined by the author; includes Russian and German descriptions of *Ambasia murmanica* and *Protonotocia grandimana* n. spp.

Summary in German.

2192. BROCH, HJALMAR, 1882-. Alcyonarians, with a systematic-biographical discussion of the northern *Eunephthya*-species. Bergen, John Grieg, 1928. 19 p. illus. (*Maud Expedition*, 1918-1925. Scientific results, v. 5, no. 7)

General discussion of octocorals and their taxonomy and list, with synonymy and discussions of distribution, of four species, of two of which, specimens were collected by the *Maud Expedition* in the East Siberian Sea and the New Siberian Islands waters; bibliography (13 items).
Copy seen: DSI-M.

2193. BROCH, HJALMAR, 1882-. Arktiske alcyonarier i Tromsø Museum. (Tromsø, Norway. Museum. Aarshefter, 1911, pub. 1912. Bd. 34, p. 179-86, illus.)
Title tr.: Arctic Alcyonacea in Tromsø Museum.

Contains a list of fourteen species of marine polyps (Alcyonaceae) belonging to the collection in Tromsø Museum, mostly from the fiords of northern Norway, one species, *Eunephthya rubiformis*, is also native to Svalbard and Novaya Zemlya waters.

Copy seen: MH-A.

2194. BROCH, HJALMAR, 1882-. Bipolarity, a problem of zoogeography. (Norsk geografisk tidsskrift, 1939. Bd. 7, hefte 5-8, p. 57-65)

Discussion of theories and literature on the distribution of bipolar littoral marine fauna; bibliography (17 items).

Copy seen: DLC.

2195. BROCH, HJALMAR, 1882-. Cirripedia. Bergen, John Grieg, 1936. 5 p. illus. (*Maud Expedition*, 1918-1925. Scientific results, v. 5, no. 19)

List, with localities, remarks on specimens and discussion of literature, of one species of barnacles collected by the *Maud Expedition*, in the Laptev Sea and of one species collected by the Second *Fram Expedition*, 1898-1902 in Folkefjord, northwest Greenland; bibliography (4 items).

Copy seen: DSI-M.

2196. BROCH, HJALMAR, 1882-. Coelenterés du fond. Bruxelles, 1912. 2 p. l., ii, 29 p. fold. chart. (Orléans, Louis Philippe Robert, *Duc d'* Campagne arctique de 1907. No. 10) *Title tr.:* Bottom coelenterates. (Duke of Orleans Arctic Expedition, 1907)

Contains an annotated list, with localities, of thirty-three species of hydroids, sea anemones, etc., collected from the *Belgica* 1907, in Kara Sea (and a few in Barents Sea near Novaya Zemlya); discussion of their geographic distribution; and a bibliography (19 items).

Chart shows circumpolar distribution of coelenterates.

Copy seen: DSI-M.

2197. BROCH, HJALMAR, 1882-. Einige Probleme der biogeographischen Abgrenzung der arktischen Region. (Berlin. Zoologisches Museum. Mitteilungen, 1933. Bd. 19, p. 1-20, 6 sketch maps) *Title tr.:* Some problems of the biogeographic limits of the arctic region.

Discussion of the two limit lines (one of plankton in the water, and the other of the bottom and its fauna) found along the southern Greenland Sea and Davis Strait waters; with remarks on related problems of hydrography and bathymetry, and a bibliography (21 items).

Copy seen: DSI-M.

2198. BROCH, HJALMAR, 1882-. Hydroida. Copenhagen, B. Luno, 1916. 2 p. l., 66 p. 2 plates, 20 sketch charts. (Ingolf-expedition, 1895-1896. [Reports] v. 5, pt. 6)

Based on the cruiser *Ingolf's* and other Danish collections from the Faeroes, Iceland and Greenland waters, a "new and detailed" diagnosis of the northern species, including a list, with descriptions, localities, geographic and bathymetric distribution, of thirty species of athecate hydroids. Addenda with two more (one new) species, appears in the author's *Hydroida II*, q.v.

Copy seen: DSI-M.

2199. BROCH, HJALMAR, 1882-. Hydroida II. Copenhagen, B. Luno, 1918. 2 p. l., 205 p. plate, 95 sketch charts. (Ingolf-expedition, 1895-1896. [Reports] v. 5, pt. 7)

Based on the cruiser *Ingolf's* and other Danish collections from the waters of Greenland, Iceland and The Faeroes.

Contents: 1. Comparative anatomy of the nourishing individuals, and systematic division of the thecophore hydroids. 2. Thecophore hydroids of the northern Atlantic. (List, with synonyms, locations, distribution and other notes, of eighty-five (three new) species). 3. Addenda to the athecate Hydroida. (Discussed in pt. 6 of these reports, the author's *Hydroida I*, q.v.) 4. Zoogeographical observations. 5. List of genera and type species. 6. Index and errata. Bibliography (124 items).

Copy seen: DSI-M.

2200. BROCH, HJALMAR, 1882- . Die Hydroiden der arktischen Meere. (*In*: Fauna arctica, 1910. Bd. 5, p. 127-248, illus., 3 plates, sketch map, tables) **Title tr.:** Hydroids of arctic seas.

Contains a discussion of their taxonomy; the taxonomy and variations of the fifty-eight (including two new) species, collected by the German Expedition to the Arctic Ocean, 1898; a list, with synonyms, localities, and depths, of one hundred seventy-three species from arctic seas, and from Baffin Bay-Davis Strait, and Labrador Sea. Discussion of their zoogeographical relationships, and a bibliography (182 items).

Copy seen: DA.

2201. BROCH, HJALMAR, 1882- . Hydroiden og Medusen. Kristiania, A. W. Brøgger, 1907. 12 p. 2 plates. (Norske videnskaps-akademi i Oslo. Report of the Second Norwegian Arctic Expedition in the *Fram*, 1898-1902, v. 2 (no. 12))

List, with some descriptions and locations of thirteen (including one new) species of polyps and medusae from the region of Smith and Jones Sounds.

Copy seen: DLC.

2202. BROCH, HJALMAR, 1882- . Noen dyregeografiske trekk i Nordhavens bunndyrverden. (Norsk geografisk tidsskrift, 1936-37, pub. 1937. Bd. 6, p. 303-18, sketch maps) **Title tr.:** Zoogeography of deep sea fauna in arctic seas.

Discussion of distribution of deep sea fauna in arctic waters and its causes; bibliography (5 items).

Copy seen: DLC.

2203. BROCH, HJALMAR, 1882- . Die Oktokorallen der Arktis. (*In*: Fauna arctica, 1929. Bd. 5, p. 1043-52) **Title tr.:** The Alcyonaria of the Arctic.

Contains discussion of the marine limits of the Arctic; a list of fifteen soft corals, sea whips and sea feathers, a key to the order, and a bibliography (26 items).

Copy seen: DA.

2204. BROCH, HJALMAR, 1882- . Oktokorallen des nördlichsten pazifischen Ozeans, und ihre Beziehung zur atlantischen Fauna. Oslo, Jacob Dybwad, 1936. 53 p. 21 illus. (incl. sketch maps) (Norske videnskaps-akademi. Avhandlinger. I. Matematisk-naturvidenskapelig klasse, 1935, no. 1) **Title tr.:** Octocorals from the northernmost Pacific Ocean and their relation to the fauna of the Atlantic Ocean.

List, with localities and discussions, of seventeen (including five new) species of corals collected by Russian expeditions in the Pacific seas from the Sea of Japan to Bering Strait, with discussion of distribution; bibliography (about 40 items).

Copy seen: DLC.

2205. BROCH, HJALMAR, 1882- . Das Plankton der schwedischen Expedition nach Spitzbergen, 1908. (Svenska Spetbergs-expeditionen, 1908. Zoologiske Resultate, Teil 1, [Heft 2]. Pub. in: Svenska vetenskapsakademien. Handlingar, 1910. Bd. 45, no. 9, p. 25-64, illus., tables, map. **Title tr.:** Plankton of the Swedish Expedition to Spitzbergen 1908.

Survey of planktonic conditions, in Ice Fiord, July-Aug. 1908, with a list and descriptions of some samples taken. Includes a list, with descriptions, of seventeen (including three new species of Peridinium (protozoans).

Copy seen: DLC.

2206. BROCH, HJALMAR, 1882- . Spongia, Coelenterata and Actiniaria. Bergen, John Grieg, 1936. 5 p. (*Maud Expedition, 1918-1925. Scientific results*, v. 5, no. 18)

List, with localities and some remarks, of nine species of sponges, hydroids and sea anemones collected in the Laptev and East Siberian Seas; bibliography (5 items).

Copy seen: DSI-M.

2207. BROCH, HJALMAR, 1882- . Stylasteridae. Copenhagen, B. Luno, 1914. 2 p. 1., 26 p. illus., 5 plates. (Ingolf-expedition, 1895-1896. [Reports] v. 5, pt. 5)

Based on specimens collected by the cruiser *Ingolf* and on museum specimens; descriptions, localities, systematic

position, and zoogeographical remarks on four species of hydrocorals, two of which are reported from Denmark Strait; with a bibliography (30 items).

Copy seen: DSI-M.

2208. BROCH, HJALMAR, 1882- . Die von dem norwegischen Fischereidampfer "Michael Sars" in den Jahren 1900-1902 in dem Nordmeer gesammelten Hydroiden. Bergen, J. Grieg, 1904. 14 p. fold. table. (Bergen, Norway. Museum. Aarbok, 1903. No. 9) *Title tr.:* Hydroids collected by the Norwegian fishery-steamer, *Michael Sars*, 1900-1902 in northern seas.

Annotated list of thirty-eight (including two new) species from Greenland Sea and Svalbard waters and one species from Denmark Strait, representing material collected from stations in Denmark Strait, Jan Mayen and Bear Island waters in 1900, Kings Bay and Green Harbour, West Spitsbergen in 1901, and North Atlantic waters in 1902. Includes a distributional table and a bibliography (15 items).

2213. BROCKAMP, BERNHARD, 1902- . Die Mächtigkeit des grönländischen Inlandeises. (Zeitschrift für Gletscherkunde, 1935. Bd. 23, p. 277-85) *Title tr.:* The thickness of Greenland's inland ice.

A restatement and discussion of E. Sorge's seismic research and results on the measurement of thickness of the inland ice during the German Greenland Expedition of Alfred Wegener.

Copy seen: DGS.

2214. BROCKAMP, BERNHARD, 1902- . Über den jährlich Zutrag in 120 und 62 km. Randabstand. (Deutsche Grönland-Expedition Alfred Wegener, 1929 und 1930-1931. Wissenschaftliche Ergebnisse, 1935. Bd. 3, p. 52-61, illus.) *Title tr.:* The annual accretion in 120 and 62 km. borderlines. (German Greenland Expedition Alfred Wegener, 1929 and 1930-1931).

Contains a discussion of the average amount of snow accumulated by the inland ice over and above the loss through melting, etc. Includes studies of the layers as exposed in crevasses and shafts, and remarks on "red snow" and dust on snow. *Copy seen:* DLC.

2215. BROCKAMP, BERNHARD, 1902-
Überlegungen zur Temperaturverteilung im Inlandeis auf Grund seismischer Ergebnisse. (Deutsche Grönland-Expedition Alfred Wegener, 1929 und 1930-1931. Wissenschaftliche Ergebnisse, 1935. Bd. 3, p. 41-51) *Title tr.:* Reflections upon the temperature distribution within the inland ice, based on seismic results. (German Greenland Expedition Alfred Wegener, 1929 and 1930-1931).

Direct measurements of temperature were made by means of a shaft bored into the ice to a depth of twenty to thirty meters. Measurements by an indirect seismic method are treated in the author's *Die seismischen Ergebnisse auf der Hauptexpedition* 1933, q.v. (especially p. 84-85). In this paper he discusses more fully the theory and results of his work, gives the formulae for rigidity, elasticity and compressibility moduli used to arrive at temperature values based on speed of sound in the ice, and remarks upon this method.

2216. BROCKAMP, BERNHARD, 1902-, and **KURT WÖLCKEN.** Die seismischen Ergebnisse auf der Hauptexpedition zwischen Weststation und 120 km. Randabstand. (Deutsche Grönland-Expedition Alfred Wegener, 1929 und 1930-1931. Wissenschaftliche Ergebnisse, 1933. Bd. 2, p. 1-123, incl. 45 p. of diags.) *Title tr.:* The seismic results of the main expedition, between West Station and the 120 km. borderline. (German Greenland Expedition Alfred Wegener, 1929 and 1930-1931).

Contents tr.: 1. The original seismic curve (Seismograms for various stations)

2. Brockamp, B., and K. Wölcken. The continuous time curves and measurement of ice thickness between West Station and 120 km. borderline. (Includes description of methods of taking measurements of thickness of the ice; results of observations of continuous time curve, and the reflections)

3. Brockamp, B. Supplementary research (Surface form and subsurface

rock, the period of direct and reflected longitudinal waves, amplitude and angle of direct and reflected waves, transverse and surface waves).

Copy seen: DLC.

BROCKAMP, BERNHARD, 1902-

2238. BRONSHTEIN, Z. S. Klass Pantopoda-Piknogony; klass Brachiopoda-Plechenogie. (In: Gaevskaiã-Sokolova, N. S., and others. Opreditel' fauny i flory, 1948. p. 344-51 illus., plates 92-94; p. 461-62, plate 119) *Title tr.*: Classes Pantopoda and Brachiopoda.

Contains data on the morphology of marine pycnogonids (Pantopoda-Pycnogonidae) and brachiopods of the arctic seas of the U.S.S.R.; and keys for determination of families and genera of these classes.

Copy seen: DLC; MH-Z.

2239. BRONTMAN, LAZAR' KONSTANTINOVICH. Na vershine mira. Moskva, Gos. izd-vo "Khudozhestvennaiã literatura". 1938. 228 [1] p., 1 l., illus. *Title tr.*: On the top of the world. Also published in English translation with title as above, q.v.

Narrative on the U.S.S.R. Expedition to the North Pole with a description of the planes' flights thither, and short

day-to-day notes of the author's ten-day sojourn at the North Pole, in June 1937.

Copy seen: DLC.

2240. BRONTMAN, LAZAR' KONSTANTINOVICH. On top of the world; the Soviet expedition to the North Pole, 1937. Edited and with a foreword by Academician O. J. Schmidt. London, V. Gollancz, 1938. 287 p. 24 plates, sketch maps (1 fold.)

A translation of the author's *Na vershine mira*, q.v., with new material consisting of a foreword, a chapter of the radio messages sent by the ice-floe Drifting Station "North Pole" from June 6 to Sept. 28, 1937, and an appendix listing the equipment of the station. The messages contain scientific data.

The account of the rescue in the New York edition is not included here.

Copy seen: DLC.

2241. BRONTMAN, LAZAR' KONSTANTINOVICH. On top of the world; the Soviet expedition to the North Pole, 1937-1938. With a foreword by Professor Otto Y. Schmidt. New York, Covici, Friede [1938] 343 p. 8 plates, sketch maps.

A translation of the author's *Na vershine mira*, q.v. The foreword, six chapters (p. 238-338), and an appendix listing the equipment of the drifting station have been added. The new chapters tell the story of the ice-floe Drifting Station "North Pole" from the time the planes left (June 6, 1937) till its rescue on Feb. 19, 1938, by the ice-breakers *Taimyr* and *Murman*, at 70°54'N. 19°48'W. The numerous radio messages given include scientific data. The account of the rescue is not in the London edition.

Copy seen: DLC.

2242. BRONZOV, A. Ia. Lugovye fondy Sibirskogo Severa. (In: Eikhfel'd, I. G., and N. Ia. Chmora, editors. Sel'skokhoziaistvennoe osvoenie Kraïnego Severa, 1937. Pub. as Vsesoiuznaiã akademiã s.-kh. nauk. Trudy. Vyp. 13, p. 220-24) *Title tr.*: Meadow resources of the Siberian North.

Information on the water meadows as natural resources ("green gold of Siberia"), especially in the Ob River basin, and discussion of the possibility of their utilization.

Copy seen: DLC.

2243. BROOKFIELD, R. M. Report. (In: U. S. Adjutant General's Office. Military Information Division. Reports

of explorations in the Territory of Alaska [etc.] 1898, *pub.* 1899. p. 389-401) Reprinted in: U. S. Congress. Senate Committee on Military Affairs. Compilation of narratives of explorations in Alaska. 1900. p. 593-99.

An account of the crossing of Valdez Glacier, as part of the U. S. Military Exploring Expedition no. 2, and survey of the pass called by the author "Bates Pass."

Copy seen: DGS.

2244. BROOKS, ALFRED HULSE, 1871-1924. Alaska coal and its utilization. (*In:* U. S. Geological Survey. Mineral resources of Alaska in 1909. Bulletin, 1910. No. 442, p. 47-100, fold. map)

Contains notes on geologic distribution of coal, its composition, areas of lands and fields, and tonnage estimates; descriptions of the coal fields: Southeast Alaska, Bering River, Copper River, Matanuska, Susitna basin, Alaska Peninsula, Yukon region, Kuskokwim basin and Bering Sea coast, Seward Peninsula, and northern Alaska. Mining developments, costs and markets, with a discussion of competition between Alaska coal and other fuels. Description of the coal fields, their availability as a source of fuel, and the possible market, drawn from data in U. S. Geological Survey publications; bibliography.

Copy seen: DGS.

2245. BROOKS, ALFRED HULSE, 1871-1924. The Alaskan range; a new field for the mountaineer. (American Geographical Society, N. Y. Bulletin, Aug. 1905. v. 37, p. 468-79, illus.)

A description (for the general reader) of the beauties, the early history, and exploration, and attempts to ascend major peaks, in the Alaskan Range.

Copy seen: DLC.

2246. BROOKS, ALFRED HULSE, 1871-1924. Antimony deposits of Alaska. Washington, U. S. Govt. Print. Off., 1916. 67 p. illus., 3 plates incl. 2 fold. maps (1 in pocket) (U. S. Geological Survey. Bulletin 649)

Contains a report on the geology, distribution (with map), mode of occurrence, mines and prospects of the ores in Fairbanks district, Lower Yukon and Kuskokwim region, Seward Peninsula, Prince William Sound and Kenai Peninsula, also miscellaneous localities.

Copy seen: DGS.

2247. BROOKS, ALFRED HULSE, 1871-1924. The Bluff region. (*In:* Collier, A. J., and others. The gold placers of parts of Seward Peninsula. U. S. Geological Survey. Bulletin, 1908. No. 328, p. 283-93)

Notes on the topography, geology, and placers of a region on the southern coast of Seward Peninsula, defined as including streams tributary to Norton Sound from Topkok Head to Koyana Creek (163°40'-164°W.).

Copy seen: DGS.

2248. BROOKS, ALFRED HULSE, 1871-1924. The Circle precinct. (*In:* U. S. Geological Survey. Mineral resources of Alaska in 1906. Bulletin, 1907. No. 314, p. 187-204)

Notes, based on the writer's observations in 1906, in the Birch Creek district, on the general geology, and development of gold on Birch Creek tributaries, and of gold and coal on the creeks tributary to Yukon River.

Copy seen: DGS.

2249. BROOKS, ALFRED HULSE, 1871-1924. The coal resources of Alaska. (U. S. Geological Survey. Annual report, 1900-1901, *pub.* 1902. v. 22, pt. 3, p. 515-71, double-face map, fold. table)

Contains a compilation of parts of W. H. Dall's *Report on coal and lignite of Alaska*, 1896, and others, showing the geological relationships of the distribution of coal-bearing rocks (with map). Description of Cretaceous and Tertiary rocks; the coal of southeastern and southwestern Alaska (Susitna River, Kenai Peninsula, Kodiak Island, Alaska Peninsula, Shumagin and Aleutian Islands), the Kuskokwim region, the Yukon basin, and northwestern Alaska; with notes on the character of the coals, and the historic development of coals.

Copy seen: DGS.

2250. BROOKS, ALFRED HULSE, 1871-1924. The distribution of mineral resources in Alaska. (*In:* U. S. Geological Survey. Mineral resources of Alaska in 1907. Bulletin, 1908. No. 345, p. 18-29, fold. map, tables)

"Represents the first attempt to deal with the general problem of the distribution and genesis of the mineral deposits." Includes tables of analyses of coal, and tests of petroleum; discussion of gold and copper.

Copy seen: DGS.

2251. BROOKS, ALFRED HULSE, 1871-1924. An exploration to Mount McKinley, America's highest mountain. (Smithsonian Institution. Annual report, 1903, pub. 1904. p. 407-425, 11 plates) Reprinted from the Journal of geography, Nov. 1903. v. 2, no. 9.

Account of an exploratory trip made by the author with a small party, for the U. S. Geological Survey, from Cook Inlet, along the Alaskan Range, and by the Cantwell (Nenana) River to the Yukon, May-Sept. 1902.

Copy seen: DLC.

2252. BROOKS, ALFRED HULSE, 1871-1924. The future of Alaska. (Association of American Geographers. Annals, 1925. v. 15, p. 163-79, illus.) General description of Alaska's climate, vegetation, natural resources, etc.

Copy seen: DLC.

2253. BROOKS, ALFRED HULSE, 1871-1924. The geography and geology of Alaska; a summary of existing knowledge, by Alfred H. Brooks; with a section on climate, by Cleveland Abbe, Jr., and a topographic map and description thereof, by R. U. Goode. Washington, U. S. Govt. Print. Off., 1906. 327 p. 34 plates (part fold., incl. 12 maps) diags. (U. S. Geological Survey. Professional paper no. 45. Ser. B, Descriptive geology, 75; F, Geography, 46) Issued also as House doc. 201, 59th Cong., 1st sess.

Contents: Introduction and descriptive geography (coastal features and islands, fiords, mountains, and drainage) p. 11-103.

History of explorations and surveys, p. 104-132.

ABBE, CLEVELAND. Climate, p. 133-200. Geology (stratigraphy, structure, geologic history, geomorphology) p. 200-296. Goode, R. U. Description of topographic map of Alaska, p. 296-98. Bibliography, p. 298-308. Index, p. 309-327.

The paper by Abbe appears in this Bibliography under its author's name.

Maps include a topographic map of Alaska, contour interval 1000 ft., scale 1:2,500,000.

Copy seen: DGS.

2254. BROOKS, ALFRED HULSE, 1871-1924. Geography in the development of the Alaskan coal deposits. (Association of American Geographers. Annals, 1911. v. 1, p. 85-94, sketch map)

Discussion of the commercial value of coal and its factors, the coal provinces in Alaska and competition in the fuels market.

Copy seen: DLC.

2255. BROOKS, ALFRED HULSE, 1871-1924. Geologic features of Alaskan metalliferous lodes. (*In:* U. S. Geological Survey. Mineral resources of Alaska in 1910. Bulletin, 1911. no. 480, p. 43-93, illus., 4 fold. maps)

A summary of salient geologic features showing the relation of deposits of different parts of Alaska to one another; based on published reports of the U. S. Geological Survey, with a bibliography. Gives descriptions of the geographic and geologic distribution of lodes, the geologic history, and the ore deposits (gold, copper, silver, lead, and zinc, tin and tungsten, iron, antimony, and other metallic minerals).

Copy seen: DGS.

2256. BROOKS, ALFRED HULSE, 1871-1924. Geological reconnaissance in southeastern Alaska. (Geological Society of America. Bulletin, Aug. 1902. v. 13, p. 253-66)

Contains notes on the geography and stratigraphy of the Ketchikan mining district and other parts of southeastern Alaska, based on observations made in 1901 for the U. S. Geological Survey.

Copy seen: DGS.

2257. BROOKS, ALFRED HULSE, 1871-1924. Ground frost in Alaska. (Engineering and mining journal, Sept. 15, 1917. v. 104, p. 491)

Brief note on wide distribution of permafrost in Central Alaska and Seward Peninsula.

Copy seen: DGS.

2258. BROOKS, ALFRED HULSE, 1871-1924. The investigation of Alaska's mineral wealth. (American Geographical Society, N. Y. Bulletin, Jan. 1905. v. 37, p. 26-40)

General historical sketch of exploration of resources of Alaska, and account of the U. S. Geological Survey's efforts.

Copy seen: DLC.

2259. BROOKS, ALFRED HULSE, 1871-1924. The investigation of Alaska's mineral wealth. (American Institute of Mining Engineers. Transactions, 1904, pub. 1905, v. 35, p. 376-96)

Outline (in brief) of the operations of the U. S. Geological Survey in Alaska, with a list of publications, 1891-

Copy seen: DGS.

1904.

2260. BROOKS, ALFRED HULSE, 1871-1924. The Kougarak region. (*In*: Collier, A. J., and others. The gold placers of parts of Seward Peninsula. U. S. Geological Survey. Bulletin, 1908. no. 328, p. 294-328, illus.) Abstract of this paper was published in U. S. Geological Survey, Mineral resources of Alaska in 1906, *pub.* 1907.

Contains descriptions of the topography, geology, mining development of placer gold, and auriferous gravel distribution of a region in the central part of Seward Peninsula, drained by the Kougarak and Kuzitrin Rivers (65°15'-65°45'N., 164°05'-165°15'W.)

2261. BROOKS, ALFRED HULSE, 1871-1924. Mineral resources of Alaska. (*In*: U. S. Geological Survey. Papers on the conservation of mineral resources. Bulletin, 1909. No. 394, p. 172-207, fold. map) Issued originally as part of the Report of the National Conservation Commission, 1909. U. S. Congress, 60th, 2d sess. Senate. Doc. no. 676.

Description of coal, gold, and other minerals with remarks on water resources.

Copy seen: DGS.

2262. BROOKS, ALFRED HULSE, 1871-1924. Placer mining in Alaska in 1903. (*In*: U. S. Geological Survey. Contributions to economic geology, 1903. Bulletin, 1904. No. 225, p. 43-59)

A survey of progress made in the southeastern Alaska, Kuskokwim and Mt. McKinley, Seward Peninsula, and Yukon basin regions, with notes on output, costs, the new telegraph line, and other improvements.

Copy seen: DGS.

2263. BROOKS, ALFRED HULSE, 1871-1924. Placer mining in Alaska in 1904. (*In*: U. S. Geological Survey. Mineral resources of Alaska in 1904. Bulletin, 1905. No. 259, p. 18-31)

Contains an estimate of annual production, 1899-1904; description of mining for 1904 in the Seward Peninsula, Kobuk River, Yukon River, Cook Inlet, and Copper River regions.

Copy seen: DGS.

2264. BROOKS, ALFRED HULSE, 1871-1924. Preliminary report on the Ketchikan mining district, Alaska, with an introductory sketch of the geology of southeastern Alaska. (Washington, U. S. Govt. Print. Off., 1902. 120 p.

illus., 2 maps. U. S. Geological Survey. Professional paper no. 1: ser. A, Economic geology, 16; B, Descriptive geology, 20)

Contents: Introduction, p. 11-13. Sketch of the geology of southeastern Alaska (stratigraphy and glacial phenomena), p. 14-35. The Ketchikan mining district (history, geology, description of the minerals, of the gold, copper and silver claims and mines by locality, coal, building stone and lime, climate and timber), p. 35-116.

Maps: geologic sketch map of Southeast Alaska; geologic reconnaissance map of part of Ketchikan mining district; six sketch maps of various localities showing claims.

Copy seen: DGS.

2265. BROOKS, ALFRED HULSE, 1871-1924. Railway routes. (*In*: U. S. Geological Survey. Mineral resources of Alaska in 1905. Bulletin 1906. No. 284, p. 10-17, 8 plates)

A summary of possible routes, with discussion of the need for opening up various parts of Alaska.

Copy seen: DGS.

2266. BROOKS, ALFRED HULSE, 1871-1924. Railway routes from the Pacific seaboard to Fairbanks. (*In*: U. S. Geological Survey. Mineral resources of Alaska in 1911. Bulletin, 1912. No. 520, p. 45-88, 2 fold. maps, fold. diagr.)

Summary of data from various U. S. government sources, with a bibliography. Includes notes on cost of construction, commercial and geographic conditions affecting location, and descriptions of principal routes.

Copy seen: DGS.

2267. BROOKS, ALFRED HULSE, 1871-1924. A reconnaissance from Pyramid Harbor to Eagle City, Alaska, including a description of the copper deposits of the upper White and Tanana Rivers. (U. S. Geological Survey. Annual report, 1899-1900, *pub.* 1900. v. 21, pt. 2, p. 331-91, 11 plates (incl. 5 maps))

The geologist's report of a U. S. Geological Survey exploring expedition in 1899, under W. J. Peters, topographer. Itinerary: from head of Lynn Canal up Dalton Trail to Kaskowulsh, thence to Lake Klauane, Donjek River, Kluthlan Glacier, Nutzotin Mts., Tetling, Franklin Gulch and Eagle City. The

report includes notes on topography and drainage (including White, Tanana, and Fortymile Rivers) and on the physiography. Description of geologic formations, glacial phenomena, and ground ice, with geological summary; mineral resources (gold, copper, and coal). Routes and methods of traveling (Dalton Trail, routes to upper White and upper Tanana Rivers and railway routes). Timber, game, climate and Indians. Index at end of volume.

Maps include: Route from Lynn Canal to Eagle City (contour interval 500 ft., scale 1:625,000).

Copy seen: DGS.

2268. BROOKS, ALFRED HULSE, 1871-1924. A reconnaissance in the Tanana and White River basins, Alaska, in 1898. (U. S. Geological Survey. Annual report, 1898-99, *pub.* 1900. v. 20, pt. 7, p. 425-94, 3 plates, 4 fold. maps)

Report from the geologist of a U. S. Geological Survey field party under W. J. Peters, topographer. Itinerary: Skagway, Bennett City, B. C., Marsh Lake, Whitehorse rapids, Lake Laberge, Lewis River, up the White River and Snag River, portage to Tanana River and thence to its mouth. Includes notes on previous exploration; description of routes and means of transportation, topography and drainage, and physiographic development. Chapters on geology (description of the series, summary of stratigraphic and structural geology, and correlation); resources (gold, copper, and coal) agriculture and climate; inhabitants (Tanana Indians).

Index for entire volume, p. 495-509.

Maps include topographic map, and two geological reconnaissance maps (one with a section) of portions of White and Tanana Rivers.

Copy seen: DGS.

2269. BROOKS, ALFRED HULSE, 1871-1924, and others. A reconnaissance of the Cape Nome and adjacent gold fields of Seward Peninsula Alaska, in 1900. (*In:* U. S. Geological Survey. Reconnaissances in the Cape Nome and Norton Bay regions, Alaska, in 1900, *pub.* 1901. p. 1-180, illus., 17 plates (incl. 6 maps, 1 fold.)) *Other authors:* G. B. Richardson and A. J. Collier.

Report of a U. S. Geological Survey party under A. H. Brooks, to make geologic and topographic investigations west of Fish River on the southern part

of Seward Peninsula. It contains geographical notes (with maps) on the peninsula as a whole, also on the southern half, including the Kigluaiik and Bendeleben Mts., the Imurak basin and Fish, Kruzgamepa and Kuzitrin Rivers. Remarks on general geology (with maps): sedimentary and igneous rocks, structure, and physiography. Economic geology: regional descriptions (Nome, Cripple and Penny River, Sinuk, Eldorado, Bonanza, Solomon, Niukluk, Kruzgamepa, and Kugruk basins, Topkok and York); data on distribution, source, and classification of gold placers; notes on mining methods. Appended is: Climatic notes [with tables] and notes on vegetation [with list of 79 species], by A. J. Collier; *also:* Topographic survey of Nome region, with table of approximate distances, by E. C. Barnard.

Appendix: Description of boundaries of the various (claim) recording districts in Cape Nome gold fields.

Copy seen: DGS.

2270. BROOKS, ALFRED HULSE, 1871-1924. The value of Alaska (Geographical review, Jan. 1925. v. 15, p. 25-50, illus. (incl. diagrs.) fold., col. plate (3 inset maps))

Résumé of the natural resources, with three map representations of land classification and fisheries, transportation and water power, and distribution of mineral deposits.

Copy seen: DLC.

2271. BROOKS, ALFRED HULSE, 1871-1924, and E. M. KINDLE. Paleozoic and associated rocks of the upper Yukon, Alaska. (Geological Society of America. Bulletin, Oct. 1908. v. 19, p. 255-314, 2 plates)

Results of field studies during 1906, in the area 141°-152°W. and from the Tanana River northward to about the 67° parallel, including regions drained by the Porcupine, Yukon, and Tanana Rivers. Describes the stratigraphy, structure, and geologic history, and gives lists of fossils from various localities.

Copy seen: DGS.

2272. BROOKS, ALFRED HULSE, 1871-1924, and L. M. PRINDLE. The Mount McKinley region, Alaska, by Alfred H. Brooks, with descriptions of the igneous rocks and of the Bonifield and Kantishna districts, by L. M. Prindle. Washington, U. S. Govt. Print. Off., 1911. 234 p. illus., 18 plates (part

fold., incl. 6 maps) fold. tables. (U. S. Geological Survey. Professional paper 70)

Report of a U. S. Geological Survey geologic and topographic reconnaissance in charge of the author, 1902, with additional later information for the geologist, prospector, hunter, and settler. Contains notes on equipment and methods, and a narrative of the 1902 expedition; description of the topographic survey in 1902 by D. L. Raeburn, and of the surveys conducted by R. W. Porter during the second attempt by Dr. Frederick A. Cook to ascend Mt. McKinley, 1906; remarks on geographic features and topographic provinces (with map). Description (with maps) of stratigraphy, structure, geologic history, geomorphology, igneous rocks, and mineral resources (lithologic associations, metal deposits, and coal). Notes on climate, vegetation and animal life, timber (with map), flora (list of one hundred twenty-eight species) agriculture, game and hunting, population, transportation and communication.

2274. BROOKS, CHARLES ERNEST PELHAM. Arctic ice and British weather. (Meteorological magazine, Oct. 1928. v. 63, p. 214-17)

Correlations between the extent of arctic ice and subsequent pressure distribution over northwestern Europe are not high but are real.

Copy seen: DLC.

2275. BROOKS, CHARLES ERNEST PELHAM. The east-west oscillation of the Icelandic minimum as shown by monthly pressure charts. (Meteorological magazine, Sept. 1923. v. 58, p. 173-78, diags.)

Large scale shifts in the atmospheric circulation in the Arctic are associated with the variation of the position of the "Icelandic Low".

Copy seen: DLC.

2276. BROOKS, CHARLES ERNEST PELHAM. Extremes of temperature. (Meteorological magazine, Aug. 1926. v. 61, p. 156-59)

Reference is made to the world's absolute minimum temperature of -94°F. at Verkhoyansk among other world record temperatures.

Copy seen: DLC.

2277. BROOKS, CHARLES ERNEST PELHAM. The influence of the ice in Davis Strait on the weather of the British Isles. (Meteorological magazine, Aug. 1932. v. 67, p. 153-56, illus.)

The extent of ice in Davis Strait is correlated with pressure distribution over western Europe and adjacent seas for the same year and subsequent periods.

Copy seen: DLC.

2278. BROOKS, CHARLES ERNEST PELHAM. The problem of warm polar climates. (Royal Meteorological Society. Quarterly journal, April 1925. v. 51, p. 83-94)

A theoretical consideration of the variability of an icecap over land and sea. The areal extent is not only affected by the change in air temperature but also by the cooling power of the ice and the horizontal gradient of the temperature.

Copy seen: DLC.

2279. BROOKS, CHARLES ERNEST PELHAM. The secular variation of temperature at Spitsbergen. (Meteorological magazine, July 1933. v. 68, p. 144-45)

Copy seen: DLC.

2280. **BROOKS, CHARLES ERNEST PELHAM.** The warming Arctic. (Meteorological magazine. Mar. 1938. v. 73, p. 29-32, illus.)

Review and discussion of R. Scherhag's *Die Erwärmung der Arktis*, 1937, q.v.: the general warming up of the Arctic since 1912 has been due largely to the strengthening of the circulation from the temperate belt. The decrease of the areal extent of ice and the subsequent lowering of the pressure in the Arctic has tended further to strengthen this circulation pattern.

Copy seen: DLC.

2281. **BROOKS, CHARLES ERNEST PELHAM, and WINIFRED A. QUENNEL.** The influence of arctic ice on the subsequent distribution of pressure over the eastern North Atlantic and western Europe. London, 1928. 36 p. illus., tables, diagrs. sketch chart (Great Britain. Meteorological Office. Geophysical memoirs. No. 41 (v. 5, no. 1))

Contains brief notes on the origin of arctic ice, and its movements in the North Atlantic and Greenland Sea, and a mathematical discussion of the effects of the ice; with correlation coefficients of sea ice with pressure at a number of Eurasian stations. Reviewed by A. J. Henry in *C.E.P. Brooks and W. Quennel on the influence of arctic ice*, 1929, q.v.

2305. BROWN, MALCOLM, 1916-, and others. Intestinal parasites of Eskimos on Southampton Island, Northwest Territories; a preliminary survey. (Canadian journal of public health, Nov. 1948. v. 39, p. 451-54) *Other authors:* R. G. Sinclair, L. B. Cronk, G. C. Clark, and E. Kuitunen-Ekbaum.

Results of Queen's University Arctic Expedition, 1947, which examined ninety-five living Eskimos and found thirty-three infected. Parasites found were two species of Protozoa, one cestode and one nematode.

Copy seen: DSG.

2306. BROWN, MALCOLM, 1916-. Medical investigation at Southampton Island. (Arctic, May 1949. v. 2, p. 70-71)

Note on work carried out by the second Queen's University Arctic Expedition 1948, which continued the investigation of morbidity rates and nutritional status of Southampton Island Eskimos, begun in 1947, and studied incidence of trichinosis.

Copy seen: CaMAI; DLC.

2307. BROWN, MALCOLM, 1916-, and others. A note on trichinosis in animals of the Canadian Northwest

Territories. (Canadian journal of public health, Jan. 1949. v. 40, p. 20-21) *Other authors:* Bruce Cronk, F. deSinner, J. E. Green, J. E. Gibbons, and E. Kuitunen-Ekbaum.

Observations made during the Queen's University Arctic Expedition, 1948, to Southampton Island, of seals, whale, walrus, and polar bear, in order to determine the source of human infection; with note that polar bear as source remains conjectural, although it was the only species found infected.

Copy seen: DSG.

2308. BROWN, MALCOLM, 1916- . Trichinosis in Greenland. (Arctic circular, May 1949. v. 2, p. 55-56) Mimeographed.

Note on epidemic in Disko Bay region, 1947, with remarks on widespread occurrence of this parasitic disease in the Arctic.

Copy seen: CaMAI.

2309. BROWN, MALCOLM, 1916- , and others. Trichinosis on Southampton Island, N.W.T. (Canadian journal of public health, Dec. 1949. v. 40, p. 508-13, illus.) *Other authors:* L. B. Cronk, F. deSinner, J. E. Green, J. E. Gibbons, and E. Kuitunen-Ekbaum.

Observations made during the Queen's University Arctic Expedition, 1948. Report on clinical and laboratory data on manifestations of the disease among the Eskimos, with a bibliography (9 items).

Copy seen: DSG.

2310. BROWN, RILEY. Men, wind and sea; the story of the Coast Guard. New York, Carlyle House [c1939] xii p., 2 l., 17-266 p. plates. Reprinted by Blue Ribbon Books, Garden City, N. Y. 1943, with title: *The story of the Coast Guard*.

History of the U. S. Coast Guard, with one chapter (p. 193-210) on the establishment of the International Ice Patrol in the North Atlantic after the Titanic disaster, 1912.

Copy seen: DLC.

2311. BROWN, ROBERT, 1842-1895, and others. Florula Discoana: contributions to the phytogeography of Greenland, within the parallels of 68° and 70° with latitude. (Botanical Society of Edinburgh. Transactions, July 1868. v. 9, p. 430-65)

Based on collections of the West Greenland Exploring Expedition, 1867. Introductory remarks on the localities

from Egedesminde to Disko, and on the Eskimos' use of plants, followed by seven lists with locations: 1. Oliver, D. Phanerogamia and vascular cryptogamia. (One hundred twenty-nine species). 2. Lawson, M. A. Mosses. (Thirty-nine species). 3. Carrington, Benjamin. Hepaticae. (Eleven species). 4. Lindsay, W. L. Lichens. (Ninety-one species). 5. Croall, Alex. Marine algae. (Forty species). 6. Dickie, G. Fresh-water algae. (Eleven species), also five desmids and eleven diatoms. 7. Smith, W. G. Fungi. (Six species).

Copy seen: DLC.

2312. BROWN, ROBERT, 1773-1858. A list of plants collected in Melville Island, by the officers of the expedition; with characters and descriptions of the new species. (*In:* Parry, Sir W. E. Journal of a voyage . . . 1819-20. Supplement to the appendix, 1824. p. celix-cccx, 4 plates)

Contains a systematic, annotated list, with Latin descriptions of sixty-seven (including four new) flowering plants, thirty-two mosses and liverworts, fifteen lichens, and two fungi.

Copy seen: DLC.

BROWN, ROBERT, 1773-1858, *see also* Ross, Sir John. Voyage of discovery 1818. 1819.

2313. BROWN, ROBERT, 1842-1895. Geological notes on the Noursoak Peninsula, Disco Island, and the country in the vicinity of Disco Bay, North Greenland. (Geological Society of Glasgow. Transactions, 1875. v. 5, p. 55-112, fold. map)

Based on observations by the author, who accompanied Edward Whymper on his West Greenland Expedition, 1867, to the region of Disko Bay and Nugsuaq Peninsula. Contains notes (in brief) on the early geologic explorations, the general geology of Greenland, and (in more detail) descriptions of the geologic sections studied along the southeastern shore of Nugsuaq Peninsula, the northeast shore of Disko Island, and the eastern shore of Disko Bay; notes on the character, analysis, and localities of coal; general conclusions regarding Greenland's Miocene flora; lists of plants and animals found by earlier geologists in the Miocene beds, also plants in Cretaceous beds; and final remarks on the former range of Miocene flora in Greenland.

Map: Geologic map of "Mid Greenland", about 68°30'–71°N. on the west coast, based on earlier published accounts, and on the author's observations.

Copy seen: DLC.

2314. BROWN, ROBERT, 1842–1895. Notes on the history and geographical relations of the Cetacea frequenting Davis Strait and Baffin's Bay. (Zoological Society of London. Proceedings, 1868. p. 533–56)

Contains synonyms, descriptions, notes on geographical range, migrations and habits, of sixteen species of whales.

Copy seen: DSI-M.

2315. BROWN, ROBERT, 1842–1895. Notes on the history and geographical relations of the Pinnipedia frequenting the Spitzbergen and Greenland Seas. (Zoological Society of London. Proceedings, 1868. p. 405–440)

Contains notes on physiology, habits, and instincts, and a list, with notes on distribution, habits, economic value, etc., of seven species of seals, also a discussion of their commercial importance.

Copy seen: DSI-M.

2316. BROWN, ROBERT, 1842–1895. On the formation of fjord, cañons, benches, prairies, and intermittent rivers. (Royal Geographical Society. Journal, 1869. v. 39, p. 121–31, fold. map)

Includes a section on fiords which raises the question of glacial erosion as the agent in their shaping. This theory was attacked by J. W. Tayler and others, and resulted in an exchange of views, published in this journal.

Copy seen: DLC.

2317. BROWN, ROBERT, 1842–1895. On the mammalian fauna of Greenland. (Zoological Society of London. Proceedings, 1868. p. 330–62, incl. tables)

Discussion of geographic distribution of thirty-seven species of land and marine mammals; notes on synonymy and habits of fourteen land species, and some remarks on doubtful and mythical species.

Copy seen: DSI-M.

2318. BROWN, ROBERT, 1842–1895. On the nature of the discoloration of the arctic seas. (Botanical Society of Edinburgh. Transactions, Dec. 1867, *pub.* 1868. v. 9, p. 244–52)

Discussion of the occurrence of diatoms, as the cause of discoloration in Greenland Sea, Davis Strait and Baffin Bay.

Copy seen: DLC.

2319. BROWN, ROBERT, 1842–1895. On the physical structure of Greenland. (*In:* Royal Geographical Society. Arctic geography and ethnology, 1875. p. 1–74)

Contents: 1. Greenland coast line. 2. Interior of Greenland. (Expeditions of the 18th–19th centuries). 3. Greenland glaciers and sea ice. 4. Glacier system of Greenland. 5. Action of sea ice. 6. Rise and fall of the Greenland coast. 7. Application of the facts regarding arctic ice action as explanatory of glaciation and other ice remains in Britain. 8. On the formation of fiords. 9. Northern termination of Greenland. 10. Debatable points regarding the physical structure of Greenland.

Copy seen: DLC; NNSf.

2320. BROWN, ROBERT, 1842–1895. On the physics of arctic ice, an explanatory of the glacial remains in Scotland. (Geological Society of London. Quarterly Journal, June 1870. v. 26, p. 671–701)

Contains descriptions of the glacier system of Greenland, the inland ice, icebergs, subglacial streams, and moraines; discussion of the action of sea ice, and of the rise and fall of the Greenland coast.

Copy seen: DGS.

2321. BROWN, ROBERT, 1842–1895. Remarks on the formation of fiords and cañons. (Royal Geographical Society. Journal, 1871. v. 41, p. 348–60)

A rebuttal to the criticisms of the author's paper, *On the formation of fiords* (etc.) 1869. Here further proof is offered in support of his theory that glacial abrasive action accounts for the shape, depth, etc. of fiords. Includes remarks on grinding power of glaciers, filling up of fiords, walls of fiords, volcanic theory of their formation, and some views of other geologists on fiords.

2322. BROWN, ROBERT NEAL RUDMOSE, 1879– Arctic exploration and research. (Scottish geographical magazine, Dec. 1946. v. 62, p. 97–99)

Note on changing patterns of 20th century exploration, and the arctic re-

search institutions established in Europe and North America.

Copy seen: DLC.

2323. BROWN, ROBERT NEAL RUD-MOSE, 1879- . The commercial development of Spitsbergen. (Scottish geographical magazine, Nov. 1912. v. 28, p. 561-71, illus.)

Account of the hunting, whaling and coal mining of West Spitsbergen.

Copy seen: DLC.

2324. BROWN, ROBERT NEAL RUD-MOSE, 1879- . The flora of Prince Charles Foreland, Spitsbergen. (Botanical Society of Edinburgh. Transactions, 1908. v. 23, p. 313-20)

List, with localities and notes, of fifty-five species of plants, collected by Dr. W. S. Bruce during the summers of 1906-07, with brief notes on the nature of the soil and the physical environment.

Copy seen: DLC.

2325. BROWN, ROBERT NEAL RUD-MOSE, 1879- . Mining development in Spitsbergen. (Scottish geographical magazine, Apr. 1922. v. 38, p. 115-17)

Information on new coal mining enterprises since 1919, and the development of the older ones.

Copy seen: DLC.

2326. BROWN, ROBERT NEAL RUD-MOSE, 1879- . The polar regions, a physical and economic geography of the Arctic and Antarctic. London, Methuen & Co. Ltd. [1927] ix, 245 [1] p. 23 maps (part fold.) Published also by Dutton, N. Y., (ix, 236 p. illus. maps)

Brief account of knowledge (then held) on polar research and statement of its problems; chapters on expedition history, the oceans, sea ice, the Eskimo, and individual regions of the Arctic; bibliography.

Copy seen: DLC; NNStef.

2327. BROWN, ROBERT NEAL RUD-MOSE, 1879- . The present state of Spitsbergen. (Scottish geographical magazine, June 1919. v. 35, p. 201-212 incl. sketch map)

A record of the more important events in the development of the mining industry, with brief sketch of the early history, a map showing the location of the principal mining estates, June 1919, and discussion of the struggle for sovereignty of the Spitsbergen archipelago.

Copy seen: DLC.

2328. BROWN, ROBERT NEAL RUD-MOSE, 1879- . Recent developments in Spitsbergen. (Scottish geographical magazine, Apr. 1920. v. 36, p. 111-16, fold. map)

Remarks on the treaty which gave sovereignty over the Spitsbergen archipelago to Norway, on the legal position of British owners of mining properties in West Spitsbergen, on the Scottish Spitsbergen Syndicate Expedition, 1919, and on recent progress in coal mining, with a map of Klaas Billen and Temple Bays.

Copy seen: DLC.

2329. BROWN, ROBERT NEAL RUD-MOSE, 1879- . Recent polar work—some criticisms. (Polar record, Jan. 1933. No. 5, p. 62-66)

A survey (in general terms) of modern techniques, such as aircraft, radio, and motor vehicles, in polar research, with reflections upon the use of dog sledges, and upon the youthful age of modern arctic workers.

Copy seen: DLC.

2330. BROWN, ROBERT NEAL RUD-MOSE, 1879- . Some problems of polar geography. (British Association for the Advancement of Science. Report, 1927. v. 95, p. 75-97) Published also in Pan American geologist, 1927, v. 48, p. 161-90; and in Smithsonian Institution. Annual report, 1928, pub. 1929, p. 349-75.

Address of the president of the Association's Section E, Geography. A general discussion of conditions and problems of research in the Arctic: methods of exploration, factors influencing its development, and settlement (game, potential resources, etc.)

Copy seen: DLC.

2331. BROWN, ROBERT NEAL RUD-MOSE, 1879- . Spitsbergen, an account of exploration, hunting, the mineral riches & future potentialities of an arctic archipelago. London, Seeley, Service & Co. Ltd., 1920. 319 [1] p. incl. 2 maps. 16 plates, fold. map. Also published in Philadelphia by J. B. Lip-pincott Co., 1920.

Presentation of knowledge then held concerning the history of exploration, and development, the physical features and resources, and the question of sovereignty of the Spitsbergen archipelago subsequently named Svalbard.

Copy seen: DLC; NNStef.

2332. BROWN, ROBERT NEAL RUDMOSE, 1879- . Spitsbergen in 1914. (Geographical journal, July 1915. v. 46, p. 10-23, 2 plates, sketch map)

A paper prepared in part by Dr. W. S. Bruce, completed and read before the Royal Geographical Society by R. N. Rudmose Brown. Account (in brief) of W. S. Bruce's Scottish Spitsbergen Expedition in 1914, a sketch of the geology of Prince Charles Foreland, and information on the coal mining activities and claims on West Spitsbergen, of various nations.

Copy seen: DLC.

2333. BROWN, ROBERT NEAL RUDMOSE, 1879- . Spitsbergen, *terra nullius*. (Geographical review, May 1919, v. 7, p. 311-21, sketch map)

Review of the early exploration of West Spitsbergen by Netherlands, use of the island by whalers and trappers, its cartography, mining and political status.

Copy seen: DLC.

2334. BROWN, ROBERT NEAL RUDMOSE, 1879- , and W. G. BURNMURDOCH. A naturalist at the poles; the life, work & voyages of Dr. W. S. Bruce, the polar explorer. London, Seeley, Service & Co. Ltd., 1923. 2 p. l., 11-316 p. front., illus., plates, ports., 3 maps (2 fold.)

Contents include chapters on Bruce's expeditions to Franz Josef Land and Svalbard, his mapping and coal prospecting in Prince Charles Foreland; also partial list of his publications.

Copy seen: DLC.

2335. BROWN, T. GRAHAM. Mount Foraker, Alaska (Denali's Queen.) (Alpine journal, 1935. v. 47, p. 14-48, 205-43, 12 plates (2 fold.))

Account of the ascent made in July, 1934, by Charles Houston, the author, and others; with descriptive material on the Alaska Range, and detailed notes on the terrain and glaciers around Mt. Foraker. Includes O. R. Houston's *Note on the Herron Glacier*, p. 242-43.

Copy seen: DLC.

2336. BROWN, W. E. Man and machine against the Arctic. (Beaver, Sept. 1936. Outfit 267, no. 2, p. 26-30, illus.)

Account by a member of a Hudson's Bay Co. party, of a pioneer effort to drive a tractor about 150 miles across northeastern Keewatin District, from Wager Bay to Cockburn Bay at the mouth of the Back River, in the winter of 1929.

Copy seen: DSI-M.

2337. BROWN, W. E. Motor tractors. (Polar record, Jan. 1936. no. 11, p. 90-98)

In the fourth of a group of articles in this journal on motor transport, the acting-manager of Hudson's Bay Co. Nelson River District describes efforts towards replacing canoe transport of freight by tractors. Mentions briefly an experiment in the James Bay region in 1924; and reports in detail on tests conducted in 1926-27 and 1928-29 between Wager Bay and Cockburn Bay in northeastern Keewatin District; discusses throughout the surface conditions of snow and ice, problems of low temperature, operation and maintenance, and types of tractors.

Copy seen: DLC.

2338. BROWN, W. J. The Coleoptera of Canada's eastern Arctic. (Canadian entomologist, May 1937. v. 69, p. 106-111)

Based on the author's beetle collections, made during the summer of 1935 along the south shore of Hudson Strait, on Baffin, Devon and Ellesmere Islands, and other smaller islands in that general region. Annotated list, with localities, of twenty-eight species, including a description of *Helophorus arcticus* n.sp.

Copy seen: DSI-M.

BROWN, W. J., see also Orchymont, A. d', & W. J. Brown. *Helophorus arcticus* Brown. 1940.

2339. BROWN, W. W., and C. CHENG. Investigations into the food of the cod (*Gadus callarias* L.) off Bear Island, and of the cod and haddock (*G. aeglefinus* L.) off Iceland and the Murman coast. (Hull bulletins of marine ecology, 1946. v. 3, p. 35-71, diagrs.)

Statistical study of stomach contents of these fish, and discussion of the principal marine animals found, according to area, season, and the two kinds of fish studied, with full tabular data, covering the years 1930-38.

Copy seen: DF.

2340. BROWNE, BELMORE, 1880- . The conquest of Mount McKinley; the story of three expeditions through the Alaskan wilderness to Mount McKinley, North America's highest and most inaccessible mountain, by Belmore Browne; appendix by Herschel C. Parker; with 100 illustrations from original drawings by the author and from photo-

graphs and maps. New York and London, G. P. Putnam's Sons, 1913. xvii, 381 p. col. front., 62 plates (part col.) fold. map, maps on lining-papers.

Detailed account of three attempts on McKinley in 1906, 1910, and 1912, with full descriptions of the climbs and routes. *Appendix*: Parker, H. C. Altitude and temperature readings on and near Mount McKinley.

Copy seen: DLC; NNNstef.

2341. BROWNE, EDWARD T. Report on some Medusae from Norway and Spitsbergen. Bergen, J. Grieg, 1904. 36 p. 5 plates. (Bergen, Norway. Museum. Aarbok, 1903. No. 4)

Contains a list (with descriptions, synonymy, localities and notes) which includes one species of jelly fish from Red Bay, West Spitsbergen, and seven (including one new) species from Greenland Sea above the Arctic Circle; bibliography (26 items).

Copy seen: DLC.

2342. BROWNE, N. MILTON. Fox ranching in the lone Arctic (Forest and outdoors, Jan. 1933, p. 5-7, 12)

Facts on the natural history and habits of the arctic fox, with a few remarks on an unsuccessful fox farming venture attempted on Baffin Island in 1927, by the Hudson's Bay Co.

Copy seen: DA.

2343. BROWNE, PATRICK WILLIAM, 1864 . Where the fishers go; the story of Labrador. New York, Cochrane Pub. Co., [etc., etc.] 1909. xxiv p. 1 l., 366, [4] p. incl. front., illus., plate, fold. map.

A missionary's account of the physical features, fisheries, fishermen, Eskimos, Indians, animals and birds, villages and Moravian missions, of Labrador as a whole.

Copy seen: DLC; NNNstef.

2344. BROWNE, WILLIAM HENRY JAMES. Ten coloured views taken during the arctic expedition of Her Majesty's ships "Enterprise" and "Investigator," under the command of Captain Sir James C. Ross, drawn by W. H. Browne. With a summary of the expeditions in search of Captain Sir John Franklin. London, Ackermann & Co., 1850. 8 p. 10 col. plates on 7 l. 38x28cm.

Contains a summary (in English and French) of the Franklin search expeditions in the central Canadian Arctic,

especially that of Sir J. C. Ross 1848-49, its wintering at Port Leopold, and its search parties' work; ten lithographs of ice scapes near Upernavik, West Greenland, and in the region of the winter quarters at Port Leopold, Whaler Point on Somerset Island, and Leopold Island nearby.

Copy seen: DLC.

2345. BROWNLEE, J. H. Caribou migration on the Yukon Plateau in the autumn of 1915. (Geographical review, July 1916, v. 2, p. 58-60, illus.)

Brief note on the migration of the Barren Lands and woodland caribou, with two illustrations from photographs of herds on the march.

Copy seen: DLC.

2346. BROWNRIGG, G. M. Frostbite in shipwrecked mariners. (American journal of surgery, Feb. 1943. New ser., v. 59, p. 232-47)

Technical discussion of symptoms and care of cases hospitalized at St. John's, Newfoundland, 1941-42, where author was surgeon; with discussion by others (p. 240-47). Bibliography (29 items).

Copy seen: DLC; NNNstef.

2347. BRUCE, DAVIS, and ARNOLD COURT. Trees for the Aleutians. (Geographical review, July 1945. v. 35, p. 418-23)

Account of the U. S. Army's tree-planting 1941-44, with discussion of the climatic conditions, the tree line on Kodiak, and causes of treelessness in the Aleutian chain.

Copy seen: DLC.

2348. BRUCE, EVEREND LESLER, 1884- . The Canadian Shield and its geographic effects. (Geographical journal, Mar. 1939. v. 93, p. 230-39, 2 plates, sketch map)

Sketch of the geomorphology of the Shield area, the effects of glaciation, the present-day physiography, especially the rivers, followed by a summary of the effects of the physical character of the Shield upon human geography.

Copy seen: DLC.

2349. BRUCE, EVEREND LESLER, 1884- . Mineral industry of the North-West. (In: Dawson, C. A., ed. The new North-West, 1947. p. 109-130, sketch map)

From his observation of the region and information from various mining companies, the author, professor of

geology at Queen's University, presents the possibilities of developing the mineral industries in the Northwest Territories; gives brief summaries of the history of mining, the topography, geology and mineral deposits of Yellowknife and Great Bear Lake areas, the arctic slope and the Mackenzie River valley; and discusses the economic factors. Bibliography (21 items).

Copy seen: DLC.

2350. BRUCE, MINER WAIT. Alaska; its history and resources, gold fields, routes and scenery. Seattle, Lowman & Hanford, 1895. 128, [1] p. illus., 27 plates, fold. map (in pocket)

Contains chapters on history, topography, climate, resources, land and sea animals, the reindeer, Eskimo habits and customs, Indians, missions and schools, scenery, routes, Yukon gold fields, and the boundary dispute; with table of distances.

Copy seen: NNS Stef.

2351. BRUCE, MINER WAIT. Alaska; its history and resources, gold fields, routes and scenery. New York & London, G. P. Putnam's Sons, 1899. 1 p. l., x p., 1 l., 237 p. front., illus., 36 plates, 7 fold. maps (1 in pocket).

Another edition, revised and enlarged with the addition of chapters on the Klondike and prospecting, and a list of provisions required for one man during one year.

Copy seen: DLC; NNS Stef.

2352. BRUCE, WILLIAM SPEIRS, 1867-1921. The exploration of Prince Charles Foreland, 1906-1907. (Geographical journal, Aug. 1908. v. 32, p. 139-50, fold. map)

Contains accounts of the author's surveying work during two Scottish expeditions, that of 1906 on the Prince of Monaco's *Princess Alice*, and that of 1907 with the Prince's support; includes descriptions (in brief) of the physiography, geology, and natural history of the island, the most westerly of the Svalbard archipelago.

Copy seen: DLC.

2353. BRUCE, WILLIAM SPEIRS, 1867-1921. Polar exploration. London, Williams & Norgate [c1911] vii, [3] 11-256 p. illus. (charts) Also published in the Home University Library of Modern Knowledge, by H. Holt & Co., New York.

Introductory survey of the fields of interest and activities (as distinct from the history) of exploration in arctic and antarctic regions; based on the author's experience on nine polar voyages (including seven in the Arctic, 1896-97-1909), and on other explorers' conversations. Includes chapters on astronomical features, geography, land and sea ice, plant and animal life, physics, meteorology, magnetism, aurora and tides; and on the aims and objects of modern polar exploration.

Copy seen: DLC.

2354. BRUCE, WILLIAM SPEIRS, 1867-1921. Prince Charles Foreland. (Scottish geographical magazine, Mar. 1907. v. 23, p. 141-56, 2 plates, sketch map) "Outlook Tower and Scottish oceanographical lectures, February 13, 1907."

An account of the author's investigations in the summer of 1906 while accompanying the Prince of Monaco, on the *Princess Alice*, and descriptions of the island's physical features.

Copy seen: DLC.

2355. BRUCE, WILLIAM SPEIRS, 1867-1921, and W. E. CLARKE. The mammalia and birds of Franz Josef Land. (Royal Physical Society, Edinburgh. Proceedings, 1898, pub. 1899. v. 14, p. 78-112, sketch map) Based on the collections made by W. S. Bruce as a member of the Jackson-Harmsworth Expedition, 1896-97, also on the published reports of observations made by Payer, 1872-74, Leigh Smith, 1880-82, and Nansen, 1896, in Franz Josef Land.

Contents: 1. Bruce, W. S. Mammalia, with notes by James Simpson, on the bones of the whale and reindeer, found on the island. (Notes on eleven species, including polar bear, fox, whales, seals, and walrus). 2. Clarke, W. E. Birds, with notes by W. S. Bruce. (Notes on twenty-two species, and some uncertain records, with table of arrival and departure dates). A supplementary paper appeared as KOETTLITZ, R. *Contributions to the natural history of the polar bear*, 1900, q.v.

List, with some descriptions and with notes on locations, of fourteen (including three new) species from the arctic coast of Northwest Territories and Alaska.

Copy seen: DSI-M.

2360. BRUET, EDMOND. Le Labrador et le Nouveau-Québec; géographie, exploration, géologie, minéralogie, faune, flore, peuplement, ressources naturelles. Paris, Payot, 1949. 346 p. illus., 8 plates, 28 sketch maps. (Bibliothèque géographique). *Title tr.*: Labrador and New Quebec; geography, exploration, geology, mineralogy, fauna, flora, population and natural resources.

A comprehensive survey of the "Labrador Peninsula", the region as a whole between Hudson Bay, Hudson Strait, and Labrador Sea on the east; based on the author's eight years' study and field work (from 1934) under auspices of the Natural History Museum, Paris. Chapters on the physical geography (in detail: the coasts, adjacent waters and islands, the Labrador plateau, mountains, glaciation, river systems, tides and currents, climate, etc.); the history of exploration; geology; life zones (in brief); the fauna; native peoples, Eskimo and Indian tribes, their history, way of life, migrations; white man's exploration and exploitation of the region; the flora (in brief); natural resources (fur-bearing animals and the fur trade in detail, fishes and fisheries, minerals and the mining developments, transportation, communication, etc.) Includes throughout the author's im-

pressions of regions visited, and frequent citation of other explorers' and scientists' work. Bibliography (about 300 items). *Copy seen:* DLC.

2393. BRUYNE, A. de, and others, editors. De verslagen omtrent den tocht met de Willem Barents naar en in de Ijszee, in den zomer van 1878. Amsterdam, C. L. Brinkman, 1879. 84 p. 5 plates, fold. chart, 9 fold. diagrs. (K. Nederlandsch Aardrijkskundig Genootschap. Tijdschrift; beibladen. No. 5) **Title tr.:** Reports on the voyage of the *Willem Barents* in the Arctic Ocean in the summer of 1878. Edited by a committee of A. de Bruyne, L. R. Koolemans Beynen, H. M. Speelman, C. P. Sluyter, and P. J. Hymans van Anrooy.

During May-Oct. the vessel cruised the Greenland Sea to Jan Mayen and northwest West Spitsbergen, thence southward to Bear Island, and eastward across Barents Sea in north-south traverses as far as Novaya Zemlya, and along the west coast of these islands to the northern point, then returned to the Netherlands.

Contents tr.: Pt. 1, A. Koolemans Beynen, L. R. Outfitting and voyage of the *Willem Barents*. (Notes on organization of the trip; instructions; a journal of the voyage with mention of ice conditions and notes on the lands visited; lists of food and clothing and description of the ship and its equipment).

B. Report of the commander, A. de Bruyne, largely on meteorologic and temperature observations. (Description of weather elements with some data; three to four times daily graphic registrations of barometer and of air, wet bulb, and surface sea water temperatures; with a discussion of methods and instrumentation).

C. SPEELMAN, H. M. Report on the magnetic observations.

Pt. 2. Sluyter, C. P. Report on the zoological research of the *Willem Barents*. (Narrative account of the sea mammals, birds and invertebrates encountered during the voyage; with 4 plates).

Anrooy, P. J. Hymans van. Report on the state of health during the voyage.

The paper by H. M. Speelman appears under his name in this Bibliography.

Copied seen: DLC.

2394. BRUYNE, A. de, and others, editors. De verslagen omtrent den tocht met de Willem Barents naar en in de Ijszee, in den zomer van 1879. Amsterdam, C. L. Brinkman, 1880. (40 p. incl. tables. fold. chart.) (K. Nederlandsch Aardrijkskundig Genootschap. Tijdschrift; beibladen. No. 6) *Title tr.*: Reports on the voyage of the *Willem Barents* in the Arctic Ocean in the summer of 1879.

The ship's course ran from Amsterdam northward in the Greenland Sea to about 71°N.2°E., thence eastward in north-south traverses of the Barents Sea as far as Novaya Zemlya, thence north and westward to a point off Franz Josef Land, and return, during June-Oct., 1879.

Contents tr.: Bruyne, A. de. Report on instructions and program, and a narrative (including weather and ice conditions).

Faasen, A. Report on the state of health during the voyage.

Lidde de Jeude, F. H. van. Zoological report of the Netherlands North Polar Expedition, 1879. (Narrative account of marine mammals and invertebrates observed during the voyage).

Speelman, H. M. Magnetic observations. (Thrice daily, Aug. 10-12, and 30-minute (Aug. 11-12) observations of the three magnetic elements, at Matochkin Shar, Novaya Zemlya, with discussion).

2395. BRYAN, KIRK, 1888-1950. The geologic implications of cryopedology. (Journal of geology, Mar. 1949. v. 57, p. 101-104) Introduction to *Journal of geology*, Mar. 1949, presenting papers on studies made in the Arctic, and on phenomena in temperate areas formed by processes now current in the Arctic.

Contains brief review of present-day research problems in (1) frost-action on rocks and soil, introducing the term "pergelisol" for permanently frozen ground, and (2) the "periglacial" climate, the term for (a) the area adjacent to the border of the Pleistocene ice sheets, (b) the climate of this area, and (c) the phenomena induced by this climate.

Copied seen: DGS.

2396. BRYAN, KIRK, 1888-1950. Permanently frozen ground. (Military engineer, Apr. 1946. v. 38, p. 168)

Commentary on terminology used in L. C. Barnes, *Permafrost: a challenge to engineers*, 1946, q.v.; analysis of the term "permafrost", and proposals for new terms built on Latin roots (pergelisol, subgelisol, etc., and cryopedology).

2398. BRYANT, HENRY GRIER, 1859-1932. Drift casks in the Arctic Ocean. (American Philosophical Society. Proceedings, Apr. 1902. v. 41, p. 154-61)

General discussion of a program to study ocean currents of the Arctic Basin and Arctic Shelf seas by means of drift casks.

Copied seen: DLC.

2399. BRYANT, HENRY GRIER, 1859-1932. A journey to the Grand Falls of Labrador. (Geographical Society of Philadelphia, Bulletin, Mar. 1894, v. 1, p. 37-86, 8 plates, fold. map)

Account of a canoe trip in 1891, up the Hamilton (Grand) River to the falls, two hundred thirty-three miles inland; with lists of Montagnais Indian objects collected, plants (seventy-six species) obtained, and meteorological notes (temperature, pressure, and weather).

Copied seen: DLC.

2400. BRYANT, HENRY GRIER, 1859-1932. Notes on the most northern Eskimos. (International Geographical Congress. 6th, London, 1895. Report, 1896. p. 677-84)

General remarks based on the author's observations in North Greenland, 1892 and 1894, while on the Peary Relief Expedition. *Copy seen:* DLC.

2401. BRYANT, HENRY GRIER, 1859-1932. The Peary Auxiliary Expedition, 1894. (Geographical journal, Dec. 1894. v. 4, p. 531-34)

Letter to the Royal Geographical Society, written after the return of this relief expedition, containing general notes on the activities of the party.

Copy seen: DLC.

2402. BRYANT, HENRY GRIER, 1859-1932, and others. The Peary Auxiliary Expedition of 1894, by Henry G. Bryant. With supplementary reports by Prof. T. C. Chamberlin and Dr. Axel Ohlin. (Geographical Society of Philadelphia. Bulletin, June 1895. v. 1 p. 141-215, 16 plates, 2 maps)

The expedition was arranged and largely financed by Peary, and managed by the Geographical Club of Philadelphia. Its mission was to reach "Anniversary Lodge" on Bowdoin Bay (Inglefield Gulf, North Greenland) headquarters of the Peary Expedition of 1893-95, to relieve the Peary party and enable its return. The leader, H. G. Bryant, gives here an account of the *Falcon's* voyage from St. John's, Newfoundland, to Inglefield Gulf, the activities and shore visits along the Greenland coast, the search for the missing Swedish scientists, A. Björling and E. G. Kallstenius across Baffin Bay and into Jones Sound, and the return voyage. *Appendices:* A. CHAMBERLIN, T. C. Geology. B. OHLIN, Axel. Zoology, preliminary report. C. WETHERILL, H. E. Botany, list of plants obtained.

Each of the appendices appears in this Bibliography under its author's name.

Bd. 2, p. 22-53, illus., 2 plates, fold. map) *Title tr.:* The climatic-morphologic zones of arctic lands. Contributions to the geomorphology of the climate zones and geologic climate. 2.

Contents tr.: 1. Physical geographic classification of polar regions.

2. The type forms conditioned by climate of the ice-free polar lands:

Solifluction zone. Theory of the boundary of such zones.

3. Classification of the solifluction zone in frost debris and tundra zones.

4-5. The climatic-morphologic lines of the frost debris zone; and of the tundra zone.

6. The distinction in intensity of denudation between residual soil, tundra and solifluction zones and their expression in the over-all relief.

7. The limits of tundra and frost debris zones.

Bibliography (52 items).

Summary of tectonic and stratigraphic knowledge concerning the peninsula, based on research between Scoresby Sound and Germania Land carried out by Danish expeditions, 1926-37.

Copy seen: NNM.

2454. BÜTLER, HEINRICH. Die Mächtigkeit der kaledonischen Molasse in Ostgrönland. Ergebnisse von Untersuchungen über die Lagerungsverhältnisse des oberen Devons in Ostgrönland. (Naturforschende Gesellschaft Schaffhausen. Mitteilungen, 1934-35, pub. 1935. Heft 12, p. 17-33, illus. (incl. sketch map) 4 plates) *Title tr.:* The extent of Caledonian molasse in East Greenland. Results of a study of Upper Devonian stratification in East Greenland.

Based on the author's investigation of the strata between Musk Ox Fiord

and Davy Sound, including Gauss Peninsula, during the Danish Three-Year Expedition to King Christian X Land, 1931-34, under Lauge Koch. Contains discussion of the Devonian as an orogenic sediment; the orogenic movements in the Devonian basin; the stratigraphic sequence and extent of Devonian series; and a comparison with other Old Red regions; bibliography (22 items).

Copy seen: NNM.

2455. BÜTLER, HEINRICH. Notes on the geological map of Canning Land (East Greenland). København, C. A. Reitzel, 1948. 97 p. illus. (incl. sketch map, diags.) 5 fold. plates (incl. 3 maps) (Meddelelser om Grønland. Bd. 133, nr. 2)

Results of the Geological Expedition to East Greenland, 1936-38. The area treated, Canning Land, lies between Carlsberg and Nathorst Fiords in the Davy Sound region of King Oscar Fiord. The northern half of Wegener Peninsula is treated here also. The author gives a résumé of the geologic investigation and position of Canning Land; full description of the stratigraphic divisions and position of the formations, and the faults; a reconstruction of the earlier structural conditions of the series of beds on Canning Land; and a bibliography (79 items).

Maps include: geological map of Canning Land and eastern part of Wegener Peninsula, scale 1:75,000; and a geologic-tectonic sketch map of the area of Franz Joseph and King Oscar Fiords, scale 1:750,000.

Copy seen: DGS.

Akademie der Wissenschaften ausgerüstete Expedition (etc.) 1887. p. 73-144) Title tr.*: Report on the journey in the Yana region in summer 1885, with a list of the observed or known mammals and birds.

Contains description of the terrain, streams, vegetation, birds and rocks in the Yana-Lena River region, and annotated lists of twenty-six mammals and ninety-six birds found north of 70°N.

Copy seen: DLC.

2495. BUNGE, ALEKSANDR ALEKSANDROVICH, 1851-1930. Bericht

über fernere Fahrten im Lena-Delta und die Ausgrabung eines angeblich vollständigen Mammuthcadavers. (Akademiā nauk SSSR. Bulletin, 1886. Sér. 3, t. 30, p. 228-82, sketch map) *Title tr.*: Report on other journeys in the Lena delta and the excavation of a supposed, entire mammoth cadaver.

Drawn from Bunge's letters to a member of the Imperial Academy of Sciences, written from Sagastyr in Sept.-Oct. 1884 and Feb. 1885. Describes the author's activities in the summer and fall of 1884, in the Lena delta region, his explorations, mapping and his natural history and meteorologic observations; his trip into the tundra nearby in quest of a mammoth site, and subsequent journey to a site near Sagastyr where he succeeded in excavating the remains of a mammoth. Includes detailed accounts of Bunge's journeys, with notes on the physical features, natural conditions, and vegetation of the delta and nearby tundra, also details of the digging for the mammoth.

It was on the basis of Bunge's findings during this period, that the Imperial Academy of Science dispatched the Toll expedition to the New Siberian Islands and Yana region in 1885-86. *Copy seen:* DLC.

(International Polar Year. 1st, 1882-1883. Ekspeditšiā k ust'ū reki Leny, 1882-1884. Trudy Russkoī poliārnoi stantšii. Chast' 1, appendix) *Title tr.*: Account of the Lena Expedition, 1881-1884. Text in Russian and German.

The Russian Geographical Society sent out an expedition to cooperate with the First International Polar Year program. The four scientists and their aides traveled to Yakutsk and thence to Sagastyr' Island in the Lena delta, where a station was erected, and occupied from the fall of 1882 until fall 1884. During this period various side trips were made by the members of the expedition. Dr. Bunge, the physician and naturalist, gives here a detailed account of the journeys and occupations of the party, including descriptions of the Lena delta, the plant and animal life, the seasons, and a visit to a mammoth locality in the delta region. *Copy seen:* DLC.

2499. BUNGE, ALEKSANDR ALEK-SANDROVICH, 1851-1930. Predvaritel'nyi otchet ob ekspeditšii na Novo-Sibirskie ostrova. (Vsesoiūznoe geografičeskoe obščestvo. Izvestiā, 1887. T. 23, p. 573-91) *Title tr.*: Preliminary report on the expedition to New Siberian Islands.

For a fuller report, see Akademiā nauk SSSR. Die von der K. Akademie der Wissenschaften ausgerüstete Expedition nach den Neusibirischen Inseln und dem Jana-Lande (1887).

Narrative of the Bunge-Toll expedition for March-Nov. 1886. After wintering at Kazach'e on the lower Yana, the two explorers crossed the straits from Aidzhergaidakh (about 72°30'N. 141°E.) to Kotel'nyy Island, via Bol'shoy and Malyy (Lyakhovskiy) Islands;

von Toll then made a trip to Fadyeev-
skiy and Novaya Sibir' Islands, while
Bunge returned to Bol'shoy after sur-
veying part of Kotel'nyy. This report
contains information on methods of
travel (p. 576-77) and the climate,
plants, birds, mammals, and geology of
the islands, mainly Bol'shoy (p. 583-
89). *Copy seen:* DLC.

2592. BYRD, RICHARD EVELYN, 1888-. The first flight to the North Pole. (National geographic magazine, Sept. 1926. v. 50, p. 356-76, incl. 9 p. of illus.)

Account of the flight from King's Bay, West Spitsbergen to the North Pole and return, by the author and Floyd Bennett in the *Josephine Ford*, a three-engined Fokker monoplane, on May 9, 1926. Describes the unloading of the monoplane, the hazards of takeoff, difficulties of navigating over the polar sea, and the sun-compass used to guide the flight.

Copy seen: DLC.

2593. BYRD, RICHARD EVELYN, 1888-. Flying over the Arctic. (National geographic magazine, Nov. 1925. v. 48, p. 519-32, illus.)

Account of flights made from Etah on the MacMillan Expedition, Aug. 1925, by U. S. Navy fliers and planes. The flights were over Smith Sound and Ellesmere Island, in difficult flying conditions, with a final flight over the Greenland icecap. *Copy seen:* DLC.

2594. BYRD, RICHARD EVELYN, 1888-. Polar exploration by aircraft. (In: American Geographical Society, N. Y. Problems of polar research, 1928. p. 380-94, illus.)

Discussion of the problems of structure and mechanics of landing and take-off, and of air navigation, with note on merits of sledges, airships and airplanes.

Copy seen: DLC.

2595. BYRD, RICHARD EVELYN, 1888-, and VILHJALMUR STEFANSSON. The arctic flying of Captain Wilkins and Lieutenant Eielson. (Science, May 27, 1927. New ser. v. 65, p. 523-25)

Summary of pioneering flights from Fairbanks to Point Barrow and over Beaufort Sea, 1926-27.

Copy seen: DLC.

2596. BYRNE, NORMAN W. Discovery nears production. (Western miner, Oct. 1948. v. 21, no. 10, p. 54-58, illus.)

Discussion in some detail of the development by Discovery Yellowknife Mines Ltd. of the property fifty miles north and inland from Yellowknife Bay, Great Slave Lake; description of the geology, drilling program, mining plant, ore reserves, mill equipment, operating estimate, and the community facilities.

Copy seen: DGS.

2597. BYRNE, NORMAN W. Report from Yellowknife. (Western miner, Nov. 1948. v. 21, no. 11, p. 45-47, illus.)

Notes on opening of the Snare River power project, Oct. 4, 1948, and on gold mines and mining in the Yellowknife region during October.

Copy seen: DGS.

2598. BYZOV, N. P. Opyt ispol'zovaniia sharo-pilotnykh nabliudenii dlia prognoza pogody v raione Karskogo moria. (Klimat i pogoda, 1936, no. 3, (66), p. 1-11 maps; no. 4, (67), p. 16-28, maps) *Title tr.*: Experimental work of using pilot balloon observations for weather forecasting in the region of the Kara Sea.

The improvements in weather analyses and forecasts for the Kara Sea by the use of upper wind data are cited; shows also that upper winds are significant indicators of the development of cyclones. Synoptic weather charts and upper wind data in the Kara Sea area are studied in this connection.

Copy seen: DWB.

2599. CABOT, EDWARD C. Dual-drainage anomalies in the far North. (Geographical review, July 1946. v. 36, p. 474-82, illus., map)

Discussion of examples in Labrador, Canadian and Alaskan coastal plains, and at Great Bear Lake, of two streams flowing from the same lake, a phenomenon which the author associates with youthful erosion in areas of recent ice retreat.

Copy seen: DLC.

2600. CABOT, EDWARD C. The northern Alaskan coastal plain interpreted from aerial photographs. (Geographical review, Oct. 1947. v. 37, p. 639-48, incl. 5 p. of illus.)

Remarks on the physiographic provinces of the region between the arctic sea and the Brooks Mts., from the Canning River westward; the permafrost, soil polygons, and (in more detail) the formation and cycle of lakes.

Copy seen: DLC.

2601. CABOT, WILLIAM BROOKS, 1858- . In northern Labrador. London, J. Murray, 1912. xii p., 1 l., 292 p. front., 24 plates, ports. Also issued in Boston by R. G. Badger.

The author spent several seasons in the central northern Labrador interior, 1903-1910, and records here his knowledge of the country, the trails, hunting and fishing among the Montagnais Indians.

Copy seen: DLC; NNStef.

2602. CABOT, WILLIAM BROOKS, 1858- . Labrador. Boston, Small, Maynard & Co., [c1920] xiii, 354 p. 48 plates, ports., maps on lining papers. Also published in London.

The larger part of the material in this book was issued in the author's *Northern Labrador*, q.v. and is here given in revised and amplified form. cf. Pref. *Copy seen:* DLC; NNStef.

2610. CAHALANE, VICTOR HARRISON, 1901- . Birds of the Katmai region, Alaska. (Auk, July 1944. v. 61, p. 351-75)

Sight records made during an inspection of Katmai National Monument, Sept. 1940. Notes on life zones and as-

sociations and an annotated list of ninety-three species of birds, with a bibliography (4 items).

Copy seen: DSI-M.

2611. CAHALANE, VICTOR HARRISON, 1901- . Notes on birds of the Kodiak-Afognak Island group. (Auk, Oct. 1943. v. 60, p. 536-41)

Observations made in autumn 1940, while gathering field data for the U. S. National Park Service. Annotated list of thirty species.

Copy seen: DSI-M.

2612. CAHN, ALVIN ROBERT, 1892- . Notes on the birds of the Dutch Harbor area of the Aleutian Islands. (Condor, Mar. 1947. v. 49, p. 78-82)

Based on observations made during 47 consecutive months' military service on Amaknak Island (Dutch Harbor), 1943-46. Annotated list of sixty-two species.

Copy seen: DSI-M.

2613. CAILLEUX, ANDRÉ. Études de cryopédologie. Paris, 1948. 68 p. diags. (Expéditions polaires françaises. Expédition arctique, 1948. Publications. No. 3) *Title tr.*: Cryopedological studies. (French Polar Expeditions. Arctic Expedition 1948) Ed. from notes by Gérard Taylor.

Study of frozen ground, soil structures, and solifluction phenomena, based on personal observations and on the published literature. Chapters on ground temperature, ground ice, permafrost, ice wedges, polygonal and striped soils, rock rings, etc., soil blocks, rock glaciers and heaps, and earth mounds; with a bibliography (6 items).

2614. CAIRNES, DE LORME DONALDSON, 1879-1917. Differential erosion and equiplanation in portions of Yukon and Alaska. (Geological Society of America. Bulletin, July 1912. v. 23, p. 333-48, 4 plates)

Description of the geological formations and the geomorphology, based on the author's field work for the U. S. Geological Survey along the International Boundary between 66°08' and 67°N.

Copy seen: DGS.

2615. CAIRNES, DE LORME DON-ALDSON, 1879-1917. Exploration in southwestern Yukon. (Canada. Geological Survey. Summary report, 1914, *pub.* 1915. p. 10-33, fold. map)

Contents include reports on placer gold of the Kluane, Nansen, and upper Whitehorse River districts, p. 13-30; copper deposits, p. 30-31; coal, p. 32-33. *Map:* diagram of area about 60°40'-63°18'N., 135°-141°W.

Copy seen: DLC.

2616. CAIRNES, DE LORME DON-ALDSON, 1879-1917. Explorations in a portion of the Yukon, south of Whitehorse. (Canada. Geological Survey. Summary report, 1906. p. 22-30)

Contains a geological report on the area from the British Columbia boundary northwest to within ten miles of Whitehorse; the Windy Arm (Tagish Lake), Watson, and Wheaton Rivers properties (silver and gold) and the Tantalus coal mines.

Copy seen: DLC.

2617. CAIRNES, DE LORME DON-ALDSON, 1879-1917. Geological section along the Yukon-Alaska boundary line between Yukon and Porcupine Rivers. (Geological Society of America. Bulletin, Mar. 1913. v. 25, p. 179-204, illus. (map) 5 plates, fold. diag.)

Results of field work for the Canadian Geological Survey, 1911-12. Descriptions of the topography and general geology of the area between 67°25' and 64°40'N. on each side of the 141° W. meridian.

Copy seen: DGS.

2618. CAIRNES, DE LORME DON-ALDSON, 1879-1917. Geology of a portion of the Yukon-Alaska boundary between Porcupine and Yukon Rivers. (Canada. Geological Survey. Summary report, 1911, *pub.* 1912. p. 17-33, map)

Contains a report on the Canadian section of the joint U. S.-Canada international boundary survey made in 1911, 69°09'-67°N. and two to two and one-half miles on each side of the meridian 141°W. Describes the topography in general, the flora and fauna (including a list of plants), the general geology, and (in detail) the various formations, with a note on limestone and magnesite deposits.

Copy seen: DLC.

2619. CAIRNES, DE LORME DON-ALDSON, 1879-1917. Investigations

and mapping in Yukon Territory. (Canada. Geological Survey. Summary report, 1916, *pub.* 1917. p. 12-44, illus.)

Contents: Tungsten deposits of Dublin Gulch and vicinity, p. 12-19. Mari deposit near Mayo, p. 19-20. Klotassin area (location and accessibility, topography, vegetation, game, geology and mineral resources) p. 20-33. Saline incrustations between Takhini and Canyon, p. 33-34. Lode mining in the Windy Arm section, Conrad mining district, p. 34-44.

Copy seen: DLC.

2620. CAIRNES, DE LORME DON-ALDSON, 1879-1917. Mayo area.—Scroggie, Barker, Thistle, and Kirkman creeks.—Wheaton District: Yukon Territory. (Canada. Geological Survey. Summary report, 1915, *pub.* 1916. p. 10-49, illus. (sketch maps))

Descriptions of topography and accessibility of all three areas; report (in detail) of the mines and mineral resources of Mayo area (gold and silver) and Wheaton district (gold, silver, antimony, lead and coal) including the geology; report (in brief) of the gold mining on the four creeks.

Copy seen: DLC.

2621. CAIRNES, DE LORME DON-ALDSON, 1879-1917. Preliminary memoir on the Lewes and Nordenskiöld Rivers coal district, Yukon Territory. Ottawa, Govt. Print. Bur., 1910. 70 p. 8 plates (incl. front.) 2 fold. maps. (Canada. Geological Survey. Memoir no. 5)

Contains results of a topographic and geological survey of the Braeburn-Kynocks and the Tantalus coal areas. Includes detailed account of the two coal areas and of the Lewes River and Lake Laberge; a description of the geological formations and mining properties. *Appendices:* (1) Mack's copper; (2) Giltana Lakes claims (copper); and (3) coking tests on coal from Tantalus mines. *Maps:* geological (scale 1:126,720) 10A Tantalus coal area, 61°33'-62°13'N., 135°45'-136°25'W.; 11A Braeburn-Kynocks coal area, 61°13'-61°30'N., 135°-136°08'W.

Copy seen: DLC.

2622. CAIRNES, DE LORME DON-ALDSON, 1879-1917. Preliminary report on a portion of the Yukon Territory, west of the Lewes River and between the latitudes of Whitehorse and

Tantalus. (Canada. Geological Survey. Summary report, 1908, *pub.* 1909. p. 26-32)

Notes on mapping and survey work in the coal-bearing areas about 61°10'-35'N.; (1) the first range of hills west of the Nordenskiöld River and the mountains on the east side of this stream; (2) a south and west extension of the Lake Laberge sheet, along the wagon road from a point 2 or 3 miles above Braeburn to within a mile of Kynocks; and (3) the Mack's Copper and Giltana Lake claims in the upper Hutchi River region. Includes brief sketches (relative to area no. 1) of the physical features, flora and fauna, general geology, and occurrences of coal (with results of analyses); and descriptions of copper ore deposits in claims of area no. 3.

Copy seen: DLC.

2623. CAIRNES, DE LORME DONALDSON, 1879-1917. Quartz mining in the Klondike district. (Canada. Geological Survey. Summary report, 1911, *pub.* 1912. p. 33-40)

Description of the quartz deposits, and (in detail) of the mining properties.

Copy seen: DLC.

2624. CAIRNES, DE LORME DONALDSON, 1879-1917. Report on portions of the Yukon Territory, chiefly between Whitehorse and Tantalus. (Canada. Geological Survey. Summary report, 1907, *pub.* 1908. p. 10-15)

Results of mapping, and investigation of the coal measures in the Lake Laberge area of the Lewes River basin, with a description of the topography, geology, and mining properties.

Copy seen: DLC.

2625. CAIRNES, DE LORME DONALDSON, 1879-1917. Scroggie, Barker, Thistle, and Kirkman Creeks, Yukon territory. Ottawa, Govt. Print. Bur., 1917. 2 p. l., 47, viii p. illus., 6 plates (incl. front.) fold. map (in pocket) (Canada. Geological Survey. Memoir 97. Geological series no. 79)

Results of a preliminary investigation of the geological conditions and gold mining operations, with notes on accessibility, climate, forests and topography, of the area on the Stewart and Yukon Rivers, 63°-63°25'N., 138°-139°-45'W.

Copy seen: DLC.

2626. CAIRNES, DE LORME DONALDSON, 1879-1917. Upper White

River district, Yukon. (Canada. Geological Survey. Summary report, 1913, *pub.* 1914. p. 12-28, sketch map)

Contains a preliminary report of the mapping and geological survey of the area 61°42'-62°30'N. and adjoining, and from 12 to 23 miles east of 141°W. (international boundary); a description of the routes, climate, vegetation, game, topography, and (in detail) of the geological formations, with a note on the occurrence of copper and gold.

Copy seen: DLC.

2627. CAIRNES, DE LORME DONALDSON, 1879-1917. Upper White River district, Yukon. Ottawa, Govt. Print. Bur., 1915. 2 p. l., iv, 191 p. front., illus., fold. maps (in pocket) fold. tables. (Canada. Geological Survey. Memoir 50; Geological series no. 51)

Contents include chapters on routes and methods of travel (with map), on climate, vegetation and game; regional and local topography (including mountain systems); the geologic formations; and mineral resources (gold and copper). *Maps:* (scale 1:250,000) topographic 122A, geological 123A, 61°40'-62°30'N., 140°15'-141°W.

Copy seen: DLC.

2628. CAIRNES, DE LORME DONALDSON, 1879-1917. Wheaton district, southern Yukon; supplement to Memoir 31. (Canada. Geological Survey. Summary report, 1915, *pub.* 1916. p. 36-49, illus., 2 fold. col. maps in pocket)

Contains a revision of the geological mapping done in 1909, based on the photo-topographic surveying of that year, with additional material on the mineral deposits, especially antimony. *Maps:* (scale 1:62,500) topographic, 59A, and geological, 60A (issued 1917) 60°08'-60°22'N., 134°55'-135°25'W.

Copy seen: DLC.

2629. CAIRNES, DE LORME DONALDSON, 1879-1917. Wheaton district, Yukon Territory. Ottawa, Govt. Print. Bur., 1912. x, 153 p. 14 plates, maps (1 fold.) diagrs. (Canada. Geological Survey. Memoir no. 31)

Contains description (in brief) of regional and local topography, climate, flora and fauna; (in detail) geologic formations and ore deposits (gold, silver-antimony-silver, silver-lead, and others); with map. *Copy seen:* DLC.

2630. CAIRNES, DE LORME DON-ALDSON, 1879-1917. The Wheaton River district, Yukon Territory. (Canada. Geological Survey. Summary report, 1909, *pub.* 1910. p. 47-60)

Report on the mapping and geological exploration of the river (five to seven miles on each side) for twenty miles above Lake Bennett, including topography, flora and fauna, climate, transportation, and general geology; a description of the mining properties (including gold, silver, lead, copper and coal) of this area and farther west.

Copy seen: DLC.

2631. CAIRNES, DE LORME DON-ALDSON, 1879-1917. The Yukon-Alaska international boundary, between Porcupine and Yukon Rivers. Ottawa, Govt. Print. Bur., 1914. p. l, iii, 161 p. illus., 16 plates (incl. front.) 2 fold. maps (in pocket) fold. tables. (Canada. Geological Survey. Memoir 67. Geological series no. 49)

Results of the joint U. S.-Canada survey in 1911-1912 of the area from the Yukon River to the Arctic Ocean. This report, concerning that part lying south of the Porcupine River (performed by Canadian Geological Survey) contains chapters on regional and local topography, and detailed descriptions of formations, with notes on the climate, means of communication, fauna and flora (including list of plants). *Maps:* geological 140A and 141A (scale: 1:125,000) 64°40'-67°25'N., 141°W.

Copy seen: DLC.

2632. CAIRNES, DE LORME DON-ALDSON, 1879-1917, and others. Yukon and Malaspina. (*In:* Canada. Geological Survey. Excursions in northern British Columbia [etc.] *Its:* Guide book no. 10, 1913. p. 37-176, illus., 12 maps (9 fold.))

Contents include: Cairnes, D. D. General introduction. Wright, F. E. Prince Rupert-Skagway section. Physiography and geology. Cairnes, D. D. Skagway-Whitehorse-Dawson section. General topography and geology; climate, flora and fauna; Whitehorse copper belt; Tantalus coal mine; Klondike gold fields (including placer mining operations). Martin, L. Juneau-Yakutat section. Geology and physiography of Glacier Bay; and of Yakutat Bay. Bibliography (95 items).

Copy seen: NNS Stef.

2633. CAJANDER, AIMO KAARLO, 1879-1943. Beiträge zur Kenntnis Vegetation der Alluvionen des Nördlichen Eurasiens. I. Die Alluvionen des unteren Lena-Thales. Helsingforsiae, Typogr. Societ. litterariae fennicae, 1903. 182 p. 4 maps. (Societas scientiarum fennicae. Acta. T. 32, no. 1) *Title tr.:* Contributions to the knowledge of the vegetation of the alluviums of northern Eurasia. I. Alluviums of the valley of the lower Lena River.

Contents tr.: 1. General section. 2. Special section: Hydrophyte plant associations, forest association; herbaceous association; moss and lichen associations. 3. Conclusion; list of the phanerogams and vascular cryptogams observed; list of localities; literature.

Copy seen: MH.

2634. CAJANDER, AIMO KAARLO, 1879-1943. Om vegetationen i urskogen kring floden Lena. (Fennia, 1902, T. 20, no. 4, p. 1-8) *Title tr.:* The vegetation of the taiga of the Lena River region.

Contains a description of various geobotanical zones of the taiga and their succession along the Lena River.

Copy seen: MH.

2635. CAJANDER, AIMO KAARLO, 1879-1943. Studien über die Vegetation des Urwaldes am Lena Fluss. Helsingforsiae, Typogr. Societ. litterariae fennicae, 1903. 40 p. (Societas scientiarum fennicae. Acta. T. 32, no. 3) *Title tr.:* Studies of the vegetation of the Lena River taiga.

Contains a geobotanical survey of taiga vegetation along the Lena River, carried out by the author on his trip to that region in 1901, with data on plant associations and their succession from south to north; a list of flowering plants and vascular cryptogams at end.

Copy seen: MH.

2636. CAJANDER, AIMO KAARLO, 1879-1943, and B. R. POPPIUS. Eine naturwissenschaftliche Reise im Lena-Thal. (Fennia, 1903, v. 19, no. 2, p. 1-44) *Title tr.:* A natural history journey in the valley of Lena River.

Contains a general account of the journey made in 1901, and data on the vegetation and fauna of the forest, steppe, mountain and tundra zones of the Lena River valley; special attention is given to the insect fauna of the region.

Copy seen: MH.

2637. CALASANTHUS, Sister MARY JOSEPH, (née DERUYTER) 1860- The voice of Alaska; a missionary's memories. Lachin, Quebec, Sisters of St. Ann Press, 1935. 9 p. l., 23-340 p., 4 l. 14 plates, fold. map.

Translated from the French edition, *Voix de l'Alaska*, about 1930, and originally written in Flemish and published in Belgium at the Abbey of Tongerlo by the Rev. Henry Leroye, Pastor of Moorsele, West Flanders.—Foreword. History of the Holy Cross Mission in the Yukon valley, beginning in 1885, with information generally on Catholic missions in Alaska.

Copy seen: NNSStef.

2638. CALDERWOOD, W. L. A boat journey in search of Franklin. (Scottish geographical magazine, July 1935. v. 51, p. 228-35)

A narrative written by a member of the *Plover* and *Herald* relief expeditions, 1848-51, "taken from the hitherto unpublished records of Vice-Admiral W. J. S. Pullen, copies by Lieut. H. F. Pullen, R. C. N." An account of a small-boat journey from Point Barrow along the coast to Mackenzie River, thence to Fort Simpson, the return to the arctic coast and further search, then another trip up the Mackenzie and eastward to Hudson Bay.

Copy seen: DLC.

2639. CALDWELL, J. B. What to expect in Alaska. (Alaska sportsman, Feb.-July, 1945. v. 11, no. 2, p. 8-9, 35-38; no. 3, p. 12-13, 36-38, 40; no. 4, p. 14-15, 24-27; no. 5, p. 16-18, 21-23; no. 7, p. 16-17, 24-27) Chapter 5, June 1945, not located.

Description in general terms for the prospective settler, of the climate, natives, fishing, hunting, homesteading, farming, ranching, prospecting, lumbering, and commercial fishing.

Copy seen: DLC: (June missing).

2640. CALDWELL, JOHN K. Fishing in the Priamur District of Siberia. Washington, U. S. Govt. Print. Off., 1917. 31 p. (U. S. Fish and Wildlife Service. Report of the U. S. Commissioner of Fisheries, 1916. Appendix 6. Fisheries document no. 844)

Report by the American consul at Vladivostok on Japanese and Russian fisheries around the Okhotsk Sea, including (p. 17-24) the salmon fisheries

of the northern shores, and west coast of Kamchatka.

Copy seen: DF.

2641. CALEY, JOHN FLETCHER, 1905- The Hudson Bay lowland. (In: Canada. Geological Survey. Geology and economic minerals of Canada. 3d ed., 1947. Pub. as its: Economic geology series. No. 1, p. 184-88)

Brief review of the history, general and economic geology of the plain which borders James Bay on the south and west and extends along Hudson Bay to Churchill River in Manitoba; includes notes on deposit of gypsum, lignite and refractory clay in northern Ontario.

Copy seen: DGS: CaOG.

2642. CALLAGHAN, J. C. X-ray survey trip Western Arctic coast April 1949. Aklavik, N. W. T., May 1949. 15 numb. l. Mimeographed.

Report of Canadian Dept. of Health and Welfare medical officer, on an airborne survey, Apr. 1949, during which more than one thousand Eskimos in Northwest Territories and Victoria Island were x-rayed. Includes notes on influenza pneumonia epidemic at Cambridge Bay.

Copy seen: CaMAI.

2643. CALLAN, BOB. Alaska's floating hospital. (Alaska life, Sept. 1946. v. 9, no. 9, p. 15, illus.)

Brief note on the hospital ship *Hygiene*, of the Territorial Dept. of Health, then carrying out a campaign against tuberculosis in Southeast Alaska.

Copy seen: DLC.

2644. CALLAN, BOB. CAA in Alaska. (Alaska life, Oct. 1946. v. 9, no. 10, p. 6-7, 22, illus., map)

Description of the difficult job done by the Civil Aeronautics Administration in establishing intermediate landing fields and range stations throughout Alaska, and notes on CAA activities as a whole.

Copy seen: DLC.

2645. CALLAN, BOB. The Chilkat gateway; water-road route from Seattle to the interior. (Alaska life, July 1946. v. 9, no. 7, p. 6-7, 12, illus., map)

Discussion in support of the proposal for the United States to improve the Haines cutoff and Alaska Highway from Haines to Fairbanks, and for Yukon Territory and British Columbia to improve their roads, the combined efforts creating an Inside Passage—Chilkat Gateway transportation route.

Copy seen: DLC.

2646. CALLAN, BOB. The Lomens of Nome. (Alaska life, Mar. 1946, v. 9, no. 3, p. 8-10, 35-37, ports.)

Story of the family which "pioneered in building the reindeer industry" of Alaska.

Copy seen: DLC.

2647. CALLAN, BOB. Opportunities in Alaska. (Alaska life, June 1946, v. 9, no. 6, p. 8-9, 29, table)

Discussion and tabular summary of answers to a business survey questionnaire circulated by *Alaska life* throughout Alaska in the spring of 1946. Shows results from eleven of the leading southern and southeastern Alaskan cities (also Nome). Includes remarks on housing, prices and social services.

Copy seen: DLC.

2648. CALLAN, BOB. Pulp from Alaska. (Alaska life, Jan. 1947, v. 10, no. 1, p. 4-5, 22-23, illus.)

Discussion of forest resources of Southeast Alaska, U. S. Forest Service regulations for industrial use of timber, and future possibilities of a pulp industry.

Copy seen: DLC.

2649. CALLAN, BOB. Sitka sanatorium approved. (Alaska life, Jan. 1947, v. 10, no. 1, p. 15)

Note on a tuberculosis hospital for Japonski Island, with school facilities in addition.

Copy seen: DLC.

2650. CALLARMAN, BARBARA E. The accent is where you find it. (Alaska life, Mar. 1945, v. 8, no. 3, p. 28-29)

Brief note on pronunciation of Alaskan place names derived from Indian dialects.

Copy seen: DLC.

CALLEBERG, CLAES AXEL, 1891- . see Lundqvist, M. Norrland. 1942.

2651. CALLISEN, KAREN, 1882- . Igneous rocks of the Ivigtut region, Greenland. I. The nepheline syenites of the Grønne Dal-Ika area. København, C. A. Reitzel, 1943. 74 p. illus. (incl. 3 sketch maps) 2 plates, tables. (Meddelelser om Grønland. Bd. 131, nr. 8)

Description of the alkaline rocks and their occurrences. "The irregular shape of the massif, the 'roof-pendants', and the small outcrops of nepheline syenite in fissures in the gneiss indicate that this massif represents the uppermost part of a stock, possibly of a batholite."

Copy seen: DSI-M.

2652. CALLISEN, KAREN, 1882- . Petrographische Untersuchungen einiger Gesteine von Nordgrønland. (In: Jubilæumsekspeditionen nord om Grønland. [Berettelser] nr. 6. Pub. in Meddelelser om Grønland, 1929. Bd. 71, p. 217-55, illus., sketch map, plate)

Descriptions of rocks from thirty-two localities in North Greenland.

Copy seen: DLC.

2653. CALLISON, I. P. Wolves and coyotes menace Alaska game. (Alaska life, June 1946, v. 9, no. 6, p. 10-11, 26-28 illus.)

Discussion of increase in numbers of predators and its cause, and the drastic drop in game, especially mountain sheep.

Copy seen: DLC.

2654. CALMAN, WILLIAM THOMAS, 1871- . Cumacea. Ottawa, King's Printer, 1920. 4 p. (Canadian Arctic Expedition, 1913-1918. Report. v. 7: Crustacea, Pt. C)

List, with locations and remarks on synonymy, of five species from the Beaufort Sea (Collinson Pt., Alaska), Bathurst Inlet, and Dolphin and Union Strait, N.W.T.

Copy seen: DSI-M.

2655. CAMBRIDGE, OCTAVIUS PICKARD, 1835?- . On some new and little-known spiders from the arctic regions. (Annals and magazine of natural history, Oct. 1877. Ser. 4, v. 20, p. 273-85, plate)

A record of thirteen spiders (including seven new species) from West Spitsbergen, West Greenland, and Ellesmere Island, the latter collected by the British Arctic Expedition, 1875-76.

Copy seen: DSI-M.

CAMDEN, B. H., see U. S. Revenue-cutter Service. Report of operations Nunivak 1899-1901. 1902.

CAMERON, A. T., see Canada. Fisheries Research Board. NW. Canadian fisheries surveys, 1944-45. 1947.

2656. CAMERON, AGNES DEANS, 1863-1912. Canada's farthest north. (Geographical journal, June 1910, v. 35, p. 705-708, illus.)

Report of an illustrated lecture on the author's trip in 1908 down the Mackenzie River.

Copy seen: DLC.

2657. CAMERON, AGNES DEANS, 1863-1912. The new North; being some account of a woman's journey through

Canada to the Arctic. New York and London, D. Appleton & Co., 1910. xix, 398 p. front., illus. (incl. ports.) map.

Description of the country, travel conditions and the people encountered by this journalist during her trip down the Mackenzie River and back. Includes historical notes, and comment also on the region south of Mackenzie District.

Copy seen: DLC; NNS Stef.

2658. CAMERON, ALAN EMERSON, 1890-. Explorations in the vicinity of Great Slave Lake. (Canada. Geological Survey. Summary report, 1917, pub. 1918. Pt. C, p. 21-28)

Contains results of a survey of a part of Hay River, of Buffalo River and Lake, and Beaver River, with notes on stratigraphic and structural geology, as they relate to the possibility of oil occurrence.

Copy seen: DLC.

2659. CAMERON, ALAN EMERSON, 1890-. Hay and Buffalo Rivers, Great Slave Lake, and adjacent country. (Canada. Geological Survey. Summary report, 1921, [pub. 1922.] Pt. B, p. 1-44, fold., col. map)

Contains chapters on the physical characteristics of the area, its stratigraphic and structural geology, and a discussion of its deposits, which include lead-zinc, bitumen and petroleum, clays, gypsum, salt, and potash (none). Map: geological (scale 1:3,168,000) Mackenzie River basin.

Copy seen: DLC.

2660. CAMERON, ALAN EMERSON, 1890-. Post-glacial lakes in the Mackenzie River basin, North West Territories, Canada. (Journal of geology, July-Aug. 1922. v. 30, p. 337-53, illus.)

Contains discussion of the region between 56°-63°N. 107°-120°W. which includes Great Slave Lake basin.

Copy seen: DGS.

2661. CAMERON, ALAN EMERSON, 1890-. Reconnaissance on Great Slave Lake, North West Territories. (Canada. Geological Survey. Summary report, 1916, pub. 1917. p. 66-76)

Contains results of a survey of the west arm of the lake, with notes on the lead, zinc, copper and petroleum occurrences, and a report of the physiography and general geology.

Copy seen: DLC.

2662. CAMERON, ALAN EMERSON, 1890-. South Nahanni River, (Canada.

dian geographical journal, May 1936. v. 13, p. 37-45 incl. 4 p. of illus., 3 sketch maps)

Based on the author's observations in 1935 while encamped at the mouth of the river, and during a barge trip ninety miles up-stream. Description of the river and surrounding country, including remarks on the Mackenzie Mts., the neighboring river systems, and on the Nahanni Indians.

Copy seen: DLC.

2663. CAMERON, ALAN EMERSON, 1890-, and P. S. WARREN. Geology of South Nahanni River, N.W.T. (Canadian field naturalist, Feb. 1938. v. 52, p. 15-21, illus.)

Results of A. E. Cameron's reconnaissance, 1935. Description of the topography and geology of the Mackenzie Mts. in the lower South Nahanni River region (within eighty miles of its confluence with the Liard); also appendix by R. Ruedemann listing, describing and discussing four graptolites from Silurian shale at Galena Creek.

Copy seen: DLC.

2664. CAMERON, Mrs. CHARLOTTE (WALES-ALMY). A cheechako in Alaska and Yukon. London, T. F. Unwin, Ltd. [1920] 291, [1] p. 24 plates, fold. map.

Description of Southeast Alaska, Juneau, Skagway, the White Pass-Miles Canyon route to the Yukon, of Dawson, Klondike, and the Yukon River valley to its mouth, of Nome, the Eskimos, gold mining, dogs and dog racing, reindeer and other animals.

Copy seen: DLC; NNS Stef.

2665. CAMERON, FRANK K. Potash from kelp. Washington, U. S. Govt. Print. Off., 1915. 122 p. incl. tables. 40 plates, fold. diagr. (U. S. Dept. of Agriculture. Report. No. 100)

Contents include: Pt. 4. FRYE, T. C. The kelp beds of Southeast Alaska. Pt. 5. RIGG, G. B. The kelp beds of western Alaska. Each of these papers appears in this Bibliography under its author's name.

Copy seen: CaO.

2677. CAMPBELL, NEIL. Regional structural features of the Yellowknife area. (Economic geology, Dec. 1947. v. 42, p. 687-98, map)

Description of the area in the immediate vicinity of Yellowknife Bay, north arm of Great Slave Lake.

Copy seen: DGS.

2678. CAMPBELL, NEIL. Regional structural features of the Yellowknife area. (Western miner, Nov. 1947. v. 20, no. 11, p. 62-67, illus., sketch map)

The area is in the immediate vicinity of Yellowknife Bay, Great Slave Lake, about 62°25'N. 114°20'W. "Sequence of geologic events in Archean times began with outpouring of volcanic flows, followed by intermittent vulcanism and sedimentation, then by sedimentation with little or no vulcanism. These rocks were subjected to granitic intrusion and folding accompanied by thrust faults which are now recognizable as mineralized shear zones. A later granitic intrusion and crustal disturbance cross-folded earlier structures and probably produced new ore-bearing structures. The final phase in the structural development was the intrusion of diabase dykes followed by major strike-dip faults which cut all pre-existing rocks and known mineralization."—Author's abstract.

Copy seen: DGS.

2679. CAMPBELL, NEIL. West Bay fault. (*In:* Canadian Institute of Mining and Metallurgy. Geology Division. Structural geology of Canadian ore deposits, 1948. p. 244-59, illus., 4 sketch maps)

Author discusses the problem of whether or not there is an unexplored orebody displaced by the West Bay fault which trends in a northerly direction along the west side of Yellowknife Bay, Great Slave Lake. Remarks on the geologic table of formations, late diabase dykes, faults and shear zones, and evidence for determining the position of the Giant shear zone on the west side of the fault; with a bibliography (9 items).

Copy seen: DGS.

2680. CAMPBELL, NEIL. The West Bay fault, Yellowknife. (Canadian Institute of Mining and Metallurgy. Transactions, 1947. v. 50, p. 509-526, illus., 4 sketch maps. Also in: Western miner, May 1947. v. 20, no. 5, p. 46-55)

The area lies west of Yellowknife Bay, Great Slave Lake. "Geological mapping revealed that the [gold] ore and the shear zones to which the ore is confined are older than the fault and

therefore subject to displacement by it. It also disclosed several diabase dykes which seem to provide the best basis for determining the fault movement... the dykes were used as structural markers and it was estimated that... the movement on the fault was 16,140 feet south and 1,570 feet down on the west side relative to the east"—Author's abstract.

2687. CAMSELL, CHARLES, 1876- . A 4000-mile flight through North-Western Canada. (Polar record, Jan. 1936. No. 11, p. 53-55)

Account of a flight in Aug. 1935, to inspect geological parties, investigate administrative questions, and to take aerial photographs, across southeastern Yukon and the Mackenzie District. Includes remarks on the physiography of the area of Liard River and Mackenzie Mts.

Copy seen: DLC.

2688. CAMSELL, CHARLES, 1876- . Great Bear Lake: an exploration and its sequel. (Canadian geographical journal, Mar. 1937. v. 14, p. 126-51, incl. 17 p. of illus., 2 sketch maps)

Presidential address, before the eighth annual meeting of the Canadian

Geographical Society, Feb. 17, 1937. Reminiscences of the author's exploration (in the company of Dr. Mackintosh Bell, 1900) of the region around and east of the lake, including descriptions of the ice on Mackenzie River, the physical features of the lake and its shores.

Copy seen: DLC.

2689. CAMSELL, CHARLES, 1876- . Mining development in the Northwest Territories. (Mining and metallurgy, Sept. 1937. v. 18, p. 411-13)

Descriptive notes on mineral wealth throughout the Canadian Arctic, and on the various enterprises in the Great Bear and Great Slave Lake regions.

Copy seen: DGS.

2690. CAMSELL, CHARLES, 1876- . Opening the Northwest. (Beaver, June 1944. Outfit 275, no. 1, p. 4-9, illus.)

Brief and general account of the physical features and natural resources of the Canadian part of the region covered by the North Pacific Planning Project of Canada and the United States, i.e. west of the Slave and Mackenzie Rivers.

Copy seen: DSI-M.

2691. CAMSELL, CHARLES, 1876- . Peel River, in the Yukon and Mackenzie districts. (Canada. Geological Survey. Summary report, 1905, pub. 1906. p. 36-46)

Contains a description of the route by way of Braine Creek-Nash Creek-Wind River to Peel River; a report on the survey of Peel River, including a rough estimate of stream discharges for Wind, Snake, and Peel Rivers.

Copy seen: DLC.

2692. CAMSELL, CHARLES, 1876- . Planning the new Northwest. (Canadian geographical journal, Dec. 1943. v. 27, p. 251-61 (incl. 4 p. of illus., 2 maps)

Concerns the North Pacific Planning Project, sponsored by the Joint Economic Committees of Canada and the United States, to study the resources of the northwest continental area. Includes brief notes on the wildlife, forest, mineral, and agricultural resources of the Yukon Territory, Mackenzie District, northern British Columbia, and northern Alberta.

Copy seen: DLC.

2693. CAMSELL, CHARLES, 1876- . The region south-west of Fort Smith, Slave River, N.W.T. (Canada. Geological Survey. Summary report, 1902, pub. 1903. p. 149-67)

Report of a reconnaissance, including the physical geography of the Salt and Little Buffalo Rivers, with notes on the route and its portages.

Copy seen: DLC.

2694. CAMSELL, CHARLES, 1876- . Report on the Peel River and tributaries, Yukon and Mackenzie. Ottawa, King's Printer, 1906. 49 p. 3 plates, fold. map. (Canada. Geological Survey. Annual report, 1904. n.s., v. 16, pt. CC)

Contains introductory remarks on previous explorations and early prospecting; detailed description of routes via Braine and Nash Creeks to Wind River; topography and geology, including ore deposits, of the Wind and Peel Rivers and their tributaries; appended notes on fossils by Dr. Whiteaves. *Map* of Peel and Wind Rivers (scale 8 mi.: 1 in.) with geologic notes and trails given, shows entire length of Huskie River (i.e. Husky Channel, Mackenzie delta)

Copy seen: DLC.

2695. CAMSELL, CHARLES, 1876- . Some interesting geographical problems in the exploration of northern Canada. (Geographical review, Mar. 1918, v. 5, p. 208-215, illus.)

Contains notes on Great Slave Lake, Caribou Plateau (northern Alberta) and the headwaters of Thelon and Taltson Rivers (Mackenzie District) as (then) in need of exploration.

Copy seen: DLC.

2696. CAMSELL, CHARLES, 1876- . The unexplored areas of continental Canada. (Geographical journal, Sept. 1916, v. 48, p. 249-57)

Copy seen: DLC.

2697. CAMSELL, CHARLES, 1876- . The waterways of the Mackenzie River basin. (Canadian field naturalist, May 1914, v. 28, p. 21-33)

A general description of the area of the basin, its physiography, history, and extent of waterways.

Copy seen: DLC.

2698. CAMSELL, CHARLES, 1876- . The Yellowknife mining district, illustrating the influence of mining on Canadian geographical history. (Canadian geographical journal, June 1939, v. 18, p. 310-19, incl 5. p. of illus.)

Presidential address before the Canadian Geographical Society. Feb. 24,

1939. Discussion of the gold prospects in Yellowknife, their effect on the community supported by the mines, the future of the people there from outside and the natives, when the mines are exhausted. Includes descriptions of Yellowknife village and region, also notes on the game preserve created there for future support of the inhabitants.

Copy seen: DLC.

2699. CAMSELL, CHARLES, 1876- , and C. M. BARBEAU. Loucheux myths. (Journal of American folk-lore, 1915, v. 28, p. 249-57)

Text (in English) of thirteen tales collected by Camsell while working for the Geological Survey of Canada near the Mackenzie River delta in 1905; and prepared for publication with comparative notes etc., by Charles Marius Barbeau.

Copy seen: DLC.

2700. CAMSELL, CHARLES, 1876- , and WYATT MALCOLM. The Mackenzie River basin. Ottawa, King's Printer, 1919. 1 p. l., ii, 154 p. incl. illus., 14 plates, fold. map (in pocket). (Canada. Geological Survey. Memoir 108. Geological series no. 92)

Classic summary of the region, its history, bibliography and general character (topography, rivers, lakes, agriculture, climate, fauna, timber, transportation and commercial possibilities); general geology (formations, structural geology); economic geology (including important deposits of bituminous sands, clays, gypsum, petroleum and natural gas and salt). *Map* of Mackenzie basin shows geology of rivers' environs from about 53°N.

Outline of general characteristics of permafrost, its destructive action, engineering problems; factors (under permafrost conditions) affecting foundations, roads, bridges, airports, and dam construction. *Appendix:* definitions commonly used; and a bibliography (12 items).

Copy seen: CaMAI.

2702. CANADA. BOARD OF TRANSPORT COMMISSIONERS. Economic report on the Mackenzie River district transportation system. Ottawa, 1947. 2 v. (2 p., l., 28 numb. l., appendix: 1 l., 13 fold. tables). Mimeographed.

Contents: 1. Description of water transportation system. 2. Traffic analysis. 3. Highway. 4. Competitive effect of highway on water transportation. 5. Conclusions and recommendations. *Appendices* contain traffic statistics for 1946, on points of departure, destination, amounts, and classes of items transported. *Copy seen:* CaOGB.

2703. CANADA. BRITISH COLUMBIA - YUKON - ALASKA HIGHWAY COMMISSION. Report on proposed highway through British Columbia and the Yukon Territory to Alaska . . . Ottawa, Ont., 1941. 2 v.: 382 l. 50 photos. 4 fold. maps, tables. Reproduced from typewritten copy.

Contents: v. 1, pt. 1. Report of the commission (giving a history of U. S. and Canadian committees, surveys and hearings leading to the appointment of the commission). Pt. 2. Preliminary conference, April 1939. Pt. 3. Public hearings. Pt. 4. Meetings with the United States Commission, 1939-41. Pt. 5. Cariboo Road. Pt. 6. Natural resources.

Appendices (v. 2): 1. Estimates of cost.

2. Statistics of Prince George Route. 3-8 concern British Columbia.

9. List of reports of Geological Survey of Canada covering mineral resources in northern British Columbia and Yukon Territory.

10 concerns British Columbia.

11. Meteorological data. (Monthly mean maximum and minimum temperature, rainfall, snowfall and total precipitation, 1934-38, earliest snowfall and greatest depth on ground (estimated) for Carcross, Dawson City, Mayo Landing, and Whitehorse (1905-1910). 12-15 concern British Columbia.

16. Mitchell, J. H. Reconnaissance air survey, Prince George to Dawson via Parsnip and Finlay, Sifton Pass, Liard and Pelly Rivers.

17 concerns British Columbia.

18. Martin, R. M. Report on survey—Whitehorse to White River.

19. Martin, R. M. Report on reconnaissance survey along the Pelly River valley.

20 concerns British Columbia.

21. Mitchell, J. H. Report on the Alaska-Yukon highway reconnaissance Alaska boundary to Dawson and Carmacks, Yukon Territory.

22. Mitchell, J. H. Observations and approximate cost of section between Atlin, B. C., Whitehorse and Carmacks, Yukon Territory.

23-25 concern British Columbia.

Copy seen: CaO (includes 50 photographs); DLC (50 photographs lacking).

2704. CANADA. BRITISH - COLUMBIA - YUKON - ALASKA HIGHWAY COMMISSION. Report on proposed highway through British Columbia and the Yukon Territory to Alaska. August, 1941, Ottawa, Ontario. Ottawa, King's Printer, 1942. 46 p. 2 fold. maps (in pocket).

"The full report of the commission consists of two large mimeographed volumes . . . Only part I, vol. 1, which contains the commission's findings, and part VI, vol. 1, on natural resources, have been printed, together with an appendix on estimates of cost."—Note.

Contains in the Report (p. 1-36) a record of the several commissions and committees which met, 1931-40, the public hearings, various approaches to, and connections with the proposed highway from the south, alternative routes, and economic aspects. *Natural resources*, Pt. VI, vol. 1 of full report, (p. 37-45) of the proposed highway zone are described briefly. *Estimate of cost* (p. 46).

Maps: (1) highway routes considered; (2) alternative highway routes selected. These show existing main highways and roads & trails in British Columbia and Yukon, relative to the proposed highway.

Bell, Robert. Additional notes on the geology of the northwest coast of Hudson's Bay (including field ice and icebergs, and a list of plants from Nottingham Island), p. 83-90.

General remarks on the navigation of Hudson Bay and Straits, p. 90-92.

Appendices: A. Results of tidal observations at the stations, p. 129-31. B. Table of experiments for ascertaining depth of frost and thaw penetration, York Factory, p. 132-33.

Charts: Track of the *Alert*. Plan of Churchill Harbour (soundings in fathoms). York Roads (Port Nelson) (soundings in feet). Position and amount of ice in Hudson Strait in beginning of July 1886.

The paper by F. F. Payne appears in this Bibliography under its author's name. *Copy seen: DLC.*

2715. CANADA. DEPT. OF MARINE AND FISHERIES. Report of the second Hudson's Bay Expedition under the command of Lieut. A. R. Gordon, R. N., 1885. [Ottawa? 1885] 1 p. l., 112 p. front, 2 fold. charts.

Contains a journal of the trip, May 27-Sept. 12; ice observations of the six observers (at Port Burwell, Skynner's Cove, Ashe Inlet, Stupart's Bay, Nottingham Island, and Cape Digges) from (in general) Aug. 1884-Aug. 1885.

Reports on ice from observations on the *Alert* 1884-85, and from others, with notes on Hudson Bay and Strait, 1744, 1768-69, 1836-37; meteorological observations, (with tables) from the six stations and the cruise of the *Alert*, including sea-water temperatures, wind, and snow; notes on natural history, etc. by the six observers, Aug. 1884-Aug. 1885.

BELL, ROBERT. The geology of Hudson's Bay and Strait.

Magnetic work, (with tables) at Stupart's Bay.

Chart of the drift of the *Alert* in the ice of Hudson Strait.

The paper by R. Bell appears in this bibliography under its author's name.

2716. CANADA. DEPT. OF MARINE AND FISHERIES. Report on the Dominion Government Expedition to Arctic Islands and the Hudson Strait on board the C.G.S. "Arctic" 1906-1907. Ottawa, Printed by C. H. Parmelee, 1909. iv, 127 p. 47 plates, ports., fold. map.

Contains a narrative by Capt. J. E. Bernier, of the voyage in Davis Strait, Baffin Bay, Navy Board Inlet, Admiralty Inlet, Prince Regent Inlet, Lancaster Sound, Barrow Strait, Melville Sound, Lady Ann Strait and return.

Report of the annexations of Bylot Island, Cornwallis Island, Byam Martin Island, Griffith Island, Melville Island, Prince Patrick Island, Eglinton Island, Lowther Island, Coburg Island, and Ellesmere Island.

Description of the wintering at Albert Harbour, Baffin Island, and of the hunting and fishing of the natives and crew.

Report on the whaling of Baffin and Hudson Bays with statistics 1865-1907.

Appendices include: 1. Fullerton ice-formation, 1904-1905.

2. Albert Harbour, Pond Inlet ice-formation, Oct. 1906-July 1907.

3. Abstract of meteorological journal of the *Arctic*, Aug. 1906-Oct. 1907 (mainly at Albert Harbour or arctic islands)

4. Meteorological observations, Sept. 1906-Oct. 1907, at Killineck (island off north Labrador).

5. Daily temperature observations at Hebron, Labrador, Jan.-Dec. 1891.

6-7. Notes on specimens collected.

8. Orders and regulations, C.G.S. *Arctic*.

9. Information on natives of the Labrador coast. Fishery and other information on Port Burwell. Notes on season of navigation for Hudson Bay Route. List of some of the terms used in ice navigation by whalers, sealers and others. Particulars and dimensions of C.G.S. *Arctic*.

Map: Ship's track, and Eskimo route on Baffin Island.

Copy seen: DLC.

2717. CANADA. DEPT. OF MARINE AND FISHERIES. Report on the Dominion Government Expedition to Hudson Bay and the Arctic Islands on board the D.G.S. *Neptune*, 1903-1904. Ottawa, Govt. Print. Bur., 1906. xvii, 355 p.

incl. front., illus., plates, fold. map (in pocket).

Narrative (with supplemental information from previous reports) of expedition sent to patrol the waters, and to aid in establishing permanent government stations on shores; under A. P. Low, with scientific staff of L. E. Borden, botanist, A. Halket, naturalist, and C. E. King, topographer and meteorologist.

Contents: Voyage to the Bay (with notes on the *Neptune*, Port Burwell, Cumberland Gulf). Winter quarters at Fullerton. Summer cruise of the *Neptune* in 1904 (Hudson Strait, east side of Davis Strait and Baffin Bay to Smith Sound, return by Lancaster Sound, excursion to Beechey Island and west side Baffin Bay and Davis Strait).

Historical summary of discoveries and explorations in arctic America. Arctic islands (geology and descriptions of group 1, islands of Hudson Bay and Strait; 2, islands of Baffin Island complex; 3, islands west of Prince Regent Inlet and south of Lancaster Sound; and 4, islands north of Lancaster Sound and Barrow Strait).

Eskimos (including general distribution; the distribution and number of the Central Eskimos; their snowhouses, food, sledges, dogs, hunting and trapping, trade, boats; social organization, superstitions and beliefs; taboos; medicine men; amusements; clothing; morals).

Geology (general, and details by island groups, and geologic period); economic minerals (gold, silver, copper, iron, coal).

Whaling (methods, ships, whales, porpoises, seals). Navigation of Hudson Bay (including currents and ice).

Appendices: 1. Meteorological observations taken on board, Aug. 1903-Aug. 1904 (including sea-water temperatures, June-Aug. 1904, and notes on thickness of ice in the harbor).

2. List of birds and eggs identified or collected on the voyage (forty-four species.)

3. List of plants collected in 1904 by L. E. Borden and named by J. M. Macoun (sixty-five species).

4. Lambe, L. M. Notes on the fossil corals collected at Beechey Island, Southampton Island and Cape Chidley, 1904 (six, including two new, species). Preliminary list of organic remains

from Beechey Island, Lancaster Sound; from blocks of limestone from Southampton Island.

5. List of the principal works and papers consulted in the preparation of the report.

6. Borden, L. E. Notes on physical condition of Eskimos (body measurements of five men and four women).

Map: Geological map of northeastern part of Dominion of Canada (Geology, by A. P. Low; compiled with corrections to shoreline, by C. F. King; scale 50 mi.:1 in.) shows track of the *Neptune*.
Copy seen: DLC.

2718. CANADA. DEPT. OF MARINE AND FISHERIES. Report on the Dominion Government Expedition to the northern waters and Arctic Archipelago of the D.G.S. "Arctic" in 1910, under command of J. E. Bernier, [Ottawa? 1911?] 6 p. l., 5-161 p. illus., 3 fold. maps, tables.

Contains a report of a whaling patrol and exploring cruise, 1910-11, compiled from the log, by J. E. Bernier; an account of ship's track as far as the west coast of Melville Island on McClure Strait (with map); the wintering in Arctic Bay (east side of Admiralty Inlet, with map), and explorations along the shores of that inlet and eastward to Bylot Island; an overland trip to Fury and Hecla Strait and shores of the eastern part of Boothia Gulf, 1910; the crossing of Brodeur Peninsula and the surveying of east shore of Prince Regent Inlet, 1911.

Appendices: Abridged reports by officers, which include: 1-3. Lavoie's survey of Prince Regent Inlet coast of Brodeur Peninsula and south end of Admiralty Inlet (with sketch map).

4. Meteorological report (with tables, July 1910-Sept. 1911) of cruise and winter station.

5-6. Officers' reports.

7. Analyses of mineral specimens (Baffin, Banks, Bathurst, Bylot and other islands), reprint of Johnston, R.A.A. Prehnite from Adams Sound.

8. Ship's orders.

9. Information on Labrador coast (on the natives, Port Burwell, and the Hudson Bay Route).

2730. CANADA. DEPT. OF PUBLIC WORKS. Canada from the Atlantic to the Pacific and Arctic Oceans, arctic voyages, voyages of discovery in the North, and public works, etc. etc. [Ottawa, 1891?] 253 p. incl. tables. (*Its*: Report, 1890. Appendix 22) By G. F. Baillairgé.

Contents include (pt. 3, p. 64-67): Progressive discoveries and foundations of various cities (etc.)

Pt. 4. Latitudes, longitudes, climate, etc., observed during arctic expeditions.

Pt. 7. Mackenzie Basin and northwest chain of rivers and lakes. Yukon Territory (northern furs, opening and closing of navigation, 1876-86, and Indian and white population). Description of principal lakes and forts or trading stations in the northern territories.

Pt. 9. Chronological enumeration of voyages of discovery in the North, from B.C. to 1882. *Copy seen:* NNSf.

2731. CANADA. DEPT. OF RAILWAYS AND CANALS. Report of the Hudson's Bay railway surveys. Ottawa, King's Printer, 1909. 22 p. 9 plates. (Sessional paper no. 20 d. A. 1910)

Brief statement of preliminary survey carried out during the first year of the project, beginning July 1908, with notes on general conditions along the route, estimates for alternative routes, to Churchill and Nelson, and remarks on ice conditions, tides and currents in their harbors.

Copy seen: CaO.

2732. CANADA. DEPT. OF THE INTERIOR. The great Mackenzie basin. Reports of the Select committees of the Senate, sessions 1887 and 1888. A summary of the reports of the "Schultz committees of the Senate (1877-88) and of the evidence heard before said committees bearing upon the natural resources of that portion of the Canadian Northwest which still remains unexplored." Ottawa, King's Printer, 1908. 1 p. l., 80 p. 15 plates (incl. 2 maps) 4 fold. maps. Edited by E. J. Chambers, and published under direction of R. E. Young, Supt. of Railway Lands.

Digest of evidence on the area north of the Saskatchewan watershed, and lying between the Rocky Mts. and Hudson Bay. The evidence was given by Robert Bell, John Macoun, William Ogilvie (and others), and related to agriculture, forestry, fisheries, game and furs, minerals, climate, settlements, and means of communication.

Maps: Life zones of Hudson Bay and Mackenzie regions, from U. S. Biological Survey, North American fauna, no. 27. Barren Grounds, arable and pasture lands, northern limits of trees and of the possible cultivation of potatoes, barley and wheat. Geographical distribution of the principal Canadian mammals. Economic minerals. Navigable waters and the lignite areas of the Mackenzie basin, *Copy seen:* DSG.

2733. CANADA. DEPT. OF THE INTERIOR. The Hudson Bay Route, a compilation of facts with conclusions, by J. A. J. McKenna. Ottawa, Govt. Print. Bur., 1908. 54 p. 4 plates, fold. map.

Contains introductory remarks on the grain growing and outlet needs; a compilation of evidence on navigability of Hudson Bay and Strait, drawn from many sources; description of the country, resources and climate of the route for the proposed Hudson Bay railway, of Churchill River and its watershed, the coasts of Hudson Bay and its tributary rivers, and of Churchill Harbour.

Copy seen: CaOGB; DLC.

2734. CANADA. DEPT. OF THE INTERIOR. Navigation of Hudson's Bay. Ottawa [1878] 43 p. incl. tables, fold. map. Reprint of evidence given before the Select Standing Committee on Immigration and Colonization, House of Commons, Apr. 1878, by H. Y. Hind.

Contains evidence on the geography and navigation in Hudson Strait, the ice in Hudson Strait and Bay and on the Labrador, Nelson River, Port Nelson, the marine resources of Hudson Strait and Bay, and Manitoba and the North-West.

Tables: Returns of whaling vessels from American ports fishing in Hudson Bay, and annual value of catch, 1861-1876.

Copy seen: CaOAr.

2735. CANADA. DEPT. OF THE INTERIOR. Report of the Superintendent of Forestry on a trip down the Mackenzie and up the Yukon Rivers in the year 1906. Ottawa, Govt. Print. Bur., 1907. 26 p. 4 plates, fold. map. Extract from the department's annual report, 1907, part IX, by E. Stewart.

Contains a travel narrative describing the Mackenzie River from Fort McMurray to Fort Smith, from Fort Smith to Fort McPherson, thence the Bell and Porcupine Rivers to Fort Yukon, up the Yukon and Lewes Rivers to Whitehorse; notes on timber of Mackenzie Valley, condition of routes, and brief remarks on natural resources, and natives of the region traversed.

Copy seen: NNStef.

2736. CANADA. DEPT. OF THE INTERIOR. Report upon the title of Canada to the islands north of the mainland of Canada, by W. F. King, chief astronomer. Ottawa, Govt. Print. Bur., 1905. 77 p.

Contains documents, extracts, addresses, orders, etc., elucidating the title to Rupert's Land and Northwest

Territories, action of the Canadian Parliament on boundaries, transfer of territory to Canada from Great Britain, and international law.

Copy seen: DLC; NNStef.

2737. CANADA. DEPT. OF THE INTERIOR. The Yukon Territory, its history and resources. Ottawa, Govt. Print. Bur., 1909. 181 p. illus., 46 plates (1 fold.) tables, diagrs. Published first in 1907 (140 p.), again in 1909 with slight changes (140 p.), and here in a revised edition, enlarged, partly rewritten and with new chapter added on mining.

Contents: chap. 1. Historical sketch. Chap. 2. Constitution and government.

Chap. 3. Physical features (rivers and lakes).

Chap. 4. Mining. Pt. 1, a general description of the creeks under headings of various mining districts, showing annual gold output since 1885; pt. 2, conditions affecting mining (including staking, transportation, timber, frozen ground, gravels, water and other rights, machinery, etc.); pt. 3, mining methods (prospecting, thawing, sluicing, self-dumper tables, dredging, power, labor, companies operating, cost tables, hydrauliclicking); pt. 4, quartz mining; pt. 5, coal.

Chap. 5. Transportation (freight tariffs, winter travel, road construction, distances from Dawson and Whitehorse to different points in the territory).

Chap. 6. General information (climate, sport, education, agriculture, horticulture).

Appendices: 1. Tariff items on mining machinery. 2. Annual return of fishery inspector. 3. Price list of lumber at Dawson. 4. Land purchased for agricultural purposes. 5. Retail price of groceries.

Copy seen: DGS.

2738. CANADA. DEPT. OF THE INTERIOR. The Yukon Territory, its history and resources. Ottawa, [Govt. Print. Bur.] 1916. x, 233 p., illus., plates (incl. 3 fold.)

Another edition of the work first published in 1907, revised, enlarged and so rewritten as to constitute a new work, of which still another edition was published in 1926 by the Northwest Territories and Yukon Branch of this Dept., q.v.

Contents: Historical sketch. Constitution and government. Mining. Placer mining. Dredging (companies, equipment, methods, costs, etc.) Hydraulic mining. Ore deposits. Coal. Radium-bearing minerals. Fox farming. Transportation. Agriculture. General information (education, climate, game).

Appendices: regulations, travel rates, prices, officials.

Copy seen: DLC.

2739. CANADA. DEPT. OF THE INTERIOR. NATURAL RESOURCES INTELLIGENCE BRANCH. Historic forts and trading posts of the French regime and of the English fur trading companies. Compiled by Ernest Voorhis. [Ottawa, 1930] 1 p. l., ii, 188 numb. l. 2 fold. maps. Mimeographed.

This study includes the area from Labrador across Ungava Peninsula, around Hudson and James Bays, in the Mackenzie Valley and Yukon Territory. It contains an alphabetical list with historical notes on each fort; main portage and canoe routes; French trading companies; free traders after the cession of Canada 1763; the Northwest Co. and Hudson's Bay Co.; with a bibliography (85 items) and list of maps consulted.

Copy seen: CaOGB; DLC.

2740. CANADA. DEPT. OF THE INTERIOR. NATURAL RESOURCES INTELLIGENCE BRANCH. The Hudson Bay Railway belt and Hudson Bay. [Ottawa?] 1925. 2 p. l., 35 numb. l. incl. tables. fold. map. Mimeographed.

"A brief synopsis of the important available information concerning the resources . . . compiled mainly from reports of exploratory parties and from data . . . in federal and provincial government publications."

Contains general information on climate, agriculture, minerals, forests, fisheries, game and fur, water power, and navigation of the region (northern Manitoba with casual reference to the Barren Grounds northwest of the Bay) concerned in the railway from the Pas to Churchill. Bibliography (109 items).

Copy seen: CaO.

2741. CANADA. DEPT. OF THE INTERIOR. NATURAL RESOURCES INTELLIGENCE BRANCH. The Hudson Bay region. Ottawa, King's Printer, 1929. vii, 50 p. illus., diags. Pamphlet for general readers by F. H. Kitto.

Contains general description; outline of natural resources (lands, forests,

minerals, water powers, fur and game, fisheries); mining developments; transportation (Hudson Bay Railway, Churchill Harbour, ice investigations, railway extensions, general travel); bibliography.

Copy seen: DGS.

2742. CANADA. DEPT. OF THE INTERIOR. NORTHWEST TERRITORIES AND YUKON BRANCH. Canada's Arctic Islands. Canadian expeditions, 1922 and 1923, J. D. Craig . . . officer-in-charge. 1924, F. D. Henderson . . . officer-in-charge. 1925 and 1926, Geo. P. Mackenzie, officer-in-charge. Ottawa, King's Printer, 1927. 54 p. incl. illus., map. fold. plate.

Reports on the expeditions of 1922-25 in C. G. S. *Arctic*, and 1926, in a chartered steamship *Beothic*, which patrolled the eastern islands to re-provision government posts, establish new posts, and to convey officers detailed for duty in that area. Pond Inlet, Craig Harbour, Dundas Harbour (established 1924) and Pangnirtung (southern Baffin Island) were visited regularly; calls made to establish a new post at Fram Haven, Rice Strait, Ellesmere Island, 1924-25, and on Bache Peninsula, 79°04'N. 76°18'W., 1926. Includes throughout descriptions of the ice conditions and the activities of the medical officers among the natives.

Copy seen: CaMAI; DLC.

2743. CANADA. DEPT. OF THE INTERIOR. NORTHWEST TERRITORIES AND YUKON BRANCH. Canada's Western Arctic. Report on investigations in 1925-26, 1928-29, and 1930. Major L. T. Burwash investigator. Ottawa, King's Printer, 1931. 116 p. incl. 32 illus., diags. 8 maps (1 fold.)

Account of investigations in the regions "from the Mackenzie Delta to King William Island and Hudson Bay, on the Eskimos, their health and welfare, on wild life, mineral deposits, natural resources, the fur trade, climate, travel and transportation, magnetic conditions in the neighborhood of the magnetic pole, and on the area in which the Franklin expedition was lost." Contains remarks throughout on the localities visited, especially on the two winterings on King William Island. This work has no index.

Copy seen: DLC.

2744. CANADA. DEPT. OF THE INTERIOR. NORTHWEST TERRITORIES

IES AND YUKON BRANCH. Conserving Canada's musk-oxen, being an account of an investigation of Thelon game sanctuary 1928-29 with a brief history of the area and an outline of known facts regarding the musk-ox, by W. H. B. Hoare. Ottawa, King's Printer, 1930. 53 p. incl. front., illus., 4 maps.

Report on the Thelon Game Sanctuary, an irregular shaped area between 63°-65°N. and 101°-108°W., containing accounts of the patrols made in the southern part, 1928 and the northern part, 1929; description of caribou migration in the area, the woods in the sanctuary, and historical sketch.

Appendices: A. The musk-ox. Compilation of data on its size, geographic distribution, and note on its status.

B. Anderson, R. M. Notes on the musk-ox and caribou. (Numbers and status). *Coppy seen:* CaOI; DLC.

2745. CANADA. DEPT. OF THE INTERIOR. NORTHWEST TERRITORIES AND YUKON BRANCH. Coronation Gulf copper deposits. Report of an inspection of the known mineralized areas in Coronation Gulf and Bathurst Inlet districts 1928-29, by Major L. T. Burwash. Ottawa, King's Printer, 1930. 41 p. incl. illus., 3 maps.

The author proceeded, July-Aug. 1928, via Aklavik through Dolphin and Union Strait, to Gjoa Haven, southeast King William Island, where he wintered. Abandoning camp in May 1929, he traveled by stages via Simpson Strait, Sherman Inlet and Cambridge Bay, to the Bathurst Inlet and lower Coppermine River region of Coronation Gulf, where he carried out investigations of the copper deposits. The return was made by ship and airplane. He gives here an account of the journeys, descriptions of ice conditions, notes on travel by dog sled, selection of clothing, camp outfit, and air travel; a summary of results of mineral investigations; notes on land, sea and air transportation in the Canadian North; and an appended "bill of material for one basket sled." *Coppy seen:* CaOI; DLC.

2746. CANADA. DEPT. OF THE INTERIOR. NORTHWEST TERRITORIES AND YUKON BRANCH. Great Slave Lake area, Northwest Territories, by G. H. Blanchet. Ottawa, King's Printer, 1926. 1 p. l., 5-58 p. incl. illus., tab. fold. front. (map)

Contains chapters on geology and topography, the control surveys in the area 1921-25, general description of (1) western or Mackenzie valley portion of the area, (2) northwestern or north arm portion, (3) country east of Slave River, and (4) northeastern or east arm—Lockhart River portion; settlement and transportation, climate and vegetation, and animal life.

Appendix: McDonald, W. L. Geological notes of portions of the Great Slave Lake area. Bibliography (27 items).

Coppy seen: CaOI; CaOG; DLC.

2747. CANADA. DEPT. OF THE INTERIOR. NORTHWEST TERRITORIES AND YUKON BRANCH. Keewatin and northeastern Mackenzie. A general survey of the life, activities, and natural resources of this section of the Northwest Territories, Canada. By G. H. Blanchet. Ottawa, King's Printer, 1930. 78 p. illus., maps (1 fold.) diagrs.

Contents: Physical characteristics. Mineral explorations in the Northwest Territories. The aeroplane (prospecting, flying conditions, aeroplane problems, flying problems, arctic highways to Europe and Asia). Climate (snow and rain, ice on lakes and in Hudson Bay, tides and currents in Hudson Bay, meteorological charts). Fauna. The Eskimo (conditions in Keewatin, tribal divisions, seasonal activities, the sledge, snow house, clothing, domestic life, advance of civilization). Vocabulary (useful words of Sonatmuit [Caribou Eskimo] dialect).

Maps: (1) Aerial routes in northern Canada; (2) section of Northwest Territories covered by this survey.

Coppy seen: DGS.

2748. CANADA. DEPT. OF THE INTERIOR. NORTHWEST TERRITORIES AND YUKON BRANCH. Local conditions in the Mackenzie District, 1922, by J. F. Moran. Ottawa, King's Printer, 1923. 19 p. incl. front., illus., tables, charts (1 fold.)

Description of the populated places from Edmonton to Aklavik, with mention of government agencies, trading posts, transportation, mail service, lumber, missions, schools, hospitals, and population; also a table of distances for various routes.

Coppy seen: CaOM.

2749. CANADA. DEPT. OF THE INTERIOR. NORTHWEST TERRITOR-

IES AND YUKON BRANCH. Mining development in the Mackenzie District, 1922, by L. T. Burwash. Ottawa, King's Printer, 1923. 19 p. illus., sketch map.

Report on the area west of 102° meridian and north of 60° parallel in the basin of the Slave and Mackenzie Rivers. *Contains* a few remarks on the topography and geology, the early exploration and geological investigation, and discussion of recent developments, beginning 1919, in oil prospecting at Norman and Windy Point, Great Slave Lake (later abandoned), gold prospecting Little Caribou Island, Great Slave Lake (later abandoned), and the Norman Wells development; Bibliography (21 items). *Copy seen:* CaOM; DLC.

2750. CANADA. DEPT. OF THE INTERIOR. NORTHWEST TERRITORIES AND YUKON BRANCH. Preliminary report on the aerial mineral exploration of northern Canada, by G. H. Blanchet . . . Ottawa, King's Printer, 1930. 32 p. incl. 2 sketch maps, (1 double face).

Contains a summary of activities of the Northern Aerial Mineral Exploration, Dominion Explorers, Ltd., and Cyril Knight Co., in aerial reconnaissance in the Hudson Bay region of Keewatin District; notes on methods and mapping; on the climate, vegetation, wildlife, and Eskimos of Keewatin; and general remarks on the aeroplane in northern Canada.

Copy seen: CaMAI; DLC.

2751. CANADA. DEPT. OF THE INTERIOR. NORTHWEST TERRITORIES AND YUKON BRANCH. Southern Baffin Island; an account of exploration, investigation and settlement during the past fifty years. Ottawa, King's Printer, 1930. 130 p. illus. (incl. 9 sketch maps) 4 fold. maps. Collated and edited by A. E. Millward.

Contains summaries of the work done, 1882-1928, by various expeditions, Church of England missions, the Royal Canadian Mounted Police, Dept. of the Interior and Geological Survey of Canada, in opening up the country, and providing new maps and information.

Appendix: Hantzsch, B. A. The crossing of Baffin Island to Foxe Basin. (Translation of Rosenmüller, M. *Bernhard Hantzsch und seine letzte Forschungsreise in Baffinland*, 1913, p. 676-716, q.v.) *Copy seen:* CaMAI; CaOA.

2752. CANADA. DEPT. OF THE INTERIOR. NORTHWEST TERRITORIES AND YUKON BRANCH. Yukon, land of the Klondike, by F. H. Kitto. Ottawa, 1929. 45 p. illus., 3 sketch maps. Another edition with slight changes, 1930.

Tourist pamphlet with general information on routes, trips and points of interest.

Copy seen: CaOA; DLC (2d ed.)

2753. CANADA. DEPT. OF THE INTERIOR. NORTHWEST TERRITORIES AND YUKON BRANCH. The Yukon Territory. 1926. Ottawa, King's Printer, 1926. [3]-100 p. incl. illus., ports., facsimis., tables. fold. map.

Contains historical sketch, especially of the Klondike development, description of the constitution and government, and (in detail) of the placer deposits, mining methods and operators, the lode deposits; also (in less detail) the water power, agriculture, game, fur and fish, transportation, communication, aborigines, churches and hospitals and education.

Appendices include list of officials, synopses of mining laws, gold statistics, roads and distances, railway rates, and population.

Map: Northwest Territories and Yukon, showing telegraph line and radio stations. *Copy seen:* DLC.

SERVICE, *see also* Canadian Arctic Ex-
pedition 1913-1918. Report. 1919-46.

2755. CANADA. DEPT. OF TRANS-
PORT. Churchill and the Hudson Bay
Route. Ottawa, King's Printer, 1939.
50 p. incl. illus., tables. 2 fold. charts.

Contains chapters on history, 1610-
1847 and 1886-1935, which include the
discovery and exploration, Hudson's
Bay Co., Fort Prince of Wales, the
Northwest Passage explorations of
Hudson's Bay Co. men, and the Hudson
Bay Railway development; with more
detailed information on the port facil-
ities, dredging, water supply, ice sur-
veys, shipping, and the development of
navigational aids in Hudson Bay and
Strait.

Maps: plans of (1) Churchill Har-
bour and vicinity, and (2) Churchill
wharf, elevator and vicinity.

Copy seen: DLC.

2756. CANADA. DEPT. OF TRANS-
PORT. Navigation conditions on the
Hudson Bay Route from the Atlantic
seaboard to Port Churchill, season of
navigation, [1929 and onwards] Ottawa,
King's Printer, [1930 and onwards]

This annual compilation of data was
first published under the Dept. of
Marine as *Navigation conditions in
Hudson Bay and Strait during the sea-
son of navigation 1929*, Ottawa, 1930,

and yearly thereafter till 1936, (with
change of title in the 1935 report *pub.*
1936). The Dept. of Transport (suc-
cessor to Dept. of Marine) issued the 1936
report (*pub.* 1937) and subsequent an-
nual reports till that (the 21st) of
1949 (*pub.* 1950). The reports vary
somewhat from year to year according
to the data available, comprising about
50-100 pages with small chart, illustra-
tions (plates) etc. Their contents are
based on data supplied to the depart-
ment by ships in navigation, and on
other departmental records. They in-
clude shipping reports (movements and
cargoes), navigation aids (lights, radio,
direction-finding stations, etc., ice-
breaker *N. B. McLean*), detailed re-
ports on weather and ice conditions as
indicated below (for the reports of
1929-49, *pub.* 1930-50).

Routine daily meteorological reports
or notes (beginning in 1929) from the
logs of commercial ships, patrol ships
(especially *N. B. McLean*) and tugs,
and other vessels, made during passage
in the navigation season. Reports in-
clude observations or notes on visibility,
waves and ice conditions. Wind and
weather conditions are usually reported
2 to 3 times daily, other elements may
be reported synthetically or be averaged
for the day. Ships reporting regularly
are *N. B. McLean* and *Nascope* (till
1946); eleven ships reported in 1949.

Routine daily meteorological observa-
tions made at 0800 and 2000 hours at
Port Burwell, July-Oct. 1929; at Cape
Hopes Advance, July-Oct. 1929, July-
Nov. 1930, July-Nov. 1931, July-Nov.
1932, July 1-Oct. 5, 1933, July-Nov.
1934, July 26-Oct. 15, 1935, July 17-
Oct. 11, 1936, July 18-Sept. 26, 1937,
Sept. 27-Oct. 11, 1938, Aug. 6-Sept.
30, 1939, Aug.-Nov. 1942, and July-Nov.
1943 and onwards; at Port Harrison
Sept. 9-Nov. 30, 1937, and during the
period July-Nov. in 1938 and onwards;
at Coral Harbour, Southampton Island,
July-Nov. 1948 and onwards. Observa-
tions include visibility and ice condi-
tions.

Routine daily meteorological obser-
vations made at 0800 and 2000 hours at
Chesterfield Inlet during the period
July 1-Nov. 30 annually, 1929 onwards.
Observations include visibility and ice
conditions.

Routine daily meteorological observa-
tions made at 0800 and 2000 hours at

Port Churchill during the period July-Oct. 1929 and July-Nov. annually 1930 onwards. Observations include visibility and ice conditions.

Routine meteorological observations made daily at 0800 and 2000 hours at Nottingham Island during the period July-Oct. 1929, and July-Nov. annually 1930 onwards, and at Resolution Island during the period July-Nov. annually 1930 and onwards (except Oct. 9-Nov. 30, 1933 lacking). Observations include visibility and ice conditions.

Sea temperatures, measured every four hours during a voyage from Halifax to Port Churchill and return to Halifax on the SS. *Canadian Trooper* July 25-Sept. 1, 1929, and on a voyage from Halifax to Churchill and return to Halifax on the SS. *Canadian Squatter* during the period Aug. 25-Sept. 29, 1929, are given in tables in the 1929 volume, p. 14, 16. The N. B. McLean reported daily sea temperature regularly during navigation season from 1942 onwards.

The report for 1948 includes data on the new arctic patrol vessel *Rupert's Land*, and that for 1949 on the C. D. Howe. **File seen:** DLC; DN-HO.

2757. CANADA. DOMINION WATER AND POWER BUREAU. Surface water supply of Canada. Arctic and western Hudson Bay drainage and Mississippi drainage in Canada in British Columbia, Alberta, Saskatchewan, Manitoba, the Northwest Territories, and western Ontario. 1919/20-1941/43. Ottawa, 1921-47. 17 v. maps (part fold.) tables. (*Its*: Water resources paper, no. 31, 36, 40, 44, 46, 50, 54, 57, 62, 66, 68, 71, 75, 82, 84, 88, 92) Annual, 1919/20-1928/29; biennial, 1929/31-1941/43. Title varies slightly. Issued 1919/20-1922/23 by the Dept. of the Interior, Dominion Water Power Branch; 1923/24-1927/28, by the Dominion Water Power and Reclamation Service; 1928/29-1931/33, by the Dominion Water Power and Hydrometric Bureau.

Contains data for: Mackenzie River at Simpson, gauge heights during open water, 1938-43; at Norman, gauge heights Aug. 1938-Sept. 1943.

Slave River tributary basin at Fort Smith, water elevations in feet, Sept. 1937-Sept. 1943.

Liard River tributary basin at Fort Liard, gauge heights May-Oct. 1942 and Sept. 1943.

Great Slave Lake at Resolution, gauge heights Jan. 1934-June 1935 and July 1939-Oct. 1943; at Yellowknife Bay, water elevations June 1938-Sept. 1943; Yellowknife River at outlet from Bluefish Lake dam and diversion at site Y., monthly and daily discharge Jan. 1941-Sept. 1943; at inlet to Prosperous Lake, monthly and daily discharge Jan. 1939-Sept. 1943.

Coppermine River Basin, discharge Apr. 19, 1932 and Apr. 25, 1935, ice conditions Apr. 12, 1933 and Apr. 25, 1934.

Great Bear Lake Basin, monthly and daily discharge Dec. 1933-Sept. 1935 Camsell River; water elevations 1934 and 1938-39 at Cameron Bay (Port Radium).

Hay River tributary basin, mean monthly discharge and daily gauge heights, July 1929 to Apr. 1931.

Reference list of hydrometric records appears in paper no. 92, *pub.* 1947, which indicates the *Water resources paper* number for various watersheds.

2760. CANADA. EXPERIMENTAL FARMS SERVICE. Garden report, autumn 1946, Ft. McPherson, N.W.T., of Rev. & Mrs. A. S. Dewdney. [Ottawa, 1946?] 2 l. Mimeographed.

Notes on weather and time of planting and progress of vegetables and flowers during the year, with remarks on absence of insect pests.

Copy seen: CaMAI; CaOA.

2761. CANADA. EXPERIMENTAL FARMS SERVICE. Interim report of garden and field tests conducted on the Whitehorse Substation in 1947, by J. W. Abbott. [Ottawa, 1948?] 4 l. Mimeographed.

Notes dated Nov. 10, 1947, on cereal grains, forage plants and garden vegetables, with list of facilities completed on the substation.

Copy seen: CaMAI; CaOA.

2762. CANADA. EXPERIMENTAL FARMS SERVICE. Preliminary report on an exploratory soil survey along the Alaska Military Highway and the Yukon River system. Ottawa, 1943. 2 p. l., 16 p. tables. Mimeographed. By A. Leahey.

The survey, carried out by the author and V. C. Brink, June 21-Aug. 13, covered the Highway from Fort Nelson, B. C., to west of Whitehorse (256 miles), traveled down the Lewes and Yukon Rivers to Dawson, and flew from Dawson to Mayo, returning to Stewart by boat. This report contains a general description of the areas which have agricultural possibilities. In Yukon Territory these areas include Lake Teslin, Atlin and Tagish Flats, Carcross-Rob-

inson area, Takhini-Dezadeash valleys, Carmacks, Selkirk, Yukon River flats and islands, Klondyke River flats, uplands at Dawson City, Mayo and Stewart Rivers. *Copy seen:* CaMAI.

2763. CANADA. EXPERIMENTAL FARMS SERVICE. Preliminary report on the native vegetation. 1. Along the Alaska Military Highway from Fort St. John, B. C. to Kluane Lake, Yukon. 2. Along the Nelson and Liard Rivers from Fort Nelson, B. C. to Fort Simpson, N. W. T. [Ottawa] 1944. 11 l. Mimeographed. By F. S. Nowosad.

Contains a general description of the areas examined while traveling by car or in a canoe, including remarks on trees, forests, possible grazing areas, muskegs, burned-over areas, and soils.

Copy seen: CaMAI.

2764. CANADA. EXPERIMENTAL FARMS SERVICE. Progress report Pine Creek Experimental Substation Whitehorse, Y. T. [Ottawa, 1945] 2 l. Mimeographed.

Notes on construction and equipment of the new substation, by A. Leahey.

Copy seen: CaMAI; CaOA.

2765. CANADA. EXPERIMENTAL FARMS SERVICE. Report of a developmental survey into the Tagish-Carcross districts of the Yukon. [Ottawa, 1947?] 4 l. Mimeographed.

Report dated Nov. 16, 1946, by J. W. Abbott, in charge of Experimental Substation Whitehorse. Notes on mink and fox farms, a general and dairy farm, and gardens in the southern Yukon region. *Copy seen:* CaMAI; CaOA.

2766. CANADA. EXPERIMENTAL FARMS SERVICE. Report of an exploratory soil survey made along the water route from Fort Nelson, B. C., to Waterways, Alta. via Fort Simpson, N. W. T. [Ottawa] 1944. 2 p. l. 26 p. tables. Mimeographed.

The author, A. Leahey, and F. S. Nowosad, traveled by canoe in July-Aug., from Fort Nelson via the Nelson and Liard Rivers to Fort Simpson, thence via Mackenzie River to Great Slave Lake, around its south shore to Slave River, and south to Lake Athabaska. This report contains brief discussion of the general characteristics of the river valleys and description of soil profiles; comments on agriculture, absence of permafrost in lands suitable

for agriculture, and the climate; and a table of distances on water route.

Copy seen: CaMAI.

2767. CANADA. EXPERIMENTAL FARMS SERVICE. Report on agricultural investigations in the Mackenzie River Basin 1945. Ottawa, Central Experimental Farm, 1946. 20 numb. 1. Mimeographed.

The author, F. V. Hutton, and one assistant with headquarters at Yellowknife, Great Slave Lake, spent the summer aiding and encouraging settlers in gardening. This report contains lists of vegetable and flower seeds sent to cooperators, and description of gardening conditions along the Mackenzie River and at Forts Smith, Fitzgerald and Simpson and at Yellowknife.

Copy seen: CaMAI; CaOGB.

2768. CANADA. EXPERIMENTAL FARMS SERVICE. Report on agricultural possibilities in the Mackenzie River Basin 1944. [Ottawa, Dominion Experimental Farms, 1945?] 17 p. incl. tables. Mimeographed.

Results, written by F. V. Hutton, of investigations carried out at seven places along the Mackenzie River, at Fort Fitzgerald, Fort Smith, Yellowknife and Eldorado (Great Slave Lake region). The investigations covered type of soil, number and condition of gardens, main types of (1) native plants and trees, and (2) introduced plants, and the amount and kind of livestock and its feed.

Copy seen: CaMAI; CaOGB.

2769. CANADA. EXPERIMENTAL FARMS SERVICE. Report on Dawson City-Mayo-Yukon interior survey trip during August 1946. [Ottawa, 1947?] 10 l. Mimeographed.

Report by J. W. Abbott, in charge Experimental Substation Whitehorse, dated Nov. 8, 1946, on the second annual survey of agricultural enterprise in the Yukon interior. Contains brief notes on progress in general farming and gardening of individual holdings; with optimistic conclusions concerning agricultural possibilities in this "extra-latitudinal" region.

Copy seen: CaMAI; CaOA.

2770. CANADA. EXPERIMENTAL FARMS SERVICE. Report on grain samples received from substation, Whitehorse, Yukon Territory 1946. [Ottawa, 1946?] 1 l. Mimeographed.

Results of determination of 1000 kernel weight of barley, oats and spring wheat. *Copy seen:* CaMAI; CaOA.

2771. CANADA. EXPERIMENTAL FARMS SERVICE. Report on selection of a site for an agricultural experimental substation in the Yukon Territory, by A. Leahey. Ottawa [1944] 4 l. Mimeographed.

Notes on nature of the soils and land in southwestern Yukon near the Alaska Highway and near Whitehorse.

Copy seen: CaMAI; CaOA.

2772. CANADA. EXPERIMENTAL FARMS SERVICE. Report on trip to experimental substation, Whitehorse, Y. T. 1946. Ottawa [1946?] 6 l. Mimeographed.

The author (A. Leahey) and a member of the Canadian Cereal Division staff traveled to Yukon and Alaska in July 1946, to inspect the Whitehorse substation, to complete the exploratory soil survey of the Alaska Highway in Canada, to visit an Alaskan experimental station (Palmer, Matanuska valley) and to visit the American party of specialists sent to Alaska by the U. S. Dept. of Agriculture.

Copy seen: CaMAI; CaOA.

2773. CANADA. EXPERIMENTAL FARMS SERVICE. Summary of reports from vegetable growers or co-operators in the Northwest who have received vegetable seeds from the Division of Horticulture for trial, by W. Ferguson. Ottawa, 1945. 3 l. Mimeographed.

Garden reports from Yukon Territory and Mackenzie River valley.

Copy seen: CaMAI; CaOA.

2774. CANADA. EXPERIMENTAL FARMS SERVICE. Visit to northern substations and Alaska. By P. R. Cowan. [Ottawa, 1946] 4 l. Mimeographed.

The Cereal Division expert who accompanied A. Leahey on an inspection trip, discusses the cereal work at Whitehorse substation, remarks on soil, the beauty of the Alaska Highway, and the work of Alaskan experimental agriculture in comparison with that of Canada. *Copy seen:* CaMAI; CaOA.

2775. CANADA. EXPERIMENTAL FARMS SERVICE. Yearly survey of Carcross-Tagish District. [Ottawa, 1948?] 3 l. Mimeographed.

By J. W. Abbott, in charge Experimental Substation, mile 1019, Alaska Highway, Whitehorse, Y. T., dated Oct. 22, 1947. Notes on cattle raising and gardening in southern Yukon Territory.

Copy seen: CaMAI; CaOA.

2776. CANADA. EXPERIMENTAL FARMS SERVICE. Yearly survey of Yukon agricultural enterprise. [Ottawa, 1948?] 6 l. Mimeographed.

By J. W. Abbott, in charge of Experimental Substation, mile 1019 Alaska Highway, Whitehorse, Y. T., dated Oct. 16, 1947. Third annual report on general farming and gardening in Yukon Territory.

Copy seen: CaMAI; CaOA.

2777. CANADA. FISHERIES RESEARCH BOARD. North West Canadian fisheries surveys in 1944-1945. Ottawa, 1947. 94 p. illus., 5 sketch maps (2 double face) tables, diagrs. (*Its:* Bulletin. No. 72)

The Canadian Fisheries Research Board sent two parties into the Northwest Territories in 1944. Prof. V. C. Wynne-Edwards and Dr. R. Grant traveled by canoes down the Mackenzie River and made a brief survey of Great Bear Lake. Dr. D. S. Rawson, with a larger party made a general survey of Great Slave Lake. "In the summer of 1945 Prof. Wynne-Edwards and Dr. Grant made a reconnaissance survey of the chief rivers and lakes of the Yukon, Dr. R. B. Miller directed a general survey of Great Bear Lake, and Dr. Rawson directed similar parties working in Great Slave and Athabaska Lakes." The reports describe the geographic and hydrographic characteristics of the regions, the natural history of the fishes, notes on domestic uses, game fish and commercial possibilities of the fisheries; with remarks on conservation and the possibilities of improving the fishing.

Contents include: Chap. 1. Cameron, A. T. Introduction.

Chap. 2. Wynne-Edwards, V. C. The Yukon Territory.

Chap. 3. Wynne-Edwards, V. C. The Mackenzie River.

Chap. 4. Miller, R. B. Great Bear Lake.

Chap. 5. Rawson, D. S. Great Slave Lake.

Chap. 7. Dymond, J. R. General conclusions.

(Both of these editions are out of print.)

Contents include: Chap. 1. Hanson, G. Introduction.

Chap. 2. COOKE, H. C. The Canadian Shield.

Chap. 5. CALEY, J. F. The Hudson Bay lowland.

Chap. 7. LORD, C. S., and others. The Cordilleran region.

Chap. 8. ARMSTRONG, J. E. The arctic archipelago.

Chap. 9. WICKENDEN, R. T. D. Pleistocene glacial deposits.

Each of these chapters except the introduction appears in this Bibliography under its author's name.

Copy seen: DGS.

2782. CANADA. GEOLOGICAL SURVEY. Recent mineral discoveries on Windy Arm, Tagish Lake, Yukon, by R. G. McConnell. Ottawa, King's Printer, 1905. 12 p. double map.

Description of the region between Windy Arm and Lake Bennett, its geology, silver ores, and notes on mining development.

Copy seen: DGS.

2783. CANADA. HYDROGRAPHIC AND MAP SERVICE. Charting of Hudson Bay and Strait. (Hydrographic review, 1930. v. 7, no. 2, p. 44-49, plate, sketch chart)

Account of the equipment and program for the 1929 cruise of the Canadian government ship *Acadia*, with notes on previous surveying in the area, and on ice conditions in 1929.

Copy seen: DN-HO.

2784. CANADA. HYDROGRAPHIC AND MAP SERVICE. Hudson Bay and Strait. (*In:* Canada. Dept. of Marine and Fisheries. Annual report, 1929-30 to 1933-34, pub. 1931-1934. v. 63, p. 108-122; no. 14, p. 84-98; v. 65, p. 64-68, 87-101; v. 66, p. 53-56; v. 67, p. 51-54; incl. tables, sketch charts, diagrs.)

Account of the Hudson Bay and Strait surveys, carried out by C.G.S. *Acadia*, from Churchill to the eastern entrance of Hudson Strait, July-Nov. 1929, 1930, 1931, and in Hudson Strait, 1932 and 1933. Contains notes on the ship's company, the season's operations, general health, and ice conditions as noted (with sketch charts).

Tables: Surface and vertical density and temperature of the sea water, and daily meteorological observations, during 1929, 1930 and 1931.

During 1930 and 1931, magnetic work was carried out in the Bay and Strait. No ship was sent into the area in 1932 and 1933, but surveys were conducted by use of motor launch and work of shore parties in Douglas Harbour, on Wales and Charles Islands, 1932, and along the southeastern coast of Baffin Island, 1933.

File seen: DLC.

2785. CANADA. HYDROGRAPHIC AND MAP SERVICE. Mackenzie River pilot (preliminary edition) 1946. Ottawa, 1946. p. l., 24 numb. 1. map. Mimeographed.

Contains sailing directions for the river from Great Slave Lake to Mackenzie Bay, describing (in brief) the shores, lights, buoys, depths, populated places, river mouths, islands, landings, ice conditions and distances.

Copy seen: CaOGB.

2786. CANADA. HYDROGRAPHIC AND MAP SERVICE. Sailing directions for Lake Melville and approaches, coast of Labrador. 1st ed. 1931. Ottawa, King's Printer, 1931. 36 p.

Contains information for the pilot, on anchorages, port facilities, navigational hazards and aids, tides, ice conditions, etc., from Indian Harbour (54°27'N. 57°12'30"W.) into, and including both sides of, Hamilton Inlet and Lake Melville. *Copy seen:* DLC.

2787. CANADA. HYDROGRAPHIC AND MAP SERVICE. Sailing directions for Lake Melville and approaches, coast of Labrador. 2d ed. 1944. Ottawa, King's Printer, 1945. 36 p.

Essentially the same as the 1931 ed., q.v., supplemented with information from *Notices to Mariners*, to, and including No. 110 of 1944.

Copy seen: DLC.

2788. CANADA. HYDROGRAPHIC AND MAP SERVICE. Sailing directions for the Hudson Bay Route from the Atlantic Ocean to Churchill Harbour. 2nd ed. Issued by the Hydrographic and Map Service, Surveys and Engineering Branch, Department of Mines and Resources, Ottawa. Ottawa, J. O. Patenaude, Printer to the King, 1940. xviii, 119 p. incl. tables. front., fold. map. Supersedes *Sailing directions*, 1st ed. 1932, and *Notices to Mariners* (referring to this region) to and including no. 40 of 1940.

Prepared by F. C. G. Smith, this edition deals with "the waters and coasts bordering on the main steamship track from the Atlantic Ocean to Churchill Harbour, . . . and (briefly) the northern portion of the coast of Labrador from Cape Mugford to Cape Chidley, the east coast of Hudson Bay from Hudson Strait to Portland Promontory, and the west coast of Hudson Bay from Repulse Bay to Cape Tatnam, for the guidance of vessels deviating from the principal track recommended in the Sailing directions".

Contents: Caution tables, notes, etc., on charts, lights, signal systems, radio aid. General physical description of the Hudson Bay region: inhabitants, meteorology, tides, ice, magnetic variation and deviation, Hudson Bay Route, navigation. Approaches to Hudson Strait, Labrador coast, Hudson Strait, Hudson Bay, directions.

Appendix: meteorological tables, etc. (for stations on the Labrador and Hudson Bay coasts). *Copy seen:* DLC.

2789. CANADA. HYDROGRAPHIC AND MAP SERVICE. Tide tables for Churchill, Manitoba, June to October, 1928-1933. [Ottawa, 1927-32] 6 no. Mimeographed. *Copy seen:* CaOG.

2790. CANADA. HYDROGRAPHIC AND MAP SERVICE. Tide tables for Nelson, Hudson Bay, June to October, 1924-1933. [Ottawa, 1923-32] 10 no. Mimeographed. *Copy seen:* CaOG.

2791. CANADA. HYDROGRAPHIC AND MAP SERVICE. Tide tables for the Atlantic coast of Canada . . . 1933-1949, including the River and Gulf of St. Lawrence, the Bay of Fundy, Northumberland and Cabot Straits; Hudson Bay; and information on currents. In addition tide tables for New

York and Boston, U.S.A. . . . Ottawa, 1932-1948. 17 v.

Includes from 1933 tides for Churchill on Hudson Bay, and from 1934, for Moosonee on James Bay. Tidal differences are shown throughout for Strait of Belle Isle to Cape Chidley, including Hamilton Inlet, Labrador; for Hudson Strait and Bay and James Bay; also Hudson Strait currents. Beginning 1939, tidal currents are shown for Hamilton Inlet. *Copy seen:* CaOG.

2792. CANADA. INTER-SERVICE TOPOGRAPHICAL SECTION. Hints to northern pilots. [Ottawa, n.d.] 8 numb. 1. Mimeographed. "First edition . . . provisional only."

Contains information for airplane pilots, relative to landing and take-off on snow and ice of rivers and lakes in the Canadian Arctic.

Copy seen: CaMAI.

2793. CANADA. LANDS AND DEVELOPMENT SERVICES BRANCH. Progress in the Northwest Territories. (Western miner, Nov. 1949. v. 22, no. 11, p. 68, 70, 73)

Review of gold and other mining and prospecting, 1948-49, in Mackenzie and Keewatin Districts. *Copy seen:* DGS.

2794. CANADA. LAWS, REGULATIONS. Yukon placer mining act, consolidated for office purposes, 1919, superseding with amendments the consolidation of this act, printed in 1913. Ottawa, J. de L. Taché, printer, 1919. 31 p. *Copy seen:* DLC.

2795. CANADA. METEOROLOGICAL SERVICE. Canadian polar year expeditions. 1932-33. Ottawa, King's Printer, 1939-40. 2 v. v. 1: xvi, 452 p. illus. 46 plates, maps, diagrs.; v. 2: 185 p. illus. 3 plates, diagrs.

Contents: v. 1 pub. 1940. *Meteorology.* Includes (1) sections on the Second International Polar Year, an outline of Canadian participation, personnel, stations, program of work, instrumentation, maintenance and supply problems, by John Patterson.

2. Cape Hopes Advance Station (Un-gava Peninsula) The site, organization and instrumentation of the station is described, and/or illustrated. Hourly values of pressure temperature, humidity, sunshine; wind direction, wind speed (as determined by individual balloon ascents and tabulated for standard

levels up to 14,000 ft.) six-hourly observations of clouds, visibility, and weather; twelve-hourly measurements of precipitation amount and duration, and daily observations of snow depth. Notes on occurrences of optical and other aperiodical phenomena, such as forms of snow crystals, haze, fog, etc., as determined by observations and recording instruments, Aug. 1932-Sept. 1933. Also résumé of these observations by months.

3. Chesterfield Inlet Polar Year Station (Keewatin), by Staurt T. McVeigh (with brief narrative of the expedition to Chesterfield Inlet by Frank T. Davies, p. xiii-xv). The site, organization, and instrumentation of the station is described and/or illustrated. Hourly values of pressure temperature, humidity, sunshine, wind direction, wind speed (as determined by individual pilot balloon ascents and tabulated for standard levels up to 14,000 ft.) and six-hourly observations of cloud, visibility, and weather, twelve-hourly measurements of precipitation amounts and duration, daily ground temperatures at depths of one and four feet; and notes on optical and other aperiodical phenomena such as haze, fog, snow crystal forms, humidity etc., as determined by observations and recording instruments, Aug. 1932-Sept. 1933. Includes (p. 246-57) micro-meteorological observations: hourly values are derived for the temperature difference existing between heights of 30 meters and 1.4 meters, during the period Oct. 1, 1932-July 31, 1933.

4. Coppermine Polar Year Station (67°49'N. 115°5'W.). The site, organization, and instrumentation of station is described and/or illustrated. Hourly values of pressure temperature, humidity, sunshine, wind direction, wind speed (as determined by individual pilot balloon ascents, and tabulated for standard levels up to 14,000 ft.) and six-hourly observations of clouds, visibility, twelve-hourly measurements of precipitation amounts and duration, daily snow depths, and notes on occurrences of optical and other aperiodical phenomena, such as fog, haze, snow crystal structures, etc., as determined by observations and instrumental recordings, Aug. 1932-Sept. 1933. Includes (p. 374-87) micro-meteorological: hourly values of the temperature

difference existing between heights of 30 meters and 1.2 meters tabulated for the period Sept. 13, 1932-Aug. 25, 1933.

v. 2. pub. 1939. *Terrestrial magnetism, earth currents, aurora borealis*. Includes magnetic results, Chesterfield Inlet. The magnetic observatory and its instrumentation are described and illustrated. Methods of applying temperature corrections and reducing data are discussed. Hourly mean values of vertical component, magnetic declination, and daily extremes of terrestrial magnetic elements, extreme hourly ranges of the horizontal force as observed or recorded at Chesterfield Inlet, Sept. 1932-Dec. 1933, also daily observations of horizontal force and declination at three field stations, Baker Lake, Marble Island and Dead Island, during the period of one week during Aug. 1933. Appended is:

Report on auroral heights measurements and observations at Chesterfield Inlet, by B. W. Currie, p. 150-85.

v. 1-2 include also results of observations made at Meanook and Saskatoon.

Copy seen: DLC

2796. CANADA. METEOROLOGICAL SERVICE. Climatic summaries for selected meteorological stations in the Dominion of Canada. Toronto, Can. [1947]-48. 2 v. tables, maps. Vol. 2 by C. C. Boughner and M. K. Thomas.

The stations reporting include one on the British Columbia-Yukon boundary, four in Yukon Territory, fourteen in Northwest Territories, including two on northern Baffin, and one each on Nottingham and Resolution Islands, four in Hudson Bay and two in Hudson Strait, also (in v. 2 only) three stations in Labrador.

Each volume includes indication of number of years' data used and methods of use.

Contents: v. 1 pub. Feb. 1947. Average values of mean and extreme temperature, mean and extreme humidity, sunshine, precipitation.

v. 2 pub. May 1948. Humidity, wind speed and direction. (Includes list of stations with location and local topography; monthly average values of (1) mixing ratio in grains of water vapor per pound of dry air, (2) of mixing ratio in grams of water vapor per kilogram of dry air, (3) for selected stations of relative humidity and dew point temperature with corresponding

values of air temperature and mixing ratio at four fixed hours, extreme values of dew point and corresponding mixing ratio; annual and monthly percentage frequency of winds, monthly average wind speed.

Copy seen: CaMAI; CaON; DLC.

2797. CANADA. METEOROLOGICAL SERVICE. General summaries of hourly weather observations in Canada and Newfoundland, 1944-49. Toronto [1945-50] 6 v. in 11. tables.

Includes in part 1 of the volumes for 1944-49, Yukon Territory (Aishihik, Snag, Teslin, Watson Lake, and Whitehorse); in part 2, 1946-49, Northwest Territories (Fort Good Hope, Fort Providence, Fort Resolution, Fort Smith, Hay River, and Yellowknife) and Labrador (Goose Bay). 1944 lacks the Northwest Territories stations; 1945 includes them in part 1 with the addition of Fort Simpson, Fort Wrigley and Norman Wells; 1944-45 show Goose Bay in part 3; 1946-49 include Churchill, Manitoba in part 1.

Monthly data from airway weather stations, designed to allow comparison of the relative suitability of different flying fields and to determine the average variation of flying conditions along aviation routes.

Total low clouds in tenths of sky covered (by hours).

Number of hours, with various cloud forms, precipitation, obstructions to vision (fogs, smoke, haze, dust, sand or snow); by various visibilities and simultaneous ceilings.

Wind frequency (in hours) by various visibility and ceiling groups.

File seen: CaON; DWB.

2798. CANADA. METEOROLOGICAL SERVICE. Meteorological conditions of selected airports in Canada, Newfoundland and Labrador. Toronto, 1947. 32 l. incl. 29 charts, 1 map. First published as *Meteorological conditions at principal Canadian airfields*, 1944 (11 l. incl. 10 charts), and here completely revised and enlarged.

Contains pictorial charts showing "the salient weather conditions associated with each of the principal wind directions peculiar to the airfield," also the same information in statistical form, with notes on meteorological facilities at each port, including Whitehorse in Yukon Territory, Yellowknife

in Mackenzie District, and Goose Bay, Labrador.

Copy seen: DWB.

2799. CANADA. METEOROLOGICAL SERVICE. Meteorology of the Canadian Arctic. [Ottawa, King's Printer] 1944. 3 p. l., 85 p. incl. charts, tables, diagrs. (Form 9000. Dept of transport, Air services Branch, Meteorological Division). Reproduced from typewritten copy.

A basic work for the climate of Canadian Arctic Islands. Contains data on average and extreme conditions of air temperature, precipitation, wind and storms, fogs, clouds, sunshine and humidity, characterized according to seasons. Climatological tables, p. 22-58, include average temperature and precipitation data for eighteen stations, wind data for ten stations, and list of seventeen stations with data on number of foggy days. Aerology observations taken elsewhere in the arctic regions (due to lack of aerological observations in Canada) have been interpolated, p. 67-85, for the study of the upper atmosphere of the Canadian Arctic. Bibliography (26 items), p. 20-21.

Copy seen: DLC.

2800. CANADA. METEOROLOGICAL SERVICE. Monthly record of meteorological observations . . . Jan. 1916-Aug. 1944. Toronto [1916-1950] 28 v. charts, tables.

A monthly résumé of meteorological observations made at first order stations and for the entire network of meteorological and climatological stations in Canada, Bermuda and Newfoundland. During the years 1916 through 1924, tabulations of two to three daily synoptic observations at selected stations were published either in the regular monthly issues or in annual supplements.

Among the stations reported here, are two on the British Columbia-Yukon boundary, six in Yukon Territory, one at Port Nelson, on Hudson Bay, and Moose Factory on James Bay; beginning 1924, eleven in Mackenzie District, one (Chesterfield) Keewatin District, eight in the Eastern Arctic Islands and two in the Western Arctic Islands.

Contents include (for the stations mentioned) 1. Daily extremes and monthly mean air temperatures.

2. Daily precipitation.

3. Summary of the observations of pressure, temperature, humidity, cloud, visibility and wind, at fixed hours (1:30, 7:30, 13:30, 19:30) at selected stations.

4. Temperature and precipitation summaries. Temperature: mean, difference from average, highest (date) lowest (date) mean daily range. Precipitation: total amount, difference from average, heaviest fall of month, days with .01 or more inches. Number of days with frost, thunderstorms, fog, hail, snow, and depth of snow lying (in inches) at end of month.

5. Total hours of wind. Total mileage of winds. Winds summary. Percentage frequency. (No Arctic Islands stations; three in Yukon, four in Northwest Territories).

Copy seen: CaON; DWB.

2801. CANADA. METEOROLOGICAL SERVICE. Monthly weather review, Toronto, 1877-1915. v. 1-39. From 1916 onwards information previously published in the *Review* appeared in the Meteorological Service's *Monthly record of meteorological observations*, q.v.

A monthly résumé of routine meteorological observations made at first and second order stations, and of temperature and precipitation measurements made at climatological stations within the Dominion of Canada from 1877 to Dec. 1915. The results of non-routine observations made at stations in the Yukon and Northwest Territories appear intermittently.

2802. CANADA. NORTHWEST TERRITORIES AND YUKON SERVICES. Canada's reindeer. Ottawa, 1940. p. 1, 14 p. illus., sketch map. Process printed.

Contains history of the reindeer experiment in the Mackenzie delta region, description of the Reindeer Station, development of reindeer industry and husbandry.

Copy seen: CaOM.

2803. CANADA. NORTHWEST TERRITORIES AND YUKON SERVICES. Canada's reindeer herd. Ottawa, Northwest Territories Administration, 1938. 9 p. illus. (incl. map)

History of the development of the Canadian government herd, in Mackenzie delta region.

Copy seen: CaOM; DLC.

2804. CANADA. NORTHWEST TERRITORIES AND YUKON SERVICES. Canada's reindeer herds. [Ottawa, 1946] 2 l. Mimeographed.

Summary of the activities of the Canadian government to establish reindeer herding as an industry for the natives, from the Royal Commission's report, 1922 through 1946.

Copy seen: CaOG.

2805. CANADA. NORTHWEST TERRITORIES AND YUKON SERVICES. Canada's reindeer industry. [Ottawa, 1948] 3 l. Mimeographed.

Review of the year's work on the Mackenzie River range.

Copy seen: CaOM.

2806. CANADA. NORTHWEST TERRITORIES AND YUKON SERVICES. The Mackenzie delta reindeer grazing reserve, 1947. Ottawa [1948?] p. 1, 8 numb. l. Mimeographed.

"The information herewith has been prepared from reports by A. E. Porsild . . . and includes his observations of the reindeer range in 1947." Description of the Mackenzie delta and its vegetation, discussion, of the seasonal ranges and their condition, since reindeer grazing began 1935, with notes on the population of the area.

Copy seen: CaOG.

2807. CANADA. NORTHWEST TERRITORIES AND YUKON SERVICES. The Northwest Territories, administration-resources-development. Ottawa,

1948. 67 p. incl. plate and double face map. illus. on both sides of both covers. Other editions with slightly different arrangement of the material were published in 1922, 1930, 1933, 1937, 1941, 1943, 1944, 1946.

Contains a summary of general information on government and administration, social services, settlements and trading posts, transportation, communications, climate, aborigines, flora, fauna, geology, mining industry, water-power resources and development, fur industry, reindeer industry, agriculture, general notes on employment and business opportunities, also information concerning the administration of crown lands, timber, grazing and hay.

Appendices: summaries of (1) quartz mining regulations, (2) game regulations, (3) fishing (angling) regulations. Bibliography (72 items).

Copy seen: CaMAI.

2808. CANADA. NORTHWEST TERRITORIES AND YUKON SERVICES. Physical geography of the Canadian Western Arctic. Ottawa, King's Printer, 1948. 11 p. fold. map. (D.B.S. 4-1101P) Reprinted from *The Canada yearbook, 1948-49*.

Contains a succinct statement of the general geology, glaciation, topography, climate and ice conditions, of the region 95°-135°W., and north of the tree line, including arctic islands.

Copy seen: CaO.

2809. CANADA. NORTHWEST TERRITORIES AND YUKON SERVICES. Reindeer in Canada. [Ottawa, 1949] 4 l. Mimeographed.

Record of the year's achievements and mention of establishment of a herd under Eskimo management, in the Mackenzie River range. Similar reports were issued, beginning 1933, under various titles. A complete set is held in office files in the Dept. of Mines and Resources, Ottawa. The departmental library has reports for 1946-1949.

Copy seen: CaOM.

2810. CANADA. NORTHWEST TERRITORIES AND YUKON SERVICES. Yukon Territory, a brief description of its history, administration, resources, and development, by W. F. Lothian. Ottawa, 1947. 52 p. double-face map. Other editions with slight changes, or additions were published in 1938, 1943, 1944, 1946.

Brief descriptions of the history, government, social services, towns, communication, tourist attractions, physical features, geology, climate, natives, flora, fauna, industries, and business opportunities.

Appendices: directory of officials, summaries of (1) lands, timber, grazing, (2) mining, (3) game, and (4) sport fishing regulations; with a bibliography (36 items).

Mounted mimeographed amendments, bring information to Feb. 18, 1948.

Copy seen: CaOGB; DF; CaMAI; DLC (1944, 1947).

CANADA. NORTHWEST TERRITORIES COUNCIL, *see* Bethune, W. C. Canada's Eastern Arctic. 1934.

2811. CANADA. PARLIAMENT. HOUSE OF COMMONS. Return to an order of the House of the 14th April, 1924, for a copy of all reports, letters, telegrams, and other documents, during the year 1917, from the resident engineer or any of his staff located at Fort Nelson to the Chief Engineer of the Department of Railways and Canals, or the Deputy Minister or the Minister or any official of the said Department, having reference to the Hudson Bay Railway route and the grain or other harbour facilities . . . Further memoranda; Engineers' reports and correspondence in the Department of Railways and Canals concerning the Hudson Bay Railway route [1918-23] [Ottawa, 1924] 82 p. incl. tables. (Sessional paper no. 234, 234a-1924) The communications were signed for the most part by D. W. McLachlan, Engineer-in-charge.

Contains (in no. 234) information on dredging, depth of channels, construction and repair work, and incidentally on the ice conditions of the harbor; (in no. 234a) data on shipments, traffic, transport costs, facilities, costs of railway and harbor construction, and a few ice-breaker navigation reports for seasons 1913-17, for the Hudson Bay run.

Copy seen: CaO.

2812. CANADA. PARLIAMENT. SENATE. Special Committee on the Navigability and Fishery Resources of Hudson Bay and Strait. Report. Ottawa, King's Printer, 1920. 58 p. Reprinted in 1926, 61 p.

Contains final report of the Committee with extracts of witnesses' testimony on navigation conditions and aids, vessels for the carrying trade, relative merits of Nelson and Churchill as ports, fishing resources, of Hudson Strait and Bay and tributary rivers, mineral resources, reindeer and musk oxen possibilities in Northwest Territories, evidence to show resources warranting an export route by Hudson Bay and Strait. The witnesses included arctic experts such as V. Stefansson, J. B. and J. W. Tyrrell, J. E. Bernier, and others. *Copy seen:* CaMAI; CaO.

2814. CANADA. ROYAL COMMISSION ON POSSIBILITIES OF REINDEER AND MUSK-OX INDUSTRIES IN THE ARCTIC AND SUB-ARCTIC REGIONS. Report of the Royal Commission appointed by Order in Council of date May 20th 1919, to investigate the possibilities of the reindeer and musk-ox industries in the arctic and sub-arctic regions of Canada. John Gunion Rutherford, Chairman. [Ottawa, 1921?] 3 p. l., 1-31, 55-116 numb. l., and appendices (3 v.) 1-47, 75-546 numb. l. illus., with mounted photos. Mimeographed in a small edition mainly for official use. The *Report* without *Appendices* was published for general use in 1922 (item following).

Contents: Report. (General aspects of the habitat, numbers, domestication, herding, etc. of musk oxen, reindeer and caribou.)

Appendices: No. 1 (3 v.) Evidence from the thirty-five witnesses taken Jan.-May, 1920.

No. 2-14 (bound with report). Statements and memoranda drawn from various sources, concerning reindeer herds in certain regions of North America and in other countries. These include: Reindeer in Alaska; Reindeer and musk-ox Hudson Bay region; Rein-

deer in Labrador; At Fort Smith; Barren Land caribou and musk-ox.

File seen: CaOM.

2815. CANADA. ROYAL COMMISSION ON POSSIBILITIES OF REINDEER AND MUSK-OX INDUSTRIES IN THE ARCTIC AND SUB-ARCTIC REGIONS. Report of the Royal Commission appointed by Order-in-council of date May 20, 1919, to investigate the possibilities of the reindeer and musk ox industries in the arctic and sub-arctic regions of Canada. Ottawa, King's Printer, 1922. 99 p. incl. front, illus., tables. J. G. Rutherford, chairman.

Study of the habitat, characteristics, numbers, conservation, grazing problems, and herding of the caribou, musk oxen, and reindeer in Canada.

Copy seen: DLC; NNS Stef.

2817. CANADIAN ARCTIC EXPEDITION, 1913-1918. Report. Ottawa, King's Printer, 1919-1946. 77 nos. in 14 v. (v. 3-16), illus., plates (part col.) maps (part col., part fold.) tables, diagrs.

Results of an expedition for exploration and scientific investigations, sponsored by the government of Canada, under general direction of the Dept. of Naval Service, and under command of Vilhjalmur Stefansson. The northern party led by Stefansson conducted geographic and exploratory work north-eastward from Bering Strait, 1913-18; the southern party under Dr. R. M. Anderson conducted investigations in biology, anthropology, etc., on the mainland and islands in vicinity of Coronation Gulf, 1913-18.

The narrative of the expedition and its work was published as V. Stefansson's *The friendly Arctic*, q.v.

Results were worked up and reports published under supervision of the Arctic Biological Committee appointed 1917, jointly by Canadian Dept. of Naval Service and Dept. of Mines. Results and reports published (or originally projected for publication) are listed below. Each published paper (excepting v. 3, Pt. L) appears in this Bibliography under its author's name; the results not published are so indicated.

Contents: v. 1. STEFANSSON, V. Narrative of the expedition (not published); mss. deposited in the Public Archives of Canada, Ottawa.

v. 2. ANDERSON, R. M. Mammals and birds (not published).

v. 3. *Insects*. Introduction and list of genera and species.

2819. CANADIAN INSTITUTE OF MINING AND METALLURGY. Structural geology of Canadian ore deposits. A symposium arranged by a committee of the Geology Division, Canadian Institute of Mining and Metallurgy. Montreal, *Pub.* by authority of the Council, 1948. x, 948 p. illus., sketch maps (part fold.) diagrs.

"The purpose of this volume is to assemble up-to-date information regarding those structural features that have controlled the deposition of ore in Canadian metalliferous mines and to direct attention to ways in which the data may be applied both in the development of known ore deposits and in the search for new occurrences of ore."

Contents (over one hundred twenty-five brief papers by one hundred twenty-one contributors) include: Chap. 1. *General papers.*

LANG, A. H. Cordilleran region of western Canada.

GILL, J. E. The Canadian Precambrian Shield.

EBBUTT, F. Relationships of minor structures to gold deposition in Canada.

Chap. 2. *Cordilleran region.* BOSTOCK, H. S. Mayo District, Yukon.

Chap. 3. *Canadian Precambrian Shield.* Pt. 1. *Yellowknife-Great Bear Lake area.*

HENDERSON, J. F. Structural control of ore deposits in the Canadian Shield between Great Slave and Great Bear Lakes.

CAMPBELL, N. West Bay fault.

MURPHY, R. Eldorado mine.

HENDERSON, J. F., and N. H. C. FRASER. Camlaren mine.

DADSON, A. S., and J. D. BATEMAN. Giant Yellowknife mine.

Each of these papers appears in this Bibliography under its author's name.

2820. CANADIAN RADIO WAVE PROPAGATION COMMITTEE. Loran reception at Churchill June-July, 1945. Ottawa, 1945. p. 1, 5 l., 6 plates (graphs, diagrs.) (CRWPC. I/P no. 8) Mimeographed.

"This report gives the results of a short program of monitoring on Loran frequencies. The purpose of the program was, (1) to monitor through the eclipse period of 9th July, (2) to investigate the normal reception in northern Canada, of existing Loran stations.

Copy seen: CaMAI.

2821. CANADIAN RADIO WAVE PROPAGATION COMMITTEE. Observers instruction book for Canadian ionospheric stations. [Ottawa] 1946. 3 p. l., 43 l. incl. 18 diagrs. 8 plates (diagrs.) (JCC/WP/IP no. 12) Mimeographed.

"For use by personnel at Canadian Ionospheric Stations [of which one is located at Churchill, Manitoba] and supersedes CRWPC I/P 1."

Contains (1) details on measurement and interpretation of records from both manual and photographic vertical incidence ionosphere equipment; (2) a chapter on the signal strength monitor program, aural and recorder; (3) instructions for making up daily and monthly report sheets and signals.

Copy seen: CaMAI.

2822. CANADIAN RADIO WAVE PROPAGATION COMMITTEE. Sporadic E ionization at Churchill August 1943-July 1946. [Ottawa] 1946. 2 p. l., 11 l. 12 plates (tables, diagrs.) (CRWPC. I/P no. 14) Mimeographed. Prepared by J. H. Meek, Radio Propagation Laboratory, Directorate General of Defense Research.

"A statistical treatment of occurrence of E s, [sporadic reflections in the E region (90-140 km.)] plotted in various ways to show trends with time of day, seasons of the year and top frequency of echoes. Three types of E s are illustrated with reproductions of records, however, no differentiation was made in original tabulations and consequently in the plots of this paper. The occurrence of E s at Churchill is mainly a night time effect and shows some marked trends."—Summary.

2829. CAPPS, STEPHEN REID, 1881-1949. An air reconnaissance of Middleton Island, Alaska. (*Journal of geology*, Oct.-Nov. 1933, v. 41, p. 728-736, incl. 2 plates)

Description of the surface rocks and detritus, based on an aerial reconnaissance made during the Alaska Survey Expedition of the U. S. Navy in 1932, for the purpose of investigating the possibility of a Pleistocene ice sheet having extended to the island.

Copy seen: DGS.

2830. CAPPS, STEPHEN REID, 1881-1949. An ancient volcanic eruption in the upper Yukon basin. (*In*: U. S. Geological Survey. Shorter contributions to general geology, 1915. Professional paper, 1916. No. 95, p. 59-64, illus. (map) plate)

Contains a description of the thickness and distribution of volcanic ash in the upper Yukon basin of Alaska and Yukon Territory, and a discussion of the time elapsed since the ash fell; based on the author's observations in 1914, of spruce tree growth in peaty material.

Copy seen: DGS.

2831. CAPPS, STEPHEN REID, 1881-1949. The Bonnifield region, Alaska. Washington, U. S. Govt. Print. Off., 1912. 64 p. plates, incl. 2 fold. maps (in pocket) diags. (U. S. Geological Survey. Bulletin 501)

Contains the report of a topographic-geologic investigation, 1910, in the region lying between the Nenana and Delta Rivers, and between the Tanana River and the crest of the Alaska Range (63°30'-64°50'N., 145°40'-149°20'W.) Notes on topography, drainage and routes; description of the stratigraphy, structure, gold placers, lode mining, and coal deposits.

Maps: topographic (63°30'-65°N., 145°20'-149°40'W.), geologic (63°30'-64°20'N., 145°40'-149°20'W.), contour interval 200 ft., scale 1:250,000.

Copy seen: DGS.

2832. CAPPS, STEPHEN REID, 1881-1949. The Chisana-White River district, Alaska. Washington, U. S. Govt. Print. Off., 1916. 130 p. illus., 19 plates (part fold., incl. 2 maps) diags. (U. S. Geological Survey. Bulletin 630)

Results of a survey made, 1914, in an irregular area between 61°30'-62°-40'N., 141°-142°50'W. Reports on the drainage (Chisana and White Rivers, Beaver and Skolai Creeks), the relief (Wrangell, St. Elias and Nutzotin Mts.), the routes (river and lake) and trails; on the stratigraphy, structure and economic geology, including gold placers (mines and prospects) and lodes, copper and lignite occurrence.

Maps: geologic and topographic, contour interval 200 ft., scale 1:250,000.

Copy seen: DGS.

2833. CAPPS, STEPHEN REID, 1881-1949. An estimate of the age of the last great glaciation in Alaska. (Washington Academy of Sciences. Journal, 1915. v. 5, p. 108-115)

A study of tree growth and the surface soil on the bank of White River in the Wrangell Mts. area just below Russell Glacier, to determine the time elapsed since the glacier retreated to its present position. *Copy seen:* DLC.

2834. CAPPS, STEPHEN REID, 1881-1949. Geology of the Alaska Railroad region. Washington, U. S. Govt. Print. Off., 1940. vi, 201 p. incl. illus. (map) tables. front., 9 plates (incl. 3 fold. maps) (U. S. Geological Survey. Bulletin no. 907)

A report which brings together in condensed form and with a list of references, the knowledge of the geology of the region, extending from Seward to Fairbanks, as studied by the U. S. Geological Survey, 1895-1936. Descriptions of the geography (including routes of travel), the stratigraphy, structure and geologic history of the Kenai-Chugach Mts., Talkeetna region, Alaska Range, and Yukon-Tanana region; the past and present glaciation, and economic geology, principally gold, copper, coal, and (in brief) silver, antimony, and tungsten.

Maps: geologic maps of the Alaska Railroad area (1) Seward to Matanuska coal field (2) Matanuska coal field to Yanert Fork, and (3) Yanert Fork to Fairbanks (contour interval 200 ft., scale 1:250,000). Included in map (1) is the western part of Prince William Sound, and Cook Inlet's Turnagain and Knik Arms; (1-3) show entire courses of Susitna, Chulitna, Talkeetna, Matanuska, Nenana, and portions of Kantishna, Tanana, and Yukon Rivers.

Copy seen: DGS.

2835. CAPPS, STEPHEN REID, 1881-1949. Glaciation in Alaska. (In: U. S. Geological Survey. Shorter contributions to general geology, 1931. Professional paper, 1932. No. 170, p. 1-8, illus., 2 fold. maps)

Contents: Existing glaciers; former glacial advances; evidence of Wisconsin age of last great ice advance; summary of known facts concerning pre-Wisconsin glaciation in Alaska.

Copy seen: DGS.

2836. CAPPS, STEPHEN REID, 1881-1949. Glaciation of the Alaska Range. (Journal of geology, July-Aug. 1912. v. 20, p. 415-37, illus., fold. map)

Contains remarks on distribution of existing glaciers (with map) the influence of glaciers on their valleys, evidence of earlier glaciers, and descriptions of existing glaciers in the basins of the Susitna (including Yentna and Chulitna) the Copper, Tanana and Kuskokwim Rivers.

Copy seen: DGS.

2837. CAPPS, STEPHEN REID, 1881-1949. Glaciation of the north side of the Wrangell Mountains, Alaska. (Journal of geology, Jan.-Feb. 1910. v. 18, p. 33-57, illus.)

Description of glaciers, with notes on past glaciation, of the valleys of the Copper, Nabesna, Chisana, and White Rivers, and Skolai Creek, all of which glaciers, head in the Wrangell, St. Elias, or Nutzotin Mts.

Copy seen: DGS.

2838. CAPPS, STEPHEN REID, 1881-1949. The Kantishna region, Alaska. Washington, U. S. Govt. Print. Off., 1919. 116 p. illus., 17 plates (part fold., incl. 2 maps in pocket) diags. (U. S. Geological Survey. Bulletin 687)

Report on a topographic and geologic survey, 1915, in the area lying between 63°25'-65°N. 149°-151°10'W. Descriptions of the natural history (Mt. McKinley National Park), of drainage (Nenana, Kantishna, Toklat and Bearpaw Rivers) relief, routes, etc., stratigraphy and structure (with a section on soil flow which accompanies permafrost in this area). History of the mining of gold and antimony, and occurrence of lignite.

Maps: reconnaissance geologic and topographic, contour interval 200 ft., scale 1:250,000.

Copy seen: DGS.

2839. CAPPS, STEPHEN REID, 1881-1949. Mount McKinley, a new national park. (Travel, May 1917. v. 29, no. 1, p. 7-12, 49-51, illus.)

Description of the region on the north flank of the Alaska Range near Mt. McKinley, explored by the author with a U. S. Geological Survey party in summer 1916; notes on the game and physical features. *Copy seen:* DLC.

2840. CAPPS, STEPHEN REID, 1881-1949. Notes on the geology of the Alaska Peninsula and Aleutian Islands. (*In:* U. S. Geological Survey. Mineral resources of Alaska in 1932. Bulletin, 1934. No. 857, p. 141-53, map)

Report on observations made by the geologist who accompanied the U.S.S. *Gannet* on a hydrographic reconnaissance, describing the geography, rocks, and glaciation of Unalaska, Atka, Adak, Kiska and Attu Islands, and of the Cold Bay and Lenard Harbor, Dolgoi Island and Pavlof Bay areas of Alaska Peninsula. *Copy seen:* DGS.

2841. CAPPS, STEPHEN REID, 1881-1949. Rock glaciers in Alaska. (Journal of geology, May-June, 1910. v. 18, p. 359-75).

Description of the glaciers in the Nizina map quadrangle area (center 61°-20'N, 143°40'W.) just east of Kennicott Glacier. *Copy seen:* DGS.

2842. CAPPS, STEPHEN REID, 1881-1949. Some ellipsoidal lavas on Prince William Sound, Alaska. (Journal of geology, Jan.-Feb. 1915. v. 23, p. 45-51)

Results of the author's investigations, 1912, a presentation of certain facts concerning the subaqueous formation of the lavas near Ellamar, Alaska.

Copy seen: DGS.

2843. CAPPS, STEPHEN REID, 1881-1949. The southern Alaska Range. Washington, U. S. Govt. Print. Off., 1935. iv, 101 p. 8 plates incl. 3 fold. maps. (U. S. Geological Survey. Bulletin 862)

Results of geologic and topographic surveys in 1926-27, 1929, and data from earlier work, in the area that lies between Skwentna River and Rainy Pass on the north, and Iliamna Lake and Bay on the south. Includes notes on drainage, glaciers, relief, climate, timber (with map) routes of travel, etc.; description of the rocks, the glacial

epoch and existing glaciers, and discussion of copper, gold, and coal occurrence.

Maps: geologic map of (1) Mount Spurr region (60°20'-62°N., 150°30'-153°30'W.); (2) Lake Clark-Mulchatna River region (59°35'-61°40'N., 153°20'-156°W.); contour interval 200 ft., scale 1:250,000.

Copy seen: DGS.

2844. CAPPS, STEPHEN REID, 1881-1949. Two glacial stages in Alaska. (Journal of geology, Nov.-Dec. 1915. v. 23, p. 748-56)

Based on observations made during a geologic reconnaissance trip into the White River basin, 1914. Description and discussion of glacial till, which proves two distinct glacial stages to have occurred in the territory.

Copy seen: DGS.

2845. CAPPS, STEPHEN REID, 1881-1949. The Willow Creek district, Alaska. Washington, U. S. Govt. Print. Off., 1915. 86 p. illus., 15 plates (part fold.) 3 fold. maps (2 in pocket) diagrs. (U. S. Geological Survey. Bulletin 607)

Report on geologic and topographic field work, 1913, in the southwest corner of the Talkeetna Mts. Descriptions of the geography, sedimentary and igneous rocks, and the gold deposits.

Maps: (1) topographic, and (2) geologic maps of Willow Creek district (contour interval 100 ft., scale 1:62,500).

Copy seen: DGS.

2846. CAPPS, STEPHEN REID, 1881-1949. The Yentna district, Alaska. Washington, U. S. Govt. Print. Off., 1913. 75 p. illus. (maps, diagrs.) 13 plates (part fold.) 3 maps (2 fold. in pocket). (U. S. Geological Survey. Bulletin 534)

Contains the results of a geological investigation, 1911, in the triangle lying between the Yentna River, the Susitna lowland, and the southeast base of the Alaska Range, to discover the conditions, origin and extension of gold occurrence. Description of topography, stratigraphy, past and present glaciation, and placer gold occurrence and mining.

Copy seen: DGS.

2847. CAPPS, STEPHEN REID, 1881-1949, and B. L. JOHNSON. The Ellamar district, Alaska. Washington, U. S. Govt. Print. Off., 1915. 125 p. illus., 10 plates incl. 2 fold. maps (in pocket). (U. S. Geological Survey. Bulletin 605)

Report of a geologic and topographic study of the area (60°52'–58°N. 146°29'–51°W.) lying at the northeast border of Prince William Sound. Descriptions of topography, stratigraphy, and structure; the distribution, character, and origin of the ore deposits, and (in detail) the copper mines and prospects, with mention of gold occurrence.

Maps: geologic and topographic, contour interval 100 ft., scale 1:62,500 (showing Bligh Island).

Copy seen: DGS.

2848. CAPPS, STEPHEN REID, 1881–1949, and J. B. MERTIE. Geology of the upper Matanuska Valley, Alaska, by Stephen R. Capps. With a section on the igneous rocks, by J. B. Mertie. Washington, U. S. Govt. Print. Off., 1927. v, 92 p. incl. illus., tables, diags. 16 plates (part fold., incl. 2 maps, plan, diagr.). (U. S. Geological Survey. Bulletin 791)

Contains the results of the author's field investigations in 1924, supplemented by information from published and unpublished reports of others, on the area in the upper Matanuska valley between Chickaloon River and Hicks Creek. Notes on the geography and trails; description of stratigraphy and structure, areal distribution, character and mining conditions of the coal.

Maps: Upper Matanuska valley, Alaska (showing part of Chickaloon River) geologic and topographic, contour interval 50 ft., scale 1:62,500.

Copy seen: DGS.

2859. CARLGREN, OSKAR HENRIK, 1865-. Actiniaria. Kristiania, A. W. Brøgger, 1913. (Norske videnskaps-akademi Oslo. Report of the Second Norwegian Arctic Expedition in the *Fram*, 1898-1902, v. 4, (no. 31))

Contains notes with synonymy, measurements and locations, of specimens of four species of sea anemones, etc. taken from Jones Sound.

Copy seen: DLC.

2860. CARLGREN, OSKAR HENRIK, 1865-. Actiniaria, part I. Copenhagen, B. Luno, 1921. 2 p. l., 241 p. illus., 4 plates. (Ingolf-Expedition, 1895-1896. [Reports] v. 5, pt. 9)

Based on collections made from the cruiser *Ingolf* during the German expedition in arctic seas 1898, and on museum specimens from northern European museums. Includes all families occurring in arctic and northern waters, except "the old family Sagartiidae." Special attention is given to the size and distribution of the nematocysts and spirocysts. Classified list (with descriptions, synonyms, diagnoses, occurrence in northern and arctic waters, and other notes) of sixty-nine (including twenty-eight new) species of sea anemones.

Copy seen: DSL-M.

2861. CARLGREN, OSKAR HENRIK, 1865-. Actiniaria, part II. Copenhagen, B. Luno, 1942. 92 p. illus. (incl. 11 sketch charts) 6 plates. (Ingolf-ex-

pedition, 1895-1896. [Reports] v. 5, pt. 12)

Similar in plan to the author's *Actiniaria, part 1*, 1921, q.v., this paper includes also forms of sub-tribe Acontinaria, which occur in the same areas. It contains description of forty-four (including eight new) species and one new genus; discussion of distribution of the species; contributions to the anatomy, genealogy, and classification of the Actiniaria, a bibliography (256 items) and an index to part 1-2.

Copy seen: MH-Z.

2862. CARLGREN, OSKAR HENRIK, 1865-. *Actiniaria and Zoantharia of the Denmark Expedition. Danmark-ekspeditionen til Grønlands nordøstkyst, 1906-1908. Bd. 3, nr. 19. (Meddelelser om Grønland, 1917. Bd. 43, p. 505-507)*

List, with localities, of four sea anemones and one zoanth, from the waters in the Danmark Havn region of Dove Bay, East Greenland.

Copy seen: DLC.

2863. CARLGREN, OSKAR HENRIK, 1865-. *Die Actiniarien. Zoologische Ergebnisse einer Untersuchungsfahrt (etc.) nach der Bäreninsel und Westspitzbergen, ausgeführt im Sommer 1898 auf S.M.S. "Olga." IV. (Wissenschaftliche Meeresuntersuchungen, 1902. Neue Folge, Bd. 5, Abt. Helgoland, p. 31-56, illus., plate) Title tr.: The actinarians. Zoological results of a research expedition (etc.) to Bear Island and West Spitzbergen in the summer of 1898 on S.M.S. "Olga." IV.*

Contains an anatomical and taxonomic treatment of the eight species of sea anemones, collected on the voyage, with a list arranged by station number, giving position, depth, and type of bottom, and a bibliography.

Copy seen: DF.

2864. CARLGREN, OSKAR HENRIK, 1865-. *Ceriantharia. Copenhagen. B. Luno. 1912. 2 p. l., 76, [2] p. illus., 5 plates. (Ingolf-expedition, 1895-1896. [Reports] v. 5, pt. 3)*

Deals with the small collection of these coelenterates brought home by the cruiser *Ingolf*, and northern species from several museum collections. Contains discussion of the literature and geographic distribution; list with descriptions, of six (including three new) species and one larval form, only one

of which occurs in European arctic waters; classification, and a section on morphology of the group; bibliography (62 items).

Copy seen: DSI-M.

2865. CARLGREN, OSKAR HENRIK, 1865-. *Die Ceriantharien, Zoantharien und Actiniarien des arktischen Gebietes. (In: Fauna arctica, 1932. Bd. 6, p. 253-66) Title tr.: Ceriantharia, Zoantharia and Actiniaria of the arctic region.*

Contains a list, with synonymy, references, distribution, and some descriptive notes, of fifty-eight species of sea anemones from circumpolar seas; a station list for those collected by the German Expedition to the Arctic Ocean, 1898, giving positions and depths; and a bibliography (10 items).

Copy seen: DA.

2866. CARLGREN, OSKAR HENRIK, 1865-. *Ceriantharier, zoantharier och actiniarier. (In: Conspectus faunae groenlandicae, 3. del, nr. 24. Pub. in: Meddelelser om Grønland, 1928. 23. hefte, suppl., p. 251-308)*

List, with synonymy, references to literature and localities, of fifty-five (including four new) species of coelenterates from Greenland waters; with descriptions of the new species; bibliography, p. 303-308. *Copy seen:* DLC.

2867. CARLGREN, OSKAR HENRIK, 1865-. *The Godthaab expedition 1928. Zoantharia and Actiniaria. København, C. A. Reitzel, 1933. 55 p. incl. illus., maps tables. (Meddelelser om Grønland. Bd. 79, nr. 8)*

List, with synonymy, localities, and remarks, of twenty (including one new) species of corals, sea anemones, etc., collected in the waters west of Greenland; also discussion and tables of distributions and zoogeographical relations, and list of stations. Bibliography, p. 54-55. *Copy seen:* DLC.

2868. CARLGREN, OSKAR HENRIK, 1865-. *Some Actinaria from Bering Sea and arctic waters. (Washington Academy of Sciences. Journal, Aug. 1934. v. 24, p. 348-53, illus.)*

Results of an examination of a small collection in the U. S. National Museum, taken by R. A. Bartlett during several years, to which were added some specimens from the Swedish expedition to Kamchatka and the Aleutian Islands, 1920-22. Author gives an annotated list,

with localities and some descriptions, of thirteen (including one new) species of coelenterates from waters off western and northern Alaska, Greenland, Labrador, Canadian Arctic Islands, Franz Josef Land, and Kamchatka.

2930. **CASWELL, JOHN E.** American arctic expeditions: narrative 1850-1909. Under direction of Edgar E. Robinson, principal investigator, Stanford University. Technical report I, contract N6onr 25122. Stanford University, Dept. of History, May, 1950. 173 l. reproduced from typewritten copy.

"Preliminary issue of the narrative introduction to a study of . . . the utilization of the scientific results of U. S. [government sponsored or supported] arctic expeditoins." - *Introd.* This part of the study describes the organization and activities (particularly in relation to their scientific programs) of the expeditions of DeHaven, Kane and Hayes, C. F. Hall, the *Jeannette*, First International Polar Year (Lady Franklin Bay and Point Barrow), Peary, Wellman and Ziegler (Franz Josef Land); also the exploring and collecting cruises and land parties in Bering Sea and Strait and northern Alaska sponsored or aided by U. S. government agencies, especially the Coast and Geodetic Survey and the Smithsonian Institution.

In summary the author states that "American arctic research has had an amazing continuity;" shows that while but three major expeditions were wholly financed by government in the period under study, many received aid from

government agencies in equipment, instruments, advice, and publication. This paper is based on published records (narratives and government documents) of the expeditions noted above. The second part of the study will trace "through scientific journals the development and utilization of arctic research;" through secondary works, its impact on the popular mind; and through congressional documents and departmental archives, the changing attitudes of Congress and the executive branch to arctic research.

Narrative of the preparatory expedition May-Oct. 1948, with P. É. Victor as leader, and the author as head of the natural sciences and geography section, to establish camp sites, communication and depots of reserve material, to test equipment and make preliminary observations for the main expedition of 1949-50.

Contains (p. 21-53) introductory sketch of Greenland; investigations in the physical and natural sciences since the time of Peary and purpose of "Mission P-É. Victor" 1948.

Description (p. 1-20, 54-70) of the expedition's course to the region of De Quervain's work in 1912 (about 69°46'N. 50°15'W.), the countryside, elements of weather (in general terms), animals of sea and land, birds, hunting, etc.; the Greenlanders and their way of life, particularly as affected in recent times by Europeans. Remarks (p. 171-208) on the life (tents, clothing, food, etc.) and work (reconnaissances, installation of three camps, scientific activities) of the party. Appended is a list of the personnel, and (by P. É. Victor, p. 211-219) a précis of the French expeditions 1948-50, and scientific report on the achievements of the preparatory expedition of 1948. Brief bibliography and detailed index.

2958. CHAMBERLIN, THOMAS CHROWDER, 1843-1928. Significant ameliorations of present arctic climates. (Journal of geology, July-Aug. 1923. v. 31, p. 376-406, illus.)

Discussion of the causes of the climatic oasis at the head of Baffin Bay in the region of Etah, particularly the circulation of waters from the polar region and from the Atlantic Ocean. The layers of the polar sea and Atlantic waters, and the intercontinental ridges which direct the flow of the middle and lower layers are defined, and the transfer of head by the warm middle Atlantic layers into Baffin Bay is recognized as significant for the amelioration of climate under discussion.

List, with four descriptions of plumage, notes on habits, and locations, of forty-eight species from northwestern Greenland.

Copy seen: DLC.

2982. CHAPMAN, FREDERICK SPENCER, 1907- , and others. Northern lights; the official account of the British Arctic Air-route Expedition, 1930-1931, by F. Spencer Chapman; with a foreword by Admiral Sir William Goodenough, an introduction by the late H. G. Watkins, leader of the expedition, and additional chapters by J. M. Scott, Capt. P. M. H. Lemon & Augustine Courtauld. London, Chatto

& Windus, 1932. xv, [1] 304 p., 1 l. front., illus., 63 plates (incl. ports.) 5 maps (4 fold.)

Contains detailed account of the activities of this expedition, based near Angmagssalik on the east coast of Greenland; its sledge and boat trips: two across the icecap, three northward, one to the icecap station thirty miles west of Angmagssalik and another southward along the coast to Nanortalik. Describes the establishment of the icecap station, and five months' work there; the continuous weather observations, studies of geology and ornithology, the mapping and reconnaissance with aid of airplane, particularly the coast northward to Kangerdlugssuaq, the attempt to climb Mt. Forel; notes on the art of kayaking.

Appendices: Report on flying work. Systematic list of 67 species of plants collected between Kangerdlugssuaq and Angmagssalik, Aug.-Sept. 1930. Climatological notes. Geological work. Survey. Sledging rations. Field notes on birds of East Greenland.

Report on two cruises of the sealer, *Leningradsovet*, in the Kara Sea under auspices of the Scientific Research Institute of Ichthyology in 1930 and 1931. Brief description of the ship and its equipment; the cruises; chronometrical tables (between p. 24-25) on the progress of the sealing semi-monthly, July-Sept. 1931 (meteorological conditions, time spent, results obtained, etc.). Detailed description of methods used in hunting pinnipeds on ice and shore, also polar bears (watching for the animal among drift ice, inspection of the ice, use of harpoons and firearms, measures against the animal drowning, catching of the young alive). Preliminary treatment of carcass: skinning on the ice or ashore, lifting to ship deck, cutting of tusks, salting, drying; use of special clothes and knives, etc.

An account of the first and second voyages, 1925-1926, of this famous French naval vessel, and its search for Amundsen and his companions following the *Italia* disaster, in 1928, also chapters on the ice conditions along the East Greenland coast and on ice navigation, on Scoresby Sound, the Eskimo colony established there by the Danes, and the Eskimos of the settlement, on the flight of soaring birds, and the state of the sea during cyclonic storms.

Copy seen: DLC.

3007. CHARCOT, JEAN BAPTISTE AUGUSTE ÉTIENNE, 1867-1936, and others. Rapport préliminaire sur la campagne du "Pourquoi-Pas?" de 1931. (France. Service hydrographique. Annales hydrographiques, 1931-32, pub. 1932. Sér. 3, t. 11, p. 57-141, incl. tables, 3 sketch charts, diags., fold. diagr.) *Title tr.:* Preliminary report on the cruise of the *Pourquoi-Pas?* in 1931.

The itinerary of this cruise was from The Faeroes, north of Iceland, to Scoresby Sound, East Greenland and return via Denmark Strait.

The location of sites for stations to be used during the International Polar Year, 1932-33, at Rosenvinge Bay, Liverpool Land, was undertaken, as well as the usual observations en route.

Contents include: Charcot, J. B. Narrative, including ice observations. Gain, L. Search for and description of sites for stations.

Sérène, R. Plankton collections, dredging, land collections, and hydro-gen ion concentration.

Charcot, J. B. Hydrographic tables. Surface temperature, chlorinity, and salinity.

Mercanton, P.-L. Insolation at Scoresby Sound. Atmospheric, optic observations, glaciology and icebergs, sea water density (Rosenvinge Bay),

and geomagnetic observations. (Declination at Jameson Land).

Copy seen: DLC.

3008. CHARCOT, JEAN BAPTISTE AUGUSTE ÉTIENNE, 1867-1936, and others. Rapport préliminaire sur la campagne du "Pourquoi-Pas?" en 1925. (France. Service hydrographique. Annales hydrographiques, 1925-26, pub. 1926. Sér. 3, t. 7, p. 191-289, illus. (tables, 4 charts, diags.) fold. chart) *Title tr.:* Preliminary report on the cruise of the *Pourquoi-Pas?*, 1925.

This French naval vessel had made research cruises in European waters for a number of seasons, under the direction of the author, as scientific aide to the Hydrographic Service. This cruise was the first of a series of oceanographic investigations in the waters of East Greenland and in Greenland Sea.

The objectives of the first cruise were to make hydrographic, geologic and biologic observations at as many stations as seemed warranted, to make steady meteorological observations, to make an experimental and analytical study of soaring bird flight, and to survey around The Faeroes, Iceland and Jan Mayen. On Jan Mayen further geomagnetic measurements were to be made at the same positions as had been occupied by the *Pola*, in 1882 and *La Manche* in 1892.

Charcot gives a narrative of the first cruise July-Aug., from Cherbourg to The Faeroes, Jan Mayen, Scoresby Sound, East Greenland, Iceland, and return, with supplementary reports:

Le Conte, P. Report on the hydrography, including tables of position, surface and deep temperature, chlorinity, and salinity, and air temperature.

Chevallier, R. Occurrence of magnetic rocks (including Jan Mayen).

Idrac, P. Atmospheric electricity.

Bailly, P. Natural history. Soaring flight of birds, plankton, bottom sediments and marine fauna (with tables and lists of dredge-hauls).

Note on radio reception, a few sailing directions, and description of ice conditions in Scoresby Sound region.

Discussion of scurvy, and some observations concerning the fisheries.

A fuller account of this voyage appears in the author's *La mer du Groenland*, 1929, q.v. *Copy seen:* DLC.

3009. CHARCOT, JEAN BAPTISTE AUGUSTE ÉTIENNE, 1867-1936. Rapport préliminaire sur la campagne du "Pourquoi-Pas?" en 1926. (France. Service hydrographique. Annales hydrographiques, 1927-28, pub. 1928. Sér. 3, t. 8, p. 1-97, incl. tables, sketch chart, diagrs., fold. chart) *Title tr.:* Preliminary report on the cruise of the *Pourquoi-Pas?* 1926.

Narrative of two cruises, of which the second during July-Aug., included waters off Jan Mayen, the Scoresby Sound region of East Greenland, and Denmark Strait. Charcot gives some details on the ice conditions, the Scoresby Sound region and its Eskimos, supplemented by reports on the kinds of work accomplished in geomagnetism, soaring flight of birds, surface hydrogen ion concentration, plankton, marine and land invertebrates, and geology.

Tables: surface temperature, chlorinity, salinity, and hydrogen ion concentration. *Copy seen:* DLC.

3010. CHARCOT, JEAN BAPTISTE AUGUSTE ÉTIENNE, 1867-1936, and others. Rapport préliminaire sur la campagne du "Pourquoi-Pas?" en 1928. (France. Service hydrographique. Annales hydrographiques, 1929, pub. 1930. Sér. 3, t. 9, p. 15-85, incl. tables, 6 sketch charts, diagrs.) *Title tr.:* Preliminary report on the cruise of the *Pourquoi-Pas?* in 1928.

During this season regular hydrographic, biologic, and geologic observations were made during part of the Greenland Sea cruise, but many days were given over to the search for Amundsen and the French sea plane *Latham-47* lost in the search, mainly in the region 70°-75°N., near the East Greenland coast.

Charcot gives a detailed discussion of the ice belt along the East Greenland coast (with charts) and remarks on techniques of ice navigation. Chapters on problems of acoustic sounding in arctic regions, and supplementary sailing directions for Jan Mayen. Appended are special reports by others:

Le Conte, P. Surface temperature, chlorinity and salinity (tables).

Dangeard, P. Biological research. List of plankton, by stations, and notes on algae.

Dangeard, L. Geological research. Brief notes drift ice and its transport,

on glacier fronts, weathering of rocks, soil formations (solifluction, etc.) and volcanism (in general, in the Arctic).

Charts include itineraries which show scale of visibility, July-Aug., roughly between 70°-75°N. off East Greenland coast. *Copy seen:* DLC.

3011. CHARCOT, JEAN BAPTISTE AUGUSTE ÉTIENNE, 1867-1936, and others. Rapport préliminaire sur la campagne du "Pourquoi-Pas?" en 1929. (France. Service hydrographique. Annales hydrographiques, 1930, pub. 1931. Sér. 3, t. 10, p. 1-93, incl. tables, diagrs., 3 sketch charts) *Title tr.:* Preliminary report on the cruise of the *Pourquoi-Pas?*, 1929.

The first part of the season's work included a trip from The Faeroes to Iceland, thence to Jan Mayen, the Scoresby Sound region of East Greenland, and return via Denmark Strait, taking soundings, and making observations of geomagnetism, meteorology, biology, and hydrography.

Charcot gives a narrative of the voyage supplemented with the following reports:

The functioning and use of the sonic sounding apparatus (bathometer) with a profile of submarine topography between Jan Mayen and East Greenland.

Dollfus, R.-P. Natural history. Marine and land invertebrates from Jan Mayen, and plankton correlated with hydrogen ion concentrations.

Mercanton, P.-L. The altitude of Beerenberg on Jan Mayen.

Mercanton, P.-L. Density determinations by means of the La Cour and Schou pycnosonde.

Mercanton, P.-L. Geomagnetic observations, including Jan Mayen and from a floe in the East Greenland current. Brief note on Glacier du Midi on Jan Mayen.

Tables: Soundings; temperature, chlorinity, salinity and density.

Copy seen: DLC.

3012. CHARCOT, JEAN BAPTISTE AUGUSTE ÉTIENNE, 1867-1936, and others. Rapport préliminaire sur la campagne du "Pourquoi-Pas?" en 1932. (France. Service hydrographique. Annales hydrographiques, 1933. Sér. 3, t. 12, p. 1-61, incl. tables) *Title tr.:* Preliminary report of the cruise of the *Pourquoi-Pas?* in 1932.

The objective of this cruise was to install the French station for the Second International Polar Year, 1932-33, at Scoresby Sound, East Greenland. Participating with the *Pourquoi-Pas?* was the ice-breaker *Pollux*.

Charcot gives an account of the organization, personnel and international cooperation involved in the Second International Polar Year effort of the French, with a succinct summary of the itinerary, and the following brief reports:

Maurain, C., and J. Devaux. Study of the electrical conductivity of the atmosphere en route to Greenland.

Maurain, C., and J. Devaux. Study of atmospheric condensation nuclei, en route to Greenland,

Maurain, C., and J. Devaux. Study of global radiation at Scoresby Sound, 70°30'N.

Parat, M., and P. Drach. Natural history and physical geography. (Plankton en route, marine invertebrates of Scoresby Sound, glaciers on Liverpool and Milne Lands, East Greenland, surface temperature, chlorinity, and salinity en route).

Devaux, J. Study of the ice of land and sea at Scoresby Sound. (Physical properties, structure and formation).

Copy seen: DLC.

3013. CHARCOT, JEAN BAPTISTE AUGUSTE ÉTIENNE, 1867-1936. Rapport préliminaire sur la campagne du "Pourquoi-Pas?" en 1933. (France. Service hydrographique. Annales hydrographiques, 1934. Sér. 3, t. 13, p. 1-86, incl. tables, sketch map, 3 fold, maps) *Title tr.:* Preliminary report on the cruise of the *Pourquoi-Pas?* 1933.

The *Pourquoi-Pas?* and *Pollux* evacuated the French Polar Year station during the cruise of 1933, and carried out hydrographic, geologic and biologic investigations at Scoresby Sound and along the Blosseville Coast. Two Cambridge University men were transported to Hurry Inlet by the French, and report briefly here on their work.

This narrative of the cruise includes description of ice conditions; a report by the captain of the *Pollux* on its passage through the ice from Iceland to Scoresby Sound; notes on the soundings (with chart) made in Scoresby Sound and along the Blosseville Coast, and temperature-salinity tables; re-

marks on magnetic sand and brief description of geology, physical geography, glaciers, and fossils of Milne and Jameson Lands and Blosseville Coast.

Copy seen: DLC.

3014. CHARCOT, JEAN BAPTISTE AUGUSTE ÉTIENNE, 1867-1936, and others. Rapport préliminaire sur la campagne du "Pourquoi-Pas?" en 1934. (France. Service hydrographique. Annales hydrographiques, 1935-36, pub. 1937. Sér. 3, t. 14, p. 1-53, incl. tables, diagrs., 3 fold. charts) *Title tr.:* Preliminary report on the cruise of the *Pourquoi-Pas?* in 1934.

During this season, equipment from the Polar Year, 1932-33 station at Scoresby Sound was recovered, an ethnographic and anthropologic expedition to Angmagssalik was transported and installed, and research was continued in the Greenland Sea on biology, geology, hydrography and oceanography.

Charcot gives an account of the cruise, notes on the work accomplished, description of the physical geography of Liverpool Land, and the data and charts of soundings made between Iceland, Scoresby Sound and Angmagssalik. Appended is a special report by others:

Mezin, M., and M. Striffling. Relation between the state of the ice in Greenland Sea and the meteorological conditions.

Copy seen: DLC.

3015. CHARCOT, JEAN BAPTISTE AUGUSTE ÉTIENNE, 1867-1936, and others. Rapport préliminaire sur la campagne du "Pourquoi-Pas?" en 1935. (France. Service hydrographique. Annales hydrographiques, 1935-36, pub. 1937. Sér. 3, t. 14, p. 55-100, incl. tables, 3 fold. charts)

During this cruise research was continued along East Greenland coast and around Jan Mayen in the Greenland Sea, and the expedition sent out by the French National Museum of Natural History in 1934, was returned from Angmagssalik.

Charcot gives a narrative of the cruise, with indication of soundings and ice limits, and brief reports as follows:

Victor, P. E. Preliminary report on the French Scientific Expedition to East Greenland, 1934-35.

Parat, M., and C. Devillers. Natural history observations (marine fauna

and botanical collections at Jan Mayen).

Thellier, E. Observations on short wave radio. Surface temperature and salinity. Magnetism of rocks (including Jan Mayen and Angmagssalik).

Charts: (1) soundings around Jan Mayen; (2) soundings and ice in Denmark Strait near Angmagssalik and eastward; (3) environs of Angmagssalik, including Sermilik Fiord.

3032. CHEKANOVSKII, ALEKSANDR LAVRENT'EVICH, 1832-1876. Dnevnik ēkspeditsii Aleksandra Lavrent'evicha Chekanovskago po riĕkam Nizhnei Tunguskē, Oleneku i Lenē v 1873-75 godakh. Sanktpeterburg, 1896. iii, 1 p. l., 298 p. illus., port., fold. sketch map. (Vsesoiūznoe geograficheskoe obshchestvo. Zapiski po obshchei geografii. T. 20, no. 1) *Title tr.:* Alexander Lavrent'evich Chekanovskii's diary of his expedition along the Lower Tunguska, Olenek, and Lena Rivers in 1873-75.

A biographical sketch of the explorer (p. 1-15); his report on the expedition to the Geographical Society; a bibliography of results (25-27). Account of the exploration of Nizhnyaya Tunguska in 1873 (p. 28-123), letters describing the route to the junction of the Upper Tomba River with the Olenek, day-by-day journal (June 29-July 27, 1874) of the work along the Olenek to

its junction with the Kutingna River, and the journal of the Lena Expedition (June 8-Sept. 27, 1875, north of Yakutsk). The material includes expedition events, physical geography along the route, brief notes on the animals and vegetation, size of trees in the Olenek basin (p. 176-77), and particularly the nature of the outcrops along the banks of the rivers explored. *Route map* from Ayakit (on the Lena) to the mouth of the Olenek. Scale about 1:800,000.

A general report (published posthumously) on the results of his exploration in the region of the Nizhnyaya Tunguska, Olenek, and Lena Rivers (1873-75), particularly the geologic work. *Map* (issued, with a note, at end of t. 13, vyp. 1) of the Lena and Yana basins from 62°N. to 71°N. approximately, showing geodetic deter-

minations and the route of the 1875 expedition. Scale about 1:2,100,000.

Copy seen: DLC.

3036. CHEKANOVSKII, ALEKSANDR LAVRENT'EVICH, 1832-1876. Olenekskaya ékspeditsiia. (Vsesoiuznoe geograficheskoe obshchestvo. Izvestiia, 1874-75, T. 10, p. 327-41, t. 11, p. 148-51, 322-42, 2 fold maps) *Title tr.:* The Olenek Expedition.

Three letters from the leader to the secretary of the Geographic Society.

1. Narrative of overland journey from Nizhnaya Tunguska to Olenek, with information on land forms and the northern limits of trees by species.

2. Brief account of the work done and conditions of travel down the Olenek by raft to Osenovka (70°28'15"N.).

3. Narrative, beginning where the first letter left off, with information on distances to and along the Olenek (p. 324-341), the physical geography and the rocks of its basin (p. 326-29), vegetation (with a table showing diminution of size of larches and firs in the more northern latitudes, p. 330), the Yakuts, travel north of 70°28'15"N. and back, with the geology of that area and the paleontology of the Verkhoyansk Range (p. 338-40).

Maps 1. Route from Nizhnaya Tunguska to Olenek Rivers, scale about 1:4200,000.

2. The Olenek and its tributaries, showing geodetic determinations, routes (including that of the expedition), and Yakut settlements, scale as above.

Copy seen: DLC (maps at end of volumes).

3037. CHEKANOVSKII, ALEKSANDR LAVRENT'EVICH, 1832-1876. Predvaritel'nyi otchet o Lensko-Olenekskom puteshestvii A. L. Chekanovskago i S. I. Venglovskago. (Vsesoiuznoe geograficheskoe obshchestvo. Izvestiia, 1876, T. 12, p. 161-171) *Title tr.:* Preliminary report on the Lena-Olenek expedition of A. L. Chekanovskii and S. I. Venglovskii

Summary of the study of Mesozoic deposits at the headwaters of the Olenek and in the vicinity of Verkhoyansk in 1874, which led to the 1875 expedition down the Lena to Ayakit (about 71°N.), whence the explorers crossed to the mouth of the Olenek on reindeer, returning after the Lena had frozen

(Oct. 11). Narrative of that expedition, with principal results in geology, botany, and entomology.

3045. CHELUSKIN EXPEDITION, 1833-1934. The voyage of the Chelyuskin, by members of the expedition; translated by Alec Brown. New York, Macmillan Co., 1935. xii, [1] p., 1 l., 325 p. front., illus., plates, ports., 8 maps (1 double)

This book is a translation of *Dnevnik cheluskintsev*, 1935, q.v., in the first chapter only; following chapters differ including rather more scientific and rather less general information. The material is drawn apparently from O. Iu. Schmidt's *Pokhod Cheluskina*, 1935, q.v.

Narratives and diaries of scientists and crew dealing with *Cheluskina's* attempt to sail along the Northern Sea Route from Leningrad to Vladivostok (1933-34). The events leading to the sinking of the ice-breaker in the Chukchi Sea on Feb. 13, 1934, the life of the participants in a temporary camp on the drifting ice, and their rescue by air two months later are given in detail; some data on temperature, soundings, the measurements of ice

waves, analysis of plankton, and observations of animal life along the route are included. Chapter by O. Schmidt, the leader of the expedition, indicates the scope of the work.

Contents: Pt. 1. The *Chelyuskin's* story. Pt. 2. The airmen's stories.

3065. CHERNIGOVSKII, N. T. O radiatsionnykh svoistvakh snogovogo pokrova i l'da arkticheskikh morei. (Problemy Arktiki, 1939, no. 6, p. 31-38) *Title tr.*: Radiation penetrating the snow and ice cover of arctic seas.

The amount of radiation penetrating

snow and ice covers of specified depths during various states of cloudiness and for various 10 degree elevations of sun are calculated on the basis of radiation measurements made at Lonely Island (ostrov Uyedineniya in Kara Sea, Cape Chelyuskina, Cape Shmidt and Tiksi Bay at various times during 1935-38.

Copy seen: DLC.

3066. CHERNIGOVSKII, N. T. Opyt opredeleniia radiatsionnogo balansa Arkticheskikh morei. (Problemy Arktiki, 1940, no. 5, p. 23-34, diagr.) *Title tr.*: An attempt to determine the radiation balance in arctic seas.

Solar radiation observations at Cape Chelyuskin during 1937-38, and at Tiksi Bay 1935-37, are the basis for determining the radiation régime over the Laptev Sea; Cape Shmidt, 1936-37, and Cape Dezhneva (East Cape) and Lawrence Bay, 1932-33, for the Chukchi Sea; and the drift of the Maud in 1923 and 1925, for the East Siberian Sea. Intensities of direct and diffused radiation and amount of effective terrestrial radiation (in gr. cal./cm²/min.) and the monthly sums according to state of cloudiness as well as albedo values for various types of ice and snow surface are determined. The Laptev Sea has the least annual total of radiation balance or less than 6 per cent of incoming radiation; the East Siberian Sea has a balance of 7 per cent and the Chukchi 8 per cent (Kara Sea, 12 per cent).

3067. CHERNIGOVSKII, N. T. Opyt opredeleniia radiatsionnogo balansa Karskogo moria. (Problemy Arktiki, 1940, no. 3, p. 92-97, tables) *Title tr.*: Experimental calculations of radiation of the Kara Sea.

In calculating monthly and seasonal balances, albedos were determined for land, water, ice and snow surfaces, or combinations of these, as well as outgoing terrestrial radiation during various types of cloudiness (clear days, and cloudy days in intermediate and lower layers) at four stations: Matochkin Shar and Cape Zhelaniya (Novaya Zemlya) Cape Chelyuskin and Lonely Island (ostrov Uyedineniya) in Kara Sea.

3109. CHICAGO ACADEMY OF SCIENCES. Robert Kennicott. (*Its: Transactions, 1869. v. 1, pt. 2, p. 133-226, port.*)

Most of the edition of this volume of the Academy's transactions was lost in the Chicago fire, 1869, as was the original of Kennicott's journal of which excerpts are printed here, and are reprinted in J. A. James, *The First scientific exploration of Russian America and the purchase of Alaska. 1942.* The latter includes (p. x) note of location of twelve copies of this volume of the Academy's transactions known to be extant.

A memorial to the Academy's Director, Robert Kennicott, 1835-1866, containing an account of his life and work and extensive excerpts from his journal of his first northern expedition 1859-62, under auspices of the Smithsonian Institution. The journal describes in detail his travels with Hudson's Bay Co. men from Lake Superior north and west to the lower Mackenzie, up the Peel River, over the mountains into Russian America, and down the Porcupine River to the Hudson's Bay Co. post, Fort Yukon, where he wintered 1860-61; his further trips in the region, sojourns at Fort MacPherson till the spring of 1862. Includes remarks

throughout on the nature of the country, the wildlife, incidents of travel, weather, and especially the author's hunting, trapping, and collecting activities.

Appended (p. 216-244) is a section, contributed by W. H. Dall, comprising an account of the Western Union Telegraph Co. Expedition to Alaska, 1865-68, Scientific Corps activities under the leadership of Kennicott until his death on May 13, 1866. *Copy seen:* DLC.

3110. THE CHICAGO RECORD. Klondike; the Chicago Record's book for gold seekers. [Chicago, 1897.] x, 13-555 p. illus. 36 plates, 8 maps (3 double-face)

Enlarged edition with twelve additional chapters, one of which is on dogs. *Copy seen:* NNStef.

3111. THE CHICAGO RECORD. Klondike; the Chicago Record's book for gold seekers. Profusely illustrated. Chicago, The Chicago Record Co., 1897. 2 p. l., [vii]-xii p., 1 l., [15]-413 p. incl. front., plates, 8 maps (incl. 3 double face), diagr.

Information on routes, mining methods, laws, and capital requirements; needed equipment; climate, food, services, Indians, game; life in Dawson and on the trails; a chapter on the history of Alaska and several drawn from earlier Canadian reports on Yukon Territory. Index.

3136. CHKALOV, VALERII PAVLOVICH, 1904-1938, and others. Dva pereleta. Moskva, Gos. voen. izd-vo Narkomata oborony Soŭza SSR, 1938. 275 p. illus., plates, sketch maps (part fold.) diagsr. (part fold.) *Other authors*: G. F. Baïdukov, A. V. Bel'akov. *Title tr.*: Two flights.

Narratives of the arctic flights of 1936-37, written mainly by Baïdukov (co-pilot) and Bel'akov (the navigator), with introductory chapters by Chkalov (the pilot) and the others. The trans-polar flight of the *NO-25* (June 18-20, 1937) had been preceded by a test flight (Moscow-Barents Sea-Franz Josef Land-Cape Chelyuskin-Petropavlovsk - Kamchatskiy - Chkalov Island). The accounts contain information concerning flying conditions, rations taken on board (p. 87), the code for transmission of meteorological data (p. 77), etc. The appendix gives a detailed description of the plane and its equipment, including the schedule for the technical work of the crew (p. 261-71). Two folded diagrams show the altitude maintained during the flights. *Maps* (some on lining papers) show routes, and meteorological conditions.

Report on actual production and development activities of gold mines in eleven areas of Mackenzie District during 1947; notes on construction in the community of Yellowknife, and on power and transportation progress.

Copy seen: DGS.

3150. CHRISTIE, S. HUNTER. Discussion of the magnetical observations made by Captain Back, R.N. during his late arctic expedition. (Royal Society of London. Philosophical transactions, 1836. v. 126, p. 377-415)

Results of geomagnetic observations of the Arctic Land Expedition of George Back, 1833-35, between Great Slave Lake and Point Ogle (68°17'W., 96°20'W.); including detailed description of methods used and tables of results, covering dip, comparison of dip and variation, intensity, and correction for temperature difference. Discusses (p. 389, 414-15) the relation between these observations and those made by John and James C. Ross near the site of the Magnetic North Pole and suggests (p. 406-407) the naming of Back River.

3165. CHURCH, JAMES EDWARD, 1869- . *Evaporation at high altitudes and latitudes. (American Geophysical Union. Transactions, 1934. v. 15, p. 326-51)*

Results of observations made in the Sierra Nevada Range (for high altitude) and supplied by the University of Michigan Greenland Expeditions 1926-29 (for Greenland). *Contains* in section 2, tables of temperature, humidity, wind-velocity and precipitation for stations on the coast, at the head of a fiord, and on the edge of the inland ice, with discussion of these factors as they affect evaporation.

Appendix: A. Measurements of evaporation and temperature from soil and water in southern Greenland. This paper appears separately in this Bibliography under this author's name. *Copy seen:* DLC.

3166. CHURCH, JAMES EDWARD, 1869- . *Measurements of evaporation and temperature from soil and water in southern Greenland. (American Geophysical Union. Transactions, 1934. v. 15, p. 343-51) Appendix A to his: Evaporation at high altitudes and latitudes.*

Discussion of factors affecting evaporation, applied to Greenland, with tables of data; comparisons with western United States; and measurement of temperatures of soil, streams, lakes, fiords, and Davis Strait waters.

Copy seen: DLC.

3166A. CHURCH, JAMES EDWARD, 1869- . The melting of snow. (Central Snow Conference. 1st, East Lansing, Mich., 1941. Proceedings, 1942? v. 1, p. 21-32, illus.)

Discussion of (1) ripe and overripe snow (that which has attained its maximum power of water suspension, and that which has exceeded this point), (2) lag between beginning of melting at the top of the snow cover and the appearance of the water at the base, (3) change in density during melting, (4) atmospheric heat, (5) effect of rain, (6) effect of insolation and radiation, and (7) effect of earth warmth. Bibliography (12 items).

Copy seen: DGS.

3167. CHURCH, JAMES EDWARD, 1869- . Meteorological studies. (*In:* Michigan University. Greenland Expeditions, 1926-1933. Reports, 1941. Pt. 2, p. 1-59, 21 plates, tables) Results of University of Michigan Greenland Expedition, 1926-27, based on Holsteinsborg District.

Contents: A. Climate and evaporation in alpine and arctic zones. Alpine zone: Lake Tahoe Basin, central Sierra Nevada, p. 7-29. Arctic zone: southwestern Greenland, p. 29-45.

B. Temperatures of arctic soil and water (inland waters, fiords and coastal waters, melting on inland ice, temperature of glacial waters, seasonal oscillation of coastal and ocean waters, comparison of annual variation in mean air and water temperatures) p. 46-59.

3172. CILLEY, JONATHAN PRINCE, 1835-1920. Bowdoin boys in Labrador.

An account of the Bowdoin College Scientific Expedition to Labrador led by Prof. Leslie A. Lee of the Biological Department. Rockland, Me., Rockland Publishing Co., [189-?] 2 p. 1, 71 p.

Journal of the voyage and brief account of the trip up Hamilton River to Grand Falls in 1891.

Copy seen: DLC; NNStef.

3173. CISSARZ, ARNOLD. Petrographische Untersuchungen von Sedimentgesteinen aus Nowaja Semlja und deren metamorphe Umwandlungen. Oslo, 1927. 66 p. illus., 3 plates, tables, maps. (Norske Novaja Semlja ekspedisjon, 1921. Report of the scientific results. No. 37) Published by Det Norske videnskaps-akademi, Oslo (Videnskapsselskapet i Kristiania). *Title tr.:* Petrographic research on the sedimentary rocks of Novaya Zemlya and their metamorphic changes.

Based on microscopic examination of rock samples collected by members of the expedition, and forming a petrographic supplement to O. Holtehdahl's *On the rock formation of Novaya Zemlya*, 1924; Holtehdahl's paper also serves as a basis for the geologic discussion by Cissarz.

Contains descriptions of sedimentary rocks from fifteen localities; discussion of their stratigraphic relationships and their metamorphism.

Copy seen: DLC.

3174. CIVIL ENGINEERING. Studies determine proper construction procedures in permafrost areas. (Civil engineering, July 1947. v. 17, no. 7, p. 29-31, illus.)

Note on the research project at Ladd Field near Fairbanks, Alaska, of the U. S. Army Corps of Engineers, St. Paul District, in cooperation with the University of Minnesota and Purdue University. This paper is attributed to H. J. Manger, in R. E. Frost's *Permafrost*, 1950.

3175. CLARK, ALONZO HOWARD, 1850-1918. The Pacific walrus fishery. (In: Goode, G. B., and others. The fisheries and fishery industries of the U. S., 1887. Section 5, v. 2, p. 311-18, 3 plates)

Contains notes on the Bering Sea and Chukchi Sea distribution, on the habits, method of capture and prepara-

tion of walrus, and on ivory and oil (with statistics, 1870-80).

Copy seen: DF.

3176. CLARK, ALONZO HOWARD, 1850-1918. The whale fishery. (In: Goode, G. B., and others. The fisheries and fishery industries of the U. S., 1887. Section 5, v. 2, p. 3-218, 11 plates (incl. map) tables)

Contents include: 6. The development of the North Pacific and arctic whale fishery, p. 73-101. (Descriptions drawn from accounts of whalers, tabular data on vessels and catch of oil and bone, 1835-80, vessels' fishing grounds, and catch, 1868-84, in Okhotsk Sea, Kodiak and arctic waters; and for the Davis Strait-Hudson Bay fishery, 1846-79).

Copy seen: DF.

3177. CLARK, AUSTIN HOBART, 1880-. Animal life of the Aleutian Islands. (U. S. Smithsonian Institution. War background studies, 1945. No. 21, p. 31-61, 75-95, illus., 4 plates)

Natural history notes for the general reader, on the birds, land and sea mammals, fresh and saltwater fishes, and land and sea invertebrates.

Appendices: A. List of mammals. (Common and scientific names of fifty-two species).

B. List of birds. (One hundred forty-one species).

C. Keys to the birds.

Copy seen: DSI-M.

3178. CLARK, AUSTIN HOBART, 1880-. Arctic butterflies. (Smithsonian Institution. Annual report, 1934, pub. 1935. p. 267-96, 7 plates)

Contents include a summary account of various parts of the arctic regions in which butterflies and moths have been found, and of the collections made; also descriptive notes on many of the species.

Copy seen: DLC.

3179. CLARK, AUSTIN HOBART, 1880-. Biological and oceanographic conditions in Hudson Bay. 11. Echinoderms of Hudson Bay. (Canada. Fisheries Research Board. Journal, 1937. v. 3, p. 350-57, sketch chart)

Results of the Hudson Bay Fisheries Expedition, 1930. Annotated list, with localities, of twenty-six species of sea stars, urchins, and cucumbers, all high arctic forms, none of which is peculiar to the region.

Copy seen: DLC; DSI-M.

3180. CLARK, AUSTIN HOBART, 1880- . The birds collected and observed during the cruise of the United States fisheries steamer "Albatross" in the North Pacific Ocean, and in the Bering, Okhotsk, Japan and Eastern Seas, from April to December, 1906. (U. S. National Museum. Proceedings, 1911. v. 38, p. 25-74, illus.)

Contains a journal of the voyage and an annotated list of about one hundred eighty birds, mainly from the Aleutian Islands and Kamchatka.

Copy seen: DLC.

3181. CLARK, AUSTIN HOBART, 1880- . Crinoidea. Copenhagen, B. Luno, 1923. 58 p. illus., chart, table. (Ingolf-expedition, 1895-1896. [Reports] v. 4, pt. 5)

Based on collections made by the cruiser *Ingolf* in waters of Davis and Denmark Straits. A list, with geographic and bathymetric ranges, and locations, of ten (including with descriptions, three new) species of these echinoderms; material on Atlantic species, and keys to the species.

Copy seen: DSI-M.

3182. CLARK, AUSTIN HOBART, 1880- . Echinoderms. Ottawa, King's Printer, 1920. 13 p. (Canadian Arctic Expedition, 1913-1918. Report. v. 8: Mollusks, echinoderms, coelenterates, etc., Pt. C)

List, with locations and discussion of distribution, of twenty species from waters between Bering Strait and Bathurst Inlet, with additional list of fifteen species from Hudson Bay area; based on specimens from Eastern Arctic expeditions.

Copy seen: DSEM.

3183. CLARK, AUSTIN HOBART, 1880- . Echinoderms from Greenland collected by Capt. Robert A. Bartlett. (U. S. National Museum. Proceedings, 1940, pub. 1942. v. 89, p. 425-33, 2 plates)

Report on collections made in waters off the west and east coast of Greenland; list of eighteen species (represented by 909 specimens) with description for two species, one new, and with localities indicated for all.

Copy seen: DLC.

3184. CLARK, AUSTIN HOBART, 1880- . Iceland and Greenland. Washington, 1943. iv, 103 p. illus. (maps) 21 plates on 11 l. (Smithsonian Insti-

tution. War background studies, no. 15. the east coast of James Bay, northward Publication 3735)

The Greenland section (p. 47-103) is a general description of the physical geography, fauna (especially mammals), population, history, Eskimo language, and literature. It includes nine plates chiefly illustrations of settlements. Bibliography p. 100-103.

Map of Greenland shows location of principal places. *Copy seen:* DLC.

3185. CLARK, AUSTIN HOBART, 1880- . A new genus of starfishes from the Aleutian Islands. (U. S. National Museum. Proceedings, 1939, pub. 1940. v. 86, p. 497-500, plate)

Description based on specimens (from Attu and Amchitka) among a collection of shallow-water echinoderms collected by Dr. V. B. Scheffer of the U. S. Bureau of Biological Survey, 1937.

Copy seen: DLC.

3186. CLARK, AUSTIN HOBART, 1880- . Results of the Hudson Bay Expedition, 1920. III. The echinoderms, with addendum, by H. L. Clark. (Canada. Biological Board. Contributions to Canadian biology, 1922. New ser., v. 1, p. 21-25)

Based on collections from waters off to, and including Richmond Gulf in Hudson Bay. A list, with localities, depths, and bottom characteristics, of fourteen species of sea urchins, stars and cucumbers.

Copy seen: DLC; DSI-M.

3187. CLARK, AUSTIN HOBART, 1880- . A study of the salinity of the surface water in the North Pacific Ocean and in the adjacent enclosed seas. Washington, Smithsonian Institution, 1912. 1 p. l., 33 p. incl. tables. (Smithsonian miscellaneous collections, v. 60, no. 13)

Results (with tables) of observations made from the U. S. Fisheries steamer *Albatross*, May-Oct. 1906, in the North Pacific Ocean, Bering and Okhotsk Seas, with a résumé of conditions in the North Pacific based on previous work.

Copy seen: DLC.

3197. CLARKE, CHARLES HENRY DOUGLAS, 1909- . A biological investigation of the Thelon Game Sanctuary. Ottawa, King's Printer, 1940. iv, 135 p. illus., plate, 3 fold. maps. (Canada. National Museum. Bulletin, no. 96. Biological ser., no. 25)

This sanctuary (primarily for preservation of the musk ox) was set aside by order-in-council, July 15, 1927. It is an area of irregular shape, lying (roughly) between 63°-65°N. 101°-107°W., in the valley of the Thelon River, in the Barren Grounds of Northwest Territories. The sanctuary was investigated by the author and W. H. B. Hoare for the National Museum in 1937, of which this paper is the report. It contains a brief itinerary, a description (in brief) of the history, Indians, Eskimos, physical geography, routes, Thelon River and valley, and vegetation of the area; lists, with field notes, of thirty-four mammals, and one hundred fourteen birds; and notes (in brief) on the fur trade, and cycles and diseases of fur-bearing animals.

Full discussion of the distribution, movements, original numbers and distribution, and factors affecting increase and decrease of the musk ox; of the Barren Ground caribou in the sanctuary and on the barrens of Mackenzie and Keewatin, its migration, numbers, increase and decrease, forage, predators, hunting, and importance to the natives.

Annotated list of thirteen fishes, giving localities and field notes; general description of the fisheries, including spawning and seasonal movements of fish, and tables on age groups, size and growth. Bibliography, p. 127-35.

Copy seen: DLC.

3198. CLARKE, CHARLES HENRY DOUGLAS, 1909- . Notes on the status and distribution of certain mammals and birds in the Mackenzie River and western arctic area in 1942 and 1943. (Canadian field naturalist, May-June 1944. v. 58, p. 97-103)

Results of the author's field work during July-Oct. 1942 in the northern Mackenzie District and reports to the author from other observers during the ensuing year. Notes on bears, foxes, the marten, fisher, mink, wolf, lynx, beaver, muskrat, porcupine, deer, moose, caribous, musk ox, whales, walrus and seal; also records on twenty-four birds.

Copy seen: DLC.

3199. CLARKE, CHARLES HENRY DOUGLAS, 1909- . Some bird records for Yukon Territory. (Canadian field naturalist, Mar.-Apr. 1945. v. 59, p. 65)

New record of four species, noted in the summer of 1943.

CLAUSEN, JULIUS EMIL FERDINAND, 1868- , *see* Janssen, C. E. Grønlandspraests optegnelser, 1844-49. 1913.

3210. CLAVERING, DOUGLAS CHARLES, 1794- . Journal of a voyage to Spitzbergen and the east coast of Greenland, in His Majesty's Ship *Griper*. (Edinburgh new philosophical journal, July 1830. New ser. v. 9, p. 1-30, fold, map)

The author commanded the *Griper* on a voyage in 1823, primarily to enable Capt. Sabine to make pendulum observations. The ship sailed to Norway, West Spitsbergen then East Greenland and reached Shannon Island (which Clavering named) in July. Capt. Clavering explored Gael Hamke Bay and adjacent shores by rowboat, while observations were made on Pendulum Islands. His journal includes remarks on the ice conditions, and on Eskimos encountered in the region of Gael Hamke Bay.

3218. CLEVE, PER TEODOR, 1840-1905. Diatoms from Franz Josef Land, collected by the Harnsworth-Jackson Expedition, and examined by P. T. Cleve. Stockholm, P. A. Norstedt & Söner, 1898. 26 p. illus., tables. (Svenska vetenskapsakademien. Handlingar. Bihang. Bd. 24, afd. 3, no. 2)

Discussion mainly of fresh-water diatoms with a few brackish and marine forms from a floe; and a list of all arctic fresh-water diatoms with locations, p. 11-23. *Copy seen:* DLC.

3219. CLEVE, PER TEODOR, 1840-1905. The diatoms of Finland. Helsingfors, T. Simelius, 1891. 68, ii p. 3 plates. (Societas pro fauna et flora fennica. Acta 1890-1893, *pub.* 1891. v. 8, no. 2)

Contains data on systematic arrangement of diatoms of Finland and a systematic list of over three hundred fifty species, including descriptions of about fifty new forms and many native to Finnish and Russian Lapland.

Copy seen: MH-A.

3220. CLEVE, PER TEODOR, 1840-1905. Färskvattens-diatomacéer från Grönland och Argentinska republiken. (Svenska vetenskapsakademien. Öfversigt af förhandlingar, 1881. Årg. 38, no. 10, p. 3-13) *Title tr.:* Fresh-water diatoms from Greenland and the Argentine Republic.

Contents include list of diatoms collected in West Greenland during Holst's Geological Journey to Greenland, 1880.

Copy seen: DLC.

3221. CLEVE, PER TEODOR, 1840-1905. Microscopical examination of dust from drift-ice north of Jan Mayen. (Svenska vetenskapsakademien. Öfversigt af förhandlingar, 1900. Årg. 57, p. 393-97)

Based on samples collected by the Swedish Expedition to East Greenland 1899, from ice of the East Greenland Polar Current.

Copy seen: DLC.

3222. CLEVE, PER TEODOR, 1840-1905. Mikroskopisk undersökning af stoft, funnit på driftis i Ishafvet. (Svenska vetenskapsakademien. Öfversigt af förhandlingar, 1899. Årg. 56, p. 123-30) *Title tr.:* Microscopic examination of dust found on drift ice in the Arctic Ocean.

List of species, especially of diatoms, found in dust on ice in the Greenland Sea during the Swedish Arctic Expedition, 1898, with indication of distribution in other arctic waters.

Copy seen: DLC.

3223. CLEVE, PER TEODOR, 1840-1905. On diatoms from the arctic sea. Stockholm, P. A. Norstedt & Söner, 1873. 28, [1] p. illus., 4 plates. (Svenska vetenskapsakademien. Handlingar. Bihang. Bd. 1, no. 13)

Systematic enumeration of one hundred forty-four diatoms from Greenland Sea, Davis Strait, Svalbard and Finnmarken waters.

Copy seen: DLC.

3224. CLEVE, PER TEODOR, 1840-1905. Plankton collected by the Swedish Expedition to Spitzbergen in 1898. Stockholm, P. A. Norstedt, 1899. 48 p. 4 plates. (Svenska vetenskapsakademien. Handlingar. Ny följd, bd. 3, no. 3)

Contains list, with remarks on the specimens and locations (with sea temperature), of plankton collected in Greenland Sea and the Svalbard waters during the Swedish Arctic Expedition, 1898; also list of stations and discussion of plankton types.

Copy seen: DLC.

3225. CLEVE, PER TEODOR, 1840-1905. Report on the plankton collected by the Swedish Expedition to Greenland in 1899. Stockholm, P. A. Norstedt, 1900. 21 p. tables (Svenska vetenskapsakademien. Handlingar. Ny följd, bd. 34, no. 3)

Tables, indicating date, locality (and marine conditions), of species collected chiefly in the Greenland Sea and the East Greenland fiords during the Swedish Expedition to East Greenland, 1899.

Copy seen: DLC.

3226. CLEVE, PER TEODOR, 1840-1905. Synopsis of the naviculoid diatoms. I-II. Stockholm, P. A. Norstedt & Söner, 1894-95. 2 pt. pt. I: 194 p. 5 plates; pt. II: 219 p. 4 plates. (Svenska vetenskapsakademien. Handlingar, 1894. Bd. 26, no. 2; *ibid.* 1895. Bd. 27, no. 3)

Contains a systematic enumeration of all known marine, fresh-water and fossil naviculoid diatoms, with artificial keys, critical notes, description of new species and forms; with data on geographical distribution throughout the world, including all arctic regions; index of the species, p. 198-219.

Copy seen: DLC.

3227. CLEVE, PER TEODOR, 1840-1905, and A. GRUNOW. Beiträge zur Kenntniss der arktischen Diatomeen. Stockholm, P. A. Norstedt, 1880. 121 p. 7 plates (Svenska vetenskapsakademien. Handlingar, bd. 17, no. 2) *Title tr.:* Contribution to the knowledge of the arctic Diatomaceae.

Contains a list of diatoms of northern Finland, Kara Sea (marine and fresh-water from the bottom), Yamal Peninsula and Yenisey River, collected by the members of Nordenskiöld's expedi-

tion to the mouth of Yenisey River in 1875-76, and critical revision of all these species, preliminary to a monographic description of various genera of Diatomaceae; includes many new species and varieties.

Contains notes on the importance and the fishing grounds of Alaskan fisheries; discussion and data on cod, halibut, herring and salmon fisheries, including history, fishing banks or stations, methods, and canning, salting or freezing of catch; brief notes on aquatic furs (beaver, muskrat, land and sea otter, fur seal) and on aquatic animals (grampus, hair seals, sea lion,

walrus) and whaling by the Eskimos; general statistics. *Copy seen: DF.*

3243. COBB, JOHN NATHAN, 1868-1930. Pacific cod fisheries. Washington, U. S. Govt. Print. Off., 1916. 111 p. 9 plates, fold. map. (U. S. Fish and Wildlife Service, Report of the U. S. Commissioner of Fisheries, 1915. Appendix 4. Fisheries document 830)

Contains notes on the natural history of the cod, descriptions of banks frequented (including Davidson, Sannak, Shumagin, Albatross, and Portlock Banks), history of the Pacific fishery and the Alaska shore-fishing stations; persons employed, vessels and boats, season, methods, preparation for market, and statistics of the industry, fleet, and catch; with a bibliography.

Copy seen: DF.

3244. COBB, JOHN NATHAN, 1868-1930. Pacific cod fisheries. (U. S. Fish and Wildlife Service, Report of the U. S. Commissioner of Fisheries, 1926, pub. 1927. p. 385-499, illus., tables. Fisheries document no. 1014)

A revision (without map, showing extent and location of cod banks) of the author's *Pacific cod fisheries*, 1916, q.v. The new edition contains in addition to the detailed descriptions in the earlier work, detailed data of fishing fleet, 1863-1925, and operations of the transporting fleet, 1876-1925; with statistics of catch, employment, etc., through 1925.

Copy seen: DF.

3245. COBB, JOHN NATHAN, 1868-1930. Pacific salmon fisheries. Washington, U. S. Govt. Print. Off., 1917. 255 p. 29 plates. (U. S. Fish and Wildlife Service, Report of the U. S. Commissioner of Fisheries, 1916. Appendix 3. Fisheries document no. 839)

A second edition of his, *The salmon fisheries of the Pacific Coast*, 1911, q.v. with an additional chapter on Siberia, the nutritive value of salmon, and new statistics.

Copy seen: DF.

3246. COBB, JOHN NATHAN, 1868-1930. The salmon fisheries of the Pacific Coast. Washington, U. S. Govt. Print. Off., 1911. 179 p. tables. (U. S. Fish and Wildlife Service, Report of the U. S. Commissioner of Fisheries, 1910. Special papers no. 7. Fisheries document no. 751)

Second edition, *Pacific salmon fisheries*, 1917, was published as Appendix

3 to Report, 1916, Fisheries document no. 839; third edition, *Pacific salmon fisheries*, was published as Appendix I to Report, 1921, Fisheries document no. 902; fourth edition, *Pacific salmon fisheries*, 1931, was published as Appendix 13, to Report, 1930, Fisheries document no. 1092.

Contents include: 1. The species of salmon and runs.

2. Fishing grounds and history of the fisheries (includes: Southeast Alaska, Prince William Sound and Copper River, Cook Inlet, Afognak and Kodiak Islands, Chignik Bay, Alaska Peninsula, Shumagin and Sannak Islands, Bering Sea (Bristol Bay) and a number of rivers).

3. Apparatus and methods of the fisheries.

4. Fishermen, other employees, etc.

5. Fishery regulations.

6. Methods of preparing (canning, curing, etc.)

7.-10. Catch, statistical data, trade (etc.).

11. Salmon culture (including Alaska).

Copy seen: DF.

3247. COBB, NATHAN A. Neue parasitische Nematoden. (*In:* Kükenthal, W. Beiträge zur Fauna Spitzbergens. Pub. in: Archiv für Naturgeschichte, 1889. Jahrg. 55, Bd. 1, p. 149-51, plate) *Title etc. tr.:* New parasitic nematodes. (Contributions to Spitzbergen fauna)

An extract from the author's *Beiträge zur Anatomie und Ontogenie der Nematoden, 1888*, containing descriptions of three new species from white whales and seals, found in Advent Bay and other Svalbard waters in 1886, by Dr. Kükenthal. *Copy seen: DSI-M.*

3248. COCHRAN, R. E. That Labrador iron ore. (Engineering and mining journal, Nov. 1948. v. 149, no. 11, p. 88-92, illus., sketch map)

Notes on the location and extent of the ore bodies on the Labrador-Quebec border, recent history of prospecting there, personnel of the companies involved; discussion of the concessions; renewed interest in the St. Lawrence waterway in connection with transportation for industry at the new mines; difficulties of developing railway to the St. Lawrence. *Copy seen: DGS.*

3249. COCHRANE, JOHN DUNDAS, 1780-1825. Narrative of a pedestrian journey through Russia and Siberian Tartary, from the frontiers of China to the Frozen Sea and Kamtchatka; performed during the years 1820, 1821, 1822, and 1823. Philadelphia, H. C. Carey, & I. Lea [etc.] New York, Collins & Hannay, 1824. xii, 415 p. diagr.

First published in London 1824, by John Murray (copy at Princeton University) and Charles Knight (copy at Yale University)

Capt. Cochrane's journey, intended originally to fill in, by land exploration, the unmapped sections of the arctic coast of northeastern Siberia and northwestern America, was curtailed because of the prior expeditions of Wrangell (whom Cochrane met at Verkhne-Kolymsk, 65°45'N. 150°46'E.) and Vasiliev. The narrative contains non-scientific accounts of travel by horse, dog, reindeer, and foot from Yakutsk to the lower Kolyma River area (p. 148-209), thence southward to Okhotsk (p. 210-46), and later through Kamchatka (p. 265-312). Includes notes on the country traversed and on the native peoples, with observations on the food consumption of Yakuts (p. 155-59); description of an annual fur-trading fair between the Russians and Chukchis (p. 187-200); general notes on the Chukchis (p. 200-206), and description of the social conditions of the Kamchadals and of the economic possibilities of their land. *Copy seen:* DLC.

3250. COCHRANE, JOHN DUNDAS, 1780-1825. A pedestrian journey through Russia and Siberian Tartary, to the frontiers of China, the Frozen Sea, and Kamchatka. New ed. Edinburgh, Printed for Constable and Co.; [etc., etc.] 1829. 2 v.: xxxiv, 326 p.; vi, 262 p. front., fold map.

Fifth edition of Cochrane's narrative, with addition of brief biographical "advertisement" of Cochrane and his wife, and with author's prefaces to second and third editions replying to attacks upon his statements by the *Quarterly review*.

Sketch map of Chukchi area from the Kolyma River to East Cape shows route of Major Paulutzki.

3251. COCKFIELD, WILLIAM EGBERT, 1890- Aishihik Lake district,

Yukon. (Canada. Geological Survey. Summary report, 1926, *pub.* 1927. Pt. A, p. 1-13, fold. map)

Contains a description of the topography, general geology and mineral deposits of the area, 60°45'-61°30'N., 136°-137°30'W. *Copy seen:* DLC.

3252. COCKFIELD, WILLIAM EGBERT, 1890- Dezadeash Lake area, Yukon. (Canada. Geological Survey. Summary report, 1927, *pub.* 1928. Pt. A, p. 1-7, fold. map)

Contains descriptions of the topography and general geology, with mention of possible mineral deposits (especially gold) in the area, 60°-60°45'N., 136°-137°15'W., which includes Kusawa (Arkell) Lake. *Copy seen:* DLC.

3253. COCKFIELD, WILLIAM EGBERT, 1890- Explorations in southern Yukon. (Canada. Geological Survey. Summary report, 1922, *pub.* 1923. Pt. A, p. 1-8)

Contains notes on the general geology and a brief statement of the mineral resources (gold, silver, lead and coal). *Copy seen:* DLC.

3254. COCKFIELD, WILLIAM EGBERT, 1890- Explorations in Yukon Territory. (Canada. Geological Survey. Summary report, 1917, *pub.* 1918. Pt. B, p. 1-9)

Contains report on the topography, general geology and the gold deposits of the Sixtymile and Ladue River valleys, explored and mapped in 1917.

Copy seen: DLC.

3255. COCKFIELD, WILLIAM EGBERT, 1890- Geology and ore deposits of Keno Hill, Mayo district, Yukon. (Canada. Geological Survey. Summary report, 1923, *pub.* 1924. Pt. A, p. 1-21, illus. (diags.) fold. map)

Contains a report on the general geology, ore genesis, and on the ores and minerals, with a description of the mining properties (silver).

Copy seen: DLC.

3256. COCKFIELD, WILLIAM EGBERT, 1890- Little Salmon area, Yukon. (Canada. Geological Survey. Summary report, 1928, *pub.* 1929. Pt. A, p. 1-10, fold., col. map)

Contains a description of the topography, geology and mineralogy of the area between 62°-62°30'N. 133°-135°45'W., drained by a stream tributary to the Lewes River. *Copy seen:* DLC.

3257. COCKFIELD, WILLIAM, EG-BERT, 1890- . Mayo area, Yukon. (Canada. Geological Survey, 1918, *pub.* 1919. Pt. B, p. 1-15)

Contains a preliminary report on the mineral resources of the upper Stewart River district, including silver-lead, gold, and tungsten. The platinum occurrence is reported by O'Neill, J. J., *The platinum situation in Canada*, 1918, *pub.* 1919, q.v.

Copy seen: DLC.

3258. COCKFIELD, WILLIAM EG-BERT, 1890- . Pueblo, Tamarack-Carlisle, and War Eagle-Leroi properties, Whitehorse copper belt, Yukon. (Canada. Geological Survey. Summary report, 1927, *pub.* 1928. Pt. A, p. 14-18)

Contains a brief summary of the ore deposits (chiefly copper) and a report on mining operations.

Copy seen: DLC.

3259. COCKFIELD, WILLIAM EG-BERT, 1890- . Silver-lead deposits of Beaver River area, Yukon. (Canada. Geological Survey. Summary report, 1923, *pub.* 1924. Pt. A, p. 22-28, *illus.*)

Contains a report on the ores from the various claims of the area.

Copy seen: DLC.

3260. COCKFIELD, WILLIAM EG-BERT, 1890- . Silver lead deposits of Davidson Mountains, Mayo District, Yukon. (Canada. Geological Survey. Summary report, 1921, *pub.* 1922. Pt. A, p. 1-6, *illus.*, plate, 3 fold. col. maps)

Contains notes on the general geology of the area, and a description of the deposits and of the mining properties, with geological maps (scale 1:12,000) of Stand-to Hill, Rambler Hill, and Mt. Cameron.

Copy seen: DLC.

3261. COCKFIELD, WILLIAM EG-BERT, 1890- . Silver-lead deposits of Fifteen-mile Creek, Yukon. (Canada. Geological Survey. Summary report, 1927, *pub.* 1928. Pt. A, p. 8-10)

Report on three localities, twenty-five miles below Dawson on the Yukon River.

Copy seen: DLC.

3262. COCKFIELD, WILLIAM EG-BERT, 1890- . Silver-lead deposits of Rude Creek, Yukon. (Canada. Geological Survey. Summary report, 1927. *pub.* 1928. Pt. A, p. 11-13)

Contains brief summary of general geology and a description of the depos-

its on a tributary of Klotassin River, about fifteen miles west of the Yukon River.

Copy seen: DLC.

3263. COCKFIELD, WILLIAM EG-BERT, 1890- . Silver-lead deposits of the Keno Hill area, Mayo district, Yukon. (Canada. Geological Survey. Summary report, 1920, *pub.* 1921. Pt. A, p. 1-6, *illus.* (sketch map), fold. col. map)

Contains results of a topographic survey and geological investigation of the ore deposits, with notes on the mining operations.

Map: Topographic and geological (scale 1:12,000) Keno Hill area, about 63°55'-64°N., 135°05'-135°20'W.

Copy seen: DLC.

3264. COCKFIELD, WILLIAM EG-BERT, 1890- . Silver-lead deposits of the Twelvemile area, Yukon. (Canada. Geological Survey. Summary report, 1918, *pub.* 1919. Pt. B, p. 15-17)

Contains results of a preliminary survey with notes on topography and general geology, in the region of Twelvemile (Chandindu) River, a right tributary of the Yukon, 17 miles below Dawson.

Copy seen: DLC.

3265. COCKFIELD, WILLIAM EG-BERT, 1890- . Sixtymile and Ladue Rivers area, Yukon. Ottawa, King's Printer, 1921. 3 p. l., 60 p. 6 plates, fold. col. map, tables. (Canada. Geological Survey. Memoir 123; Geol. Ser. no. 105) Published also as thesis (Ph.D.) Princeton University, 1918.

Contains chapters on topography, geology (including ore genesis) and mineral resources (gold) with notes on the vegetation (including list of plants) fauna, and climate.

Map: Geological (scale 200 mi.: 1 inch) 63°10'-64°15'N., 140°-141°W.

Copy seen: DLC.

3266. COCKFIELD, WILLIAM EG-BERT, 1890- . Upper Beaver River area, Mayo district, Yukon. (Canada. Geological Survey. Summary report, 1924, *pub.* 1925. Pt. A, p. 1-18, *illus.* (diagr.) plate, fold. map)

Contains a report on the general geology and descriptions of the mining properties (silver and lead), with geological map showing the claims.

Copy seen: DLC.

3267. COCKFIELD, WILLIAM EGBERT, 1890 , and **A. H. BELL**. Whitehorse district, Yukon. Ottawa, King's Printer, 1926. 2 p. l., 63 p. 8 plates, fold. map, tables. (Canada. Geological Survey. Memoir 150; Geol. ser. no. 131)

Contains chapters on topography, general, and economic geology (including ore genesis, and deposits of gold, silver, antimony and coal) with description of properties.

Map: Geological, no. 2071 (scale 1:253,440) 60°-61°N., 134°-136°W.

Copy seen: DLC.

3268. COCKFIELD, WILLIAM EGBERT, 1890- , and **A. H. BELL**. Whitehorse district, Yukon. Ottawa, 1944. [3] 21 p. fold. map. (Canada. Geological Survey. Paper 44-14)

A condensed edition (mimeographed notes with same map) of the author's paper of the same title, published as Geological Survey Memoir 150, 1926, q.v., (out of print).

Copy seen: DGS.

3269. COCKFIELD, WILLIAM EGBERT, 1890- , and **E. J. LEES**. The occurrence of marine Triassic in southern Yukon. (Royal Society of Canada. Transactions, 1931. Ser. 3, v. 25, sec. 4, p. 101-104)

Note on the distribution of the Braeburn series in the Lake Laberge and Lewes River regions, and its relations to surrounding rocks.

Copy seen: DLC.

Notes on gyroscope-, sun-, and magnetic-compasses, and geodetic instruments. *Copy seen:* DLC; NNStef.

3280. COLE, GRENVILLE A. J. Glacial features in Spitsbergen in relation to Irish geology. (Royal Irish Academy. Proceedings, July 1911. v. 29, sect. B, p. 191-208, 8 plates)

Based on observations made during the Spitsbergen excursion of the International Geological Congress, 1910, in the Ice Fiord region. Description of frost weathering, snowslide action, origin of cirques, arid type of weathering, boulder-clay, fluvio-glacial deposits, and thalus-banks.

Copy seen: DLC.

3281. COLE, LEON JACOB, 1877- . Pycnogonida. Ottawa, King's Printer, 1921. 6 p. (Canadian Arctic Expedition, 1913-1918. Report. v. 7: Crustacea, Pt. F)

List, with locations and notes on distribution, of three species from Cockburn Pt., Dolphin and Union Strait, and of three other species from records of previous work in the Arctic, with a bibliography.

Copy seen: DSI-M.

3282. COLE, LEON JACOB, 1877- . Pycnogonids of the west coast of North America. (In: Rathbun, M. J., and others. Crustaceans. Harriman Alaska series, 1904. v. 10, p. 247-330, 16 plates)

Taxonomic study of thirteen species of sea spiders, of which four species were collected from the Pribilof, Unalaska, and Shumagin Islands, and Prince William Sound, with descriptions in full, and a discussion of distribution.

Copy seen: DLC.

3283. COLEMAN, ARTHUR PHILEMON, 1852-1939. The building of the Torngats. (Canadian alpine journal, 1916. v. 7, p. 67-70, plate)

Geomorphological sketch of this northern Labrador range.

Copy seen: DGS.

3284. COLEMAN, ARTHUR PHILEMON, 1852-1939. Extent and thickness of the Labrador ice-sheet. (Geological Society of America. Bulletin, 1919. v. 31, p. 319-28)

Contains a discussion of the glacial features of the Torngat Mountains, the eastern limits, the thickness of the ice-sheet, and its relation to isostasy.

Copy seen: DGS.

3285. COLEMAN, ARTHUR PHILEMON, 1852-1939. Mining possibilities in Labrador. (Canadian mining journal,

Sept. 5, 1924. v. 45, p. 868-70, illus. (incl. map))

General remarks on the possibilities in the (then) unprospected peninsula.

Copy seen: DGS.

3286. COLEMAN, ARTHUR PHILEMON, 1852-1939. Mt. Tetragona, a first ascent in Labrador. (Canadian alpine journal, 1916. v. 7, p. 5-11, plate)

A mountain in the Torngats, at about 59°30'N.

Copy seen: DLC.

3287. COLEMAN, ARTHUR PHILEMON, 1852-1939. Northeastern part of Labrador, and New Quebec. Ottawa, King's Printer, 1921. 2 p. l., 68 p. 10 plates (incl. front.) tables, fold., col. map. (Canada. Geological Survey. Memoir 124. Geol. ser. no. 106)

Contains sections on physiography, climate (with notes on effects of winds, sea and wave action on the coast), flora and fauna, geology (especially stratigraphy), solifluction, and minerals; also regional descriptions: Komaktorvik, Nachvak (with map and with details on coves), Saglek Bay, Hebron, Mugford, Paul Island and Hopedale.

Appendix: Plants collected in summer of 1915.

Copy seen: DLC.

3288. COLEMAN, ARTHUR PHILEMON, 1852-1939. The Torngats of Labrador. (Canadian geographical journal, May 1937. v. 14, p. 283-91, incl. 7 p. of illus., sketch map)

Brief account of a visit, (twenty years earlier) to the mountains around Komaktorvik Fiord (Seven Islands Bay) with description of the boat trip through the ice of Labrador Sea.

Copy seen: DLC.

3289. COLEMAN, ARTHUR PHILEMON, 1852-1939. Unsolved geological problems of arctic America. (*In:* American Geographical Society, N. Y. Problems of polar research, 1928. p. 63-72)

Review of the more important literature and the problems of different geologic periods, mostly in Canada.

Copy seen: DLC.

3290. COLEMAN, W. W. Whale meat for huskies. (Beaver, Mar. 1939. Outfit 269, no. 4, p. 42-44, illus.)

Popular article on Hudson Bay dog food.

3293. COLLETT, ROBERT, 1842-1913. De i Norge hidtil fundne fossile fiske frå de glaciale og postglaciale afleiringer. (Nytt magasin for naturvidenskapene, 1877. Bd. 23, p. 11-44) *Title tr.:* On fossil fishes hitherto found in glacial and post-glacial deposits.

Contains descriptions of fossil remains and impressions of thirty-seven fishes from various coastal regions of Norway, arranged by provinces, with data on former distribution; includes a few species from Nordland (65°10'-67°20'N.).

Copy seen: MH-A.

3294. COLLETT, ROBERT, 1842-1913. Fishes. Christiania, Grøndahl & Søn, 1880. 2 p. l., 164 [2] p., 1 l. illus., 5 double plates, col. map. (Den Norske Nordhavs-expedition, 1876-1878. Bd. 3, Zoology, hefte 1)

List, with full descriptions, locations, and notes on food and distribution, of forty-four (including seven new) species of deep-sea fishes, accom-

panied by map showing the expeditions and stations in Greenland Sea, and by extensive bibliographical footnotes.

Copy seen: DLC.

3295. COLLETT, ROBERT, 1842-1913. Fiske fra Nordhavs-expeditionens sidste togt, sommeren 1878. [Christiania, J. Dybwad, 1879] 106 p. (Norske videnskaps-akademi, Oslo. Forhandlinger, 1878. No. 14)

Preliminary report on the fishes collected by the Norwegian North Atlantic expedition during 1878, containing a list, with descriptions and locations, of thirty-three species, collected in the Norwegian and Greenland Seas.

Copy seen: DLC.

3296. COLLETT, ROBERT, 1842-1913. Fiske, indsamlede under den Norske Nordhavs-expeditionen 2 første togt, 1876 og 1877. [Christiania, J. Dybwad, 1879]. 24 p. (Norske videnskaps-akademi, Oslo. Forhandlinger, 1878. No. 4)

Preliminary report on the fishes collected by the Norwegian North Atlantic expedition during 1876-77, containing a list, with descriptions and locations, of ten species collected in the Norwegian and Greenland Seas.

Copy seen: DLC.

3297. COLLETT, ROBERT, 1842-1913. Fiske indsamlede under "Michael Sars's" togt i Nordhavet 1900-1902. Bergen, J. Grieg, 1905. 147 [4] p. 2 double-face plates. (Norway, Fiskeridirektoratet. Skrifter, ser. havundersøkelser. Report on Norwegian fishery and marine investigations. v. 2, no. 3) *Title tr.:* Fishes collected by the Michael Sars in the northern ocean, 1900-1902.

Report on specimens collected from Jan Mayen, Bear Island, or Spitsbergen waters, and (1902) from The Faeroes-Shetland Islands region. A list, with locations, depths, sizes, distribution, and descriptive notes, of seventy-two species, of which twenty-two were taken in Greenland Sea and two from Denmark Strait.

Description of location, trails, geology, and placers of a district (around Glenn) along a tributary of Baker Creek (Tanana tributary) twenty-eight miles south of Rampart.

Copy seen: DGS.

3307. COLLIER, ARTHUR JAMES, 1866-1939, and others. The gold placers of parts of Seward Peninsula, Alaska, including the Nome, Council, Kougarok, Port Clarence, and Goodhope precincts. Washington, U. S. Govt. Print. Off., 1908. 343 p. illus., 11 plates (incl. 4 fold. maps) diags. (U. S. Geological Survey. Bulletin no. 328) Issued also as House doc. no. 723, 60th Cong., 1st sess. Results of reconnaissance surveys, 1899-1903, with discussion of the auriferous gravels of the southern and northwestern parts of the peninsula, for miner and prospector.

Contents: Brooks, A. H. Preface, and Development of the mining industry, p. 7-39. Collier, A. J. Geography and geology, p. 40-110. Brooks, A. H. Outline of economic geology (gold) p. 111-39. Collier, A. J., and F. L. Hess. Description of placers (including Kruzgamepa River) p. 140-282. BROOKS, A. H. The Bluff region, and the Kougarok region, p. 283-328. SMITH, P. S. Geology and mineral resources of Iron Creek, p. 329-36. Index p. 337-43.

The papers on the Bluff and Kougarok regions appear in this Bibliography under the author's name. The paper by P. S. Smith was originally published in 1907, and appears under his name.

Maps: Topographic and geologic reconnaissance maps of (1) northwestern Seward Peninsula (north of 65°N. 163°W. to Bering Sea; and (2) southern part of Seward Peninsula (Norton Sound to 65°25'N. 162°40'W. to Bering Sea), contour interval 200 ft., scale 1:250,000. *Copy seen:* DGS.

3308. COLLIER, ARTHUR JAMES, 1866-1939. A reconnaissance of the northwestern portion of Seward Peninsula, Alaska. Washington, U. S. Govt. Print. Off., 1902. 70 p. 12 plates (incl. 4 maps) (U. S. Geological Survey. Professional paper no. 2. ser. A, Economic geology, 19; ser. B, Descriptive geology, 21)

Contains a report of the geologist of a U. S. Geological Survey party, 1901. Descriptions of stratigraphic succession, Pleistocene deposits (including mammoth remains and glaciation) the igneous rocks, dynamic history and physiography. Economic geology (gold and tin, and descriptions of seven regions, with mention of mining).

Maps: Topographic (scale 1:250,000) with detailed contours for area 65°-66°20'N. 163°30'-168°W. Geologic reconnaissance map (small scale) for whole area. Economic (small scale) showing gold for whole area.

Copy seen: DGS.

3309. COLLIER, ARTHUR JAMES 1866-1939. The tin deposits of the York region, Alaska. Washington, U. S. Govt. Print. Off., 1904. 61 p. illus., 7 plates (incl. 2 maps) (U. S. Geological Survey. Bulletin no. 229; ser. A, Economic geology, 36)

Contains a history of exploration, and development; description of the stratigraphy, the localities where lode and stream tin have been found, the transportation and fuel supply; with a topographic map.

Preliminary account of excavations for Smithsonian Institution by Moreau B. Chambers at Gambell, St. Lawrence Island, and James A. Ford at Point Barrow. Results of the Gambell excavations are given in H. B. Collins' *Archeology of St. Lawrence Island, Alaska*, *q.v.* *Copy seen: DLC.*

3332. COLLINS, HENRY BASCOM, 1899- . Archeology of St. Lawrence Island, Alaska. Washington, Smithsonian Institution, 1937. xi, 431 p. front. (fold. map) *illus.* (incl. plans) 84 plates (1 fold.) fold. tables. (Smithsonian miscellaneous collections. v. 96, no. 1) Publication 3411.

"This paper, in essentially its present form, was completed in the fall of 1935, and . . . was submitted to the Royal Academy of Sciences and Letters of Denmark in response to a prize competition . . . In February 1936 it was awarded the gold medal of the Academy."—Pref.

Contains discussion of previous theories of origin of Eskimos culture; introductory notes on the geography and history of St. Lawrence Island and on previous excavations in the region. Description (in detail) of excavations made under auspices of the Smithsonian Institution 1930 and 1931: the sites, houses, decorated objects, im-

plement types; mention of skeletal and animal remains, and discussion of chronological relationships of the five sites, covering period from Old Bering Sea to modern. Comparative analysis of elements characteristic of Old Bering Sea and Punuk cultures and their distribution in America and Eurasia. Discussion of relationship of Old Bering Sea culture to Punuk, Birnirk, Thule, Dorset, Kachemak Bay and modern Eskimo cultures. The immediate origin of the Old Bering Sea culture is to be sought in northeastern Siberia, between the Anadyr and Kolyma Rivers, but its ultimate roots extend deeper into northern Eurasia. Bibliography p. 383-94. *Copy seen: DLC.*

3333. COLLINS, HENRY BASCOM, 1899- . Archaeology of the Bering Sea region. (Pacific Science Congress. 5th, Victoria and Vancouver, B. C., 1933. Proceedings, *pub.* Toronto, 1934. v. 4, p. 2825-39, 11 *illus.*)

Summary of the results of recent archeological investigations in the Bering Sea and northern Alaska region. Contains description of chronologies, especially that at St. Lawrence Island; suggests possible relationships between North Alaskan and other chronologies; and discusses the bearing of these facts upon questions of antiquity and Asiatic relationships of Eskimo culture. Harpoon heads and house types are emphasized. Includes pictures of 119 artifacts of Old Bering Sea and Punuk periods. *Copy seen: DLC.*

3334. COLLINS, HENRY BASCOM, 1899- . Archeology of the Bering Sea region. (Smithsonian Institution. Annual report, 1933, *pub.* 1935. p. 453-68, 11 plates.)

"Paper presented before Fifth Pacific Science Congress, Vancouver, B. C., June 1933, revised."

A review of the results of excavations at St. Lawrence Island (in detail), the arctic coast, south Alaska, and northeastern Siberia; their evidence on migration of man from Asia to America, and on Eskimo culture sequences in the region. Bibliographical footnotes. *Copy seen: DLC.*

3335. COLLINS, HENRY BASCOM, 1899- . Caries and crowding in the teeth of the living Alaskan Eskimo. (American journal of physical anthropology, 1932. v. 16, p. 451-62)

Results of examination of the teeth of 296 living Eskimos of West Alaska from Bristol Bay to Point Hope, and of observations on crania in the U. S. National Museum, with discussion of change in Eskimo food habits and its effect upon their teeth.

Copy seen: DLC.

3336. COLLINS, HENRY BASCOM, 1899- . Check-stamped pottery from Alaska. (Washington Academy of Sciences. Journal, May 4, 1928. v. 18, no. 9, p. 254-56, illus.)

Describes potsherds with check-stamp decoration found on Nunivak Island by the author, and on Norton Sound, by Dr. Aleš Hrdlička. These are the first examples of such ware to be reported from Alaska.

Copy seen: DSI-M.

3337. COLLINS, HENRY BASCOM, 1899- . Culture migrations and contacts in the Bering Sea region. (American anthropologist, 1937. v. 39, p. 375-84)

Discussion of evidence pointing to the origin of the Thule culture in Alaska and to a late return migration of Thule Eskimos to northern Alaska and the cultural influences it exerted there. Presents theory of cultural diffusion from America to northeastern Asia via the Aleutian Islands, and its effects.

Copy seen: DLC.

3338. COLLINS, HENRY BASCOM, 1899- . Eskimo archaeology and its bearing on the problem of man's antiquity in America. (American Philosophical Society. Proceedings, 1943. v. 86, p. 220-35, illus.)

A review of prehistoric Eskimo cultures as revealed in recent archeological investigations in the Bering Sea region, comparisons with mesolithic-neolithic cultures of Eurasia and upper Paleolithic cultures of Europe, and statement of the evidence that Eskimos entered America relatively recently probably from an ancestral home north or east of Lake Baykal. Bibliography, p. 233-35.

Copy seen: DLC.

3339. COLLINS, HENRY BASCOM, 1899- . Eskimo archaeology and somatology. (American anthropologist, 1934. New ser. v. 36, p. 309-13)

Discussion of Seltzer, C. C. *The anthropometry of the Western and Copper Eskimos*, 1933, q.v., with references to further skeletal data and to cultural evidence. *Copy seen:* DLC.

3340. COLLINS, HENRY BASCOM, 1899- . The Eskimo of western Alaska. (Smithsonian Institution. Explorations and field-work of the Smithsonian Institution in 1927, pub. 1928. Publication 2957. p. 149-56, illus.)

Brief description of Eskimo villages between Bristol Bay and Hooper Bay, including Nunivak Island, visited by the writer and T. D. Stewart, June-Aug. 1927, "for the purpose of observing these people, their manner of life and their physical type, as well as to collect skeletal and cultural material from inhabited and abandoned villages." The measurements on 180 living Eskimos and on 178 skulls are published in Hrdlička's *Anthropological survey in Alaska*, q.v. and *Catalog of human crania: Eskimo in general*, q.v., respectively.
